INDEPENDENT AUDITOR'S REPORT

Pension Committee
Major League Baseball Pension Plan
for Non-Uniformed Personnel—Selected Retirement Plans

We have audited the accompanying financial statements of the Major League Baseball Pension Plan for Non-Uniformed Personnel—Selected Retirement Plans (the Plans), listed in the accompanying table of contents, which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

NOTE 1 DESCRIPTION OF THE MAJOR LEAGUE BASEBALL PENSION PLAN FOR NON-UNIFORMED PERSONNEL—SELECTED RETIREMENT PLANS

The Major League Baseball Pension Plan for Non-Uniformed Personnel (the NUPP) is a noncontributory defined benefit plan that was established, effective January 1, 1981, that provides retirement and death benefits to eligible employees of the participating Major League Baseball Clubs (Participating Employers or Plan Sponsors). Adoption of the NUPP by a Participating Employer creates a separate single-employer plan covering only eligible employees of the Participating Employer. As of December 31, 2017 and 2016, 26 separate single-employer plans (collectively referred to as the Selected Retirement Plans or Plans and individually as the Plan) had been created:

- Washington Nationals Baseball Club, LLC

The Internal Revenue Code (the Code) Section 415(b) maximum benefit limit was $215,000 and $210,000 for 2017 and 2016, respectively.

NOTE 1 DESCRIPTION OF THE MAJOR LEAGUE BASEBALL PENSION PLAN FOR NON-UNIFORMED PERSONNEL—SELECTED RETIREMENT PLANS *(continued)*

The NUPP is presently administered by a nine-member Pension Committee consisting of the senior vice president of accounting and treasury services, a special assistant to the Commissioner, the senior vice president and deputy general counsel, labor and human resources, all of the Office of the Commissioner of Baseball (BOC), and six individuals appointed by a majority vote of the Participating Employers.

The investments of the Selected Retirement Plans are held by U.S. Bank (the Trustee) for the various Participating Employer Plans (Participating Plans) in the Major League Baseball Group Pension Trust (the Group Trust) (see Note 3).

The Plan Sponsors of the Selected Retirement Plans (the Clubs) have agreed to voluntarily contribute such amounts as are necessary to meet the benefits expected to be paid to participants. The contributions by the Clubs are not to be used to pay benefits to participants employed by any other Participating Employer. Such contributions are made in amounts sufficient to meet the minimum funding requirements set forth in the Employee Retirement Income Security Act of 1974, plus such additional amounts as may be determined to be appropriate from time to time. Such minimum funding requirements have been met for 2017 and 2016.

The Phillies changed their policy of recognizing contributions to the Plan. Prior to 2016, the Plan recognized contributions to the Plan based on the minimum funding requirement under ERISA. Commencing in 2016, the Plan recognizes contributions based on amounts that are contributed to the Plan by the funding deadline for contributions (September 15 of the following year) which may exceed the minimum funding requirement. The change in policy resulted in an increase in 2016 contributions of $7,000,000.

Eligible employees participate in the Selected Retirement Plans after they have attained age 21 and completed at least 1,000 hours of service. Benefits under the Selected Retirement Plans fully vest upon completion of five years of vesting service, which includes cumulative years of service prior to the establishment of the applicable Plan. If a participating employee earned a benefit with a prior Club, he/she may receive the benefit from that Club in the form of a lump-sum payment if the present value of the benefit is less than $5,000. If the present value of the benefit exceeds $5,000, he/she will have to wait until retirement age to collect a monthly benefit. The Selected Retirement Plans do not provide benefits for services rendered by participants prior to the adoption of the NUPP by the Clubs.

NOTE 1 DESCRIPTION OF THE MAJOR LEAGUE BASEBALL PENSION PLAN FOR NON-UNIFORMED PERSONNEL—SELECTED RETIREMENT PLANS *(continued)*

Should one or more of the Selected Retirement Plans terminate at some future time, their net assets will generally not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of these benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC's benefit guarantee, while other benefits may not be provided for at all.

Plan Amendments

Effective January 1, 2016, the Pension Committee amended the NUPP sponsored by Padres, LP to freeze benefit accruals and participation under the Plan.

Effective March 1, 2016 (or, if later, the Eligible Employee's Eligibility Date), the Pension Committee amended the NUPP sponsored by the Kansas City Royals Baseball Corporation to freeze benefit accruals and participation under the NUPP, for certain participants and eligible employees who so elect, and exclude employees hired or rehired on or after January 1, 2016, from eligibility in the Plan.

Effective January 1, 2016, the Pension Committee amended the NUPP sponsored by Sterling Mets, LP to exclude employees hired on or after January 1, 2016 from eligibility in the Plan.

Effective January 1, 2017, the Pension Committee amended the NUPP sponsored by The Baseball Club of Seattle, LLLP to freeze benefit accruals and participation under the Plan.

Effective January 1, 2017, the Pension Committee amended the NUPP sponsored by Pittsburgh Associates, to freeze benefit accruals and participation under the Plan.

Effective October 31, 2017, the Pension Committee amended the NUPP sponsored by Angels Baseball LP to terminate their Plan.

Additional information about the Selected Retirement Plans, including the vesting and benefit provisions and the PBGC's benefit guarantee, is available through the BOC or the Clubs and related Plan documents.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Selected Retirement Plans' financial statements are prepared on the accrual basis of accounting.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 7) are those estimated future periodic payments, including lump-sum distributions, that are attributable under the respective Selected Retirement Plans provisions to services rendered by the employees through the valuation date (January 1 of each year). Accumulated plan benefits include benefits expected to be paid to: (a) retired employees or their designated beneficiaries and (b) present employees or their designated beneficiaries. Monthly benefits are determined by a formula provided for in the respective Plan document. Such monthly benefits are limited under Internal Revenue Service (IRS) guidelines in 2017 and 2016 to the lesser of $17,917 and $17,500, respectively, or the employees' highest average monthly compensation for three consecutive years that the participant is employed by the Participating Employers. Benefits payable are included in accumulated plan benefits to the extent they are deemed attributable to employee service rendered to the valuation date.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the U.S. (U.S. GAAP) requires the Plans' management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Investments and Valuation

The Plans participate in the Group Trust, as further described in Note 3. The Plans record their interests in investments in the Group Trust at fair value.

Investments held by the Group Trust are stated at fair value. Fair value is defined as the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., exit date). See Note 4 for further discussion and disclosures related to fair value measurements.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES *(continued)*

Investments and Valuation *(continued)*

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned and dividends are recorded on the ex-dividend date. Net investment gains and losses include gains and losses on investments bought and sold as well as held during the year.

The Pension Committee is responsible for determining the Group Trust's valuation policies and analyzing information provided by the investment managers and issuers, which is used to determine the fair value of the Group Trust's investments.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Reclassifications

Certain prior year amounts in the footnotes of these financial statements have been reclassified to conform to the current year presentation.

Future Adoption of New Accounting Pronouncement

In February 2017, the Financial Accounting Standards Board (FASB) issued Accounting Standard Update (ASU) 2017-06, which clarifies the presentation and disclosure requirements for an employee benefit plan's interest in a master trust. The new standard requires a plan's interests in master trust balances and activities to be presented on the face of the Plan's financial statements as a single line item for each interest in a master trust. The new standard also requires the disclosure of the master trust's investments by general type and the dollar amount of the plan's interest in each type; and the disclosure of the master trust's other assets and liabilities on a gross basis and the dollar amount of the plan's interest in each balance. An adoption of the new standard will eliminate the requirement to disclose the Plan's overall percentage interest in the trust and the health and welfare plans to disclose 401(h) investment account information, in which such information will be disclosed in the defined benefit plan. The standard is effective for the Plan beginning on January 1, 2019, with early adoption permitted. Plan management is currently evaluating the impact of the standard on the financial statements and related disclosures.

NOTE 3 INVESTMENTS

Contributions received from the Participating Employers are deposited with the Trustee. The assets are invested as part of the Group Trust. Each Plan participating in the Group Trust owns a percentage of the underlying assets of the Group Trust and not the individual assets themselves. The assets of the Group Trust are comprised of investments in common stocks, equity mutual funds, government obligations, corporate bonds and notes, hedge funds, interest rate swaps, and cash and cash equivalents.

The assets of the Plan are not guaranteed as to principal or income. Investment income and all gains and losses, whether or not realized, are recognized on the accrual basis.

With respect to investments in the Group Trust, on a quarterly basis, each Plan's net assets are remeasured. This is done by first adjusting the Plan's beginning balance for employer-specific items, such as contributions, benefit payments, withdrawals, and any specific expenses incurred. Investment income and loss, investment fees and expenses, and realized and unrealized gains or losses on investments are then allocated to each Plan based on the percentage of its fair value to the combined fair value of all Plans participating in the Group Trust. At December 31, 2017 and 2016, the individual Plans owned the following portions of the total fair value of the underlying investments comprising the Group Trust:

During the years ended December 31, 2017 and 2016, the Plan's investments in the Group Trust, including investments bought, sold, and held during the applicable period, appreciated in fair value by $182,384,084 and $70,021,830, respectively. Interest and dividends reported by the Group Trust were $35,605,379 and $31,164,291 for the years ended December 31, 2017 and 2016, respectively. The Plan's allocable shares of these amounts are reported in in the net investment gain from the Group Trust in the statements of changes in net assets available for benefits.

Investment managers exercise discretionary authority, subject to certain limitations, for the purchase, sale, and management of the investments of the Group Trust that have been allocated to them for such purposes. Provisions relating to this discretionary authority and a representation by each of the investment managers that it is duly registered with the SEC pursuant to the Investment Advisers Act of 1940, as amended, are contained within respective agreements entered into with each investment manager.

Certain investment managers are authorized to use derivative financial instruments, either directly or within a commingled fund structure, within established guidelines. Derivative financial instruments may be used to manage interest rate and foreign exchange risk. The derivative financial instruments are recorded as other investments either as an asset or a liability, depending upon whether the instrument is in a gain or loss position. Changes in the fair value of derivative financial instruments are recorded in the statements of changes in net assets available for benefits; therefore, no gains or losses are deferred. At December 31, 2017 and 2016, the Group Trust held less than 1% of the total fair value of its investments in derivative financial instruments.

NOTE 4 FAIR VALUE MEASUREMENTS

To measure fair value, a hierarchy has been established that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs. As such, the hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2: Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3: Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumptions about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

The following is a description of the valuation methodologies used for investments measured at fair value pursuant to the fair value hierarchy.

NOTE 4 FAIR VALUE MEASUREMENTS *(continued)*

The following investments are classified as Level 1 investments in the fair value hierarchy.

Cash and cash equivalents include highly liquid investments with original maturities of 90 days or less and money market funds. Treasury bills are measured at institutional bond quotes that are based on various market and industry inputs, which is indicative of Level 1. Actively traded money market funds are measured at their net asset value (NAV) and may include several different underlying short term obligations, including corporates, government sponsored enterprises, U.S. Treasuries and municipal securities. Certain investments within the fund may be deemed unobservable and not considered to be in an active market. These factors are indicative of Level 2 securities.

Common stocks are determined by obtaining quoted prices in an active market, which are indicative of Level 1.

Mutual funds are valued based on their NAV. A mutual fund may include several different underlying investments, including equities, bonds, real estate, and global securities. The NAV price is derived from the value of these investments, accrued income, anticipated cash flows (maturities), management fees, and other fund expenses. Certain investments within the fund may be deemed unobservable and not considered to be in an active market; therefore, they are considered Level 2 securities.

U.S. Government and corporate obligations are valued using the consensus and a market-based model, which considers yield, price of comparable securities, coupon rate, maturity, credit quality and dealer-provided prices. These factors are indicative of Level 2 securities.

Interest rate swaps are valued by the Investment Manager utilizing a publicly available electronic data source and valuations provided by the counterparty. These instruments are generally classified within Level 2 of the fair value hierarchy.

Hedge funds are valued at the NAV per unit based on the fair value of the underlying investments. The underlying investments are primarily in publicly traded securities, which are valued at the closing price reported on the active market on which the individual securities are traded. In addition, these funds may have underlying investments in non-publicly traded securities for which quoted prices are not readily available. Such securities are valued by the investment management firm at an amount that approximates fair value, which is generally based on the verifiable fair value of similar securities at the valuation date. Plan management uses NAV as a practical expedient for measuring fair value; therefore, these investments do not require classification.

NOTE 4 FAIR VALUE MEASUREMENTS *(continued)*

The methods described above may produce a fair value calculation that may not indicate net realizable value or reflect future values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

The Plan did not have any investments measured at fair value on a nonrecurring basis as of December 31, 2017 and 2016.

The following table sets forth, by level within the fair value hierarchy, the Group Trust's assets carried at fair value as of December 31, 2017:

The Plan's right to redeem its hedge fund investments varies according to the contractual agreements with each of the individual hedge fund management firms. Some of the hedge funds do not permit redemption for an initial period of time following an investment in the fund, which, for the Plan's hedge fund investments, range between six months and three years. Additionally, the Plan's hedge fund investment managers may limit the portion of an investment that can be redeemed at any one time, either by an individual investor or in the aggregate by all of the investors in the hedge fund. These limits vary and limit the portion of an investment that may be redeemed at any one time or restrict both the portion and term of such redemptions.

NOTE 5 DERIVATIVE INSTRUMENTS

In the normal course of operations, the Group Trust's assets and liabilities may include derivative financial instruments (swaps, options and foreign currency contracts). These derivatives involve, in varying degrees, elements of credit and market volatility risks in excess of more traditional investment holdings, such as equity and debt instruments. The contract or notional amounts disclosed in this footnote provide a measure of the Group Trust's involvement in such instruments but do not indicate future potential loss. The intent is to use derivative financial instruments as investments to gain exposure to certain markets and as economic hedges to manage interest rate, equity price, foreign currency exchange rate risk and credit risk associated with the Group Trust's investments and obligations.

The following table presents the interest rate swaps held by the Group Trust at December 31, 2017. The fair value presented in the table is located in the statements of net assets available for benefits as investments at fair value.

	Number of Contracts	Maturity	Notional	Fair Value
ASSETS				
Interest rate contracts				
Fixed/3-month LIBOR	(A)	3/12/2018	$ 48,500,000	$ 23,467,016

NOTE 6 OFFSETTING ASSETS AND LIABILITIES

The Group Trust is subject to master netting agreements, or netting arrangements, with certain counterparties. The Group Trust is required to disclose the impact of offsetting assets and liabilities represented in the statement of net assets available for benefits to enable users of the financial statements to evaluate the effect or potential effect of netting arrangements on its financial position for recognized assets and liabilities. These recognized assets and liabilities are financial instruments and derivative instruments that are either subject to an enforceable master netting arrangement or similar agreement or meet the following right of set-off criteria: the amounts owed by the Group Trust to another party are determinable, the Group Trust has the right to set off the amounts owed with the amounts owed by the other party, the Group Trust intends to set off, and the Group Trust's right of set off is enforceable by law. The Group Trust's derivative contracts are subject to these master netting agreements; however, these transactions are included at gross in the Major League Pension Group Trust amount on the statement of net assets available for benefits.

NOTE 7 ACCUMULATED PLAN BENEFITS

The Selected Retirement Plans' actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal or retirement) between the valuation date and the expected date of payment.

The Selected Retirement Plans provide for the accumulation of benefits for services rendered by participants from the later of their respective dates of hire or the date their employer adopted the NUPP.

NOTE 8 ACTUARIAL ASSUMPTIONS

The more significant assumptions used by the actuary of the Selected Retirement Plans to, among other things, calculate accumulated plan benefits and determine funding levels at December 31, 2016, are as follows:

Actuarial method—Plan funding	Present value of accrued benefits
Mortality	RP-2017, with projection and MP-2017 full generational improvement scale (RP-2016, with projection and MP-2016 full generational improvement scale in prior year)
Average retirement age	Age 62

The discount rate for accumulated plan benefits for each Plan was as follows:

Plan	Discount Rate
Houston Astros, LLC	4.10% (4.30% in prior year)
The Baseball Club of Seattle, LLLP	4.10% (4.40% in prior year)
Angels Baseball LP, Baltimore Orioles LP, Kansas City Royals Baseball Corporation, The Phillies	4.20% (4.40% in prior year)
Cleveland Indians Baseball Co. LLC, Colorado Rockies Baseball Club, Ltd., Tampa Bay Rays Baseball, Ltd, Braves Holdings LLC, Boston Red Sox Baseball Club Limited Partnership, Chicago White Sox, Ltd., The Cincinnati Reds, LLC, Athletics Investment Group, LLC , Detroit Tigers, Inc., Marlins Holdings LLC, New York Yankees Partnership, Sterling Mets, LP, Padres, LP, Pittsburgh Associates, San Francisco Baseball Associates LLC, and St. Louis Cardinals, LLC, Los Angeles Dodgers LLC	4.20% (4.50% in prior year)
AZPB Limited Partnership	4.20% (4.60% in prior year)
Rangers Baseball, LLC and Washington Nationals Baseball Club, LLC	4.30% (4.60% in prior year)

These actuarial assumptions are based on the presumption that the Plans will continue. Were the Plans to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The actuary estimated the accumulated plan benefits as of December 31, 2016.

NOTE 9 INCOME TAX STATUS

The Selected Retirement Plans have received determination letters from the IRS stating that the Selected Retirement Plans are qualified under Section 401(a) of the Code and, therefore, the related Trusts are exempt from taxation. Once qualified, the Selected Retirement Plans are required to operate in conformity with the Code to maintain their qualification. The Selected Retirement Plans have been amended since issuance of the determination letters. However, the Plan Administrator believes the Selected Retirement Plans are being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Selected Retirement Plans, as amended, are qualified and the related Trusts are exempt from taxation.

U.S. GAAP requires the Plans' management to evaluate uncertain tax positions taken by the Plans. The financial statement effects of a tax position are recognized when the position is more-likely-than-not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plans, and has concluded that as of December 31, 2017, there were no uncertain tax positions taken or expected to be taken. The Selected Retirement Plans have recognized no interest or penalties related to uncertain tax positions. The Selected Retirement Plans are subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress, except for the Atlanta Braves. The Plan administrator believes the Selected Retirement Plans are no longer subject to income tax examinations for years prior to 2014.

NOTE 10 ADMINISTRATIVE EXPENSES

Certain actuarial, auditing fees, insurance and administrative expenses are paid by the Selected Retirement Plans. Certain other administrative expenses are paid by the BOC directly.

NOTE 11 RISKS AND UNCERTAINTIES

The Selected Retirement Plans invest in various investment securities that are exposed to risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term. The changes could materially affect the amounts reported in the financial statements.

NOTE 11 RISKS AND UNCERTAINTIES *(continued)*

Contributions to the Selected Retirement Plans are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

NOTE 12 SUBSEQUENT EVENTS

Statement of Actuarial Assumptions/Methods

1. Assumptions and methods for contribution purposes

Actuarial Assumptions and Methods — Contributions

Economic Assumptions

Interest rate basis:

■ Applicable month	September 2016
■ Interest rate basis	Segment Rates from Fourth Month Preceding Valuation Date

Interest rates:

	Reflecting Stabilization	Not Reflecting Stabilization
■ First segment rate	4.16%	1.52%
■ Second segment rate	5.72%	3.80%
■ Third segment rate	6.48%	4.79%
■ Effective interest rate	6.08%	4.34%

Annual rates of increase

■ Compensation	4.00%
■ Statutory limits on compensation	2.50%

Plan-related expenses — Expense load of $138,000 is equal to $100,000 for non-PBGC related administrative expenses plus estimated PBGC premiums for the current plan year.

Rates not reflecting stabilization are used to determine PBGC variable rate premiums if the alternative method is used, and are used to determine the PBGC FTAP and the PBGC 4010 FS.

Demographic and Other Assumptions

Inclusion date

The valuation date coincident with or next following the date on which the employee becomes a participant.

New or rehired employees

It was assumed there will be no new or rehired employees.

Mortality

Separate rates for non-annuitants (based on RP-2000 "Employees" table without collar or amount adjustments, projected to 2032 using Scale AA) and annuitants (based on RP-2000 "Healthy Annuitants" table without collar or amount adjustments, projected to 2024 using Scale AA). This is the IRS-prescribed static mortality table for 2017.

Termination

Rates varying by service

Percentage leaving during the year

Retirement

Rates varying by age, average age 62

For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age are shown below.

Percentage retiring during the year			
Age	Rate	Age	Rate

SCHEDULE SB ATTACHMENTS

Benefit commencement date:	
■ Preretirement death benefit	The later of the death of the active participant or the date the participant would have attained age 55
■ Deferred vested benefit	Age 65
■ Retirement benefit	Upon termination of employment
Form of payment	100% assumed to elect a life annuity
Percent married	80% (for purpose of valuing pre-retirement death benefits)
Spouse age	Females three years younger than males
Covered pay	Assumed plan compensation for the year beginning on the valuation date was determined by increasing the base salary rate provided as of the beginning of the current plan year by 10.00% to reflect additional items included in the plan's definition of pensionable earnings.
At-risk assumptions	Not applicable for current plan year.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

SCHEDULE SB ATTACHMENTS

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with Major League Baseball and, based on that review, is not aware of any significant benefits required to be valued that were not.

The plan pays small benefits (with a present value up to $5,000) in a single lump sum payment. Such lump sums are not explicitly valued; rather such participants' benefits are valued using the benefit choice assumptions described above.

Sources of Data and Other Information

The plan sponsor, through both its third party administrator and its trustee, furnished participant data as of 1/1/2017. Information on assets and contributions was supplied by the trustee. Information on plan provisions was provided by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available. In consultation with Major League Baseball, the following assumptions were made:

- Estimated accrued benefits were used for certain terminated vested participants or active participants in frozen plans for whom final accrued benefits had not been completed.
- 2016 plan compensation was set equal to estimated 2017 plan compensation for any active participants who were missing 2016 plan compensation.
- For participants with missing sex code, it was assumed that the participant is a female.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions for Contribution Purposes

Discount rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Rates of increase in:

- Compensation

  Assumed compensation increases are based on Major League Baseball's expectations for near-term years and the effect that the assumed long-term CPI will have on compensation increases over the longer term.

- Increases in statutory limits (CPI)

  The assumed CPI is based on a combination of historical average CPI from 2004 to 2016, current conditions, and future forecasts by economists.

SCHEDULE SB ATTACHMENTS

■ Assumed return for asset smoothing	The assumed return of 6.48% used for asset smoothing for the 2017 plan year is the third segment rate. Although we have not explicitly determined an expected return on assets under U.S. GAAP, based on an analysis of the plan sponsor's investment policy we believe the rate to be above the third segment rate for the 2017 plan year.
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

Assumptions Rationale - Significant Demographic Assumptions for Contribution Purposes

Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in 2016, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. Assumed termination rates differ by service because of observed and expected differences in termination rates by service.
Retirement	Retirement rates were based on an experience study conducted in 2016, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. Assumed retirement rates differ by age because of observed and expected differences in retirement rates by age.
Benefit commencement date for deferred benefits:	
■ Preretirement death benefit	Beneficiaries are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the beneficiary elects to defer. If the beneficiary elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value.
■ Deferred vested benefit	Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement. Deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at multiple ages is not expected to be significant.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods - Contributions

Change in assumptions since prior valuation	The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430. The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement, as required by IRC §430. A new experience study was performed during 2016 and, as a result, assumed rates of termination and retirement were changed to better reflect anticipated future experience. In addition, as a result of the study, the increase applied to the current year's base salary rate to reflect additional items included in the plan's definition of pensionable earnings was increased from 7.50% to 10.00%.
Change in methods since prior valuation	There have been no changes in methods since the prior valuation.

Summary of Plan Provisions

Plan Provisions	
Effective Date	January 1, 1992. The plan was restated effective January 1, 2013 and the most recent amendment reflected in the following plan provisions was effective September 1, 2015.
Covered Employees	Any person employed by a participating Major League Baseball Club (excluding any person who is an active participant in the Major League Baseball Players Benefit Plan, a member of a collective bargaining unit not participating, a person compensated on a per-day or per-game basis, employed full-time in Canada, a self-employed partner, proprietor or shareholder-employee, or a member of a group designated not eligible for participation), and who has attained age 21 and completed one year of eligibility service. Effective January 1, 2008, all active minor league employees are covered under the Minor League Players Pension Plan. Effective December 1, 2010, all inactive minor league participants are covered under the Minor League Players Pension Plan.
Participation Date	Date of becoming a covered employee.

Definitions	
Eligibility service	The 12-consecutive month period, starting at date of employment, in which an employee completes 1,000 hours of service.
Baseball service	Employment in baseball with any Major League Baseball Club, as designated by the Pension Committee.
Vesting service	Completed years from a participant's employment date to the termination of baseball service.
Pension service	Years and months of service as a covered employee but not before January 1, 1992.
Pensionable pay	W-2 earnings, including any cafeteria plan deferrals, dependent care assistance deferrals, and any other employee deferrals to a qualified retirement plan, but excluding any reimbursements, fringe benefits, moving expenses, deferred compensation, welfare benefits, signing bonuses, severance, IRC Section 132 deductions taken pursuant to the Transportation Equity Act, and any earnings earned as a non-resident alien (assuming the employee earned no income in the US). Playoff and World Series shares are included in pensionable pay. Clubhouse tips are excluded from pensionable pay.

SCHEDULE SB ATTACHMENTS

Average earnings	The greater of 1) or 2): 1) The average of an employee's highest five consecutive plan years of annual earnings, during the ten-year period which ends on the earlier of the participant's termination date or retirement date. If the employee does not have five consecutive plan years of annual earnings, the average earnings will be determined by using the greatest number of consecutive plan years in which the employee accrued pension service. 2) The average of an employee's last five plan years of annual earnings (which would not necessarily be the highest 5 plan years), whether or not consecutive, during the ten-year period which ends on the earlier of the participant's termination date or retirement date. In plan years where a participant completed a partial year of pension service, the annual earnings will be prorated by the number of completed months of pension service. This is applicable for both 1) and 2) above.
Normal retirement date (NRD)	First of month coinciding with or next following the attainment of age 65.
Pension benefit	2% of average earnings for each year of pension service up to 30 years. (Not less than the minimum pension benefit.)
Preretirement death benefit	If not eligible for early or normal retirement, 50% of the pension benefit as of the date of death, reduced for the 50% joint and survivor election and reduced for payment as early as the participant's 55th birthday. If eligible for early or normal retirement, 100% of the pension benefit as of the date of death, reduced for the 100% joint and survivor election and reduced for early commencement of payment.
Minimum pension benefit	The benefit accrued through December 31, 1993, in accordance with prior plan provisions.

Eligibility for Benefits

Normal retirement	Retirement on NRD.
Early retirement	Retirement before NRD and on or after both attaining age 55 and completing ten years of vesting service.
Postponed retirement	Retirement after NRD.
Deferred vested	Termination for reasons other than death or retirement after completing five years of vesting service.
Preretirement death benefit	Death while eligible for normal, early, postponed or deferred vested retirement benefits, with a surviving spouse.

SCHEDULE SB ATTACHMENTS

Benefits Paid Upon the Following Events

Normal retirement	Pension benefit determined as of NRD.
Early retirement	Pension benefit determined as of early retirement date, reduced 7/12% for each of the first 60 months and 1/3% for each of the next 60 months by which payment precedes NRD.
Postponed retirement	Pension benefit determined as of actual retirement date.
Termination with deferred vested benefit	Pension benefit determined as of termination date, payable at NRD. A participant who terminates with 10 or more years of vesting service, may elect to retire as early as age 55 (reduction is 7/12% for each of the first 60 months and 1/3% for each of the next 60 months by which payment precedes NRD).
Death with preretirement benefits	Preretirement death benefit is payable to a surviving spouse.

Other Plan Provisions

Forms of payment	Preretirement spouse benefits are payable only as described above. Monthly pension benefits are paid as described above, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of the 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms are a 50%, 75% or 100% joint and survivor annuity, a ten-year certain and life annuity, or (for married participants) a life annuity. The normal form of payment is converted to an optional form using an interest rate of 6% and GAR-94 Mortality (unisex).
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

Future Plan Changes

It is our understanding that the Colorado Rockies are in the process of amending their NUPP to make the following changes:

- Employees hired after April 1, 2017 who are not scheduled to work 1,000 hours in their first year of employment and employees hired prior to April 1, 2017 who have not met the plan's participation requirements as of April 1, 2018 will not be eligible to participate in the NUPP.

- Employees hired or re-hired on or after February 1, 2018 will not be eligible to participate in the NUPP.

- All other employees will make an election as to whether they want to continue accruing benefits in the NUPP. The election period will take place in January and February 2018, and the elections will be effective April 1, 2018.

Since the amendment to the NUPP had not been adopted by December 31, 2017, this change will first be reflected in determining minimum and maximum contributions for the plan year ending December 31, 2018.

No other future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions.

Changes in Benefits Valued Since Prior Year

There have been no other changes in benefits valued since the prior year.
