EMI Industries, LLC 401(k) & Bonus Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2017

NOTE A - DESCRIPTION OF PLAN

EMI Industries, LLC, a Florida limited liability company, acquired M & H Manufacturing, Inc., All-State Fabricators, Corp., and Marlo Manufacturing Co., Inc. in 1999, 2003 and 2011, respectively. The M & H Manufacturing, Inc., All-State Fabricators, Corp. and Marlo Manufacturing Co., Inc. 401(k) retirement plans were merged into the EMI Industries, LLC, 401(k) & Bonus Plan retirement plan in the reporting period subsequent to the company acquisitions in accordance with the Internal Revenue Code and its regulations relating to such mergers and consolidations.

The following description of the EMI Industries, LLC ("Company") 401(k) & Bonus Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of its provisions.

1. General

The Plan is a defined contribution plan and trust covering employees of the Company. The Plan was restated effective May 12, 2017, upon transfer of investments to Great-West Life & Annuity Insurance Company (“GWL&A”).

2. Contributions

Participants are permitted to make elective deferral contributions of their compensation, subject to the limits of the Internal Revenue Code. Employer matching and profit sharing contributions shall be made at the discretion of the employer. The Company accrued matching contributions of $135,134 and $123,086 at December 31, 2017 and 2016, respectively.

The Plan has an Eligible Automatic Contribution Agreement (EACA) provision under Internal Revenue Code Section 414(w). The default deferral rate shall be 3% of an employee’s compensation each payroll period. The automatic deferral percentage will increase by 1% per year up to a maximum of 10% of employee compensation. Participants must specifically opt out of the auto-enroll feature if they choose not to participate.

3. Participant Accounts

The participant accounts are participant directed investment options. The participants are allowed to change the percentage contributed to the Plan through payroll deductions on a weekly basis. Participants can also move individual accounts from one mutual fund to another or change how the funds are allocated among investments. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Each participant in the Plan has a separate account that is credited with the annual allocation of (a) the Company's contributions, (b) the employee's elective contributions, (c) the Plan's earnings or losses, and (d) forfeitures, if any. Allocations are based on the prorated earnings of the employee compared to the total earnings of all participants.

NOTE A - DESCRIPTION OF PLAN - Continued

4. Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon, is based on years of service. Participants in the Plan vest in employer contributions at a rate of 20% annually and are fully vested after six years of credited service.

One hundred percent vesting occurs, regardless of the number of years of service, when a participant reaches normal retirement age (65), dies, or becomes totally and permanently disabled.

5. Payment of Benefits

Benefit payments are made in the form of a lump-sum distribution or instalments over a period of not more than the assumed life expectancy. Upon normal retirement, death, or becoming permanently disabled, Plan participants will be entitled to 100% of their account balance. If employment is terminated for any reason other than those previously mentioned, the participant will only be entitled to the vested portion of the employer contributions. However, participants are entitled to 100% of the account balance of any salary reduction or voluntary contributions made on their own behalf.

6. Forfeitures

Forfeitures of non-elective and matching contributions are used to reduce employer contributions. Forfeited non-vested accounts totaled approximately $1,400 and $800 at December 31, 2017 and 2016, respectively. Forfeitures of $162 and $0 were used to offset the employer contribution payment during the years ended December 31, 2017 and 2016, respectively.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Participants become 100% vested in their accounts in the event of Plan termination.

8. Basis of Participant Contributions

Participants who have reached 21 years of age and two months of service with the Company, as restated May 2017, may elect to have salary reduction contributions, such amounts expressed either in dollars or in whole percentages of their compensation, subject to Internal Revenue Code limitations.

Participants who have attained 21 years of age and one year of service are eligible for employer discretionary match contributions.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the Plan's significant accounting policies applied in the preparation of the accompanying financial statements follows:

1. Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

2. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

3. Investment Valuation

Investments are stated at fair value as follows:

- Mutual funds are valued at the daily closing price as reported by the fund. These funds are required to provide their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

- Common/collective trusts are valued at the net asset value of the specific financial instruments using the practical expedient method. Purchases and sales of securities are recorded on a trade-date basis.

- Fixed annuity contracts are valued daily based on the valuation method disclosed in the annuity content, as calculated by the annuity provider.

Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Plan presents the net appreciation or depreciation in the fair value of its investments in the Statement of Changes in Net Assets Available for Benefits, which consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments.

4. Benefit Payments

Benefits are recorded when paid.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

5. Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. Participant loans are considered in default if not current at the end of the calendar quarter following the quarter when a payment was due.

NOTE C - INVESTMENTS

The Plan's investments consist of mutual funds, common/collective trusts and fixed annuity contracts that are held by a trust company. The value of these trust investments was $13,766,414 and $11,105,670 at December 31, 2017 and 2016, respectively.

The net appreciation or depreciation includes realized gains and losses on investments that were bought and sold during the respective year. The net appreciation in fair value of the investment accounts was $1,309,758 for the year ended December 31, 2017.

NOTE D - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement and Disclosures,* establishes a framework for using fair value to measure assets and liabilities and defines fair value as the price that would be received to sell an asset or paid to transfer a liability (an exit price) as opposed to the price that would be paid to acquire the asset or received to assume the liability (an entry price).

Under FASB ASC 820, a fair value measure should reflect the assumptions that market participants would use in pricing the asset or liability, including the assumptions about the risk inherent in a particular valuation technique, the effect of a restriction on the sale or use of an asset and the risk of nonperformance. FASB ASC 820 requires disclosures that stratify the statement of net assets available for benefits amounts measured at fair value based on inputs the Plan used to derive fair value measurements. These strata include:

- Level 1 inputs, where the valuation is based on quoted market prices for identical assets or liabilities traded in active markets (which include exchanges and over-the-counter markets with sufficient volume),

- Level 2 inputs, where the valuation is based on quoted market prices for similar instruments traded in active markets, quoted prices for identical or similar instruments in markets that are not active and model-based valuation techniques for which all significant assumptions are observable in the market, and

NOTE D - FAIR VALUE MEASUREMENTS - Continued

- Level 3 inputs, where the valuation is generated from model-based techniques that use significant assumptions not observable in the market, but observable based on fund-specific data. These unobservable assumptions reflect estimates or assumptions that market participants would use in pricing the asset or liability. Valuation techniques typically include option pricing models, discounted cash flow models and similar techniques, but may also include the use of market prices of assets or liabilities that are not directly comparable to the subject asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The valuation techniques that are used should maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2017 and 2016:

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end. Investments in certain restricted mutual funds are valued at quoted market prices. (Level 1)

Common/collective trust: Valued at the common/collective trust fund based as the net asset value per share of the underlying investments. Common/collective trust funds with underlying investments in investment contracts are valued at net asset value of the underlying instrument using the practical expedient method, and are not leveled in the fair value hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents financial assets measured at fair value on a recurring basis as of December 31,:

December 31, 2017	Fair Value	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs
Mutual funds	$12,800,830	$12,800,830	$ -	$ -
Common/collective trust	849,200	-	-	-
Total	$13,650,030	$12,800,830	$ -	$ -

NOTE D - FAIR VALUE MEASUREMENTS - Continued

December 31, 2016	Fair Value	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs
Mutual funds	$10,268,309	$10,268,309	$ -	$ -
Common/collective trust	837,361	-	-	-
Total	$11,105,670	$10,268,309	$ -	$ -

The information in this note was obtained from data that had been prepared and certified as complete and accurate by Great-West Life and Annuity Insurance Company and Reliance Trust Company as of December 31, 2017 and 2016, respectively.

The Company adopted ASU 2015-07 – Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent), which is effective for years beginning after December 15, 2016. The implementation of this standard removed the requirement of placing certain investments in the fair value hierarchy and requiring additional disclosures on the nature, characteristics, and risk of the investments by class. There is no financial statement effect, only changes to the notes which can be seen in the table below.

The following tables present financial assets measured using the net asset value of shares using the practical expedient method, as of:

December 31, 2017	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common/collective trust	$ 849,200	$ -	Daily	-
Total	$ 849,200	$ -	-	-

December 31, 2016	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common/collective trust	$ 837,361	$ -	Daily	-
Total	$ 837,361	$ -	-	-

NOTE D - FAIR VALUE MEASUREMENTS - Continued

The Wells Fargo Stable Return Fund C (the “Fund”) is a common/collective trust managed by Galliard Capital Management. The beneficial interest of each participant is represented by units. Units are issued and redeemed daily at the Fund’s constant NAV of $1 per unit. Distribution to the Fund’s unit holders are declared daily from the net investment and automatically reinvested in the Fund on a monthly basis, when paid. It is the policy of the Fund to use its best efforts to maintain a stable NAV of $1 per unit, although there is no guarantee that the Fund will be able to maintain this value.

NOTE E - FIXED ANNUITY CONTRACTS

The fund invests in fully benefit-responsive investment contracts issued by GWL&A ("Contracts"), fixed income securities, bonds, and private equity securities. Under the terms of the Contracts, the assets of the fund are invested shares of bonds and in fixed income securities (which may include, but are not limited to mortgage-backed securities, commercial mortgage-backed securities, asset-backed securities, and collective investment vehicles and shares of investment companies that invest primarily in fixed income securities).

Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the Fund, plus earnings, less participant withdrawals and administrative expenses. The Fund imposes certain restrictions on the Plan, and the Fund itself may be subject to circumstances that affect its ability to transact at contract value, as described in the following paragraphs. Plan management believes that the occurrence of events that would cause the Fund to transact at less than contract value are not probable.

Limitations on the Ability of the Fund to Transact at Contract Value:

Restrictions on the Plan - Participant-initiated transactions are those transactions allowed by the Plan, including withdrawals for benefits, loans, or transfers to noncompeting funds within a plan, but excluding withdrawals that are deemed to be caused by the actions of the Plan Sponsor. The following employer-initiated events may limit the ability of the Fund to transact at contract value:

- A failure of the Plan or its trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA
- Any communication given to Plan participants designed to influence a participant not to invest in the Fund or to transfer assets out of the Fund
- Any transfer of assets from the Fund directly into a competing investment option
- The establishment of a defined contribution plan that competes with the Plan for employee contributions
- Complete or partial termination of the Plan or its merger with another plan

NOTE E - FIXED ANNUITY CONTRACTS - Continued

Circumstances that Impact the Fund - The Fund invests in assets, typically fixed income securities or bond funds, and enters into "wrapper" contracts issued by third parties. A wrapper contract is an agreement by another party, such as a bank or insurance company to make payments to the Fund in certain circumstances. wrapper contracts are designed to allow the Fund to maintain a constant NAV and protect the Fund in extreme circumstances. In a typical wrapper contract, the wrapper issuer agrees to pay the Fund the difference between the contract value and the market value of the underlying assets once the market value has been totally exhausted.

The wrapper contracts generally contain provisions that limit the ability of the Fund to transact at contract value upon the occurrence of certain events. These events include:

- Any substantive modification of the Fund or the administration of the Fund that is not consented to by the wrapper issuer
- Any change in law, regulation, or administrative ruling applicable to a plan that could have a material adverse effect on the Fund's cash flow
- Employer-initiated transactions by participating plans as described above

In the event that wrapper contracts fail to perform as intended, the Fund's NAV may decline if the market value of its assets decline. The Fund's ability to receive amounts due pursuant to these wrapper contracts is dependent on the third-party issuer's ability to meet their financial obligations. The wrapper issuer's ability to meet its contractual obligations under the wrapper contracts may be affected by future economic and regulatory developments.

The Fund is unlikely to maintain a stable NAV if, for any reason, it cannot obtain or maintain wrapper contracts covering all of its underlying assets. This could result from the Fund's inability to promptly find a replacement wrapper contract following termination of a wrapper contract. Wrapper contracts are not transferable and have no trading market. There are limited number of wrapper issuers. The Fund may lose the benefit of wrapper contracts on any position of its assets in default in excess of a certain percentage of portfolio assets.

NOTE F - PARTY-IN-INTEREST TRANSACTIONS

Fees paid to the Trustees for contract administrative fees amounted to $52,348 for the year ended December 31, 2017.

NOTE G - TAX STATUS

The IRS has determined and informed the Plan by a letter dated October 16, 1998, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has received its latest IRS determination letter dated March 31, 2014. Although the Plan has been amended since receiving the latest determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service.

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

NOTE H - ADMINISTRATION OF PLAN ASSETS

The investments of the Plan were held and administered by Great-West Life & Annuity Insurance Company ("GWL&A") for the period May 12, 2017 to December 31, 2017 and Reliance Trust Company ("Reliance") for January 1, 2016 through May 11, 2017 for purposes of these financial statements (the "Trustees"). As Plan trustees, GWL&A and Reliance invest cash received, interest and dividend income, and make distributions to participants. Officers or employees of the Company also perform administrative functions; however, no officer or employee received compensation from the Plan.

NOTE J - FINANCIAL DATA CERTIFIED BY THE TRUSTEE (UNAUDITED)

Great-West Life & Annuity Insurance Company and Reliance Trust Company has certified the Plan's investments, and the investment income and losses as being complete and accurate for the years ended December 31, 2017 and 2016, respectively.

The following information included in the accompanying financial statements and supplemental schedule of assets (held at end of year) was obtained from data that has been prepared and certified to be complete and accurate by the trustee:

	2017	2016
Investments		
Mutual Funds	$ 12,800,830	$ 10,268,309
Common/Collective Trusts	$ 849,200	$ 837,361
Fixed Annuity Contracts	$ 116,384	$ -
Investment income		
Dividends	$ 693,347	
Net appreciation of investments	$ 1,309,758	

NOTE K - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amount reported in the statement of net assets available for benefits.

NOTE L - PARTICIPANT DISTRIBUTIONS

No plan participants have elected to have distributions as of December 31, 2017 and 2016, and have not had their vested balances paid to them by the year end, respectively.

NOTE M - SUBSEQUENT EVENT

The Plan's management has evaluated events and transactions occurring subsequent to December 31, 2017 as of October 15, 2018, which is the date the financial statements were available to be issued.
