1. DESCRIPTION OF PLAN

The following description of the Matson and Subsidiaries 401(k) Retirement Savings Plan for Bargaining Unit Employees (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General—The Plan, sponsored by Matson, Inc. (the "Company" or the "Plan Sponsor"), is a defined contribution plan established on July 1, 1995, for Matson Navigation Company, Inc. and its subsidiaries. Matson Navigation Company, Inc. and Matson Terminals, Inc. are participating companies in the Plan with respect to certain of their bargaining unit employees. Such bargaining unit employees may elect to participate in the Plan on their employment commencement date.

The assets of the Plan are held in the Matson, Inc. Defined Contribution Plans Master Trust (the "Master Trust"). Fidelity Management Trust Company ("Fidelity") serves as the trustee for the Master Trust. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant Accounts—Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions and allocations of Plan earnings and charged with an allocation of Plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant Contributions—The provisions of the Plan provide each eligible employee with the opportunity of contributing a portion of his or her compensation each year without being taxed on the contribution. Participants must designate a percentage (from 1% to 50%, in multiples of 1%) of their compensation to contribute to the deferred account. Under Plan provisions, the participant's contribution may not exceed 50% of his or her compensation, up to the maximum permitted by statute.

Catch-Up Contributions—In accordance with the Internal Revenue Code (IRC), this provision, which became effective August 1, 2002, allows participants who are over age 50 or reach age 50 during the Plan year January 1 to December 31 to make additional contributions. The maximum annual catch-up contribution is $6,000 for 2017 and 2016.

Rollover Accounts—Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions are subject to certain IRC limitations.

Investments—Participants direct the investment of their contributions into various investment options offered by the Plan. The investments are held in a master trust for the Company's defined contribution plans. The Plan currently offers 29 mutual funds and a stable value fund as investment options for participants.

Vesting—Participants are vested immediately in all their accounts, including earnings thereon.

Payment of Benefits—On termination of service due to death, disability, retirement or termination for other reasons, a participant may elect to receive distribution in the form of: (1) a lump-sum amount equal to the value of the participant's vested interest in his or her account; or (2) direct rollover to an eligible retirement plan.

In-Service Withdrawals—A participant may request an in-service hardship withdrawal of his rollover account balance, if any, and his deferred account contributions. A participant who incurs a disability may request a withdrawal of up to 100% of his account balance. A participant who is called to active duty in the uniformed services for more than 179 days or for an indefinite period may withdraw up to 100% of his deferred account balance as a qualified reservist distribution.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting—The financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates—The preparation of financial statements in conformity with GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties—The Plan's investment in the Master Trust utilizes various investment instruments, including money market funds and mutual funds. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the value of the participants' account balance and the amounts reported in the financial statements.

Valuation of Investment in Master Trust—The Plan's investment in the Master Trust is stated at fair value, which has been determined based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date of the Master Trust. The Master Trust holds investments in cash and cash equivalents, the Plan Sponsor's common stock, other common stock and preferred stock, money market funds, equity and fixed-income mutual funds and a stable value fund. The fair values of cash and cash equivalents, common stocks, the Plan Sponsor's common stock and mutual funds are based on quoted market prices. Money market funds are stated at amortized cost, which approximates fair value. Stable value funds are valued at the net asset value as a practical expedient to estimate fair value. See Note 4 for additional information on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in the registered investment companies are deducted from income earned and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Administrative Expenses—Administrative expenses of the Plan are paid by either the Plan or the Plan's sponsor, as provided in the Plan document.

Payment of Benefits—Benefit payments to participants are recorded upon distribution.

Excess Contributions Payable—The Plan is required to return contributions received during the Plan year in excess of the IRC limits.

Subsequent Events—Subsequent events were evaluated through October 15, 2018, the date the financial statements were available to be issued.

New Accounting Pronouncement— In February 2017, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2017-06, *Plan Accounting-Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting (A Consensus of the Emerging Issues Task Force)*. ASU 2017-06 amended the presentation and disclosure requirements relating to master trusts in accordance with GAAP. The amendments are effective for all plan years beginning after December 15, 2018, and are to be applied retrospectively. Early adoption is permitted. The Plan is currently evaluating the impact that the guidance will have on the Plan's financial statements.

3. INVESTMENT IN THE MASTER TRUST

The Master Trust is composed of 29 mutual funds, a stable value fund, a collective trust fund and participant-directed brokerage accounts which allow participants to directly invest in cash and cash equivalents, stocks or funds other than the Lifecycle or Core Investment Options offered, Alexander & Baldwin, Inc. ("A&B") common stock and the Company's common stock, some of which are specific to individual plans. The assets are invested and records are maintained by each investment fund option. Funds are allocated to the three participating plans (the "Plans") (see below) in accordance with the Plans' provisions and participant allocation elections. The allocation of net assets available for benefits is based on the respective number of units held by the Plans' participants as of the Plans' year-ends. The allocation of the changes in net assets available for benefits is calculated daily based on the units held by the Plans' participants as of that day's end.

At December 31, 2017 and 2016, the assets of the following Plans were combined in the Master Trust:

- Matson Individual Deferred Compensation and Profit Sharing Plan for Bargaining Unit Employees
- The Matson Inc. 401(k) and Profit Sharing Plan for Non-Bargaining Employees
- Matson and Subsidiaries 401(k) Retirement Savings Plan for Bargaining Unit Employees

The fair values of investments in the Master Trust as of December 31, 2017 and 2016, were as follows:

Total Master Trust investments	$ 238,881,386	$ 208,089,056

During 2017 and 2016, the Master Trust's investments (including gains and losses on investments bought, sold, as well as held, during the year) appreciated in value as follows:

	2017	2016

The Plan's interest in the Master Trust at December 31, 2017 and 2016, was $27,095,864 and $22,604,353, respectively, representing 11.3% and 10.9%, respectively, of the Master Trust's net assets.

During the years ended December 31, 2017 and 2016, the Plan's interest in the Master Trust appreciated by $4,565,005 and $1,437,155, respectively.

4. FAIR VALUE MEASUREMENTS

ASC 820, Fair Value Measurements and Disclosures, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market, but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Asset Valuation Techniques—Valuation technologies maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Common Stock—Investments in common stock are valued at the closing price reported on the active market on which the securities are traded, on the last business day of the Plan year. Common stock are categorized as Level 1.

Mutual Funds—Investments in mutual funds are valued at the publicly quoted net asset value (NAV) of each fund and are categorized as Level 1. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. The total NAV is calculated by multiplying the NAV per share by the number of shares held as of the measurement date.

Stable Value Funds—Investments in stable value funds compose primarily of fully benefit-responsive investment contracts and are reported at fair value using NAV as a practical expedient. The stable value fund calculates NAV per share in a manner consistent with the measurement principles in FASB Accounting Standards Codification Topic 946 Financial Services—Investment Companies. Those measurement principles indicate that, in the determination of a stable value fund's NAV, the relevant measurement is net assets which include the fully benefit investment contracts held by the fund at contract value. This NAV represents the Plan's fair value since this is the NAV at which the Plan transacts with the fund. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

Collective Trust Fund—Investments in the collective trust fund are valued at the NAV of units of a bank collective trust. The NAV as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Cash and cash equivalents—Cash and cash equivalents are valued at cost plus accrued interest.

A summary of the Master Trust's investments measured at fair value on a recurring basis as of December 31, 2017, set forth by level within the fair value hierarchy, is as follows:

(a) In accordance with the Fair Value Measurements topic, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of assets available for benefits.

Transfer between Levels—The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2017 and 2016, there were no transfers in or out of Level 1, Level 2 or Level 3.

The following table sets forth a summary of the Master Trust's investment in common collective trust funds with a reported NAV at December 31, 2017 and 2016.

	Fair Value Estimate Using NAV per Share at December 31				
Investment	**2017**	**2016**	**Unfunded Commitment**	**Redemption Frequency**	**Redemption Notice Period**

Wells Fargo Stable Value Fund Class C	20,115,625	16,334,223	None	Immediate	None
	$20,115,625	$20,334,174			

The Fidelity Managed Income Portfolio fund strategies seek to invest in benefit-responsive investment contracts issued by insurance companies and other financial institutions, fixed income securities and money market funds. The Wells Fargo Stable Value Fund Class C invests all of its assets in Wells Fargo Stable Return Fund G, a collective trust fund sponsored by Wells Fargo, N.A.

5. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth by ERISA. In the event that the Plan is terminated, participants would become 100% vested in their accounts.

6. FEDERAL INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company, by a letter dated March 22, 2011, that the Plan is designed in accordance with the applicable regulations of the IRC. The Plan has been amended since receiving the determination letter. The Plan has applied for an updated determination letter in 2016 after the expiration of the March 2011 determination letter and has received an IRS acknowledgment letter regarding the receipt of its request. As of the date that these financials were available to be issued, the Plan has not received an issued letter. However, the Plan administrator believes that the Plan is currently designed and operated in compliance with the applicable sections of the IRC, and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. No uncertain tax positions were recorded at December 31, 2017 and 2016. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. DISTRIBUTIONS

There were no distributions payable to terminated employees included in net assets available for benefits for the years ended December 31, 2017 and 2016.

8. INFORMATION CERTIFIED BY TRUSTEE

The following is a summary of unaudited information regarding the Plan as of December 31, 2017 and 2016, and for the years then ended, included in the Plan's financial statements that was prepared by or derived from information prepared by the Plan's trustee, Fidelity, and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that such information is complete and accurate.

The NAV of the stable value fund and the collective trust fund were certified as complete and accurate by the trustee.

	2017	2016
Statements of net assets available for benefits - investment in Master Trust	$ 27,095,864	$ 22,604,353
Statements of changes in net assets available for benefits - appreciation from investment in Master Trust	$ 4,565,005	$ 1,437,155

Notes 3, 4 and 9: All investment balances and investment information have been certified by the trustee, excluding the classification of investments by level in Note 4. All investment balances and investment information included in the supplemental schedule of assets (held at year-end) has also been certified by the trustee.

9. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Master Trust investments are shares of mutual funds managed by Fidelity. Fidelity is the trustee as defined by the Plan, and therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.

At December 31, 2017 and 2016, the Master Trust held common stock of the Company, the sponsoring employer, and recorded dividend income related to this common stock as follows:

	2017	2016
Matson, Inc. common stock - number of shares	82,103	86,974
Matson, Inc. common stock - cost basis	$ 1,772,260	$ 1,858,967

1. DESCRIPTION OF PLAN

The following description of the Matson and Subsidiaries 401(k) Retirement Savings Plan for Bargaining Unit Employees (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General—The Plan, sponsored by Matson, Inc. (the "Company" or the "Plan Sponsor"), is a defined contribution plan established on July 1, 1995, for Matson Navigation Company, Inc. and its subsidiaries. Matson Navigation Company, Inc. and Matson Terminals, Inc. are participating companies in the Plan with respect to certain of their bargaining unit employees. Such bargaining unit employees may elect to participate in the Plan on their employment commencement date.

The assets of the Plan are held in the Matson, Inc. Defined Contribution Plans Master Trust (the "Master Trust"). Fidelity Management Trust Company ("Fidelity") serves as the trustee for the Master Trust. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participant Accounts—Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions and allocations of Plan earnings and charged with an allocation of Plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant Contributions—The provisions of the Plan provide each eligible employee with the opportunity of contributing a portion of his or her compensation each year without being taxed on the contribution. Participants must designate a percentage (from 1% to 50%, in multiples of 1%) of their compensation to contribute to the deferred account. Under Plan provisions, the participant's contribution may not exceed 50% of his or her compensation, up to the maximum permitted by statute.

Catch-Up Contributions—In accordance with the Internal Revenue Code (IRC), this provision, which became effective August 1, 2002, allows participants who are over age 50 or reach age 50 during the Plan year January 1 to December 31 to make additional contributions. The maximum annual catch-up contribution is $6,000 for 2017 and 2016.

Rollover Accounts—Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Contributions are subject to certain IRC limitations.

Investments—Participants direct the investment of their contributions into various investment options offered by the Plan. The investments are held in a master trust for the Company's defined contribution plans. The Plan currently offers 29 mutual funds and a stable value fund as investment options for participants.

Vesting—Participants are vested immediately in all their accounts, including earnings thereon.

Payment of Benefits—On termination of service due to death, disability, retirement or termination for other reasons, a participant may elect to receive distribution in the form of: (1) a lump-sum amount equal to the value of the participant's vested interest in his or her account; or (2) direct rollover to an eligible retirement plan.

In-Service Withdrawals—A participant may request an in-service hardship withdrawal of his rollover account balance, if any, and his deferred account contributions. A participant who incurs a disability may request a withdrawal of up to 100% of his account balance. A participant who is called to active duty in the uniformed services for more than 179 days or for an indefinite period may withdraw up to 100% of his deferred account balance as a qualified reservist distribution.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting—The financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates—The preparation of financial statements in conformity with GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties—The Plan's investment in the Master Trust utilizes various investment instruments, including money market funds and mutual funds. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the value of the participants' account balance and the amounts reported in the financial statements.

Valuation of Investment in Master Trust—The Plan's investment in the Master Trust is stated at fair value, which has been determined based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date of the Master Trust. The Master Trust holds investments in cash and cash equivalents, the Plan Sponsor's common stock, other common stock and preferred stock, money market funds, equity and fixed-income mutual funds and a stable value fund. The fair values of cash and cash equivalents, common stocks, the Plan Sponsor's common stock and mutual funds are based on quoted market prices. Money market funds are stated at amortized cost, which approximates fair value. Stable value funds are valued at the net asset value as a practical expedient to estimate fair value. See Note 4 for additional information on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in the registered investment companies are deducted from income earned and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Administrative Expenses—Administrative expenses of the Plan are paid by either the Plan or the Plan's sponsor, as provided in the Plan document.

Payment of Benefits—Benefit payments to participants are recorded upon distribution.

Excess Contributions Payable—The Plan is required to return contributions received during the Plan year in excess of the IRC limits.

Subsequent Events—Subsequent events were evaluated through October 15, 2018, the date the financial statements were available to be issued.

New Accounting Pronouncement— In February 2017, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2017-06, *Plan Accounting-Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting (A Consensus of the Emerging Issues Task Force)*. ASU 2017-06 amended the presentation and disclosure requirements relating to master trusts in accordance with GAAP. The amendments are effective for all plan years beginning after December 15, 2018, and are to be applied retrospectively. Early adoption is permitted. The Plan is currently evaluating the impact that the guidance will have on the Plan's financial statements.

3. INVESTMENT IN THE MASTER TRUST

The Master Trust is composed of 29 mutual funds, a stable value fund, a collective trust fund and participant-directed brokerage accounts which allow participants to directly invest in cash and cash equivalents, stocks or funds other than the Lifecycle or Core Investment Options offered, Alexander & Baldwin, Inc. ("A&B") common stock and the Company's common stock, some of which are specific to individual plans. The assets are invested and records are maintained by each investment fund option. Funds are allocated to the three participating plans (the "Plans") (see below) in accordance with the Plans' provisions and participant allocation elections. The allocation of net assets available for benefits is based on the respective number of units held by the Plans' participants as of the Plans' year-ends. The allocation of the changes in net assets available for benefits is calculated daily based on the units held by the Plans' participants as of that day's end.

At December 31, 2017 and 2016, the assets of the following Plans were combined in the Master Trust:

- Matson Individual Deferred Compensation and Profit Sharing Plan for Bargaining Unit Employees

4. FAIR VALUE MEASUREMENTS

ASC 820, Fair Value Measurements and Disclosures, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market, but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Asset Valuation Techniques—Valuation technologies maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Common Stock—Investments in common stock are valued at the closing price reported on the active market on which the securities are traded, on the last business day of the Plan year. Common stock are categorized as Level 1.

Mutual Funds—Investments in mutual funds are valued at the publicly quoted net asset value (NAV) of each fund and are categorized as Level 1. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded. The total NAV is calculated by multiplying the NAV per share by the number of shares held as of the measurement date.

Stable Value Funds—Investments in stable value funds compose primarily of fully benefit-responsive investment contracts and are reported at fair value using NAV as a practical expedient. The stable value fund calculates NAV per share in a manner consistent with the measurement principles in FASB Accounting Standards Codification Topic 946 Financial Services—Investment Companies. Those measurement principles indicate that, in the determination of a stable value fund's NAV, the relevant measurement is net assets which include the fully benefit investment contracts held by the fund at contract value. This NAV represents the Plan's fair value since this is the NAV at which the Plan transacts with the fund. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

Collective Trust Fund—Investments in the collective trust fund are valued at the NAV of units of a bank collective trust. The NAV as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Cash and cash equivalents—Cash and cash equivalents are valued at cost plus accrued interest.

(a) In accordance with the Fair Value Measurements topic, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of assets available for benefits.

Transfer between Levels—The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2017 and 2016, there were no transfers in or out of Level 1, Level 2 or Level 3.

The following table sets forth a summary of the Master Trust's investment in common collective trust funds with a reported NAV at December 31, 2017 and 2016.

	Fair Value Estimate Using NAV per Share at December 31

The Fidelity Managed Income Portfolio fund strategies seek to invest in benefit-responsive investment contracts issued by insurance companies and other financial institutions, fixed income securities and money market funds. The Wells Fargo Stable Value Fund Class C invests all of its assets in Wells Fargo Stable Return Fund G, a collective trust fund sponsored by Wells Fargo, N.A.

5. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth by ERISA. In the event that the Plan is terminated, participants would become 100% vested in their accounts.

6. FEDERAL INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company, by a letter dated March 22, 2011, that the Plan is designed in accordance with the applicable regulations of the IRC. The Plan has been amended since receiving the determination letter. The Plan has applied for an updated determination letter in 2016 after the expiration of the March 2011 determination letter and has received an IRS acknowledgment letter regarding the receipt of its request. As of the date that these financials were available to be issued, the Plan has not received an issued letter. However, the Plan administrator believes that the Plan is currently designed and operated in compliance with the applicable sections of the IRC, and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. No uncertain tax positions were recorded at December 31, 2017 and 2016. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. DISTRIBUTIONS

There were no distributions payable to terminated employees included in net assets available for benefits for the years ended December 31, 2017 and 2016.

The Plan administrator has obtained certifications from the trustee that such information is complete and accurate.

The NAV of the stable value fund and the collective trust fund were certified as complete and accurate by the trustee.

All investment balances and investment information included in the supplemental schedule of assets (held at year-end) has also been certified by the trustee.

9. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Master Trust investments are shares of mutual funds managed by Fidelity. Fidelity is the trustee as defined by the Plan, and therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.

At December 31, 2017 and 2016, the Master Trust held common stock of the Company, the sponsoring employer, and recorded dividend income related to this common stock as follows:
