The following description of Novolex TE 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan with a cash or deferred arrangement covering substantially all hourly employees at the Northern Kentucky, New Jersey, Tennessee, and Arizona manufacturing plants of Duro Hilex Poly, LLC (the "Company"), governed by collective bargaining agreements. Employees are eligible to become participants once they have reached twenty-one years of age and completed one year of service and can enroll in the Plan on the first day of the Plan year or the first day of the seventh month of the Plan year after the date of eligibility, as defined in the plan document. Effective January 1, 2017, the Plan's name was changed from Duro Hilex Poly, LLC Northern Kentucky Hourly Employees Retirement Savings Plan to Novolex TE 401(k) Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may defer a portion of their pretax annual compensation, as defined, subject to certain statutory limitations. Participants may also elect to make Roth 401(k) contributions, of which are subject to federal income taxes in the year of deferral. For 2017 and 2016, the deferred amount may not exceed \$18,000. Additionally, the Internal Revenue Code allows for participants over the age of 50 to make additional contributions (catch-up contributions) in excess of these limits. The maximum catch-up contributions for 2017 and 2016 were \$6,000. The Company may elect to make a matching contribution on an annual basis for all participants who elect to make pre-tax or Roth salary deferral contributions to the Plan. The amount of the matching contribution, if any, will be determined each Plan year and announced to all participants. The Company is permitted to make a nonelective contribution equal to a discretionary percentage of eligible compensation (determined each year by the Company and as stated in the collective bargaining agreement). If a nonelective contribution is made by the Company, it is in the same ratio that the participants' salary bears to the total salary of all participants in the Plan. In order to receive the nonelective contributions, participants must be employed on the last day of the plan year. Participants may also contribute amounts representing distributions from other qualified defined benefit plans or contribution plans. Participants direct the investment of all contributions into various investment options offered by the Plan.

Participant Accounts

Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's pretax or Roth contributions, the Company's nonelective contribution, plan earnings or losses, and administrative expenses which are allocated proportionately among all participants based on their investment in each fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested at all times in their pretax and Roth contributions and earnings or losses thereon. Participants become vested in Company contributions made for Plan years beginning prior to January 1, 2007 as follows:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 4 years	0%
Greater than or equal to 4 years	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 reduced by the highest outstanding loan balance incurred by the participant during the 12-month period ending on the day before the date on which the loan was made or 50% of the value of the vested interest in the participant's Plan account. No Participant may have more than one loan outstanding at one time. Loan repayments may not exceed five years except that loans for purchase of primary residence may not exceed 30 years. The loan is secured by an equivalent lien on the participant's non-forfeitable interest in the Plan at the time of the loan and bears interest at the prime rate as published in The Wall Street Journal plus 1%. Principal and interest is paid through payroll deductions.

Payment of Benefits

Upon termination of service, a participant may elect to receive either a lump-sum payment or an installment payment over a fixed number of years. Participants may withdraw all of their pretax and Roth contributions, subject to certain restrictions and tax penalties.

Forfeited Accounts

Forfeitures occur upon termination of employment by a participant who is not fully vested in the Plan. These accounts will be used to pay administrative expenses of the Plan or to reduce employer nonelective contributions. In 2017 and 2016, \$4,950 and \$1,113 were used to pay administrative expenses of the Plan, respectively. In 2017 and 2016, \$-0- and \$7,469 were used to reduce employer nonelective contributions, respectively. Forfeiture balances available for the years ended December 31, 2017 and 2016 were \$8 and \$210, respectively.

2. Summary of Significant Accounting Policies:

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Plan's valuation policies. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 and 2016. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Company and are therefore excluded from these financial statements. Investment-related expenses are included in net appreciation in fair value of investments. Fees for distributions as well as the administration of notes receivable from participants are included in administrative expenses and charged directly to the participant's account.

Recently Issued Accounting Standards

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, Disclosure for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent). The ASU impacts reporting entities that measure an investment's fair value using the net asset value per share practical expedient. The amendments in ASU No. 2015-07 eliminate the requirement to classify the investment within the fair value hierarchy. In addition, the requirement to make certain disclosures for all investments eligible to be assessed at fair value with the net asset value per share practical expedient has been removed. Instead, such disclosures are restricted only to investments that the entity has elected to measure using the practical expedient. The Plan adopted ASU No. 2015-07 during the year ended December 31, 2016.

2. Summary of Significant Accounting Policies (continued):

Recently Issued Accounting Standards (continued)

In July 2015, FASB issued ASU No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent five percent (5%) or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. The level of disaggregation of investments that are measured using fair value is also simplified.

Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investment by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Parts I and III are not applicable to the Plan. The Plan adopted Part II during the year ended December 31, 2016.

Date of Management's Review

Subsequent events have been evaluated through October 12, 2018, the date which the financial statements were available to be issued.

3. Information Certified by the Trustee:

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, State Street Bank and Trust Company, the trustee of the Plan (the "Trustee") has certified that the following data included in the accompanying financial statements is complete and accurate.

	<u>2017</u>	<u>2016</u>
Investments at fair value	\$ 8,379,323	\$ 3,753,044
Interest and dividend income	99,405	46,118
Net appreciation in fair value of investments	957,760	184,061

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information with the related information included in the financial statements.

4. Fair Value Measurements:

FASB ASC 820, *Fair Value Measurements* ("ASC 820") defines fair value, establishes a consistent framework for measuring fair value and establishes a fair value hierarchy based on the observability of inputs used to measure fair value. The objective of a fair value measurement is to determine the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). Accordingly, the fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of fair value hierarchy under ASC 820 are described as follows:

- | | |
|---------|---|
| Level 1 | Unadjusted quoted market prices in active markets for identical unrestricted assets or liabilities that the Plan has the ability to access at the measurement date. |
| Level 2 | Other significant observable inputs, including quoted prices for similar securities, interest rates, prepayment speeds, credit risk and others. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. There are no plan assets requiring the use of Level 3 inputs for the periods presented. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no significant changes in the methodologies used at December 31, 2017 and 2016.

Level 1 Fair Value Measurements

- | | |
|------------------------|--|
| Mutual funds: | Valued at the daily closing price as reported by the fund. Net assets values (NAV) are generally obtained from The National Securities Clearing Corporation, directly from the fund house, and/or a secondary processing source. |
| Interest bearing cash: | Valued at the net asset value (NAV) of shares held by the Plan at year end and amortized cost to approximate the current fair value of certain securities. |

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fair Value Measurements (continued):

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

Assets at Fair Value as of December 31, 2017

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

Investments measured using net asset value per share practical expedient				<u>709,645</u>
Total investments				<u>\$ 3,753,044</u>

The Plan invests in a stable value fund, which trades at the net asset value (NAV) per share practical expedient of the fund. The fund is not categorized within the fair value hierarchy.

The following table summarizes investments measured at fair value based on NAV per share practical expedient as of December 31, 2017 and 2016:

Redemption notice period	None	None

5. Plan Termination:

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of any termination of the Plan, or upon complete or partial discontinuance of contributions, the accounts of each affected participant shall become fully vested.

6. Tax Status:

The Internal Revenue Service has determined and informed the Trustee by a letter dated March 31, 2014 that the prototype plan on which the Plan is based and the related trust were designed in accordance with the applicable regulations of the Internal Revenue Code (IRC). The prototype plan has been amended subsequent to that date. However, the plan administrator believes that the Plan, which is based on the prototype plan, was at all times during the years ended December 31, 2017 and 2016, designed and operated in compliance with the applicable requirements of the IRC, and that the Plan and related trust continued to be tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service or Department of Labor. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

7. Risks and Uncertainties:

The Plan invests in various investments securities. Investment securities, in general, are exposed to various risks, including interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

8. Related-Party Transactions:

Certain plan investments are cash reserve accounts managed by State Street Bank & Trust Company. State Street Bank and Trust Company is the trustee as defined in the Plan and, therefore, these transactions qualify as party-in-interest transactions. All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

9. Assets Allocated to Terminated Participants:

Net assets available for benefits include amounts allocated to the accounts of persons who were terminated prior to year-end but had not yet received payment. At December 31, 2017 and 2016, the vested account balances of terminated participants are \$761,449 and \$558,534, respectively.
