Hourly Employees Pension Plan

NOTES TO FINANCIAL STATEMENTS (Modified Cash Basis)

December 31, 2017 and 2016

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Premium Building Products Company Hourly Employees Pension Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General and Participation

The Plan is a noncontributory defined benefit plan that covers employees of Premium Building Products Company (the “Company” or “Plan Administrator”), a subsidiary of Associated Materials LLC, who are members of United Steelworkers of America Local Union 8869 and provides for retirement benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Effective November 4, 2013, the Plan is frozen to new entrants. Active participants in the Plan at that time were given the one-time option to freeze future benefit accruals effective December 31, 2013 and begin earning benefits in a Company sponsored defined contribution plan beginning in 2014 or continue earning benefits in the Plan.

Contributions and Funding

Annually, an independent actuary is utilized to determine the Plan’s funding requirements. The Plan’s funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. For the years ended December 31, 2017 and December 31, 2016, the minimum funding requirements were \$223,966 and \$211,729, respectively. During 2017, the Company funded \$159,000 related to the 2017 minimum funding requirement. During 2018, the Company funded \$75,000, of which \$64,966 was to fulfill the 2017 funding requirement, and the remainder was to fund an excess contribution. During 2016 the Company funded \$0 related to the 2016 minimum funding requirement. During 2017, the Company funded \$211,729 related to the 2016 minimum funding requirement plus an additional \$23,271 in excess of the minimum finding requirements.

Benefits and Vesting

Participants are entitled to a normal retirement benefit for those that have reached the later of the age of 65 or 5 years of service in the Plan. The normal monthly retirement benefits are calculated based on a participant’s years of credited service multiplied by a monthly benefit level as provided in the Plan. Participant’s years of service include credited years of service. The monthly benefit level in effect at December 31, 2017 and 2016 was \$22. The normal form of benefit is a single life annuity. The Plan also offers a 50% joint and survivor annuity option. The Plan also provides for early retirement, disability retirement and pre-retirement spouse benefits for any participant who meets certain requirements. Participants become fully vested on completion of five years of continuous service.

Termination Provisions

The Company anticipates that the Plan will continue without interruption, but reserves the right to terminate the Plan or to discontinue contributions to the Plan. In the event the Plan is terminated, the Plan provides for the allocation of net assets up to the present value of accumulated plan benefits among the participants and pensioners. To the extent unfunded vested benefits exist, such benefits would be payable by the Pension

NOTE 1 – DESCRIPTION OF THE PLAN – CONTINUED

Benefit Guaranty Corporation (“PBGC”), up to specified limitations, as described in ERISA. To the extent that Plan net assets exceed benefits due participants and pensioners, and the Plan has met all legal requirements, remaining assets, net of applicable taxes, will revert back to the Company.

Benefits under the Plan are insured by the PBGC. Generally, the PBGC guarantees most vested normal retirement benefits, early retirement benefits, and certain disability and survivor benefits. However, the PBGC does not guarantee all types of benefits under covered plans, and the amount of benefit protection is subject to certain limitations. The PBGC guarantees vested benefits at the level in effect on the date of plan termination. However, if benefits have been increased within the five years before plan termination, the benefit increase may not be guaranteed. In addition, there is a ceiling on the amount of monthly benefit that the PBGC guarantees which is adjusted periodically.

Administrative Expenses

Trustee and investment fees are paid by the Plan. All other direct and indirect administrative expenses of the Plan are paid by the Company.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on a modified cash basis of accounting as interest and dividend income, employer contributions, if any, and administrative expenses are recorded when received or paid versus when the revenue or expense has been incurred. The modified cash basis of accounting, which is permitted under the Department of Labor's Rules and Regulations for Reporting and Disclosure, is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income and dividends are recorded when received. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on employees' credited service. The accumulated plan benefits for active employees are based on service rendered as of the valuation date.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Benefits payable under all circumstances, including retirement, death, disability, and termination of employment, are included; to the extent they are deemed attributable to employee service rendered to the valuation date.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect the amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

NOTE 3 – ACCUMULATED PLAN BENEFITS

Consulting actuaries from Hewitt Associates LLC (operating as Aon Hewitt) estimate the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information as of December 31, 2016 is as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Participants currently receiving payments	\$ 1,482,649
---	--------------

Other participants	4,555,088
--------------------	-----------

	6,037,737
--	-----------

Nonvested benefits	138,158
--------------------	---------

Total actuarial present value of accumulated plan benefits	\$ 6,175,895
---	---------------------

Premium Building Products Company
Hourly Employees Pension Plan

NOTES TO FINANCIAL STATEMENTS (Modified Cash Basis) – CONTINUED

December 31, 2017 and 2016

NOTE 3 – ACCUMULATED PLAN BENEFITS - CONTINUED

Changes in accumulated plan benefits for the year ended December 31, 2016 are as follows:

Actuarial present value of accumulated plan benefits at December 31, 2015	\$ 5,889,305
Increase (decrease) during the year attributed to:	
Benefit payments	(109,571)
Interest accumulation	349,535
Changes in actuarial assumptions	(84,610)
Actuarial losses	131,236
Net increase	<u>286,590</u>
Actuarial present value of accumulated plan benefits at December 31, 2016	<u>\$ 6,175,895</u>

Significant assumptions underlying the actuarial computations are:

Discount rate	5.99% per annum for 2017 and 2016
Mortality rates	RP – 2014 Mortality table projected generationally by Scale MP – 2016 for 2016 and RP-2014 Mortality table projected generationally by Scale MP-2015 for 2015
Weighted average retirement age	63 years of age, based on probability of retirement table

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2017. Had the valuation been performed as of December 31, 2016 there would be no material difference. The change in the mortality projection scale resulted in a decrease in accumulated plan benefits during the year ended December 31, 2016 of \$84,610.

Bank of America, N.A. (“Bank of America”) was the trustee of the Plan and held the Plans investment assets and executed investment transactions for the period from January 1, 2016 through May 16, 2016.

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustees have certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate:

- Schedule H, Line 4j – Schedule of Reportable Transactions for the year ended December 31, 2017

NOTE 5 – FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 – FAIR VALUE MEASUREMENTS – CONTINUED

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

	Level 1	Level 2	Level 3	Total

NOTE 6 – TAX STATUS OF THE PLAN

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated July 29, 2014 that the Plan and related trust is designed in accordance with applicable sections of the Internal Revenue Code ("Code"). Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan has been amended since receiving the determination letter. The Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress.

NOTE 7 – PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Transamerica. Transamerica is the trustee as designated by the Committee in accordance with the Plan and therefore, investment transactions with Transamerica qualify as party-in-interest transactions.

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 9 – SUBSEQUENT EVENTS

In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through October 15, 2018, the date the financial statements were available to be issued. The Plan is not aware of any subsequent events which would require recognition or disclosure in the financial statements.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets

2015 Plan Year	6.70%.
2016 Plan Year	5.99%.
2017 Plan Year	5.99%.

Trust Expenses Included in Target Normal Cost

Prior Year administrative expenses rounded to the nearest \$1,000 (\$92,000 for 2017).

Actuarial Method

Standard unit credit cost method.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets

2015 Plan Year	6.70%.
2016 Plan Year	5.99%.
2017 Plan Year	5.99%.

Trust Expenses Included in Target Normal Cost

Prior Year administrative expenses rounded to the nearest \$1,000 (\$92,000 for 2017).

Actuarial Method
