The Everett Clinic Profit Sharing and 401(k) Employee Savings Plan and Trust Notes to Financial Statements

Note 1 – Description of the Plan

The following description of The Everett Clinic Profit Sharing and 401(k) Employee Savings Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a 401(k) salary deferral and profit sharing plan covering substantially all employees of The Everett Clinic, PLLC and Everett MSO, Inc. (the Clinic) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Everett Clinic, PLLC is the Plan's sponsor and serves as Plan administrator.

Contributions

Participant contributions – Each year, participants may elect to defer a percentage of their pre-tax annual compensation up to the maximum provided under the Internal Revenue Code. Participants may also elect to make after-tax Roth 401(k) contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from IRAs and other qualified plans.

Employer match and profit sharing contributions – The Clinic may elect to make discretionary matching and profit sharing contributions to the Plan. The Clinic matches 50% of employee contributions, up to 3% of eligible compensation deferred to the Plan. Profit sharing contributions are allocated to participants in the same proportion as a participant's compensation bears to the total of all participants' compensation. There were no profit sharing contributions for the year ended December 31, 2017.

Participants direct the investment of their contributions to their choice of various investment options. Contributions are subject to regulatory limitations.

Participant accounts – Each participant's account is credited with the participant's contributions and Clinic matching contributions, as well as allocations of the Clinic's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their contributions into various investment options offered by the Plan.

Eligibility and vesting – Employees can elect to make 401(k) deferrals upon employment with the Clinic, as defined in the Plan. All employee deferral and employer matching contributions plus earnings thereon are immediately 100% vested. Once eligible, participants are then eligible to receive allocations of the Clinic's profit sharing contribution after completing 1,000 hours of service during the Plan year and being employed on the last day of the Plan year. Participants vest 20% in their profit sharing contributions after two years of service and are 100% vested after six years of credited service.

Forfeiture balances are applied to reduce employer contributions, generally in the year they occur. Forfeiture amounts applied in 2017 were \$39,274.

Notes to Financial Statements

Note 1 – Description of the Plan (continued)

Notes receivable from participants – Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested accrued benefit. The loans are issued by the Plan and secured by the balance in the participant's account. Loans require repayment within five years through equal installments in the form of payroll deductions. Interest rates are established at loan inception based on the prime rate of interest as published in The Wall Street Journal plus 1%, commensurate with local prevailing rates ranging from 4.25% to 5.50%, with various maturities through December 2021. In the event a participant terminates employment with the Clinic, any unpaid loan balance may be repaid within 60 days or will be applied against the participant's vested account balance in accordance with the loan policy.

Payment of benefits – Participants may request a lump-sum payment of their vested profit sharing and 401(k) accounts due to separation of service, death, or disability. Participants entitled to distributions due to death or disability or those who have attained age 55 may request partial distributions from their vested retirement account. In-service distributions are available from profit sharing and 401(k) accounts after attainment of age 55 and 59½, respectively. Distributions are processed quarterly.

Plan freeze – As of December 31, 2017, the Plan was frozen. It will continue to operate as a frozen plan until the assets are in a form that can be readily liquidated and distributed. As of December 31, 2017, all participants in the plan were 100% vested in their respective account balances, rollovers are no longer being accepted, and the Company will not make any further contributions to the Plan.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates – The preparation of financial statements in accordance with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation – Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an orderly transaction between market participants at the measurement date (Note 3).

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions upon the occurrence of a distributable event, based on the terms of the Plan document.

The Everett Clinic Profit Sharing and 401(k) Employee Savings Plan and Trust

Notes to Financial Statements

Note 2 – Summary of Significant Accounting Policies (continued)

Payment of benefits – Benefits are recorded when paid.

Expenses – Administrative expenses related to operating and maintaining the Plan can be paid by the Plan or Clinic. Certain administrative, investment, and transaction fees are paid by the Plan.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through October 12, 2018, which is the date the financial statements are available to be issued.

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The Everett Clinic Profit Sharing and 401(k) Employee Savings Plan and Trust

Notes to Financial Statements

Note 3 – Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Registered investment companies (mutual funds) – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common stock – Valued at the closing price reported on the active market on which the individual securities are traded.

Money market funds – A public investment vehicle valued using \$1 for the NAV. The money market funds are classified within Level 1 of the valuation hierarchy.

Limited partnerships and other corporate investments – Interests are valued at the net asset value practical expedient (NAV practical expedient) based on the Plan's percentage interest in the partnership or the number of shares for corporate investments using estimated fair value as provided by the investment fund based on quoted market values when available, cost of securities, prices of recent third-party transactions, subsequent developments concerning the companies to which the securities relate, and financial data and projections provided to the general partner. The Plan considers subscription and redemption rights, including any restrictions on the disposition of the interest, in its determination of fair value.

The Plan has established a valuation process for investments in limited partnerships and other corporate investments. This process includes a written investment policy and procedures to ensure that the investments are valued in a consistent and fair manner. The Plan receives statements from each investment on a monthly basis and accounts for the shares. The Plan Trustees are responsible to review the valuation of the investments on a quarterly basis.

Collective trust – Units held in collective trusts (CT) are valued using the NAV practical expedient of the CT as reported by the CT managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the CT, minus its liabilities, and then divided by the number of units outstanding.

Real estate – Valued at appraised value and certified by The Charles Schwab Bank (Charles Schwab), the custodian.

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

- Certain investments reflected on the schedule of assets (held at end of year).

During 2017 and 2016, the Plan held alternative investments outside of The Charles Schwab Bank. These amounts were not certified by The Charles Schwab Trust Company.

Note 6 – Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated May 16, 2017, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, the Plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 – Party-in-Interest Transactions

The Plan leases a medical office complex located at 3901-3909 Hoyt Avenue in Everett, Washington (Property) to the Clinic under a prohibited transaction exemption granted by the Department of Labor (DOL), as published in the Federal Register. The lease agreement requires minimum monthly rental payments and the payment of all taxes, insurance, maintenance, and related expenses. The Clinic extended the lease terms on June 1, 2015, for an additional five-year period, beginning July 1, 2016, and expiring June 30, 2021. The rental rate was \$122,994 per month January through June, 2017 and \$125,761 per month July through December, 2017.

The lease contains provisions for consecutive five-year renewal options and requires that the minimum monthly rent upon the commencement of any option period be the market rent determined by a rent study of the Property performed by an independent qualified appraiser; however, the minimum monthly rent shall not be less than the initial minimum monthly rent at the beginning of the lease on July 1, 1996 (i.e., \$78,942). On the first and second anniversary of the option commencement date, the minimum monthly rent shall be increased by 2.25% over the minimum monthly rent from the previous year. At the mid-point of the five-year option period, the minimum monthly rent shall be adjusted to the greater of the minimum monthly rent at the time of the adjustment or the market rent determined by a rent study of the Property performed by an independent qualified appraiser. Then, on each subsequent anniversary of the minimum monthly rent adjustment date, the minimum monthly rent shall be increased by 2.25% over the rent from the previous year until the option period expires. The lease contains a purchase option whereby the Clinic may purchase the Property from the Plan at any time during the lease term or extension term. The purchase price upon exercise of the purchase option will be the greater of (a) the Plan's original acquisition cost (\$7.2 million) of the Property or (b) the fair market value of the Property at the date of sale as established by an independent appraiser.

The Everett Clinic Profit Sharing and 401(k) Employee Savings Plan and Trust Notes to Financial Statements

Note 7 – Party-in-Interest Transactions (continued)

Plan investments include shares of registered investment company funds managed by The Charles Schwab Trust Company, which is the custodian of the Plan and an affiliate of Charles Schwab Bank; therefore, transactions with these entities qualify as exempt party-in-interest transactions. Fees paid by the Plan for custodial services were \$105,333 for the year ended December 31, 2017.

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

Note 9 – Plan Termination

As the plan is frozen as of December 31, 2017 (Note 1), all participant accounts are fully vested. It will continue to operate as a frozen plan until the assets are in a form that can be readily liquidated and distributed.
