Note 1 - Description of plan

The following description of the Tribeca Pediatrics LLC 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Tribeca Pediatrics LLC, Tribeca Healthcare Management Company LLC, Tribeca Pediatrics PC, and MC Fabrication Shop LLC ("the Company") who meet minimum age and service requirements, and are not covered by a covered by a collective bargaining agreement. Employees become eligible to participate in sage harbor contributions after nine months of service and attaining age 21 and are eligible for employer profit sharing contributions after one year of service and attaining age 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

The Plan allows for a discretionary amount and safe harbor amount each year. The plan provides for separate classes of participants. The contributions are allocated to the employees based on the classes. Participants are able to contribute pre-tax and/or post tax amounts based on IRS maximum contribution limits. Participants are also able to make rollover contributions from other plans. For the year December 31, 2017 the Company contributed $680,426 to the Plan. Contributions are subject to certain statutory limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions as well as allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct their accounts into various investment options offered by the Plan.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in their non-elective employer contribution account balance is based on years of continuous service as follows:

Years of service	Percent Vested
0 years	0%
1 year	0%
2 years	20%
3 or more years	100%

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount, or a series of installment payments over a period of time. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-

sum distribution. Participants can also receive in-service distributions for hardship and after attaining age 59 ½.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at a fixed rate of 1% above the prime rate. Principal and interest is paid ratably through payroll deductions on at least a quarterly basis.

Forfeited Accounts

At December 31, 2017 and 2016, forfeited non-vested accounts totaled $43,658 and $26,342 respectively. These amounts will be used to reduce future employer contributions.

Note 2 - Significant accounting policies

Basis of presentation

The financial statements of the Plan are prepared on the accrual basis of accounting.

Reclassifications

Certain reclassifications of amounts previously reported have been made to the accompanying financial statements to maintain consistency between periods presented. The reclassifications had no impact on previously reported net assets.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates, and those differences could be material.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 and 2016. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan agreement.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Investment committee determines the Plan's valuation policies utilizing information provided by the

investment advisers, custodians and insurance company, See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan had $16,337 and $168 excess contributions for 2017 and 2016, respectively.

Payment of benefits

Benefits are recorded when paid.

Expenses

Certain expenses incurred maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value investments.

Concentration of credit risk

Financial instruments that potentially subject the Plan to concentrations of credit risk are part of the holdings in Plan's investments. Management believes that the Custodian maintains the Plan's investments with high credit quality institutions and attempts to limit the credit exposure to any particular investment.

Subsequent events

We have evaluated subsequent events through October 8, 2018, the date the financial statements were available to be issued.

New accounting standards

In May 2015, the FASB issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* ("ASU 2015-07"). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share as a practical expedient. For nonpublic business entities, ASU 2015-07 is effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Management has elected to adopt ASU 2015-07 retrospectively as of and for the year ended December 31, 2017. Accordingly, investments for which fair value is measured using net asset value per share as a practical expedient are shown as a reconciling item within the disclosure.

Note 3 - Fair value measurements and disclosures

Financial accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides a definition of fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted process in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that we can access at the measurement date.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability, and market-corroborated inputs.

Level 3 – Unobservable inputs for the asset or liability. In these situations, we develop inputs using the best information available in the circumstances.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. These valuation techniques involve some level of management estimation and judgement. Where appropriate, adjustment are included to reflect the risk inherent in a particular methodology, model or input used and are reflective of the assumptions that market participants would use in valuing assets or liabilities.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

- Mutual Funds

  Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net assets value (NAV) and to transact at the price. The mutual funds held by the Plan are deemed to be actively traded.

- Life Insurance Policies

  The cash value of the policies are used.

The Plan administrator determines the fair value measurement policies and procedures, subject to oversight by the Company's employee benefit committee. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurement are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

		Fair value measurements at report date using			
Assets	Total	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Investments measured at NAV
December 31, 2017					
Mutual funds	$ 5,396,677	$ 5,396,677	$ -	$ -	$ -
Life insurance policies	5,218	-	-	5,218	-
	$ 5,401,895	$ 5,396,677	$ -	$ 5,218	$ -
December 31, 2016					
Mutual funds	$ 3,894,464	$ 3,894,464	$ -	$ -	$ -
Life insurance policies	95	-	-	95	-
	$ 3,894,559	$ 3,894,464	$ -	$ 95	$ -

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets:

	Level 3 Assets Life Insurance Policies
Balance, December 31, 2015	$ -
Premiums paid	29,400
Unrealized gains (losses)	(29,305)
Balance, December 31, 2016	95
Premiums paid	29,400
Unrealized gains (losses)	(24,277)
Balance, December 31, 2017	$ 5,218

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instructions within the fair value hierarchy. Changes in economic conditions or model-based valuations techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2017 and 2016, there were no significant transfers in or out of levels 1, 2 or 3.

Note 4 - Party-in-interest transactions

An officer of the plan sponsor and plan participant serves as the trustee of the Plan.

Note 5 - Investments certified by the plan's trustee (unaudited)

At December 31, 2017, John Hancock Life Insurance Company of New York, as trustee held the Plan's investments. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Trustee as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under the Employee Retirement Income Security Act of 1974.

	2017	2016
Mutual funds	$ 5,396,677	$ 3,894,464

The investment income reported in the statement of changes in net assets available for plan benefits for the twelve months ended December 31, 2017 and Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2017, were certified by John Hancock Life Insurance Company of New York.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information in the financial statements and supplemental schedule.

Note 6 - Plan termination

Although the Company has not expressed any intent to do so, the Company has the right, under the Plan agreement, to amend any or all provisions of the Plan, as well as discontinue contributions and terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become vested 100% in their accounts, and the net assets of the Plan must be allocated among the participants and beneficiaries of the Plan in the order provided for by ERISA.

Note 7 - Tax status

The Internal Revenue Service has determined and informed the Plan by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. Subsequent to this determination by the Internal Revenue Service, the Plan was amended and restated. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Committee believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended and restated, is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate uncertain tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and as concluded that as of December 31, 2017, there are no uncertain tax positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits

by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examination for years before 2014.

Note 8 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9 - Reconciliation of financial statements to Form 5500

There are no differences between net assets available for benefits and benefits paid to participants between the financial statements and Form 5500.
