Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the AXIA Incorporated Salaried Employees' Retirement Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Prudential Retirement Insurance and Annuity Company (Prudential) and Metropolitan Life Insurance Company (MetLife), except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that Prudential and MetLife hold the Plan's investments and execute investment transactions. The Plan administrator has obtained certifications from Prudential and MetLife as of December 31, 2017 and 2016, and for the years then ended, that the information provided to the Plan administrator by them is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter – Supplemental Schedules

The supplemental schedules, Schedule H, Line 4i, schedule of assets (held at year-end) as of December 31, 2017 and Schedule H, Line 4j, schedule of reportable transactions for the year ended December 31, 2017, are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplemental schedules.

Report on Form and Content in Compliance with DOL's Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by Prudential and MetLife, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

AXIA Incorporated Salaried Employees' Retirement Plan

Notes to Financial Statements

1. Description of the Plan

The Axia Incorporated Salaried Employees' Retirement Plan (the Plan) is a defined benefit pension plan and trust that is designed to provide retirement income to all non-collective bargaining unit employees of AXIA. Other employers included in the Plan are Ames Taping Tool Systems, Co., Ames Taping Tool Systems, Inc., TapeTech Tool Company, Inc., Nestaway (spun-off August 31, 2005), Fischbein Company (spun-off August 31, 2005), Mid America Machine, Corp. (spun-off August 31, 2005), Nestaway Division, Clinton, North Carolina (spun-off August 31, 2005), Nestaway Division, McKenzie, Tennessee (spun-off August 31, 2005), and Flexible Materials Handling (spun-off August 31, 2005).

On December 12, 2009, the Plan's assets and liabilities, along with the assumption of the Plan's sponsorship and fiduciary responsibilities, were transferred from AXIA Incorporated (AXIA) to Porex Holding Corporation (the Company). The Company is the Plan sponsor and Plan administrator.

The Administrative Committee, along with the trustees, control and manage the operation and administration of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The following description of the Plan provides only general information. More detailed information concerning the Plan may be found by consulting the Plan document, which is available from the Plan administrator.

Eligibility

Participation in the Plan was automatic for eligible employees who had attained the age of 21 and completed 1 year of service as of March 31, 2003 (freeze date), when the Plan was closed to new entrants.

Pension Benefits

The amount of retirement benefits to be received depends upon the participants' years of credited service and date of termination. Credited service did not include any Plan year in which the participant worked less than 1,000 hours. Credited service also did not include years of service before participation in the Plan. Credited service which is limited to 30 years and salary increases were frozen as of March 31, 2003.

The amount of the benefit payment may be actuarially adjusted, depending upon the annuity payment method chosen by the participant from the options available under the Plan. Normal retirement benefits start at age 65. The Plan contains provisions for early retirement benefits, total and permanent disability benefits, death benefits, surviving spouse benefits, refund benefits, and deferred vested benefits, all of which may affect the calculation of the amount of the participant's benefit payments.

If the total actuarial value of a participant's retirement or deferred vested benefit is \$5,000 or less, the Pension Committee may direct the benefit payment to be paid in a lump-sum amount. All Plan participants are 100% vested at December 31, 2017.

Funding Policy

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in accordance with the funding requirements established by ERISA and at a rate deemed necessary to maintain the Plan on an actuarially sound basis. The amounts of the contributions are based upon the computations of the Plan's independent actuary (see Note 3), and have been designed to provide sufficient funds to pay benefits as they become payable under the Plan. All funding requirements of ERISA have been met for the years ended December 31, 2017 and 2016.

AXIA Incorporated Salaried Employees' Retirement Plan

Notes to Financial Statements

1. Description of the Plan (cont.)

Vesting

All participants have a 100% vested right to receive retirement income benefits.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP require the Plan's management to make estimates and assumptions that affect the amounts reported amounts of assets, liabilities, and changes therein: disclosure of contingent assets and liabilities: and the actuarial present value of accumulated Plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note 5 for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest is recorded when earned and dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Subsequent Events

The Company has evaluated subsequent events through October 15, 2018, which is the date these financial statements were available to be issued.

AXIA Incorporated Salaried Employees' Retirement Plan

Notes to Financial Statements

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to services rendered by the participants to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, and (b) present participants or their beneficiaries.

Benefits payable under all circumstances - retirement, death, disability and termination of employment - are included to the extent they are deemed attributable to participant service rendered to the valuation date (or freeze date).

The actuarial present value of accumulated plan benefits is determined by an independent actuary and represents the amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in determining accumulated plan benefits as of January 1 were as follows:

	2017	2016
Actuarial cost method	- Unit Credit	- Unit Credit
Discount rate	- 7.0%	- 7.0%
Mortality (funding)	- IRS 2017 Static Mortality Table	- IRS 2016 Static Mortality Table
Retirement	- Retirement age of 65	- Retirement age of 65

The following is a summary of the actuarial assumption and methods used to determine the present value of accumulated plan benefits which have been changed since the last valuation:

- The estimated expense assumption changed from \$210,000 to \$270,000 to reflect actual experience.
- The mortality improvement scale (for accounting) was updated from the RP-2014 Adjusted to 2006 total Dataset Mortality Table with Scale MP-2015 to the RP-2014 Adjusted to 2006 Total Dataset Mortality Table with Scale MP-2016.
- These changes in actuarial assumptions decreased the present value of accrued benefits by \$288,128.

Were the Plan to be terminated, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

AXIA Incorporated Salaried Employees' Retirement Plan

Notes to Financial Statements

3. Actuarial Present Value of Accumulated Plan Benefits (cont.)

The actuarial present value of accumulated plan benefits as of the beginning of the Plan year is comprised of the following:

	2017	2016
Vested benefits		
Participants currently receiving payments	\$ 13,394,063	\$ 13,725,593
Other vested benefits	6,499,376	6,764,755
Total vested benefits	19,893,439	20,490,348
Non-vested benefits	-	-
Total actuarial present value of accumulated Plan benefits	\$ 19,893,439	\$ 20,490,348

Changes in the actuarial present value of accumulated plan benefits are as follows:

	2017	2016
Beginning of year	\$ 20,490,348	\$ 20,963,880
Benefits accumulated	(21,853)	177,788
Interest due to decrease in discount period	1,377,069	1,408,173
Assumption changes	(288,128)	(336,093)
Benefits paid	(1,663,997)	(1,723,400)
End of year	\$ 19,893,439	\$ 20,490,348

4. Certified Information

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Prudential Retirement Insurance and Annuity Company (Prudential) and Metropolitan Life Insurance Company (MetLife) have provided certifications that the financial information included in the financial statements and supplemental schedules as of December 31, 2017 and 2016, and for the years then ended provided to the Plan is complete and accurate. The information as to investment assets and transactions therein, and investment income included in the accompanying financial statements and supplemental schedules as of December 31, 2017 and 2016, and for the years then ended are covered by such certifications.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

AXIA Incorporated Salaried Employees' Retirement Plan

5. Fair Value Measurement

GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs in which little or no market data exists (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described below:

Basis of Fair Value Measurement

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 - Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 - Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodology used at December 31, 2017 and 2016.

Pooled Separate Accounts - valued at net asset value (NAV) as practical expedient based on the last reported sales price of the underlying investments held and the number of units held by the Plan at year-end.

Guaranteed investment contract with MetLife - valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016.

<i>December 31, 2017</i>	Level 1		Level 2		Level 3	Total
Guaranteed investment contract with MetLife	\$	-	\$	-	\$ 98,635	98,635
	\$	-	\$	-	\$ 98,635	98,635
Pooled separate accounts measured at NAV*						21,702,777
Total investments at fair value	\$					21,801,412

AXIA Incorporated Salaried Employees' Retirement Plan

5. Fair Value Measurement (cont.)

Basis of Fair Value Measurement (cont.)

December 31, 20176	Level 1	Level 2	Level 3	Total
Guaranteed investment contract with MetLife	\$ -	\$ -	\$ 120,805	120,805
	\$ -	\$ -	\$ 120,805	120,805
Pooled separate accounts measured at NAV*				19,190,668
Total investments at fair value			\$	19,311,473

* Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value to the amounts presented in the statements of net assets available for benefits.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Changes in fair value of Level 3 assets and related gains and losses:

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the years ended December 31, 2017 and 2016:

	Fair Value at December 31,	
Guaranteed investment contract	2017	2016
Balance, beginning of year	\$ 120,805	\$ 146,751
Interest	14,266	17,360
Withdrawals	(36,436)	(43,306)
Balance, end of year	\$ 98,635	\$ 120,805

Quantitative information about significant unobservable inputs used in Level 3 fair value measurements:

	Fair Value at December 31,		Principal Valuation Technique	Significant Unobservable Inputs	Interest Rate

Notes to Financial Statements

5. Fair Value Measurement (cont.)

Fair value of investments in certain entities that calculate NAV per share (or its equivalent) follows:

Investment	Fair Value at December 31,		Unfunded Commitments	Redemption Frequency (if	Redemption Notice Period
	2017	2016		Currently Eligible)	
Pooled separate accounts	\$ 21,702,777	\$ 19,190,668	N/A	Daily	N/A

6. Guaranteed Investment Contract

The Guaranteed Interest Contract represents an unallocated group annuity contract with MetLife to provide a fixed rate of return. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions were made and the actuarial present value of accumulated plan benefits were reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

8. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated August 27, 2008 stating that the Plan was qualified under Section 401(a) of the Internal Revenue Code (IRC) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. Although the Plan has been amended since the date of the letter, the Plan administrator believes the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Related-Party and Party in Interest Transactions

Employer contributions receivable totaled \$171,220 and \$593,903 at December 31, 2017 and 2016, respectively, and qualify as a party-in-interest transaction. The 2016 receivable was collected by the Plan in 2017.

AXIA Incorporated Salaried Employees' Retirement Plan

Notes to Financial Statements

9. Related-Party and Party in Interest Transactions (cont.)

All investments are managed by Prudential and MetLife; therefore, these transactions qualify as party-in-interest transactions. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

10. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Whether a particular participant's accumulated plan benefits will be paid depends on the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time and also may depend on the financial condition of the Company. Some benefits may be fully or partially provided for by the existing assets and the PBGC guaranty, while other benefits may not be provided for at all. For further description regarding the priority of participants' claims to the assets of the Plan upon Plan termination and benefits guaranteed by the PBGC, reference is made to this information included in the Plan document.

SECTION I

CHANGES SINCE LAST YEAR'S VALUATION

Changes in Pension Plan Provisions

No changes in the pension plan provisions were recognized with this actuarial valuation.

Legislated Changes

There were no legislative changes recognized with this actuarial valuation.

Changes in Actuarial Assumptions

The mortality table used to measure ASC 960 liabilities was changed from the RP-2014 Adjusted to 2006 Total Dataset Mortality Table with Scale MP-2015 to the RP-2014 Adjusted to 2006 Total Dataset Mortality Table with Scale MP-2016.

Effective with this valuation, the estimated expense assumption changed from \$210,000 to \$270,000 to reflect actual experience.

No other non-prescribed changes in actuarial assumptions were recognized with this actuarial valuation.

Changes in Actuarial Methods

No changes in actuarial methods were recognized with this actuarial valuation.

SECTION VII

PLAN PROVISIONS

Earnings

Earnings mean Total Compensation received from the Employer including severance pay, value of stock options, stock appreciation rights, insurance benefits, reimbursed moving expenses and other similar benefits. In any year in which a full time employee does not work the number of hours that constitute a normal full-time work schedule, earnings is annualized.

Final Average Earnings

Average Monthly Earnings is 1/12 of the Average Earnings for the five highest consecutive years within the past fifteen years.

Final Average Earnings 1/12 of the Average Earnings for the three consecutive years, ending with the plan year of terminations. Earnings are limited to the Social Security taxable Wage base.

As of March 31, 2003, the plan was amended to freeze salary increases; however, any participant who is active as of December 31, 2003, and who is age 60, or age 50 with 5 years of service as of that date will receive credit for future salary increases.

Service

Last period of employment starting with (a) initial employment after January 1, 1976, (b) date as specified in prior plan if hired before January 1, 1976, (c) re-employment after termination prior to January 1, 1976, (d) reemployment after break in service after January 1, 1976, whichever is later, and ending upon the break in service date.

For employees hired after January 1, 1986

1. Service, which is used for benefit eligibility purposes, does not include any plan year in which an employee works less than 1000 hours. Years of service prior to the plan year in which an employee attains age 18 on or after January 1, 1985 or the employee attained age 22 before January 1, 1985 are excluded.
2. Credited Service which is used for benefit computation purposes, does not include years of service before participation and is adjusted for years on which the employee works less than the full-time work schedule. Credited service for an employee of Fischboin Company Division will not begin prior to July 1, 1979. Credited service for an employee of the Marco Paper Products Company includes service after August 20, 1971. Credited service for an employee of Nostaway Division of the Beaver Dam, Kentucky location includes service after July 31, 1988. Credited service for an employee of Jensen Tools, Inc. includes services after January 2, 1974.
3. Credited Service for Benefit computation was frozen as of March 31, 2003.

SECTION I

CHANGES SINCE LAST YEAR'S VALUATION

Changes in Pension Plan Provisions

No changes in the pension plan provisions were recognized with this actuarial valuation.

Legislated Changes

There were no legislative changes recognized with this actuarial valuation.

Changes in Actuarial Assumptions

The mortality table used to measure ASC 960 liabilities was changed from the RP-2014 Adjusted to 2006 Total Dataset Mortality Table with Scale MP-2015 to the RP-2014 Adjusted to 2006 Total Dataset Mortality Table with Scale MP-2016.

Effective with this valuation, the estimated expense assumption changed from \$210,000 to \$270,000 to reflect actual experience.

No other non-prescribed changes in actuarial assumptions were recognized with this actuarial valuation.

Changes in Actuarial Methods

No changes in actuarial methods were recognized with this actuarial valuation.

SECTION VII

PLAN PROVISIONS

Earnings

Earnings mean Total Compensation received from the Employer including severance pay, value of stock options, stock appreciation rights, insurance benefits, reimbursed moving expenses and other similar benefits. In any year in which a full time employee does not work the number of hours that constitute a normal full-time work schedule, earnings is annualized.

Final Average Earnings

Average Monthly Earnings is 1/12 of the Average Earnings for the five highest consecutive years within the past fifteen years.

Final Average Earnings 1/12 of the Average Earnings for the three consecutive years, ending with the plan year of terminations. Earnings are limited to the Social Security taxable Wage base.

As of March 31, 2003, the plan was amended to freeze salary increases; however, any participant who is active as of December 31, 2003, and who is age 60, or age 50 with 5 years of service as of that date will receive credit for future salary increases.

Service

Last period of employment starting with (a) initial employment after January 1, 1976, (b) date as specified in prior plan if hired before January 1, 1976, (c) re-employment after termination prior to January 1, 1976, (d) reemployment after break in service after January 1, 1976, whichever is later, and ending upon the break in service date.

For employees hired after January 1, 1986

1. Service, which is used for benefit eligibility purposes, does not include any plan year in which an employee works less than 1000 hours. Years of service prior to the plan year in which an employee attains age 18 on or after January 1, 1985 or the employee attained age 22 before January 1, 1985 are excluded.
2. Credited Service which is used for benefit computation purposes, does not include years of service before participation and is adjusted for years on which the employee works less than the full-time work schedule. Credited service for an employee of Fischboin Company Division will not begin prior to July 1, 1979. Credited service for an employee of the Marco Paper Products Company includes service after August 20, 1971. Credited service for an employee of Nostaway Division of the Beaver Dam, Kentucky location includes service after July 31, 1988. Credited service for an employee of Jensen Tools, Inc. includes services after January 2, 1974.
3. Credited Service for Benefit computation was frozen as of March 31, 2003.

SECTION VII

PLAN PROVISIONS

	Maximum credited service is 30
Employer Contributions	In such amounts and times determined by the company.
Employee Contributions	None
Normal Form of Benefit	50% Joint and Survivor Annuity for married participants and a Single Life annuity for single participants.
Normal Retirement Date	The first day of the month coinciding with or next following the participant's 65th birthday.
Accrued Benefit Formula	<p>Employees shall receive a benefit equal to (a.) minus (b.) as follows;</p> <ul style="list-style-type: none">a. 2% of average monthly salary multiplied by years of credited serviceb. The lesser of (i), (ii) and (iii) as follows: (i) 1.667% of Social Security multiplied by credited service; (ii) .65% of the smaller of Final Average Compensation or Covered Compensation multiplied by credited service; and (iii) 1% of average monthly compensation multiplied by credited service. <p>Credited Service is limited to 30 years for all participants</p> <p>Social Security is determined using the Social Security Law in effect at the time of termination and assuming earnings continue at the same rate until the later of age 55 or age at termination.</p> <p>Covered Compensation is the average of the Social Security Wage bases in the 35 years ending in the year the employee is eligible for full social security retirement benefits assuming level future wage bases after termination.</p>
Normal Retirement Benefit	Accrued Benefit payable at age 65.
Early Retirement Eligibility	Age 55 and 10 years of Service.
Early Retirement Benefit	<p>Normal retirement benefit Multiplied by an early retirement factor based on the table below.</p> <p>Early Retirement and Maximum Offset allowance factors.</p>

Early Retirement Benefit (Cont')

Social Security Supplement – an employee with credited service prior to January 1, 1994, retiring under the early retirement provisions, is eligible for a temporary supplemental benefit payable until age 65 equal to the amount determined in (b.) 'Under the Accrued Benefit Formula', with average monthly salary, Final Average Earnings, Covered Compensation, Social Security and Credited Service all determined as of December 31, 1993. If the participant was a super highly compensated employee as of December 31, 1988, the amount determined in (b.) is calculated as of December 31, 1988.

Deferred Vested Benefit

Eligible after 5 years of Service

Accrued Monthly Benefit payable at age 65. If a participant eligible for early retirement decides to commence early, the early retirement benefit will be equal to the accrued benefit multiplied by the early retirement factor below based on age.

Eligible after 10 years of Service

Accrued Monthly Benefit determined as with the normal retirement benefit but using credited service which includes period during which the participant is disabled.

SECTION VII

PLAN PROVISIONS

Vesting Schedule

100% vested after 5 years

Preretirement Spouse Benefit

If a participant who has completed five years of service dies prior to his/her benefit commencement date, such participant, if he/she was married to his spouse for the entire year prior to his/her death, is eligible for a surviving spouse pension equal to the amount to which the surviving spouse would have been entitled if the participant's commencement date had been the day before his death, or age 55 if later, and his pension had been determined as described above, and had been payable in the form of a 50% Joint and Survivor Annuity.

SECTION VII

ACTUARIAL METHODS

Under the Actuarial Methods described below, if all current assumptions remain constant and are realized, funding at least the Minimum Required Contribution each year will eventually accumulate sufficient plan assets to cover the Funding Target. Future widening of the interest rate stabilization corridor may extend the time period for the plan to become fully funded.

Cost Method

Costs have been computed in accordance with the Unit Credit Actuarial Cost Method and reflect the actuarial assumptions described under "Actuarial Assumptions" of this report as provided under the applicable regulations of the Pension Protection Act of 2006.

Target Normal Cost

The Target Normal Cost is the present value of benefits expected to accrue during the plan year plus an estimate of the expenses to be paid from plan assets during the plan year.

Funding Target and Funding Shortfall

The Funding Target is the present value of benefits accrued as of the beginning of the plan year and the Funding Shortfall is the excess of the Funding Target over the Actuarial Value of Assets (reduced by the Credit Balance). The initial Funding Shortfall is amortized over seven years.

In subsequent years, the Funding Shortfall less the present value of prior year amortization installments is amortized over seven years, and added to any prior year amortization installments.

Segment rates are adjusted as necessary to fall within the specified corridor of the corresponding 25-year average of segment rates for the period ending September 30 of the calendar year preceding the first day of the plan year. The specified corridor is:

<u>Plan Year</u>	<u>Corridor</u>
Through 2020	90% - 110%
2021	85% - 115%
2022	80% - 120%
2023	75% - 125%
2024 and later	70% - 130%

The adjustments to fall within the specified corridor of the 25-year average of segment rates apply for determining the minimum required contribution and related funded percentages. They do not apply for determining the maximum tax deductible contribution or certain other situations.

SECTION VII

ACTUARIAL METHODS

At-Risk Determination

The At-Risk Funding Target is determined by assuming that participants eligible to retire in the current plan year and next 10 plan years retire at the earliest possible date, but not before the end of the plan year. All participants are assumed to elect the optional form resulting in the highest possible present value.

A load is added to the At-Risk Funding Target and At-Risk Target Normal Cost when a plan is At-Risk in at least two years during the preceding four years. The load increases the At-Risk Funding Target by 4% of the Not At-Risk Funding Target plus \$700 per participant, and increases the At-Risk Target Normal Cost by 4% of the Not At-Risk Target Normal Cost.

The Funding Target and Target Normal Cost are calculated by multiplying the Not At-Risk values by 100% minus the Phase-In Percentage, plus the At-Risk values multiplied by the Phase-In Percentage.

Credit Balance

The Credit Balance consists of the Carryover Balance from excess contributions prior to the Pension Protection Act (PPA) of 2006, plus the Prefunding Balance from elected excess contributions after the PPA. Balances accumulate with interest and are reduced for amounts applied towards the Minimum Required Contribution, voluntary waivers by the plan sponsor, and compelled waivers to avoid benefit restrictions. The Actuarial Value of Assets is reduced by the Credit Balance to determine certain funded percentages and to determine the Funding Shortfall.

Asset Valuation Method

The Actuarial Value of Assets is determined using an annual average of the adjusted Fair Market Value of Assets with the earliest determination 24 months prior to the valuation date. The Fair Market Value of Assets in prior years is adjusted for contributions, benefit payments, expenses and expected earnings (not to exceed the third segment rate).

This is equivalent to the Fair Market Value of Assets, plus two-thirds of the (gain)/loss from the prior year, plus one-third of the (gain)/loss from the second preceding year. The (gain)/loss in each year is the difference between the expected and actual returns on the Fair Market Value of Assets.

The Actuarial Value of Assets is adjusted to be no less than 90% or no more than 110% of the Fair Market Value of Assets, as required by IRC Section 430(g)(3)(B)(iii).

Since the expected earnings assumption cannot exceed the third segment rate, over time, the method may produce an Actuarial Value of Assets slightly below the Fair Market Value of Assets.

The Actuarial Value of Assets for determining the Maximum Tax Deductible Contribution reflects interest rate stabilization rates for discounting contributions and limiting expected earnings.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the AXIA Incorporated Salaried Employees' Retirement Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Prudential Retirement Insurance and Annuity Company (Prudential) and Metropolitan Life Insurance Company (MetLife), except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that Prudential and MetLife hold the Plan's investments and execute investment transactions. The Plan administrator has obtained certifications from Prudential and MetLife as of December 31, 2017 and 2016, and for the years then ended, that the information provided to the Plan administrator by them is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter – Supplemental Schedules

The supplemental schedules, Schedule H, Line 4i, schedule of assets (held at year-end) as of December 31, 2017 and Schedule H, Line 4j, schedule of reportable transactions for the year ended December 31, 2017, are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplemental schedules.

Report on Form and Content in Compliance with DOL's Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by Prudential and MetLife, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

AXIA Incorporated Salaried Employees' Retirement Plan

Notes to Financial Statements

1. Description of the Plan

The Axia Incorporated Salaried Employees' Retirement Plan (the Plan) is a defined benefit pension plan and trust that is designed to provide retirement income to all non-collective bargaining unit employees of AXIA. Other employers included in the Plan are Ames Taping Tool Systems, Co., Ames Taping Tool Systems, Inc., TapeTech Tool Company, Inc., Nestaway (spun-off August 31, 2005), Fischbein Company (spun-off August 31, 2005), Mid America Machine, Corp. (spun-off August 31, 2005), Nestaway Division, Clinton, North Carolina (spun-off August 31, 2005), Nestaway Division, McKenzie, Tennessee (spun-off August 31, 2005), and Flexible Materials Handling (spun-off August 31, 2005).

On December 12, 2009, the Plan's assets and liabilities, along with the assumption of the Plan's sponsorship and fiduciary responsibilities, were transferred from AXIA Incorporated (AXIA) to Porex Holding Corporation (the Company). The Company is the Plan sponsor and Plan administrator.

The Administrative Committee, along with the trustees, control and manage the operation and administration of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The following description of the Plan provides only general information. More detailed information concerning the Plan may be found by consulting the Plan document, which is available from the Plan administrator.

Eligibility

Participation in the Plan was automatic for eligible employees who had attained the age of 21 and completed 1 year of service as of March 31, 2003 (freeze date), when the Plan was closed to new entrants.

Pension Benefits

The amount of retirement benefits to be received depends upon the participants' years of credited service and date of termination. Credited service did not include any Plan year in which the participant worked less than 1,000 hours. Credited service also did not include years of service before participation in the Plan. Credited service which is limited to 30 years and salary increases were frozen as of March 31, 2003.

The amount of the benefit payment may be actuarially adjusted, depending upon the annuity payment method chosen by the participant from the options available under the Plan. Normal retirement benefits start at age 65. The Plan contains provisions for early retirement benefits, total and permanent disability benefits, death benefits, surviving spouse benefits, refund benefits, and deferred vested benefits, all of which may affect the calculation of the amount of the participant's benefit payments.

If the total actuarial value of a participant's retirement or deferred vested benefit is \$5,000 or less, the Pension Committee may direct the benefit payment to be paid in a lump-sum amount. All Plan participants are 100% vested at December 31, 2017.

Funding Policy

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in accordance with the funding requirements established by ERISA and at a rate deemed necessary to maintain the Plan on an actuarially sound basis. The amounts of the contributions are based upon the computations of the Plan's independent actuary (see Note 3), and have been designed to provide sufficient funds to pay benefits as they become payable under the Plan. All funding requirements of ERISA have been met for the years ended December 31, 2017 and 2016.

AXIA Incorporated Salaried Employees' Retirement Plan

Notes to Financial Statements

1. Description of the Plan (cont.)

Vesting

All participants have a 100% vested right to receive retirement income benefits.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP require the Plan's management to make estimates and assumptions that affect the amounts reported amounts of assets, liabilities, and changes therein: disclosure of contingent assets and liabilities: and the actuarial present value of accumulated Plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note 5 for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest is recorded when earned and dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Subsequent Events

The Company has evaluated subsequent events through October 15, 2018, which is the date these financial statements were available to be issued.

AXIA Incorporated Salaried Employees' Retirement Plan

Notes to Financial Statements

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to services rendered by the participants to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, and (b) present participants or their beneficiaries.

Benefits payable under all circumstances - retirement, death, disability and termination of employment - are included to the extent they are deemed attributable to participant service rendered to the valuation date (or freeze date).

The actuarial present value of accumulated plan benefits is determined by an independent actuary and represents the amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in determining accumulated plan benefits as of January 1 were as follows:

	2017	2016
Actuarial cost method	- Unit Credit	- Unit Credit
Discount rate	- 7.0%	- 7.0%
Mortality (funding)	- IRS 2017 Static Mortality Table	- IRS 2016 Static Mortality Table
Retirement	- Retirement age of 65	- Retirement age of 65

The following is a summary of the actuarial assumption and methods used to determine the present value of accumulated plan benefits which have been changed since the last valuation:

- The estimated expense assumption changed from \$210,000 to \$270,000 to reflect actual experience.
- The mortality improvement scale (for accounting) was updated from the RP-2014 Adjusted to 2006 total Dataset Mortality Table with Scale MP-2015 to the RP-2014 Adjusted to 2006 Total Dataset Mortality Table with Scale MP-2016.
- These changes in actuarial assumptions decreased the present value of accrued benefits by \$288,128.

Were the Plan to be terminated, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

AXIA Incorporated Salaried Employees' Retirement Plan

Notes to Financial Statements

3. Actuarial Present Value of Accumulated Plan Benefits (cont.)

The actuarial present value of accumulated plan benefits as of the beginning of the Plan year is comprised of the following:

	2017	2016
Vested benefits		
Participants currently receiving payments	\$ 13,394,063	\$ 13,725,593
Other vested benefits	6,499,376	6,764,755
Total vested benefits	19,893,439	20,490,348
Non-vested benefits	-	-
Total actuarial present value of accumulated Plan benefits	\$ 19,893,439	\$ 20,490,348

Changes in the actuarial present value of accumulated plan benefits are as follows:

	2017	2016
Beginning of year	\$ 20,490,348	\$ 20,963,880
Benefits accumulated	(21,853)	177,788
Interest due to decrease in discount period	1,377,069	1,408,173
Assumption changes	(288,128)	(336,093)
Benefits paid	(1,663,997)	(1,723,400)
End of year	\$ 19,893,439	\$ 20,490,348

4. Certified Information

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Prudential Retirement Insurance and Annuity Company (Prudential) and Metropolitan Life Insurance Company (MetLife) have provided certifications that the financial information included in the financial statements and supplemental schedules as of December 31, 2017 and 2016, and for the years then ended provided to the Plan is complete and accurate. The information as to investment assets and transactions therein, and investment income included in the accompanying financial statements and supplemental schedules as of December 31, 2017 and 2016, and for the years then ended are covered by such certifications.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

AXIA Incorporated Salaried Employees' Retirement Plan

5. Fair Value Measurement

GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs in which little or no market data exists (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described below:

Basis of Fair Value Measurement

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 - Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 - Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodology used at December 31, 2017 and 2016.

Pooled Separate Accounts - valued at net asset value (NAV) as practical expedient based on the last reported sales price of the underlying investments held and the number of units held by the Plan at year-end.

Guaranteed investment contract with MetLife - valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016.

<i>December 31, 2017</i>	Level 1		Level 2		Level 3	Total
Guaranteed investment contract with MetLife	\$	-	\$	-	\$ 98,635	98,635
	\$	-	\$	-	\$ 98,635	98,635
Pooled separate accounts measured at NAV*						21,702,777
Total investments at fair value	\$					21,801,412

5. Fair Value Measurement (cont.)

Basis of Fair Value Measurement (cont.)

December 31, 20176	Level 1	Level 2	Level 3	Total
Guaranteed investment contract with MetLife	\$ -	\$ -	\$ 120,805	120,805
	\$ -	\$ -	\$ 120,805	120,805
Pooled separate accounts measured at NAV*				19,190,668
Total investments at fair value			\$	19,311,473

* Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value to the amounts presented in the statements of net assets available for benefits.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Changes in fair value of Level 3 assets and related gains and losses:

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the years ended December 31, 2017 and 2016:

	Fair Value at December 31,	
Guaranteed investment contract	2017	2016
Balance, beginning of year	\$ 120,805	\$ 146,751
Interest	14,266	17,360
Withdrawals	(36,436)	(43,306)
Balance, end of year	\$ 98,635	\$ 120,805

Quantitative information about significant unobservable inputs used in Level 3 fair value measurements:

	Fair Value at December 31,		Principal Valuation Technique	Significant Unobservable Inputs	Interest Rate
	2017	2016			
Guaranteed investment contract	\$ 98,635	\$ 120,805	discounted cash flow	discount rate duration - 15 years	13.82%

AXIA Incorporated Salaried Employees' Retirement Plan

Notes to Financial Statements

5. Fair Value Measurement (cont.)

Fair value of investments in certain entities that calculate NAV per share (or its equivalent) follows:

Investment	Fair Value at December 31,		Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
	2017	2016			
Pooled separate accounts	\$ 21,702,777	\$ 19,190,668	N/A	Daily	N/A

6. Guaranteed Investment Contract

The Guaranteed Interest Contract represents an unallocated group annuity contract with MetLife to provide a fixed rate of return. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions were made and the actuarial present value of accumulated plan benefits were reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

8. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated August 27, 2008 stating that the Plan was qualified under Section 401(a) of the Internal Revenue Code (IRC) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. Although the Plan has been amended since the date of the letter, the Plan administrator believes the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Related-Party and Party in Interest Transactions

Employer contributions receivable totaled \$171,220 and \$593,903 at December 31, 2017 and 2016, respectively, and qualify as a party-in-interest transaction. The 2016 receivable was collected by the Plan in 2017.

AXIA Incorporated Salaried Employees' Retirement Plan

Notes to Financial Statements

9. Related-Party and Party in Interest Transactions (cont.)

All investments are managed by Prudential and MetLife; therefore, these transactions qualify as party-in-interest transactions. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

10. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Whether a particular participant's accumulated plan benefits will be paid depends on the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time and also may depend on the financial condition of the Company. Some benefits may be fully or partially provided for by the existing assets and the PBGC guaranty, while other benefits may not be provided for at all. For further description regarding the priority of participants' claims to the assets of the Plan upon Plan termination and benefits guaranteed by the PBGC, reference is made to this information included in the Plan document.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the AXIA Incorporated Salaried Employees' Retirement Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Prudential Retirement Insurance and Annuity Company (Prudential) and Metropolitan Life Insurance Company (MetLife), except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that Prudential and MetLife hold the Plan's investments and execute investment transactions. The Plan administrator has obtained certifications from Prudential and MetLife as of December 31, 2017 and 2016, and for the years then ended, that the information provided to the Plan administrator by them is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter – Supplemental Schedules

The supplemental schedules, Schedule H, Line 4i, schedule of assets (held at year-end) as of December 31, 2017 and Schedule H, Line 4j, schedule of reportable transactions for the year ended December 31, 2017, are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplemental schedules.

Report on Form and Content in Compliance with DOL's Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by Prudential and MetLife, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

AXIA Incorporated Salaried Employees' Retirement Plan

Notes to Financial Statements

1. Description of the Plan

The Axia Incorporated Salaried Employees' Retirement Plan (the Plan) is a defined benefit pension plan and trust that is designed to provide retirement income to all non-collective bargaining unit employees of AXIA. Other employers included in the Plan are Ames Taping Tool Systems, Co., Ames Taping Tool Systems, Inc., TapeTech Tool Company, Inc., Nestaway (spun-off August 31, 2005), Fischbein Company (spun-off August 31, 2005), Mid America Machine, Corp. (spun-off August 31, 2005), Nestaway Division, Clinton, North Carolina (spun-off August 31, 2005), Nestaway Division, McKenzie, Tennessee (spun-off August 31, 2005), and Flexible Materials Handling (spun-off August 31, 2005).

On December 12, 2009, the Plan's assets and liabilities, along with the assumption of the Plan's sponsorship and fiduciary responsibilities, were transferred from AXIA Incorporated (AXIA) to Porex Holding Corporation (the Company). The Company is the Plan sponsor and Plan administrator.

The Administrative Committee, along with the trustees, control and manage the operation and administration of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The following description of the Plan provides only general information. More detailed information concerning the Plan may be found by consulting the Plan document, which is available from the Plan administrator.

Eligibility

Participation in the Plan was automatic for eligible employees who had attained the age of 21 and completed 1 year of service as of March 31, 2003 (freeze date), when the Plan was closed to new entrants.

Pension Benefits

The amount of retirement benefits to be received depends upon the participants' years of credited service and date of termination. Credited service did not include any Plan year in which the participant worked less than 1,000 hours. Credited service also did not include years of service before participation in the Plan. Credited service which is limited to 30 years and salary increases were frozen as of March 31, 2003.

The amount of the benefit payment may be actuarially adjusted, depending upon the annuity payment method chosen by the participant from the options available under the Plan. Normal retirement benefits start at age 65. The Plan contains provisions for early retirement benefits, total and permanent disability benefits, death benefits, surviving spouse benefits, refund benefits, and deferred vested benefits, all of which may affect the calculation of the amount of the participant's benefit payments.

If the total actuarial value of a participant's retirement or deferred vested benefit is \$5,000 or less, the Pension Committee may direct the benefit payment to be paid in a lump-sum amount. All Plan participants are 100% vested at December 31, 2017.

Funding Policy

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in accordance with the funding requirements established by ERISA and at a rate deemed necessary to maintain the Plan on an actuarially sound basis. The amounts of the contributions are based upon the computations of the Plan's independent actuary (see Note 3), and have been designed to provide sufficient funds to pay benefits as they become payable under the Plan. All funding requirements of ERISA have been met for the years ended December 31, 2017 and 2016.

AXIA Incorporated Salaried Employees' Retirement Plan

Notes to Financial Statements

1. Description of the Plan (cont.)

Vesting

All participants have a 100% vested right to receive retirement income benefits.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP require the Plan's management to make estimates and assumptions that affect the amounts reported amounts of assets, liabilities, and changes therein: disclosure of contingent assets and liabilities: and the actuarial present value of accumulated Plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note 5 for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest is recorded when earned and dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Subsequent Events

The Company has evaluated subsequent events through October 15, 2018, which is the date these financial statements were available to be issued.

AXIA Incorporated Salaried Employees' Retirement Plan

Notes to Financial Statements

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to services rendered by the participants to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, and (b) present participants or their beneficiaries.

Benefits payable under all circumstances - retirement, death, disability and termination of employment - are included to the extent they are deemed attributable to participant service rendered to the valuation date (or freeze date).

The actuarial present value of accumulated plan benefits is determined by an independent actuary and represents the amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in determining accumulated plan benefits as of January 1 were as follows:

	2017	2016
Actuarial cost method	- Unit Credit	- Unit Credit
Discount rate	- 7.0%	- 7.0%
Mortality (funding)	- IRS 2017 Static Mortality Table	- IRS 2016 Static Mortality Table
Retirement	- Retirement age of 65	- Retirement age of 65

The following is a summary of the actuarial assumption and methods used to determine the present value of accumulated plan benefits which have been changed since the last valuation:

- The estimated expense assumption changed from \$210,000 to \$270,000 to reflect actual experience.
- The mortality improvement scale (for accounting) was updated from the RP-2014 Adjusted to 2006 total Dataset Mortality Table with Scale MP-2015 to the RP-2014 Adjusted to 2006 Total Dataset Mortality Table with Scale MP-2016.
- These changes in actuarial assumptions decreased the present value of accrued benefits by \$288,128.

Were the Plan to be terminated, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

AXIA Incorporated Salaried Employees' Retirement Plan

3. Actuarial Present Value of Accumulated Plan Benefits (cont.)

The actuarial present value of accumulated plan benefits as of the beginning of the Plan year is comprised of the following:

	2017	2016
Vested benefits		
Participants currently receiving payments	\$ 13,394,063	\$ 13,725,593
Other vested benefits	6,499,376	6,764,755
Total vested benefits	19,893,439	20,490,348
Non-vested benefits	-	-
Total actuarial present value of accumulated Plan benefits	\$ 19,893,439	\$ 20,490,348

Changes in the actuarial present value of accumulated plan benefits are as follows:

	2017	2016
Beginning of year	\$ 20,490,348	\$ 20,963,880
Benefits accumulated	(21,853)	177,788
Interest due to decrease in discount period	1,377,069	1,408,173
Assumption changes	(288,128)	(336,093)
Benefits paid	(1,663,997)	(1,723,400)
End of year	\$ 19,893,439	\$ 20,490,348

4. Certified Information

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Prudential Retirement Insurance and Annuity Company (Prudential) and Metropolitan Life Insurance Company (MetLife) have provided certifications that the financial information included in the financial statements and supplemental schedules as of December 31, 2017 and 2016, and for the years then ended provided to the Plan is complete and accurate. The information as to investment assets and transactions therein, and investment income included in the accompanying financial statements and supplemental schedules as of December 31, 2017 and 2016, and for the years then ended are covered by such certifications.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

5. Fair Value Measurement

GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs in which little or no market data exists (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described below:

Basis of Fair Value Measurement

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 - Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 - Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodology used at December 31, 2017 and 2016.

Pooled Separate Accounts - valued at net asset value (NAV) as practical expedient based on the last reported sales price of the underlying investments held and the number of units held by the Plan at year-end.

Guaranteed investment contract with MetLife - valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016.

<i>December 31, 2017</i>	Level 1		Level 2		Level 3	Total
Guaranteed investment contract with MetLife	\$	-	\$	-	\$ 98,635	98,635
	\$	-	\$	-	\$ 98,635	98,635

5. Fair Value Measurement (cont.)

Basis of Fair Value Measurement (cont.)

December 31, 20176	Level 1	Level 2	Level 3	Total
Guaranteed investment contract with MetLife	\$ -	\$ -	\$ 120,805	120,805
	\$ -	\$ -	\$ 120,805	120,805
Pooled separate accounts measured at NAV*				19,190,668
Total investments at fair value			\$	19,311,473

* Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value to the amounts presented in the statements of net assets available for benefits.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Changes in fair value of Level 3 assets and related gains and losses:

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the years ended December 31, 2017 and 2016:

	Fair Value at December 31,	
Guaranteed investment contract	2017	2016
Balance, beginning of year	\$ 120,805	\$ 146,751
Interest	14,266	17,360
Withdrawals	(36,436)	(43,306)
Balance, end of year	\$ 98,635	\$ 120,805

Quantitative information about significant unobservable inputs used in Level 3 fair value measurements:

	Fair Value at December 31,		Principal Valuation Technique	Significant Unobservable Inputs	Interest Rate
	2017	2016			
Guaranteed investment contract	\$ 98,635	\$ 120,805	discounted cash flow	discount rate duration - 15 years	13.82%

AXIA Incorporated Salaried Employees' Retirement Plan

5. Fair Value Measurement (cont.)

Fair value of investments in certain entities that calculate NAV per share (or its equivalent) follows:

Investment	Fair Value at December 31,		Unfunded Commitments	Redemption Frequency (if	Redemption Notice Period
	2017	2016		Currently Eligible)	
Pooled separate accounts	\$ 21,702,777	\$ 19,190,668	N/A	Daily	N/A

6. Guaranteed Investment Contract

The Guaranteed Interest Contract represents an unallocated group annuity contract with MetLife to provide a fixed rate of return. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions were made and the actuarial present value of accumulated plan benefits were reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

8. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated August 27, 2008 stating that the Plan was qualified under Section 401(a) of the Internal Revenue Code (IRC) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. Although the Plan has been amended since the date of the letter, the Plan administrator believes the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Related-Party and Party in Interest Transactions

Employer contributions receivable totaled \$171,220 and \$593,903 at December 31, 2017 and 2016, respectively, and qualify as a party-in-interest transaction. The 2016 receivable was collected by the Plan in 2017.

AXIA Incorporated Salaried Employees' Retirement Plan

Notes to Financial Statements

9. Related-Party and Party in Interest Transactions (cont.)

All investments are managed by Prudential and MetLife; therefore, these transactions qualify as party-in-interest transactions. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

10. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Whether a particular participant's accumulated plan benefits will be paid depends on the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time and also may depend on the financial condition of the Company. Some benefits may be fully or partially provided for by the existing assets and the PBGC guaranty, while other benefits may not be provided for at all. For further description regarding the priority of participants' claims to the assets of the Plan upon Plan termination and benefits guaranteed by the PBGC, reference is made to this information included in the Plan document.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the AXIA Incorporated Salaried Employees' Retirement Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Prudential Retirement Insurance and Annuity Company (Prudential) and Metropolitan Life Insurance Company (MetLife), except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that Prudential and MetLife hold the Plan's investments and execute investment transactions. The Plan administrator has obtained certifications from Prudential and MetLife as of December 31, 2017 and 2016, and for the years then ended, that the information provided to the Plan administrator by them is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter – Supplemental Schedules

The supplemental schedules, Schedule H, Line 4i, schedule of assets (held at year-end) as of December 31, 2017 and Schedule H, Line 4j, schedule of reportable transactions for the year ended December 31, 2017, are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplemental schedules.

Report on Form and Content in Compliance with DOL's Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by Prudential and MetLife, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

AXIA Incorporated Salaried Employees' Retirement Plan

Notes to Financial Statements

1. Description of the Plan

The Axia Incorporated Salaried Employees' Retirement Plan (the Plan) is a defined benefit pension plan and trust that is designed to provide retirement income to all non-collective bargaining unit employees of AXIA. Other employers included in the Plan are Ames Taping Tool Systems, Co., Ames Taping Tool Systems, Inc., TapeTech Tool Company, Inc., Nestaway (spun-off August 31, 2005), Fischbein Company (spun-off August 31, 2005), Mid America Machine, Corp. (spun-off August 31, 2005), Nestaway Division, Clinton, North Carolina (spun-off August 31, 2005), Nestaway Division, McKenzie, Tennessee (spun-off August 31, 2005), and Flexible Materials Handling (spun-off August 31, 2005).

On December 12, 2009, the Plan's assets and liabilities, along with the assumption of the Plan's sponsorship and fiduciary responsibilities, were transferred from AXIA Incorporated (AXIA) to Porex Holding Corporation (the Company). The Company is the Plan sponsor and Plan administrator.

The Administrative Committee, along with the trustees, control and manage the operation and administration of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The following description of the Plan provides only general information. More detailed information concerning the Plan may be found by consulting the Plan document, which is available from the Plan administrator.

Eligibility

Participation in the Plan was automatic for eligible employees who had attained the age of 21 and completed 1 year of service as of March 31, 2003 (freeze date), when the Plan was closed to new entrants.

Pension Benefits

The amount of retirement benefits to be received depends upon the participants' years of credited service and date of termination. Credited service did not include any Plan year in which the participant worked less than 1,000 hours. Credited service also did not include years of service before participation in the Plan. Credited service which is limited to 30 years and salary increases were frozen as of March 31, 2003.

The amount of the benefit payment may be actuarially adjusted, depending upon the annuity payment method chosen by the participant from the options available under the Plan. Normal retirement benefits start at age 65. The Plan contains provisions for early retirement benefits, total and permanent disability benefits, death benefits, surviving spouse benefits, refund benefits, and deferred vested benefits, all of which may affect the calculation of the amount of the participant's benefit payments.

If the total actuarial value of a participant's retirement or deferred vested benefit is \$5,000 or less, the Pension Committee may direct the benefit payment to be paid in a lump-sum amount. All Plan participants are 100% vested at December 31, 2017.

Funding Policy

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in accordance with the funding requirements established by ERISA and at a rate deemed necessary to maintain the Plan on an actuarially sound basis. The amounts of the contributions are based upon the computations of the Plan's independent actuary (see Note 3), and have been designed to provide sufficient funds to pay benefits as they become payable under the Plan. All funding requirements of ERISA have been met for the years ended December 31, 2017 and 2016.

AXIA Incorporated Salaried Employees' Retirement Plan

Notes to Financial Statements

1. Description of the Plan (cont.)

Vesting

All participants have a 100% vested right to receive retirement income benefits.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP require the Plan's management to make estimates and assumptions that affect the amounts reported amounts of assets, liabilities, and changes therein: disclosure of contingent assets and liabilities: and the actuarial present value of accumulated Plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note 5 for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest is recorded when earned and dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Subsequent Events

The Company has evaluated subsequent events through October 15, 2018, which is the date these financial statements were available to be issued.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to services rendered by the participants to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, and (b) present participants or their beneficiaries.

Benefits payable under all circumstances - retirement, death, disability and termination of employment - are included to the extent they are deemed attributable to participant service rendered to the valuation date (or freeze date).

The actuarial present value of accumulated plan benefits is determined by an independent actuary and represents the amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in determining accumulated plan benefits as of January 1 were as follows:

	2017	2016
Actuarial cost method	- Unit Credit	- Unit Credit
Discount rate	- 7.0%	- 7.0%
Mortality (funding)	- IRS 2017 Static Mortality Table	- IRS 2016 Static Mortality Table
Retirement	- Retirement age of 65	- Retirement age of 65

The following is a summary of the actuarial assumption and methods used to determine the present value of accumulated plan benefits which have been changed since the last valuation:

- The estimated expense assumption changed from \$210,000 to \$270,000 to reflect actual experience.
- The mortality improvement scale (for accounting) was updated from the RP-2014 Adjusted to 2006 total Dataset Mortality Table with Scale MP-2015 to the RP-2014 Adjusted to 2006 Total Dataset Mortality Table with Scale MP-2016.
- These changes in actuarial assumptions decreased the present value of accrued benefits by \$288,128.

Were the Plan to be terminated, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

3. Actuarial Present Value of Accumulated Plan Benefits (cont.)

The actuarial present value of accumulated plan benefits as of the beginning of the Plan year is comprised of the following:

	2017	2016
Vested benefits		
Participants currently receiving payments	\$ 13,394,063	\$ 13,725,593
Other vested benefits	6,499,376	6,764,755
Total vested benefits	19,893,439	20,490,348
Non-vested benefits	-	-
Total actuarial present value of accumulated Plan benefits	\$ 19,893,439	\$ 20,490,348

Changes in the actuarial present value of accumulated plan benefits are as follows:

	2017	2016
Beginning of year	\$ 20,490,348	\$ 20,963,880
Benefits accumulated	(21,853)	177,788
Interest due to decrease in discount period	1,377,069	1,408,173
Assumption changes	(288,128)	(336,093)
Benefits paid	(1,663,997)	(1,723,400)
End of year	\$ 19,893,439	\$ 20,490,348

4. Certified Information

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Prudential Retirement Insurance and Annuity Company (Prudential) and Metropolitan Life Insurance Company (MetLife) have provided certifications that the financial information included in the financial statements and supplemental schedules as of December 31, 2017 and 2016, and for the years then ended provided to the Plan is complete and accurate. The information as to investment assets and transactions therein, and investment income included in the accompanying financial statements and supplemental schedules as of December 31, 2017 and 2016, and for the years then ended are covered by such certifications.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

5. Fair Value Measurement

GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs in which little or no market data exists (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described below:

Basis of Fair Value Measurement

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 - Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 - Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodology used at December 31, 2017 and 2016.

Pooled Separate Accounts - valued at net asset value (NAV) as practical expedient based on the last reported sales price of the underlying investments held and the number of units held by the Plan at year-end.

Guaranteed investment contract with MetLife - valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016.

<i>December 31, 2017</i>	Level 1		Level 2		Level 3	Total
Guaranteed investment contract with MetLife	\$	-	\$	-	\$ 98,635	98,635
	\$	-	\$	-	\$ 98,635	98,635
Pooled separate accounts measured at NAV*						21,702,777
Total investments at fair value	\$					21,801,412

5. Fair Value Measurement (cont.)

Basis of Fair Value Measurement (cont.)

December 31, 20176	Level 1	Level 2	Level 3	Total
Guaranteed investment contract with MetLife	\$ -	\$ -	\$ 120,805	120,805
	\$ -	\$ -	\$ 120,805	120,805
Pooled separate accounts measured at NAV*				19,190,668
Total investments at fair value			\$	19,311,473

* Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value to the amounts presented in the statements of net assets available for benefits.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Changes in fair value of Level 3 assets and related gains and losses:

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the years ended December 31, 2017 and 2016:

	Fair Value at December 31,	
Guaranteed investment contract	2017	2016
Balance, beginning of year	\$ 120,805	\$ 146,751
Interest	14,266	17,360
Withdrawals	(36,436)	(43,306)
Balance, end of year	\$ 98,635	\$ 120,805

Quantitative information about significant unobservable inputs used in Level 3 fair value measurements:

	Fair Value at December 31,		Principal Valuation Technique	Significant Unobservable Inputs	Interest Rate
	2017	2016			
Guaranteed investment contract	\$ 98,635	\$ 120,805	discounted cash flow	discount rate duration - 15 years	13.82%

5. Fair Value Measurement (cont.)

Fair value of investments in certain entities that calculate NAV per share (or its equivalent) follows:

Investment	Fair Value at December 31,		Unfunded Commitments	Redemption Frequency (if	Redemption Notice Period
	2017	2016		Currently Eligible)	
Pooled separate accounts	\$ 21,702,777	\$ 19,190,668	N/A	Daily	N/A

6. Guaranteed Investment Contract

The Guaranteed Interest Contract represents an unallocated group annuity contract with MetLife to provide a fixed rate of return. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions were made and the actuarial present value of accumulated plan benefits were reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

8. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated August 27, 2008 stating that the Plan was qualified under Section 401(a) of the Internal Revenue Code (IRC) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. Although the Plan has been amended since the date of the letter, the Plan administrator believes the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Related-Party and Party in Interest Transactions

Employer contributions receivable totaled \$171,220 and \$593,903 at December 31, 2017 and 2016, respectively, and qualify as a party-in-interest transaction. The 2016 receivable was collected by the Plan in 2017.

Notes to Financial Statements

9. Related-Party and Party in Interest Transactions (cont.)

All investments are managed by Prudential and MetLife; therefore, these transactions qualify as party-in-interest transactions. As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

10. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Whether a particular participant's accumulated plan benefits will be paid depends on the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time and also may depend on the financial condition of the Company. Some benefits may be fully or partially provided for by the existing assets and the PBGC guaranty, while other benefits may not be provided for at all. For further description regarding the priority of participants' claims to the assets of the Plan upon Plan termination and benefits guaranteed by the PBGC, reference is made to this information included in the Plan document.
