Note 1. Plan Description

The following description of Percheron, LLC 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan established January 1, 1999, covering substantially all employees that are at least 21 years of age of Percheron Holdings, LLC (the Company or Employer) except for 1) employees covered by a collective bargaining agreement or 2) non-residential aliens. Employees are eligible to participate upon their employment commencement date. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Trustee and Plan Administrator are responsible for oversight of the Plan and determine the appropriateness of the Plan's investment offerings and monitors investment performance. The Plan was most recently amended and restated on July 1, 2016.

Contributions: Participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers). The Company may make discretionary profit-sharing contributions to the Plan. To meet the eligibility requirement for discretionary profit-sharing contributions the participant must have one year of service (1,000 hours). There were no discretionary profit-sharing contributions during 2017. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with the participant's contributions and allocations of (a) the Company's discretionary profit sharing contributions and (b) Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions plus actual earnings thereon. Participants are vested in the Company's discretionary profit sharing contributions (if any) plus actual earnings thereon based on years of continuous service. Company discretionary profit sharing contributions have a vesting period as follows:

Completed Years of Service	Vested Percentage
Less than 3 years	0%
3 years	100%

Investment options: Upon enrollment in the Plan, a participant may direct all contributions to selected investments as made available and determined by the Plan Administrator.

Payment of benefits: The Plan permits withdrawals when a participant terminates employment, retires, or becomes disabled or deceased. In-service withdrawals are also permitted for certain financial hardships or when a participant attains age 59½. Benefits are payable in lump sum payments with certain exceptions allowed.

Note 1. Plan Description (Continued)

Notes receivable from participants: Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of 50 percent of their vested account balance or $50,000. Loan terms range up to five years or over a reasonable period of time for the purchase of a primary residence, as established by the Plan Administrator at the time of the loan. The loans are collateralized by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan Administrator. Principal and interest are paid ratably through payroll deductions. Interest rates on notes outstanding at December 31, 2017 range from 4.25 percent to 5.25 percent. The notes receivable at December 31, 2017 are due through August 2022.

Forfeitures: The nonvested portion of a terminated participant's account balance is forfeited. Forfeited accounts may be used to pay administrative expenses and fund future employer contributions. As of December 31, 2017 and 2016, forfeited nonvested accounts amounted to $4,629 and $1,320, respectively. During the year ended December 31, 2017, $3,285 of forfeitures were added to the Plan, $24 were earned from dividend and other income received, and $0 of forfeitures were used to pay Plan expenses.

Expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Administrative expenses include fees related to the administration of notes receivable that are charged directly to the participant's account and certain recordkeeping fees paid by the Plan. Investment related expenses are included in net appreciation of fair value of investments. Certain administrative functions are performed by officers or employees of the Plan Sponsor. However, such employees and officers receive no compensation from the Plan.

Risks and uncertainties: The Plan provides for various investment options in a variety of investment securities. Investment securities, in general, are exposed to various risks such as interest rate risk, financial market risk and credit risk. Due to the level of risk associated with certain investment securities, coupled with the recent economic events in the United States, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Plan's financial statements

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment valuation and income recognition: Investments are reported at fair value, except for the fully benefit responsive investment contract, which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in orderly transactions between market participants at the measurement date. The Plan's Trustee determines the Plan's valuation policies utilizing information provided by the investment advisors, custodian and trustees. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Dividend and interest income are recorded on the accrual basis. The change in the current value of investments (including investments bought and sold) during the period are reflected in the statement of changes in net assets available for benefits as net appreciation in fair value of investments.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded in accordance with the Plan's terms.

Note 2. Summary of Significant Accounting Policies (Continued)

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of benefits: Benefits are recorded when paid.

Subsequent events: The Plan Administrator has evaluated subsequent events (events occurring after December 31, 2017) through October 11, 2018, the date the financial statements were available for issuance, and concluded that no subsequent events have occurred that would require recognition in the financial statements or disclosure in the notes to the financial statements.

Note 3. Information Certified and Provided by the Custodian

The following is a summary of the Plan's asset information as of December 31, 2017 and 2016, and for the year ended December 31, 2017, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from Great-West, the custodian, that the information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information that appears throughout the financial statements and supplemental schedule related to the following assets:

	2017	2016
Noninterest-bearing cash	$ -	$ 9,160
Investments at fair value:		
Common collective trust	13,262,376	11,856,816
Mutual funds	933,089	542,343
Fixed annuities	91,349	122,623
	$ 14,286,814	$ 12,530,942
Notes receivable from participants	$ 278,533	$ 165,114

Great-West also certified to the completeness and accuracy of $1,994,765 of net appreciation in fair value of investments and $43,174 of interest and dividends from investments, and $10,524 of interest on notes receivable from participants related to the aforementioned Plan assets for the year ended December 31, 2017.

Note 4. Fair Value Measurements

Accounting Standards Codification (ASC) 820, *Fair Value Measurement and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

- **Common collective trust:** The Plan has an indirect investments in fully benefit-responsive investment contract with Putnam Investments, which comprises the collective investment trusts. The collective investment trusts are valued based on the NAV of units held by the Plan based on the fair value of its underlying investments as determined by Great-West Trust Company, LLC. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV.

- **Mutual funds:** Valued based upon quoted market prices in the active market in which they are traded, and are classified as Level 1 within the valuation hierarchy.

- **Fixed annuities:** The reported values for fixed annuity options are reported daily based on the valuation method discussed in the annuity contract as calculated by the annuity provider. All of these inputs are generally considered obtainable and observable through the review of existing contracts and readily available financial information, and are classified as Level 2 within the valuation hierarchy.

Note 4. Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

	Assets at Fair Value			
Description	Level 1	Level 2	Level 3	Total
2017:				
Mutual funds	$ 933,089	$ -	$ -	$ 933,089
Fixed annuities	-	91,349	-	91,349
Total investments in the fair value hierarchy	$ 933,089	$ 91,349	$ -	1,024,438
Common collective trust measured at NAV (a)				13,262,376
Total investments at fair value				$ 14,286,814
2016:				
Mutual funds	$ 542,343	$ -	$ -	$ 542,343
Fixed annuities	-	122,623	-	122,623
Total investments in the fair value hierarchy	$ 542,343	$ 122,623	$ -	664,966
Common collective trust measured at NAV (a)				11,856,816
Total investments at fair value				$ 12,521,782

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of nets assets available for benefits.

The following tables set forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as a practical expedient as of December 31, 2017 and 2016.

	Fair Value as of December 31,		Unfunded	Redemption	Redemption
Investment	2017	2016	Commitment	Frequency	Notice Period
Common collective trust	$ 13,262,376	$ 11,856,816	None	Daily	None

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Note 4. Fair Value Measurements (Continued)

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to the total net assets available for benefits. For the year ended December 31, 2017, there were no significant transfers in or out of Levels 1, 2 or 3.

Note 5. Related Party and Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds and fund annuities managed by Great-West. Therefore these transactions qualify as party-in-interest transactions. The Plan's management has approved these activities and transactions. Fees paid by the Plan to the respective custodians totaled $107,810 for the year ended December 31, 2017. Note receivables from participants also qualify as party-in-interest transactions.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their accounts.

Note 7. Income Tax Status

Effective July 1, 2016, the Plan adopted a non-standardized form of a prototype plan sponsored by Great-West. The prototype plan has received an opinion letter dated March 31, 2014 from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in process.
