Capital Bank and Trust Company (the "Trustee") is the Plan Trustee.

Although it has expressed no intention to do so, the Company retains the right to terminate the Plan. In the event of Plan termination, all amounts credited to participants' accounts become fully vested subject to the requirements of ERISA. The Company also retains the right to amend the Plan. American funds, the designated record keeper, is an affiliate of the trustee.

An employee is eligible to participate in the Plan after three months of service and after reaching age 18. Participants are eligible to receive employer discretionary matching contributions after one year of service.

Contributions:

Subject to certain limitations, participants may contribute up to 100% of pretax annual compensation, subject to annual limits of $18,000 for 2017, and an additional $6,000 for catch-up contributions for participants that are age 50 or older. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants may change their contribution elections at any time during the Plan year. Excess contributions are accrued for in the period the contributions were made.

The Company may make a discretionary matching contribution to the Plan equal to a portion of the participant's pretax contributions made to the Plan. Additional profit-sharing amounts may be contributed at the discretion of the Company. For the year ended December 31, 2017, the Company made no discretionary matching or discretionary profit-sharing contributions.

Participant Account:

1. **Description of Plan** (continued)

Benefits and vesting:

Participants are immediately vested in their contributions plus actual earnings thereon. Participants become vested in the Company's discretionary matching and profit sharing contributions plus actual earnings thereon, ratably based upon years of service. For any discretionary contributions made by the Employer, a participant is 20% vested each year following the completion of the second year of employment and is 100% vested after six years of credited service. However, in the event of termination of a participant's employment for death, total or permanent disability or upon attainment of the normal retirement age of 65 years (or early retirement age 55 years along with ten completed years of service) such participant's Company matching contributions shall immediately vest 100%.

Notes receivable from participants:

Participants may borrow a minimum of $1,000 and up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance, subject to certain limitations. Loan terms range from one to five years or up to ten years for the purchase of a primary residence. The loans are collateralized by the balance in the participant's account and bear interest at a rate determined by the Company. Principal and interest payments, with respect to the loans are credited solely to the account of the borrowing participant from which the loan is made. A participant may have only one loan outstanding at a point in time. Principal and interest are paid ratably through payroll deductions. At December 31, 2017, the interest rate on the notes were 5.25%. The financial risk and all associated costs with non-performing loans are borne by the individual loan holder.

2. **Summary of Accounting Policies**

The following are significant accounting policies followed by the Plan:

Basis of accounting:

The Plan's financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). Shares of registered investment companies are valued at quoted market prices which represent the net asset value of shares held by the Plan at year end. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

2. Summary of Accounting Policies (continued)

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Risks and uncertainties:

The Plan provides for investment options in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit and market risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Recent Accounting Pronouncements

The Plan's management continuously monitors and reviews all current accounting pronouncements and standards from the Financial Accounting Standards Board and other authoritative sources of U.S. GAAP. As of December 31, 2017, there were no new pronouncements, interpretations or staff positions that had or were expected to have a significant impact on the financial statements of the Plan.

Subsequent Events:

The Plan has evaluated subsequent events through October 15, 2018 the date the financial statements were available to be issued.

3. Fair Value Measurements

In accordance with Accounting Standards Codification ASC 820, "Fair Value Measurements," ("ASC 820"), fair value is defined as an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, ASC 820 establishes a three-level fair value hierarchy that prioritizes the inputs used to measure fair value. The three levels of inputs used to measure fair value are as follows:

Level 1	Quoted prices in active markets for identical assets or liabilities.

3. Fair Value Measurements (continued)

Level 2 — Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 — Unobservable inputs that are supported by little or no market activity and are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value as of December 31, 2017 and 2016:

Mutual Funds – Mutual fund's fair values are based on quoted market prices in active markets and classified within Level 1 of the valuation hierarchy.

Collective Trust Fund - These investments are valued based on the fair value of the common collective trust's underlying investments using the NAV practical expedient determined by the fund investment advisor.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables summarize the Plan's financial assets measured at fair value on a recurring basis as of December 31, 2017 and 2016, segregated among the appropriate levels within the fair value hierarchy:

December 31, 2017	Fair Value	Fair Value Measurements		
		Level 1	Level 2	Level 3
Assets:				
Mutual Funds	$ 1,426,165	$ 1,426,165	$ -	$ -
Total Investments, at fair value	1,426,165	1,426,165	$ -	$ -
Investment at NAV	294,180			
Total Investments	$ 1,720,345			

3. Fair Value Measurements (continued)

December 31, 2016	Fair Value	Fair Value Measurements		
		Level 1	Level 2	Level 3
Assets:				
Mutual Funds	$ 1,139,455	$ 1,139,455	$ -	$ -
Total Investments, at fair value	1,139,455	1,139,455	$ -	$ -
Investment at NAV	215,474			
Total Investments	$ 1,354,929			

4. Common Collective Trust

The Invesco Stable Value Fund ("the Fund") includes synthetic guaranteed investment contracts ("GICs"). Synthetic GICs are portfolios of securities owned by the Fund with "wrap" contracts associated with the portfolios. A "wrap" contract is an agreement by another party, such as a bank or insurance company, to make payments to the Fund in certain circumstances.

Wrap contracts are designed to allow the Fund to maintain a constant Net Asset Value ("NAV") and protect a portfolio in extreme circumstances. The Fund also invests in traditional GICs backed by the general account of the issuer. The Fund deposits a lump sum with the issuer and receives a guaranteed interest rate for a specified time. Interest is accrued on either a simple interest or fully compounded basis and paid either periodically or at the end of the contract term. The issuer guarantees that all qualified participant withdrawals, as defined, will occur at contract value. GICs generally do not permit issuers to terminate the agreement prior to the scheduled maturity date.

The crediting interest rate is based on a formula agreed upon with each issuer, but it may not be less than zero. Such rates are reset on a monthly or quarterly basis according to each contract. The key factors that influence future crediting interest include: 1) the level of market interest rates, 2) the amount and timing of participant contributions, transfers and withdrawals into out of the wrap contract, 3) the investment returns generated by the fixed income investments that back the wrap contract, and 4) the duration of the underlying fixed income investments backing the wrap contract.

4. Common Collective Trust (continued)

In certain circumstances, the amount withdrawn from the wrap contract would be payable at fair value rather than at contract value. These events include termination of the Plan, a material adverse change to the provisions of the Plan, or the employer elects to withdraw from a wrap contract in order to switch to a different investment provider. While it is possible that some of the plans participating in the Fund may experience plan terminations or other events that would trigger fair value payouts under the Fund's wrap agreements, based on prior experience, the Fund's management believes it is not probable that such events would be of sufficient magnitude to limit the ability of the Fund to transact at contract value with the participants in the Fund.

A wrap contract issuer would be permitted to terminate a wrap contract at fair value upon short notice if one of the following events was to occur: 1) a Plan's loss of its qualified status, 2) material, uncured, breaches of responsibilities, or 3) material and adverse changes to the provisions of the Plan.

Participants ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The collective trust fund does not have a finite life, unfunded commitments related to these types of investments or significant restrictions on redemptions. Redemptions by participating plans occur at NAV following a 12-month notice period.

The Plan's continuing ability to transact with the collective trust fund at contract value may be restricted or limited upon occurrence of certain fund-level conditions, Plan-level events or with respect to transactions not initiated by the Plan participants, such as the Company's decision to terminate the Plan's offering of the collective trust fund as a Plan investment option and full withdrawal of all invested balances from the collective trust fund. The Plan does not currently consider the occurrence of any such conditions or events to be probable.

5. Financial Data Certified by Trustee

All financial information contained in the Statement of Net Assets Available for Benefits as of December 31, 2017 and the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2017 regarding investments and investment income has been certified as accurate and complete by the Trustee.

6. Tax Status

The prototype plan received a favorable determination letter dated March 31, 2008 from the IRS. Although the Plan itself has not received a determination letter, the Company believes that the Plan was designed and is operated in compliance with the applicable requirements of the Internal Revenue Code.

6. Tax Status (continued)

Subsequent to the Plan year ended December 31, 2016, the Plan made corrective distributions in order to comply with certain IRS non-discrimination tests for the year ended December 31, 2016. In accordance with IRS regulations, the corrective distributions represented refunds of the excess 401(k) contributions contributed by "highly compensated" employees. Such refunds are reflected in the accompanying Statement of Net Assets Available for Plan Benefits as "Refund of excess contributions payable".

Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Administrative Expenses

The Company pays certain administrative fees associated with the Plan of approximately $20,300 for the year ended December 31, 2017. Fees relating to Plan investments will generally be allocated among the accounts of all participants in the Plan proportionately based on the value of account balances or number of participants in the Plan. Expenses specifically incurred by, or attributable to, a participant may be allocated directly to a specific participant's account. Administrative functions are performed by certain employees of the Company. No such employees receive compensation from the Plan. There were no administrative expenses incurred by the Plan for the year ended December 31, 2017.

8. Related Party Transactions

Certain Plan investments and related transactions as of December 31, 2017 and 2016, and for the year ended December 31, 2017, were in investment funds managed by the Plan's trustee; therefore, these investments and transactions qualify as party-in-interest transactions. Notes receivable from participants are also considered to be party-in-interest transactions because they are transacted with Plan participants. The Plan's transactions with its third-party administrator and record-keeper also qualify as party-in-interest transactions. These transactions are not considered prohibited by statutory exemptions under ERISA.
