Participant accounts:

Each participant's account is credited with the participant's contributions and Company contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are vested immediately in their voluntary contributions and the Company's safe harbor matching contributions plus actual earnings thereon. Vesting in the Company's discretionary employer match and profit sharing portion of their accounts is based on years of continuous service. A participant is 100 percent vested after 6 years of credited service.

Note 1. Description of the Plan, Continued

Payment of benefits:

On termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or other installment options as provided by the Plan. Hardship distributions are permitted upon demonstration of financial hardship. All fully vested balances are available for distribution after the participant reaches the age of 59½.

Forfeited accounts:

These accounts will be used first to reduce plan administrative expenses and then reduce future employer matching contributions.

Note 2. Summary of Significant Accounting Policies

Basis of accounting:

The 2017 financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates:

The preparation of the 2017 financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisor and custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits:

Benefits are recorded when paid.

Note 2. Summary of Significant Accounting Policies, Continued

Expenses:

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these 2017 financial statements. Fees related to the administration of distributions to participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent events:

The Plan has evaluated subsequent events through October 12, 2018, the date the 2017 financial statements were available to be issued.

Note 3. Custodian Certification

The following is a summary of the Plan's asset information as of December 31, 2017, and for the year then ended, included throughout the Plan's 2017 financial statements and supplemental schedule, that was prepared by or derived from information provided by the custodian and furnished to the plan administrator. The plan administrator has obtained a certification from the custodian that the information provided to the plan administrator by the custodian related to the following assets is complete and accurate. Accordingly as permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL's") Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the 2017 financial statements and supplemental schedule related to the following assets as of December 31, 2017:

Investments at fair value:

Pooled separate accounts	$ 2,856,181

The custodian also certified to the completeness and accuracy of $524,381 net appreciation in the fair value of investments for the year ended December 31, 2017.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 4. Fair Value Measurements, Continued

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Pooled separate accounts: Valued at net asset value ("NAV"). The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily.

Note 4. Fair Value Measurements, Continued

The following tables set forth a summary of the Plan's investments reported at NAV as a practical expedient to estimate fair value as of December 31, 2017 and 2016:

(a) This category is comprised of “funds of funds” which allocate their investments among multiple asset classes which can include U.S. and foreign equity and fixed income securities. The "target date" in a target date portfolio is the approximate date an investor plans to start withdrawing money. This investment seeks high total return through its target retirement date, with a greater focus on income beyond the target date.

(b) This category is comprised of “funds of funds” which invests in a number of underlying funds. The Target Risk Portfolios range from a conservative to aggressive investment strategy. Each seeks to maintain a consistent level of risk over time regardless of the market environment. Each Target Risk Portfolio is diversified across a mix of stocks, bonds and other capital preserving investments.

(c) This category is comprised of funds which invest only in U.S. domestic stocks.

Note 4. Fair Value Measurements, Continued

(d) This category is comprised of funds that seek to provide stock exposure to any nation in the world outside the United States by investing in stocks of companies based outside the US. This includes developed and emerging markets across Asia, Europe and Latin America.

(e) This category is comprised of funds that allocate assets across different bond sectors and fixed-income securities based on analysis of global economic factors, such as fiscal and monetary policies, projected international interest rate movements, political environments and currency trends.

(f) This category is comprised of funds that invests solely in businesses that operate in a particular industry or sector of the economy.

(g) This fund takes a balanced approach and invests primarily in common stocks and preferred stocks, bonds, convertibles and cash.

Note 5. Related-Party and Party in Interest Transactions

Certain Plan investments are shares of pooled separate accounts managed by affiliates of John Hancock Life Insurance Company (U.S.A) ("John Hancock"). John Hancock is the custodian as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. Integra Benefits Consulting ("Integra") is the third party administrator. Integra manages distributions from the Plan. These transactions also qualify as party in interest transactions. Fees incurred by the Plan for the investment management services provided by John Hancock are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made direct payments to John Hancock and Integra totaling $6,313. The Company pays directly any other fees related to the Plan's operations.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their discretionary employer match and profit sharing contributions.

Note 7. Tax Status

The Company has adopted the Plan based on a volume submitter plan document sponsored by Integra Benefits Consulting, LLC. Integra Benefits Consulting, LLC has received an opinion letter from the IRS dated March 31, 2014 that states that the form of the volume submitter plan is acceptable under Section 401 of the Internal Revenue Code ("IRC"). The Plan has been amended since the date of the IRS opinion letter on the volume submitter plan. The Company and the plan administrator believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Company has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the 2017 statement of net assets available for benefits.
