A. Description of Plan

The following description of the Jackson Family of Dealerships Retirement Plan (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions. Adopting employers of the Plan include the World of Powersports stores, Jackson Chevrolet, Buick, GMC and Jackson Ford (Companies).

1. *General.* The Plan is a defined contribution salary deferral pension plan which provides an individual account for each participant and provides benefits upon retirement that are based on the amounts contributed by the employee and employer plus earnings on those contributions less any plan administrative expenses. The Plan was established on January 1, 2006. The owners are responsible for oversight of the Plan. The administrator determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the owners. The Plan covers all employees of the Companies except for those deemed as excluded employees which include: employees whose employment is governed by a collective bargaining agreement under which retirement benefits were the subject of good faith bargaining and if the collective bargaining agreement does not provide for participation in the Plan. A participant becomes eligible on the first day of each plan quarter, after completion of one year of service and having attained age 21 as defined in the Plan document. The one year of service begins on the date the employee is hired.

2. *Contributions.* Participants may contribute a percentage of their eligible compensation as a pre-tax contribution as defined in the Plan up to 100% of their compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may elect to start, increase or reduce deferral elections on the first day of the plan year or on the first day of the seventh month. Participants direct the investment of the contributions into various investment options offered by the Plan. Deferrals can be suspended at any time. The Companies had a match in 2017 and 2016 of 50% up to 6% of employee contributions with a maximum of 3% match. The Companies may make discretionary contributions at the end of the Plan year for employees who are participants as of the last day of the Plan year.

3. *Participant Accounts.* Each participant's account is credited with the participant's contribution, the employer's contribution, and an allocation of the Plan's earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. The participants can then direct their investments to any of the available funds in the Plan. Participants may change their investment option specification with respect to contributions to be made in the future and with respect to amounts already in their account.

4. *Vesting.* Participants are vested immediately in their voluntary contributions plus actual earnings thereon. Vesting in the Companies' matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of service. One year of service is 1,000 hours within a consecutive twelve-month period. A participant is 100 percent vested after six years of service. Participant accounts also become fully vested upon attainment of the normal retirement or in the event of death or total disability.

A. Description of Plan (Continued)

5. *Notes Receivable from Participants.* In 2016, the Plan was amended to no longer permit participant loans. In 2017, there were 8 participant loans that were originated prior to 2016 that are still being processed. Prior to 2016, participants were able to borrow from their fund accounts and were only permitted to have one loan outstanding at a time. The maximum loan amount was $50,000 or one-half of the vested balance, whichever is less. The interest rate for the loan was established by the Plan Administrator who conducted a reasonable and prudent inquiry with professional lenders in the same geographic locale where the employer resides to determine such prevailing interest rates. Principal and interest continue to be paid ratably through monthly payroll deductions

6. *Payment of Benefits.* On termination of service before death, disability or retirement, a participant is entitled to receive on the vested percentage of their account balance. A participant will be fully vested once they attain the normal retirement age or become disabled. If the account balance does not exceed $5,000, the vested balance will be distributed in a single lump-sum payment. If it exceeds $5,000, a participant may elect to receive a distribution in a lump-sum or partial withdrawals. Distribution of the account must be completed by December 31 of the calendar year containing the fifth anniversary of the death.

   In certain hardship situations, as described in the Plan Agreement, participants who are fully vested may withdraw part of their vested account balances while actively employed, but such withdrawals are limited to the amount of hardship and the related taxes resulting from the distribution. Participants' withdrawals are limited to all or any part of their vested account balances resulting from 401(k) elective deferrals, matching contributions, discretionary contributions and may not include any earnings accrued thereon.

7. *Forfeited Accounts.* At December 31, 2017 and 2016, forfeited non-vested accounts totaled $3,982 and $2,257, respectively. These amounts shall be used to pay any administrative expenses and any remaining amounts will be used to reduce any employer contribution. Any forfeiture shall be made no later than the end of the Plan year following the Plan year in which the forfeiture occurred.

B. Summary of Accounting Policies

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

B. Summary of Accounting Policies (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Nationwide Trust Company, FSB, the trustee of the Plan, determines the Plan's valuation policies. See note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Participant loans are not permitted by the Plan at this time.

Payment of Benefits

Benefits are recorded when paid.

Expenses

All direct expenses of the Plan, Trustee, Plan Administrator and Investment Fiduciary shall be paid or reimbursed by the Company, and if not paid or reimbursed, shall be proper charges to the Trust Fund and shall be paid from there. Expenses paid by the Plan in 2017 and 2016 were $5,967 and $1,360, respectively.

Subsequent events

The Plan has evaluated subsequent events through October 9, 2018, the date the financial statements were available to be issued.

C. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

C. Fair Value Measurements (Continued)

Level 2 — Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2017 and 2016.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be activity traded.

U.S. government securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

C. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016.

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 2,576,407	$ -	$ -	$ 2,576,407

Total assets at fair value	$ 2,243,922	$ -	$ -	$ 2,243,922

D. Related-Party Transactions and Party in Interest Transactions

Certain Plan investments are managed by Nationwide Trust Company, FSB. Nationwide Trust Company, FSB is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions.

E. Plan Termination

Although it has not expressed any intent to do so, the Companies have the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

F. Tax Status

The IRS has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

F. Tax Status (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

G. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

H. Information Certified by the Trustee

Nationwide Trust Company, FSB certified all investments, investment transactions, and all related income and the fair value of investments included in the financial statements and supplementary schedule as of and for the year ended December 31, 2017.

Capital Bank and Trust Company certified all investments, investment transactions, and all related income and the fair value of investments included in the financial statements and supplementary schedule as of and for the year ended December 31, 2016.

I. Voluntary Correction Program

During the plan year, management made multiple errors with employee and employer contributions. For example, an employee began contributing four months before reaching eligibility, numerous employees received bonus and commission checks without deferrals being withdrawn. Bonuses and commission should not be excluded from Plan compensation. The Plan Sponsor is in the process of calculating the missed contributions and earnings for these employees and will file the corrections through the Voluntary Correction Program. Management is not able to estimate the financial effect of the adjustment at the time of these financial statements.
