Employees of the Company are eligible to participate in the Plan after attaining age 21 and completing one month of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Company is responsible for the administration and oversight of the Plan.

The Plan allows for an auto-enrollment provision whereby all eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a qualified designated investment fund until changed by the participant. Automatically enrolled participants may elect to increase or decrease deferral percentages, as defined by the Plan.

The Plan was restated and amended effective June 1, 2017 to comply with required legislative updates. There were no significant changes made to the Plan's provisions.

Contributions

Each year, participants may contribute up to the maximum allowable amount of pretax annual compensation subject to the limitations under the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). The Plan allows participants to designate all or a portion of their deferrals as Roth contributions to the Plan on an after-tax basis.

The Plan provides for discretionary Company matching contributions to the Plan based on a percentage of participant contributions as determined by the Company each year. For the year ended December 31, 2017, the Company elected to make discretionary matching contributions equal to 50% of each participant's compensation that the participant contributed to the Plan not to exceed 3% of qualified compensation, as defined in the Plan.

Additionally, the Plan provides for discretionary profit-sharing contributions. Allocations of any discretionary profit-sharing contributions is based on each participant's compensation as it bears to the compensation of all eligible participants. The Company did not elect to make any discretionary profit-sharing contributions for the year ended December 31, 2017.

Contributions are subject to certain IRC limitations.

Participants may direct all their contributions among one or more funds offered by the Plan. Changes in allocations of future contributions and transfers among funds of presently invested contributions are permitted pursuant to the Plan's provisions.

Participant Accounts

Each participant's account is credited with the participant's contributions and any discretionary matching contributions, as well as allocations of (a) any discretionary profit-sharing contributions and (b) Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans bear interest equal to one percent plus the prime lending rate. Interest rates on loans currently outstanding range from 4.50% to 5.25%. Principal and interest are paid ratably through payroll deductions over a term not exceeding five years, or 15 years for loans used for the purchase of a principal residence.

Payment of Benefits

On termination of service due to death, disability, termination of employment, attainment of age 59 ½, or retirement, a participant will generally receive the value of their vested interest in his or her account in the form of a lump-sum amount, installments, or as a rollover to another entity. If the participant's vested interest in the Plan is less than $5,000, a mandatory lump-sum distribution may be made to the participant. Withdrawals from the Plan may also be made upon circumstances of financial hardship, in accordance with provisions specified in the Plan.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company contribution portion of their accounts plus actual earnings thereon are vested on a three-year cliff schedule where participants are fully vested after three years of service.

Forfeited Accounts

At December 31, 2017, forfeitures were immaterial to the financial statements. Forfeited non-vested amounts attributable to Company contributions can be used to reduce Company contributions, restore forfeitures, or to pay the administrative expenses of the Plan.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial

statements and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the investment advisors and Voya Retirement Insurance and Annuity Company ("Voya"). See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 or 2016. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefit payments are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable and requested distributions from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events

The financial statements and related disclosures include an evaluation of events up through and including October 15, 2018, which is the date the financial statements were available to be issued. No material subsequent events have occurred through that date that required recognition or disclosure in the financial statements.

3. Fair Value Measurements

Accounting Standards Codification ("ASC") Topic 820, *"Fair Value Measurements and Disclosures,"* establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets,
- quoted prices for identical or similar assets or liabilities in inactive markets,
- inputs other than quoted prices that are observable for the asset or liability,
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Shares of Registered Investment Companies: Valued at the daily closing prices as reported by the fund. Registered investment companies held by the Plan are open-ended funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The shares of registered investment companies held by the Plan are deemed to be actively traded.

Fixed Income Fund: This fund invests primarily in fixed income securities to provide stability of principal. The Plan deposits a lump sum with the issuer and receives a guaranteed interest rate for a specified time. Interest is accrued on either a simple interest or fully compounded basis and paid either periodically or at the end of the contract term. The issuer guarantees that all non-qualified participant withdrawals will occur at fair value (principal plus accrued interest, including a market value adjustment). The underlying investments of this fund are not considered fully benefit-responsive. There may be restrictions in transferring the funds to other funds in order to preserve the stability of the fund.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments as of December 31, 2017 and 2016:

	Investments, at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total

4. Information Certified by Voya

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA as of December 31, 2017, and for the year then ended. Accordingly, the Plan's insurance company, Voya, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

a. Investments and notes receivable from participants, as shown in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2017.

b. Investment income and interest income on notes receivable from participants, as shown in the accompanying Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2017.

c. Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2017.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information provided by Voya to the related information included in the financial statements and supplemental schedule.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the Company contribution portion of their account.

6. Related-Party and Party-in-Interest Transactions

Certain Plan investments are managed by Voya. Voya provides services to the Plan including recordkeeping, therefore, these transactions qualify as exempt party-in-interest transactions. Certain employees of the Company provide administrative services to the Plan. Employees are not paid by the Plan for their services.

7. Tax Status

The Plan adopted a volume submitter plan from Goldleaf Partners, which received an opinion letter from the Internal Revenue Service ("IRS") on March 31, 2014 stating that the Plan document, as then designed, was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since the date of the opinion letter, the Plan Administrator believes the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and that the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of the liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
