Notes to Financial Statements
December 13, 2017 and December 31, 2016

Plan Description

The following description of the 2Checkout.com (the Company) 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a complete description of the Plan's provisions.

Merger and Plan Termination

On October 25th, 2017, the Company approved the merger of the Plan into MTG, LLC Avantgate 401k Plan and to terminate of the Plan. As a result, all investments were transferred from the Plan as of December 13, 2017, and into the MTG, LLC Avantgate 401k Plan.

General

Effective December 1, 2014, the Plan is a defined contribution plan available to all associates of the Company who have attained age 21, except employees covered by a collective bargaining agreement. Employees need not meet any minimum service requirement to be eligible. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Effective December 1, 2014, participants could contribute 100% of pretax annual compensation as defined in the plan agreement and as allowable by law. Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants could also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company could decide to make a matching contribution, although the Company was not required to make this contribution. The percentage of matching contribution would be determined by the Company and allocated to participants at the end of the Plan year. Additional non-elective contributions would be contributed at the option of the Company. Contributions were subject to certain limitations.

Participant Accounts

Each participant's account was credited with the participant's contribution and allocations of (a) the Company's contribution and (b) the participant's share of plan earnings and charged with an allocation of administrative expenses. Allocations were based on participant earnings or account balances, as defined in the plan agreement. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Vesting

Participants were vested immediately in their contributions plus actual earnings thereon. In addition, participants were vested immediately in the Company's matching contributions and non-elective contributions plus actual earnings thereon.

Notes to Financial Statements December 13, 2017 and December 31, 2016

Plan Description (continued)

Notes Receivable from Participants

Participants could borrow from their fund accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans were secured by the balance in the participant's account and bore interest at the prime rate plus 2%, which was commensurate with local prevailing rates as determined quarterly by the plan administrator. Principal and interest was paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant could elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a 10-year period. For termination of service for other reasons, a participant could receive the value of the vested interest in his or her account as a lump-sum distribution.

Summary of Significant Accounting Policies

Basis of Accounting

As a result of the merger and termination of the Plan, the Plan's financial statements are presented using the liquidation basis of accounting for the period from January 1, 2017 through December 13, 2017 in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recognized on the ex-dividend date, and interest is recognized on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes to Financial Statements December 13, 2017 and December 31, 2016

Summary of Significant Accounting Policies (continued)

Notes Receivable from Participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income was recorded on the accrual basis. Related fees were recorded as administrative expenses and were expensed when they are incurred. No allowance for credit losses had been recorded as of the liquidation date, December 13, 2017 or December 31, 2016. If a participant ceased to make loan repayments and the plan administrator deemed the participant loan to be in default, the participant loan balance was reduced and a benefit payment was recorded.

Payment of Benefits

Benefit payments were recorded when paid.

Administrative Expenses

Certain administrative expenses of the Plan were paid by the Company.

Fair Value Measurements

GAAP established a fair value hierarchy that prioritizes the inputs to measure the fair value of the assets or liabilities being measured. Fair value is defined as the exchange value that would be received on the measurement date to sell an asset or to value the amount paid to transfer a liability in the principal or most advantageous market available to the entity in an orderly transaction between market participants. The three levels of the fair value hierarchy are as follows:

- | | |
|---------|---|
| Level 1 | Inputs are unadjusted quoted market prices in active markets for identical assets or liabilities that the entity has the ability to access at the measurement date. Level 1 inputs provide the most reliable measure of fair value as of the measurement date. |
| Level 2 | Inputs are based on significant observable inputs, including unadjusted quoted market prices for similar assets and liabilities in active markets, unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability. |
| Level 3 | Level 3 are significant unobservable inputs for the asset or liability. |

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 13, 2017 and December 31, 2016.

Mutual Funds: Valued at the quoted net asset value of shares held by the Plan at year-end.

Common Collective Trust: Valued at the net asset value (NAV) provided by the administrator of the fund. Issues and redemptions of units are recorded upon receipt of unit holder's instructions based on the determined NAV per unit, which is determined daily. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. For this fund, there are no unfunded commitments, redemption restrictions, and participants can transact daily.

Notes to Financial Statements December 13, 2017 and December 31, 2016

Fair Value Measurements (continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 13, 2017 and December 2016.

Mutual Funds: Valued at the quoted net asset value of shares held by the Plan at year-end.

Common Collective Trust: Valued at the net asset value (NAV) provided by the administrator of the fund. Issues and redemptions of units are recorded upon receipt of unit holder's instructions based on the determined NAV per unit, which is determined daily. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. For this fund, there are no unfunded commitments, redemption restrictions, and participants can transact daily.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable values or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's net assets at fair value as of December 31, 2016. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Fair Value Measurements (continued)

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds in the fair value hierarchy	\$ 1,336,579	\$ -	\$ -	\$ 1,336,579
Investments measured at net asset value	-	-	-	140,949
Total assets at fair value	\$ 1,336,579	\$ -	\$ -	\$ 1,477,528

* In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Transactions with Parties-in-Interest

Certain plan investments were shares of mutual funds and common/collective trusts managed by Charles Schwab. Charles Schwab is the trustee as defined by the plan agreement and, therefore, these transactions qualify as party-in-interest. Pension Corporation of America of Cincinnati (Pension Corporation) is the record keepers as defined by the plan agreement and, therefore, transactions with these entities qualify as party-in-interest. Fees paid by the Plan for administrative expenses were \$15,173 and \$3,990 in 2017 and 2016, respectively.

2CHECKOUT.COM 401(K) PROFIT SHARING PLAN

Notes to Financial Statements

December 13, 2017 and December 31, 2016

Plan Termination

The Company had the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and subject to the terms of the Plan as described in the Plan description. Upon Plan termination all participants became 100% vested.

Tax Status

Effective December 1, 2014, the Company adopted a volume submitter profit sharing plan with CODA, sponsored by Pension Corporation, which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2014, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). In accordance with Revenue Procedure 2005-6, the plan sponsor has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Subsequent Events – Date of Management’s Evaluation

The Plan has evaluated subsequent events through the date of the Independent Auditor’s Report, the date the financial statements were available to be issued.
