DRB Systems, LLC 401(k) Plan
Notes to the Financial Statements
December 31, 2017 and 2016

A. PLAN DESCRIPTION

The following description of the DRB Systems, LLC (the "Company" or "Plan Sponsor") 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General - The Plan is a defined contribution plan with an Internal Revenue Service ("IRS") Code Section 401(k) arrangement which allows plan participants to defer current taxation on a portion of their salaries by electing a percentage of their salary to be contributed to the Plan, known as employee salary deferrals.

The Plan covers all employees of the Company beginning the first day of the month following sixty days of service who are age twenty-one or older. Effective September 15, 2017 the Plan implemented an auto-enrollment feature for newly eligible participants with the option to opt out of the Plan. The auto-enrollment is initially a pre-tax deferral of 3%, increasing by 1% per year but will stop increasing once the deferral is 6% unless the participant chooses to elect another deferral percentage. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Company is the Plan's administrator.

On January 1, 2017, the Plan Sponsor acquired Unitec, Inc. Effective July 1, 2017 Unitec became an adopting employer of the Plan and plan assets from the Unitec 401(k) Retirement Plan totaling \$2,878,450 were transferred into the Plan during November 2017.

Effective February 1, 2017, the Plan removed continuing eligibility requirements for employer matching contributions of active participants. Formerly, active participants were required to be employed on the last day of the contribution period and earn at least 1,000 hours of service during the plan year.

Contributions - Contributions to the Plan include both employee salary deferrals and employer contributions. Effective August 15, 2017, the Plan allows for a participating employee to change their deferral percentage at each pay date. Each year, participants may contribute up to the lesser of maximum permitted by law or 75% of eligible compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The types of employer contributions are as follows:

Discretionary Employer Matching Contribution

The Company annually declares a percentage of the employee salary deferral contribution that it will match and contribute to the Plan for each participant. For the years ended December 31, 2017 and 2016, the Company matched 50% of each dollar of employee contribution up to 6% of participants' annual compensation. Discretionary employer matching contributions of \$312,421 were made during the year ended December 31, 2017.

Qualified Employer Matching Contribution

The Company may elect to make a qualified matching contribution to comply with non-discrimination requirements of the Internal Revenue Code ("IRC"). A "qualified matching contribution" is allocated as a match of employee salary deferrals subject to Plan limits. No discretionary qualified matching contributions was declared for the year ended December 31, 2017.

Discretionary Non-Elective Contribution

The Company may elect to make a discretionary non-elective contribution. Employees must be employed as of the last day of the Plan year to be eligible for any non-elective contributions that may be made for that Plan year. No discretionary non-elective contributions was declared for the year ended December 31, 2017.

DRB Systems, LLC 401(k) Plan
Notes to the Financial Statements
December 31, 2017 and 2016

Qualified Non-Elective Contribution

The Company may elect to make a qualified non-elective contribution to comply with non-discrimination requirements of the IRC. A qualified non-elective contribution is allocated to only non-highly compensated participants based on compensation. No qualified non-elective contributions were declared for the year ended December 31, 2017.

The Plan also permits certain rollover contributions from other qualified retirement plans.

Participant Accounts - Each participant's account is credited with the participant's contributions, employer matching and discretionary contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which the participant is entitled is the benefit that can be provided from the participant's vested account.

Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may change their allocation of contributions or transfer money between investment options any time during the year.

Vesting - Participants are immediately vested in their contributions and the Company's contributions, plus actual earnings thereon.

Notes Receivable from Participants - Participants who had loans in the Unitec plan were permitted to retain existing loans. No other loans are allowed under the DRB Plan.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon terms of the Plan document. Participants may borrow from their fund accounts a minimum of \$1,000 up to the maximum equal to the lesser of \$50,000 or 50% of their account balance, reduced by the participant's highest outstanding loan balance during the preceding twelve months. Loan terms range from one to five years unless used for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate determined at the time the loan is taken based on Prime (4.50% and 3.75% at December 31, 2017 and 2016, respectively). Principal and interest are paid ratably through payroll deductions.

Payment of Benefits - Upon termination of service, death, disability, retirement, or other reasons, a participant may elect to receive his or her account balance as a lump-sum payment or in periodic installments, as defined. The Plan Administrator may automatically make a lump-sum distribution for account balances less than \$5,000. Participants terminated are entitled to receive their benefits as soon as administratively feasible. Distributions from a participant's account may be authorized at any time by the Plan Administrator under certain hardship conditions.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein. Accordingly, actual results may differ from those estimates.

DRB Systems, LLC 401(k) Plan
Notes to the Financial Statements
December 31, 2017 and 2016

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investments advisors, custodian, and trustee. See Note D for discussion of fair value instruments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - Benefits are recorded when paid or accrued.

Administrative Expenses - Administrative expenses, including third party administrative expenses and investment management fees, are paid by the Plan. Fees attributable to distributions and deferred payouts are paid by the participants. All other expenses of maintaining the Plan are paid by the Company.

Subsequent Events - Subsequent events have been evaluated through October 15, 2018, which is the date that the Plan's annual financial statements were available to be issued.

C. INFORMATION CERTIFIED BY THE TRUSTEE

The Plan Administrator has elected to restrict the scope of the auditors' examination with regard to statements or information prepared and certified by Fidelity, the trustee.

Fidelity has certified as to the completeness and accuracy of the investments it holds and changes in net assets arising from said investment activity as of December 31, 2017 and 2016, and for the year ended December 31, 2017.

Fidelity has certified as to the completeness and accuracy of the schedule of assets (held at end of year) as of December 31, 2017.

D. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The levels of the fair value hierarchy under the FASB guidance in these financial statements are as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

DRB Systems, LLC 401(k) Plan
Notes to the Financial Statements
December 31, 2017 and 2016

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust - Valued at the NAV of the units held in the common collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

Assets at Fair Value as of December 31, 2017		
	Level 1	Total
Mutual funds	\$ 12,916,540	\$ 12,916,540

DRB Systems, LLC 401(k) Plan
Notes to the Financial Statements
December 31, 2017 and 2016

The following table summarizes investments for which fair value of the common collective trust is measured using the net asset value per share practical expedient as of December 31, 2017 and 2016, respectively.

<u>December 31, 2017</u>	<u>Fair Value</u>	<u>Unfunded Commitment</u>	<u>Redemption Frequency</u>	<u>Redemption Notice Period</u>

Fidelity Advisor Stable Value Fund	\$ 37,593	N/A	Daily	Up to 12 Months

E. RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Fidelity. Fidelity is the trustee of the Plan and, therefore, these transactions qualify as party in interest transactions.

Since transferring the assets to Fidelity in 2009, Fidelity has provided certain administrative services to the Plan pursuant to a Retirement Plan Services Agreement (RPS) between the Plan Sponsor and Fidelity. On July 13, 2017 a revised RPS was signed. The RPS, since inception, has stated that Fidelity waives most administrative fees providing a certain number of Fidelity investments are included as investment options.

F. PLAN TERMINATION

Although the Company has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions to the Plan at any time and to terminate the Plan subject to the provisions of ERISA. The participants are at all times 100% vested in their account balances (Note A). In the event of Plan termination, the trust fund would be liquidated and all remaining assets distributed to participants and former participants in proportion to their respective account balances.

G. TAX STATUS

The DRB Systems, LLC 401(k) Plan was originally adopted on December 1, 1993. The Plan has been amended since the prototype received an IRS opinion letter dated March 31, 2014. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America, require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

H. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
