Hospital Forms / Magnetic Ticket 401(k) Plan

Notes to the Financial Statements

Note 1. Description of the Plan

The following description of Hospital Forms/Magnetic Ticket 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions, which is available from Plan management.

General

The Plan is a defined contribution plan covering all full-time employees of the HFS Holding Corporation and Subsidiaries (the Company or Employer) and not a leased employee or a non-resident alien with no United States service or income, or an employee represented, for collective bargaining purposes, by any bargaining unit for which retirement benefits have been the subject of good faith bargaining between employee representatives and the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

If an employee is eligible, they can begin savings of pretax contributions in the Plan at the beginning of the quarter following eligibility. An employee becomes eligible to share in employer matching contributions, if any, after they have completed one year of service from the date of employment. One year of service for these purposes is determined on the basis of actual hours for which the employee is paid or entitled to payment.

Contributions

Each year, participating employees may contribute, through payroll deductions, up to limits imposed by the Internal Revenue Service. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participant in the Plan. Automatically enrolled participants have their deferral rate set at 2 percent of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. The Employer may, but is not required to make discretionary matching contributions to the Plan. An employee must have at least one hour of service during such period in order to be eligible for a matching contribution. For 2017 and 2016, the Employer did not make discretionary matching contributions.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, if applicable, and (b) Plan earnings. Participant accounts are charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their elective deferral amounts. Vesting in the employer contributions is based upon years of continuous service. Vesting increases with the accumulation of years of service. After one year of service, the participant is 20% vested. With the completion of each additional year of service, an additional 20% vesting is added. After five years of service, the participant is 100% vested. A participant becomes fully vested upon reaching normal retirement age, becoming permanently disabled, or upon death.

Notes Receivable from Participants

Participants may borrow from their fund accounts, when added to the outstanding balance of all other loans, an amount that cannot exceed the lesser of $50,000 or 50% of their vested account balance.

The minimum note amount is $1,000, and the terms must require repayment in level payments of principal and interest, not less frequently than quarterly over a period not exceeding five years. However, if the employee uses the note to acquire a principal residence, the repayment period may exceed five years, but cannot exceed twenty years. Repayments are made by payroll deductions.

Payment of Benefits

Upon separation of service due to death, disability, retirement or termination of employment, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, a series of substantially equal annual payments over a fixed period of whole years, or a specified dollar amount each year.

Forfeitures

Forfeitures result when a participant terminates employment (or incurs a break in service) before his or her account has become fully vested. Employees will lose the amounts in their employer matching contributions account that are not vested.

All forfeitures attributable to the employer matching contribution accounts are applied first to restore forfeitures to the accounts of any reemployed participants or rehired participants; second, to reduce employer matching contribution deposits for the year; and third, to pay administrative expenses for the trust fund. There were $20,472 and $17,149 of unallocated forfeitures at December 31, 2017 and 2016, respectively.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (US GAAP) requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded at the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 and 2016.

Payment of Benefits

Benefits are recorded when distributed to participants.

Expenses

The Plan permits the payment of administrative expenses to be made from the Plan's assets and for them to be allocated proportionately based on the value of the account balances. However, substantially all administrative expenses of the Plan are paid by the Company. Expenses related to specific participant transactions (loan setup, distribution request) are charged directly against the appropriate participant's account.

Plan Management's Review of Subsequent Events

The Plan has evaluated subsequent events through October 15, 2018, the date the financial statements were available to be issued.

Note 3. Certified Investments

All investment information disclosed in the accompanying financial statements and supplementary information, including investments at December 31, 2017, and net appreciation in fair value of investments, and investment income for the year ended 31, 2017, was obtained or derived from information provided to Plan management and certified as complete and accurate by John Hancock Life Insurance Company the trustee/custodian of the Plan. John Hancock Life Insurance Company held the Plan's investment assets and executed investment transactions from January 1, 2017 to December 31, 2017 and for the period beginning August 1, 2016 through December 2016. Principal Trust Company held the Plan's investment assets and executed investment transactions as of July 31, 2016 and for the period January 1, 2016 to July 31, 2016, and certified as complete and accurate net appreciation in fair value of investments and interest and dividends for the period from January 1, 2016 to July 31, 2016.

Note 4. Fair Value Measurements

Financial Accounting Standards Board (FASB) ASC 820, *Fair Value Measurements,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust fund: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017 and 2016:

	2017	2016
Investments measured at net asset value		
Pooled separate accounts	$ 6,362,642	$ 5,406,552
Stable value fund	273,330	281,102
Investments at fair value	$ 6,635,972	$ 5,687,654

Fair Value of Investments in Entities that Use NAV

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2017 and 2016, respectively.

	2017	2016
Stable value fund		
Fair value	$ 273,330	$ 281,102
Unfunded commitment	None	None
Redemption frequency	Immediate	Immediate
Other redemption restrictions	None	None
Redemption notice period	None	None

Note 5. Related-Party Transactions and Party-In-Interest Transactions

Certain Plan investments are shares of mutual funds, investment contracts, and common collective trust fund accounts provided through Principal. Principal is the record keeper and trustee for the Plan and, therefore, these transactions qualify as party-in-interest transactions. All investment fund earnings or losses posted to each Plan participant's account are net of investment management fees charged by each investment fund under the Plan.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Employer contributions.

Note 7. Party-In-Interest Transactions

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, party rendering services to the Plan, the employer and certain others. As such, transactions conducted by the Trustee qualify as party-in-interest transactions.

Note 8. Tax Status

Effective January 1, 2007, the Plan adopted a nonstandardized prototype defined contribution profit sharing plan with Internal Revenue Code Section 401(k) Cash or Deferred Arrangement (CODA) which received a favorable opinion letter from the Internal Revenue Service (IRS) dated September 16, 2003. The Plan has been amended since the date of the last amendment covered by the above mentioned determination letter. However, Plan management believes that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2014.
