Corvid Technologies, LLC 401(k) Plan

Notes to Financial Statements December 31, 2017

1. Description of Plan

The following description of the Corvid Technologies, LLC 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan under Section 401(k) of the Internal Revenue Code covering all employees of Corvid Technologies, LLC ("the Company"), except for employees covered by a collective bargaining agreement; non-resident aliens; leased employees; independent contractors; residents of Puerto Rico; and student interns. Employees that are employed on the last day of the Plan year and have completed 1,000 hours of service will be eligible to receive the Company's discretionary profit-sharing contribution. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute amounts up to the allowable deferral limit defined by the Internal Revenue Service. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Upon meeting eligibility requirements, employees are automatically enrolled into the Plan with contribution deferrals equal to 3 percent of eligible compensation, unless they elect otherwise. The Plan has a discretionary matching contribution and discretionary profit-sharing contribution feature available for eligible employees, as defined by the Plan. In 2017, the Company made matching contributions equal to 100 percent of the first 4 percent of a participant's compensation which is deferred to the Plan each pay period. No profit-sharing contributions were made during 2017. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company matching and profit-sharing contributions, an allocation of plan earnings. Allocations are based upon participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their contributions into various mutual funds, self-directed brokerage accounts, which are offered as investment options by the Plan.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Participants vest 20 percent per year for any employer matching and profit-sharing contributions after completing 1 year of service, as defined by the Plan, and become fully vested after 5 years of service.

Notes Receivable from Participants

Participants may borrow from their mutual fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. No more than 2 loans will be permitted at any time. The loans are secured by the balance in the participant's account and bear interest at the prime rate. Principal and interest is paid ratably through semi-monthly payroll deductions.

Corvid Technologies, LLC 401(k) Plan

Notes to Financial Statements December 31, 2017

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum or partial payments. In-service withdrawals are available from all vested participant accounts upon attaining age 59 ½. Distributions for reason of hardship are also available from a participant's elective deferral account.

Forfeited Accounts

At December 31, 2017 and 2016, forfeitures amounted to \$6,438 and \$958, respectively. Forfeitures may be used to reduce future Company contributions or pay for plan expenses. In 2017, \$5,099 was used to pay plan expenses.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual Funds: Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end.

Self-Directed Brokerage Accounts: The plan holds a self-directed brokerage account which invests in common stock. Common stocks are valued at the closing price reported on the active market on which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Corvid Technologies, LLC 401(k) Plan

Notes to Financial Statements December 31, 2017

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed as they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 or 2016. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. There were \$8,456 in deemed loans that were distributed during the year.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Excess Contributions Refundable

Amounts refundable to participants for employer contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to employer contributions. The Plan distributes any excess contributions to the applicable participants by March 15th of the subsequent year.

3. Unaudited Information

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-5(c) of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Ascensus, Inc., as agent of Ascensus Trust Company ("Ascensus") has certified that the following data included in the accompanying financial statements is accurate and complete.

<i>December 31,</i>	2017	(Compiled) 2016
Investments, at fair value	\$ 10,809,561	\$ 8,278,727

Dividend income	\$ 209,386	
Net appreciation in fair value of investments	\$ 1,374,136

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to related information in the financial statements and supplemental schedules.

Notes to Financial Statements December 31, 2017

4. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following tables sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017 and 2016:

Fair Value Measurements as of December 31, 2017				
	Quoted Prices in Active Markets for Identical Assets Level 1	Significant Other Observable Inputs Level 2	Significant Unobservable Inputs Level 3	Total

5. Plan Termination

Although it has not expressed any intent to do so, the Company as the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Participants would become 100 percent vested in their accounts. Any unallocated assets of the Plan would be allocated to participant accounts and distributed in such a manner as the Company may determine.

6. Tax Status

The Plan has received an opinion letter dated March 31, 2014, that the Plan Document is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has since been amended, however, the Plan Administrator and the Plan's management believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2014.

Corvid Technologies, LLC 401(k) Plan

Notes to Financial Statements December 31, 2017

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

8. Related Party Transactions

Certain Plan investments are shares of mutual funds and a self-directed brokerage account option managed by Ascensus. Ascensus is the trustee as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. The Plan paid Ascensus \$5,999 for administrative expenses during 2017. The Plan paid TD Ameritrade \$292 for self-directed brokerage account fees during 2017.

9. Non-Exempt Transactions

During the plan year ended December 31, 2017, employee withholdings amounting to \$395,622, were remitted less expediently than the majority of the Plan contributions. The Plan sponsor has determined that these transactions constitute prohibited transactions as defined by ERISA and has remitted lost earnings to the Plan in October 2018.

10. Subsequent Events

The Plan has evaluated subsequent events through October 10, 2018, the date the financial statements were available to be issued.
