1. Description of the Plan

The following brief description of the ViaTech Publishing Solutions, Inc. 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan Document and Summary Plan Description for a complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering substantially all employees of ViaTech Publishing Solutions, Inc. (the "Company") who have completed six months of service. An eligible employee can enter the Plan at the beginning of January or July (semi-annually). Union employees, whose employment is governed by a collective bargaining agreement under which retirement benefits were the subject of good faith bargaining, are not eligible to participate in the Plan. Investments are participant directed and the Company controls and manages the operation and administration of the Plan. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

All plan investments were held and managed by the Plan's trustee, Reliance Trust Company. ADP Retirement Services ("ADP") was the recordkeeper for the Plan for the years ended December 31, 2017 and 2016.

(b) Contributions

For the year ended December 31, 2017, the participants may contribute up to $18,000 of the participant's annual compensation to the Plan, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants also may contribute amounts representing distributions from other tax-qualified plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan. All newly eligible employees can elect to enroll in the plan.

The Company has the option of granting a discretionary employer matching contribution up to an amount equal to 6% of the participant's compensation. This percentage is to be determined by the Company on a uniform basis for all employees. In addition to a matching contribution, the Company may contribute to the Plan on behalf of eligible participants, a profit sharing contribution in an amount determined at the discretion of the Board of Directors of the Company. No discretionary matching or profit sharing contributions were made by the Company in 2017 or 2016. Contributions are subject to certain IRS limitations.

(c) Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's matching contributions, if any, as well as an allocation of Plan earnings and profit sharing contributions, if any are made to the Plan during the year. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant salaries, accounts or deferrals, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Vesting

Participants are immediately vested in their contribution plus actual earnings thereon. Vesting in the Company's matching and profit sharing contributions portion of a participant's account is based on years of service. Participants vest 20% after two years of service and an additional 20% each year thereafter and are fully vested after six years. The Company's discretionary matching and discretionary profit sharing contributions, if any, and earnings thereon vest on a graduated basis over a period from two to six years of service, as defined.

(e) Notes Receivable from Participants

The Plan provides for up to two loans outstanding at any time to participants which are repaid through payroll deductions. All notes are secured by the participant's vested account balance and bear a reasonable rate of interest as determined by the Plan administrator based on the prevailing interest rates charged by a commercial lending institution. Principal and interest are paid ratably through payroll deductions. Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 reduced by their highest outstanding note balance during the previous twelve months or 50 percent of their vested account balance. The terms of the notes range from 1 to 5 years, or longer when the note is used for the purchase of a principal residence.

(f) Payment of Benefits

On termination of service due to termination of employment, death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or annual installments to be paid evenly over a specified period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

(g) Forfeitures

Forfeitures are used to pay administrative expenses of the Plan. Any remaining amounts would be used to reduce future employer contributions. At December 31, 2017 and 2016, the Plan did not have any forfeited nonvested accounts.

(h) Investment Options

Participants direct the investment of their contributions into various investment options offered by the Plan, which currently include mutual funds.

(i) Administrative Expenses

Administrative expenses related to the Plan, other than processing fees for notes receivable from participants and trustee fees, are paid by the Company.

2. Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

(b) Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodian and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(d) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 or 2016. Interest rates for loans outstanding at December 31, 2017 ranged from 4.25% to 5.25%.

(e) Excess Contribution Refund Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. During 2017 and 2016, contributions by certain participants exceeded the maximum amount under the IRC resulting in liabilities of $0 and $60,398 at December 31, 2017 and 2016, respectively, recorded for the amount refundable by the Plan to the respective participants for excess contributions. The refunds as of December 31, 2016 were paid in March 2017.

(f) Payment of Benefits

Benefit payments to participants are recorded upon distribution.

(g) Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Administrative expenses that are paid by the Company are excluded from these financial statements.

Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

3. Information Certified by Reliance Trust Company (Unaudited)

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as it relates to the completeness and accuracy of information by Reliance. The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

December 31,	2017	2016
Statements of net assets available for benefits:		
Investments at fair value	$ 8,858,177	$ 8,311,290
Notes receivable from participants	235,624	243,094

Year ended December 31,	2017
Statements of changes in net assets available for benefits:	
Net appreciation in fair value of investments	$ 1,078,034
Dividend income	229,892
Interest income	11,304

4. Fair Value Measurement

The Plan follows the provisions of Accounting Standards Codification ("ASC") 820, "Fair Value Measurement." ASC 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. The mutual fund investments can be liquidated on a daily basis.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and reflect management's best estimate of what market participants would use as fair value.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017 and 2016:

December 31, 2017

	Level 1	Level 2	Level 3	Total
Mutual funds	$8,858,177	$ -	$ -	$8,858,177
Total assets at fair value	$8,858,177	$ -	$ -	$8,858,177

December 31, 2016

	Level 1	Level 2	Level 3	Total
Mutual funds	$8,311,290	$ -	$ -	$8,311,290
Total assets at fair value	$8,311,290	$ -	$ -	$8,311,290

The following is a description of the valuation methodologies used for assets measured at fair value.

There have been no changes in the methodologies used at December 31, 2017 and 2016:

Mutual funds - valued at unadjusted quoted market prices, which represents the net asset value ("NAV") of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

6. Tax Status

The Plan has adopted ADP's non-standardized prototype plan. Accordingly, the Plan is permitted to rely on ADP's opinion letter. The Internal Revenue Service has determined and informed ADP by a letter, dated July 16, 2014, that the prototype plan is designed in accordance with the applicable sections of the IRC. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator believes the Plan is designed and being operated in compliance with the applicable provisions of the IRC and, therefore, believes that the Plan is qualified.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audit for any tax period in progress.

7. Related Party Transactions

Certain Plan investments were held by the Trustee. Transactions in such investments qualify as party-in-interest transactions. Additionally, certain officers of the Company who are also participants in the Plan perform administrative services for the Plan at no costs. Participant loans also qualify as party-in-interest transactions.

8. Risks and Uncertainties

The Plan provides for various investment options in mutual funds which are exposed to various risks, such as interest rate, market and credit risks. Further, due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Reconciliation of Financial Statements to Form 5500

The accompanying financial statements have been prepared under the accrual basis of accounting which differs from the modified cash basis of accounting used to prepare the Form 5500. The difference principally represents the timing of the accounting recognition of transactions and other miscellaneous adjustments. Accordingly, the reconciliations are presented below for the years ended December 31, 2017 and 2016.
