1 Description of Plan

The following description of the Pension Plan for Eaton Employees in Puerto Rico (the "Plan") provides only general information. Participants should refer to the Plan document and summary plan descriptions, which are available from the Company's Human Resources Department upon request, for a complete description of the Plan's provisions.

General:

The Plan is a noncontributory defined benefit plan that covers substantially all hourly and salary employees of Cutler-Hammer Electrical Company (the "Company" or the "Plan Sponsor"), a wholly owned subsidiary of Eaton Corporation plc ("Eaton"). The Plan provides for retirement and death benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Company elected to use the transitional relief provisions under Revenue Ruling 2008-40, to establish the Plan effective December 1, 2010. All assets and liabilities of the prior plans were transferred to the Plan on that date, in accordance with Section 414(l) of the Internal Revenue Code. On and after December 1, 2010, Plan participants accrue benefits solely under the Plan. Prior to December 1, 2010, the Plan's participants accrued benefits under prior plans. All credited service earned under prior plans was carried over to the Plan.

Subsequent to the effective date of the Plan, the Puerto Rico Internal Revenue Code of 2011 (“PRIRC”) was adopted superseding the Puerto Rico Internal Revenue Code of 1994 in a variety of respects. The Plan was amended and restated effective January 1, 2011 and further amended on December 20, 2012 to reflect new provisions of law, as well as for other purposes. The Plan was amended on March 28, 2013 to exclude from participation certain employees who are classified on and after April 1, 2013 as new hires, rehires and/or certain transfers. The Plan was further amended on December 17, 2013, on April 2, 2015, on December 14, 2016, and on December 12, 2017 to expand or clarify certain provisions and to make other technical and clerical changes. The Plan is not intended to be qualified under Section 401(a) of the Internal Revenue Code of 1986, as amended. Instead, the Plan is intended to be qualified only under Section 1081.01(a) of the PRIRC.

In 2014, the Company requested a determination from the Pension Benefit Guaranty Corporation (PBGC) that the Plan is not covered by the PBGC insurance program. The Plan received a ruling from the PBGC dated February 1, 2016 stating that the Plan is not covered. The Company applied for a refund of all premiums paid for the Plan since December 1, 2010, and the Plan received a refund of $1,867,130 from the PBGC in 2016.

Funding Policy:

The Company makes contributions in amounts sufficient to maintain the Plan on a sound actuarial basis. The Company’s policy is to fund at least the ERISA minimum funding requirement for the year. The Plan has met the ERISA minimum funding requirements. The Company has the right to amend and/or terminate the Plan subject to the provisions of ERISA.

Pension Benefits:

Participants are vested in their benefits earned under various methods defined in the Plan. Normal retirement age is 65. Participants may be entitled to early retirement payments based on the Plan document. Forms of payment include lump sum options, and various annuity options depending on whether the participant has a spouse and what type of joint and survivor option the participant chooses.

2 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting.

Investment Valuation:

Plan investments are reported at fair value. Fixed income and index mutual funds are traded on a national securities exchange and are valued at the closing price on the last business day of the Plan year. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Actuarial Present Value of Accumulated Plan Benefits:

Accumulated Plan benefits are those future periodic payments, including lump sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits for hourly employees under the Plan are based on the greater of career pensionable compensation multiplied by a predetermined percentage or years of credited service multiplied by a monthly factor. The benefits for salaried employees in the traditional plan are based on final average pay multiplied by a predetermined percentage and the employees' years of credited service. The benefits for employees in cash balance plans are based on the current value of the account balance.

Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated Plan benefits.

Administrative Fees:

All administrative costs, management fees and expenses of the Plan are paid by the trustee from the trust unless such costs, fees and expenses are paid by the Company. The Company elected to pay certain administrative costs during 2017 and 2016, on behalf of the Plan. The administrative costs paid by the Plan are accounted for in setting the assumed rate of return on investments.

Payment of Benefits:

Benefit payments to participants are recorded upon distribution.

2 Summary of Significant Accounting Policies, Continued

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event that the Plan terminates, the net assets of the Plan shall be allocated among the participants and beneficiaries in accordance with the priorities mandated by ERISA. Whether a particular participant's accumulated Plan benefits will be paid depends on the priority of those benefits. Some benefits may be fully or partially provided for by the then existing assets, while other benefits may not be provided for at all. A full description of the defined benefit plan termination priorities is available in the Plan document.

Risks and Uncertainties:

The Plan's investments include investments in registered investment companies with varying degrees of risk, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Subsequent Events:

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through October 12, 2018, which is the date the financial statements were available to be issued.

3 Tax Status

The Plan has received a determination letter from the Puerto Rico Department of the Treasury dated January 27, 2014, stating that the Plan meets the requirements of Section 1081.01 of the Puerto Rico Internal Revenue Code of 2011 ("PRIRC"); therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the PRIRC to maintain its qualification. The Plan Sponsor believes the Plan is being operated in compliance with the applicable requirements of the PRIRC and, therefore, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2017 there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress.

4 Accumulated Plan Benefits

The Plan's actuary estimates the actuarial present value of accumulated Plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The accumulated Plan benefit information as of the beginning of the Plan Year is as follows:

	January 1, 2017
Actuarial present value of accumulated Plan benefits:	
Vested benefits:	
Participants currently receiving payments	**$ 22,959,181**
Other participants	**39,029,946**
	61,989,127
Non-vested benefits	**1,379,426**
Total	**$ 63,368,553**

The changes in actuarial present value of accumulated Plan benefits are as follows:

Balance as of January 1, 2016	**$ 58,224,974**
Benefits accumulated	**1,953,528**
Interest	**4,410,239**
Benefits paid	**(2,734,087)**
Assumption changes	**1,513,899**
Balance as of January 1, 2017	**$ 63,368,553**

4 Accumulated Plan Benefits, Continued

Significant assumptions underlying the actuarial computations are:

Actuarial cost method	Projected unit credit
Assumed rate of return on investments	7.25% (2017); 7.50% (2016)
Salary increase	Age-graded scale of 6% to 1% for hourly participants and 8% to 4% for salaried participants

In addition, the following changes in assumptions were made since the last valuation:

Mortality basis	Mortality tables for healthy participants are based on the RP-2014 Annuitant and Employee Mortality Tables published by the Society of Actuaries rolled back to 2006 and projected with a modified generational improvement scale. The modified generational improvement scale has been changed from the Conduent modified version of the MP-2015 Improvement Scale (2016) to the Conduent modified version of the MP-2016 Improvement Scale (2017).

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

5 Party-in-Interest Transactions

During 2017 and 2016, internal costs attributed to certain accounting and legal services and external fees for certain professional services were paid by the Company on behalf of the Plan, while the Plan paid fees for trustee, actuarial, investment management and other professional services.

6 Fair Value Measurements

ASC 820, which applies to financial assets and liabilities, establishes a framework for measuring fair value, establishes a fair value hierarchy based on inputs used to measure fair value, and expands disclosure about fair value measurements. Adopting this statement has not had an effect on the Plan's net assets available for benefits or changes in those net assets.

In accordance with ASC 820, the Plan categorized its financial instruments, based on the degree of subjectivity inherent in the valuation technique, into a fair value hierarchy of three levels, as follows:

• Level 1 - inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.

• Level 2 - inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

• Level 3 - inputs to the valuation methodology are unobservable and significant to the fair value measurement.

6 Fair Value Measurements, Continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Registered investment companies : Valued at the net asset value (NAV) of shares held by the Plan at year end.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017:

	Level 1 Fair Value	**Level 2 Fair Value**	**Level 3 Fair Value**	**Totals**
Registered investment companies	**$ 67,850,327**	**$ -**	**$ -**	**$ 67,850,327**

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016:

	Level 1 Fair Value	Level 2 Fair Value	Level 3 Fair Value	Totals
Registered investment companies	$ 55,166,941	$ -	$ -	$ 55,166,941

For the years ended December 31, 2017 and 2016, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

The percent of a participant's pay that the plan will credit to the cash balance account is based upon the number of age/service points accumulated up to that point. The percentage is based on the following table:

Pay Credits	
Age/Service Points	**Percent of Pay to be Credited to the Account**
Less than 50	5.00%
50 – 59	6.00%
60 – 69	7.00%
70 or more	8.00%

Interest Credits

The Interest Credit interest rate applicable for January through June will be based on the monthly 30-year average Treasury bond rate of the November of the preceding calendar year. The Interest Credit interest rate applicable for July through December will be based on the monthly 30-year average Treasury bond rate of the May of the current calendar year.

Index Credits

Index Credits are applicable for active participants who were former Appendix B participants who elected the EPPA during the choice process. During the disability, the participant will also continue to earn Service for purposes of vesting. When the participant reaches age 65 or the LTD benefits end – whichever comes later – the participant will begin receiving benefits under any of the payment options offered by the plan.

Form of Payment

Salaried cash balance participants: 18% of participants are assumed to elect a single life annuity, 1% are assumed to elect a joint and 50% survivor annuity, 1% are assumed to elect a joint and 100% survivor annuity, and 80% are assumed to elect the lump sum optional form of payment. It is assumed that terminated participants commence their benefits at age 62.

Salaried non-cash balance participants: 30% of participants are assumed to elect a single life annuity, 5% are assumed to elect a joint and 50% survivor annuity, 5% are assumed to elect a joint and 100% survivor annuity, and 60% are assumed to elect the lump sum optional form of payment. It is assumed that terminated participants commence their benefits at age 62.

Hourly participants: 100% of participants are assumed to elect the normal form of payment, which is a life annuity with five years guaranteed. It is assumed that terminated participants commence their benefits at age 65.

Challenger Caribbean frozen benefits are valued with the normal form of payment for these benefits, which is a single life annuity. It is assumed that terminated participants commence their benefits at age 65. (There are 69 participants with frozen Challenger benefits.)

SCHEDULE SB ATTACHMENTS (cont.)

Calculation of Lump Sum

Lump sums were valued using the substitution of annuity form under IRS Regulation 1.430(d)-1(f)(4) and current year 417(e)(3) applicable mortality without projection.

Marriage

For purposes of valuing the pre-retirement surviving spouse's benefit, 80% of all participants are assumed to be married. Assumption is not applicable for salaried participants who can have a non-spouse beneficiary. Male spouses are assumed to be three (3) years older than female spouses.

Employees

It was assumed there will be no new or rehired employees.

Plan Compensation

Salaried participants: Plan compensation is the expected base pay rate for the valuation year plus a three-year average of executive incentive compensation (EIC) plus a three-year average of variable non-EIC bonus compensation.

Hourly participants: Plan compensation is actual gross earnings during the prior year, provided by the employer.

Methods

Valuation Date

First day of plan year.

Funding Target

Present value of accrued benefits as required by regulations under IRC §430.

Target Normal Cost

Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

SCHEDULE SB ATTACHMENTS (cont.)

Participant Data

Participant data as of the valuation date was supplied by the employer.

Asset Method: Average Value

Average of the fair market value of assets on the valuation date and the dates 12 and 24 months before the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable. The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years.

Benefits not Included in Valuation

Actual early retirement supplements for Hourly participants have not been valued. The total amount of early retirement supplements that has been paid to actual retirees over the last several years has been deemed immaterial.

Assumptions Rationale – Significant Economic Assumptions	
Discount Rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Cash Balance Interest Crediting Rate	The plan credits interest to cash balance accounts using the 30-year Treasury rate. Our long term estimate of the 30-year Treasury rate is 5.00%, based on a combination of current conditions, past history, including relationships to other assumptions such as CPI, and future economic expectations.
Lump Sum Conversion Rate	As required by IRC 430, lump sum benefits are valued using "annuity substitution", so that the interest rates assumed are effectively the same as described above for the discount rate.
Rates of Increase in Compensation	Assumed compensation increases are based on an experience study performed during 2013 of actual salary increases from 2008 to 2012 for the hourly participants and from 2009 to 2012 for the salaried participants. The hourly group increase table reflects both changes in rate of pay and changes in number of hours worked.
Plan-related Expenses	This amount is estimated by determining the actual expenses paid from the trust during the preceding year, and adjusting for any expected changes.

SCHEDULE SB ATTACHMENTS (cont.)

Assumed Return for Asset Smoothing	The assumed return used for asset smoothing is equal to the lesser of the expected return on assets for the plan year under ASC 715-30-35 and the third segment rate. The expected return on assets under ASC 715-30-35 was selected by the plan sponsor without using the work of Willis Towers Watson. Evaluation of this assumption was outside the scope of Willis Towers Watson's assignment and would have required substantial additional work that we were not engaged to perform. We understand that the expected return on assets assumption reflects the plan sponsor's estimate of future experience for trust asset returns, reflecting the plan's current asset allocation and any expected changes during the current plan year, current market conditions and the plan sponsor's expectations for future market conditions.

Assumptions Rationale - Significant Demographic Assumptions

Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in 2013 of actual terminations during the three-year period from 2010 to 2012, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. Assumed termination rates differ by age and service because of observed differences in termination rates by service.
Retirement	Retirement rates were based on an experience study conducted in 2013 of actual retirements during the three-year period from 2010 to 2012, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. Retirement rates differ for hourly and salaried participants prior to age 60 because of the differences in early retirement eligibility for those groups.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.
