OPSPPro 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the OPSPPro 401(k) Plan, formerly known as the MBC 401(k) Plan, (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan that became effective January 1, 2010 covering the employees of Morgan Business Consulting (The Company). The Plan was restated January 1, 2013 to cover all employees of Morgan Business Consulting, LLC; OPSPPro, LLC; and TDI Human Capital Solutions, LLC. Employees who are full-time are eligible to participate in the Plan on the date of their employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Effective January 1, 2013, the Plan name changed to OPSPPro 401(k) Plan.

Participant contributions: Participant contributions to the Plan are made by employees within the limitations stipulated in Section 401(k) of the Internal Revenue Code. Each year eligible employees may contribute up to 100% of eligible compensation as defined by the Plan.

Rollovers: The Plan accepts rollovers from a qualified retirement plan of a prior employer with approval from the Plan Sponsor.

Employer contributions: The Company may make matching contributions for eligible employees, equal to a discretionary percentage to be determined by the Company, of each participant's elective deferrals. The Company may also make profit sharing contributions for eligible employees who are actively employed on the last day of the Plan year, equal to a discretionary percentage to be determined by the Company, of each participant's eligible wages.

Transfers to other qualified plans of related employers: Upon transfer of employment, participants may transfer their plan assets to other qualified plans of affiliated employers not included in the controlled group of the Company.

Participant accounts: Each participant's account is credited with the participant's contribution, the Company's discretionary matching and profit sharing contributions, if any, and actual earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions and employer profit sharing contributions, plus actual earnings thereon. For employees hired prior to January 1, 2011, the Company's discretionary matching contribution portion of their account plus actual earnings thereon are fully vested. For employees hired after January 1, 2011, vesting in the Company's discretionary matching contribution portion of their account plus actual earnings thereon is based on years of continuous service. Participants vest 25% after one year of service, vest an additional 25% for each year following and are 100% vested after four years of service.

Notes receivable from participants: Participants may borrow from their fund accounts. The minimum loan is \$1,000 and loans may not exceed the lesser of \$50,000 or 50% of a participant's vested account balance and the repayment period shall not exceed five years unless the loan is used to purchase a primary residence in which the repayment period shall not exceed 30 years. Each loan is collateralized by the remaining balance in the participant's account. Interest charged to participants is set and reviewed by the Plan's management and is currently set at the prime rate plus two percentage points. Interest rates on participant loans ranged from 5.25% to 6.25% as of December 31, 2017 and 5.25% to 5.50% as of December 31, 2016 with maturity dates through December 2024.

Investment options: The participant directs the investment of their contributions and the Company's discretionary contribution into various investment options offered by the Plan.

OPSPRO 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Payment of benefits: On termination of service, times of hardship, upon death, disability, or retirement a participant, or their beneficiary in the case of death, may receive a lump sum or installment amounts equal to the value of the participant's vested interest in his or her account.

Forfeited accounts: Forfeiture funds are used to reduce administrative fees paid by the Plan sponsor first and any remaining funds are used to reduce future employer contributions. The amount used to offset Employer contributions and administrative expenses of the Plan in 2017 totaled \$69,470. Forfeited, non-vested accounts totaled \$8,582 and \$26,605 at December 31, 2017 and 2016, respectively.

Note 2. Summary of Significant Accounting Policies

Basis of presentation: The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America in accordance with the Financial Accounting Standards Board Accounting Standards Codification.

Contributions: Participant contributions are recognized when withheld. Employer discretionary matching contributions are recognized concurrently with participant contributions although are not required to be contributed in the same manner due to their discretionary nature. These contributions are recalculated annually in order to determine any true-up adjustments. Employer discretionary matching contributions totaled \$446,131 for 2017. Employer profit sharing discretionary contributions are recognized on an annual basis and totaled \$98,524 in 2017.

Payment of benefits: Benefits are recorded when paid.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Administrative expenses: The Employer pays all administrative expenses of the Plan. The Plan is not charged for administrative services performed by employees of the Plan sponsor.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan provides for investments in pooled separate accounts and fixed annuity investment contracts.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses in investments bought and sold as well as held during the year. Capital gain distributions are included in net appreciation.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts and disclosures reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Subsequent events: The Plan administrator has evaluated subsequent events through October 15, 2018, the date the financial statements were available to be issued.

Notes to Financial Statements

Note 3. Information Certified by the Plan's Custodian

The information related to investments that is included throughout the Plan's financial statements and supplemental schedule as of December 31, 2017 and 2016 and for the year ended December 31, 2017 was prepared by or derived from information provided by the custodian and furnished to the Plan administrator. The Plan administrator has obtained certifications from the custodian that information provided to the Plan administrator by the custodian related to these investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Note 9 and the supplemental schedule related to the Plan's assets.

John Hancock Life Insurance Company also certified to the completeness and accuracy of \$2,043,767 of net appreciation in fair value of investments, \$196 of dividends related to the investments and \$13,905 of interest income from notes receivable from participants for the year ended December 31, 2017.

Note 4. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 5. Income Tax Status

The Plan has adopted a standardized form of a volume submitter plan sponsored by the third part administrator, Dixon Hughes Goodman LLP. The volume submitter plan has received an opinion letter from the Internal Revenue Service as to the volume submitter plan's qualified status. The volume submitter plan opinion letter has been relied upon by this Plan. The Plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

The Plan administrator evaluated the Plan's tax positions and concluded that there are no uncertain tax positions that require recognition or disclosure in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by tax authorities for years before 2014.

Note 6. Funds Held In Insurance Company General Accounts

The Plan has a non-fully benefit-responsive investment fund with John Hancock Life Insurance Company. Contributions are allocated to the guaranteed interest account, which is not, by definition, an investment contract, but rather is an investment option offered under the John Hancock Life Insurance Company group annuity contract. Such contributions are maintained in the John Hancock Life Insurance Company general account. The account guarantees the return of a principal amount plus compounds interest earned over the defined term, less any applicable contract or participant-level administrative expenses.

There are no reserves for credit risk of the contract issuer or otherwise. The crediting interest rate is established on the first day of each calendar month and applies to all regular ongoing contributions made to the guaranteed account in that month. There is no minimum rate under the group annuity contract and interest rates are not reset.

Note 7. Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for plan benefits.

Note 8. Related-Party Transactions

Certain Plan investments are managed by John Hancock Life Insurance Company. John Hancock Life Insurance Company is the custodian as defined by the Plan; and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to John Hancock Life Insurance Company for recordkeeping services amounted to \$1,179 for the year ended December 31, 2017.

Note 9. Fair Value Measurements

The Plan has determined the fair value of certain assets through application of accounting guidance that establishes a framework for measuring fair values. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 9. Fair Value Measurements (Continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Pooled separate accounts: Primarily valued at net asset value (NAV) per share based on quoted market prices of underlying investments. The NAV is used as a practical expedient to estimating fair value. The underlying investments of the pooled separate accounts consist of mutual funds.

Funds held in insurance company general accounts: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets measured at fair value on a recurring basis: The following table summarizes assets measured at fair value on a recurring basis as of December 31, 2017 and 2016, segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value.

	2017			
	Level 1	Level 2	Level 3	Total
Funds held in insurance company general accounts	\$ -	\$ -	\$ 73,130	\$ 73,130
Investments measured at net asset value ^(a)				12,508,169
Total investments, at fair value				\$ 12,581,299

	2016			
	Level 1	Level 2	Level 3	Total
Funds held in insurance company general accounts	\$ -	\$ -	\$ 63,078	\$ 63,078
Investments measured at net asset value ^(a)				10,742,830
Total investments, at fair value				\$ 10,805,908

^(a) Certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The table below discloses the fair value and redemption frequency for those assets whose fair value is estimated using the net asset value per share as of December 31, 2017 and 2016.

Investment	2017	2016	2017	2016	Redemption	Redemption
	Fair Value	Fair Value	Unfunded Commitment	Unfunded Commitment	Frequency	Notice Period
Pooled separate account	\$ 12,508,169	\$ 10,742,830	None	None	Immediate	None

Note 9. Fair Value Measurements (Continued)

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to the net assets available for benefits. For the years ended December 31, 2017 and 2016, there were not significant transfers in or out of Levels 1, 2, or 3.

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2017.

	John Hancock Guaranteed Contracts
Balance, beginning of year	\$ 63,078
Interest income	179
Purchases	9,873
Balance, end of year	\$ 73,130

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs as of December 31, 2017 and 2016.

Instrument	Fair Value		Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
	2017	2016			
Funds held in insurance company general accounts	\$ 73,130	\$ 63,078	Distributed cash flow	Minimum guaranteed interest rate Current interest rate	Composite rate* Interest rates**

* At the end of each reporting year, a "composite rate" of interest is determined for each participant account, depending on the amount contributed and the rate in effect on the day it is allocated under the participant account. The composite rate is the effective annual rate earned by all contributions to the guaranteed account during that reporting year for that participant. Contributions continue to earn the calculated composite interest rate for the duration of the guarantee term.

** Interest rates are established on the first day of each calendar month and apply to any regular ongoing contributions made to the guaranteed account in that month. The average gross interest rates for each allowed term were the following:

Term	2017	2016
3- year	0.84%	0.54%
10- year	1.38%	1.04%
