(1) Description of plan

The following description of the IVCi, LLC 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan, which was established in 2001, and amended and restated on January 1, 2016, is a defined contribution 401(k) salary deferred and profit sharing plan. The Plan is currently sponsored by IVCi, LLC (the "Employer"). The Plan covers substantially all employees with at least three months of consecutive service who have worked at least 1,000 hours annually and have attained age 21 or older ("participants"). Eligible employees can begin participating in the Plan on the first day of the quarter following when eligibility requirements are met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

(b) Contributions

Participants may voluntarily make qualified retirement contributions to the Plan which are deductible by the participants for federal income tax purposes under Section 401(k) of the Internal Revenue Code ("IRC") or be made after-tax in the form of a Roth 401(k) contribution. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Employer may make a discretionary matching contribution on behalf of each participant. During 2017 and 2016, the Employer made discretionary matching contributions equal to the lesser of 30% of each participant's deferral contribution or 2% of the taxable wage base.

The Plan also provides that the Employer may contribute each year a discretionary profit sharing amount; however, such discretionary contributions by the Employer are not required. Discretionary profit sharing contributions of $100,000 were made by the Employer during 2016. No additional discretionary profit sharing contributions were made in 2017.

The Employer and participant contributions may not exceed the maximum amount deductible for income tax purposes.

(c) Participant accounts

Each participant's account is credited or charged with the participant's contributions, Employer contributions, investment earnings (losses) of the investment options selected by the participants, and an allocation of administrative expenses. Allocations are based on participant's compensation, account balances, or specific participant transactions as defined in the plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

(d) Vesting

Participants are immediately vested in their elective salary deferral contributions plus actual earnings (losses) thereon. Vesting in the Employer's discretionary matching and discretionary profit-sharing contributions are based on years of continuous service. Participants vest 25% after two years of service and 25% each year thereafter until they become 100% vested after five years of service.

(e) Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balances. The loans are secured by the balances in the participants' accounts and bear interest at fixed rates ranging from 4.25% to 5.25% as of December 31, 2017, which is commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are collected ratably through payroll deductions.

(f) Payment of benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum payment equal to the value of the vested interest in his or her account, or periodic installments over a fixed period of time, not to exceed the life expectancy of the participant. For termination of service due to other reasons, a participant will be entitled to receive the value of the vested interest in his or her account as a lump sum distribution.

(g) Forfeited accounts

Forfeitures are created when participants terminate employment prior to becoming fully vested in the Employer discretionary contribution portion of their accounts. At December 31, 2017 and 2016, forfeited nonvested accounts totaled $37,951 and $71,001, respectively. These accounts will be used to reduce future employer contributions and pay administrative expenses. Employer contributions were reduced by $71,001 during 2017. During 2016, no forfeited nonvested accounts were utilized.

(h) Hardship withdrawals

The Plan permits distributions in the event of a hardship, as defined in the plan agreement. These distributions are taxable and subject to a tax penalty equal to 10% of the hardship distribution amount if the participant is younger than age 59½. Hardship withdrawals are limited to the participant's elective account balance. Participants are not permitted to make contributions to the Plan for a period of six months following a hardship withdrawal.

(i) Administrative expenses

Certain administrative expenses are paid by the Employer, while certain administrative expenses are paid by the Plan. Fees related to the administration of notes receivable from participants and distributions are charged directly to those participants' accounts and included in administrative expense. Certain fees incurred by the Plan for the investment management services are netted within net appreciation in fair value of the investments, as they are paid through revenue sharing rather than as a direct payment.

(j) Plan termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

(2) Summary of significant accounting policies

(a) Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

(b) Investment valuation and income recognition

Investments are stated at fair value, except for the fully benefit-responsive guaranteed investment contract, which is reported at contract value (see Note 5). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisers. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year

(c) Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan agreement.

(d) Payment of benefits

Benefits are recorded when paid.

(e) Use of estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(f) Events occurring after reporting date

Management of the Plan have evaluated events and transactions that occurred between December 31, 2017 and October 10, 2018, which is the date that the financial statements were available to be issued, for possible recognition or disclosure in the financial statements.

(3) Certified information

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and the schedule of assets (held at end of year), including the fair value and contract value of investments and notes receivable from participants held at December 31, 2017 and 2016, and net appreciation in fair value of investments, interest and dividends for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Lincoln Financial Group Trust Company, Inc. ("Lincoln").

(4) Fair value measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2017 and 2016.

(i) *Mutual funds*: Valued at the net asset value of shares held by the Plan at year end based on a quoted price in an active market. The mutual funds are deemed to be actively traded.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

	Fair Value Measurements as of December 31, 2017 using the following measurements			
	Level 1	Level 2	Level 3	Total
Investments at fair value - mutual funds	$ 9,957,889	$ -	$ -	$ 9,957,889

	Fair Value Measurements as of December 31, 2016 using the following measurements			
	Level 1	Level 2	Level 3	Total
Investments at fair value - mutual funds	$ 8,435,344	$ -	$ -	$ 8,435,344

(5) Investment contract with insurance company

The Plan has entered into a guaranteed investment contract with Lincoln National Insurance Company, an affiliate of Lincoln. The guaranteed investment contract is considered fully benefit-responsive. Lincoln maintains the Plan's contributions in a general account which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract was $999,364 and $1,574,151 as of December 31, 2017 and 2016, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan,) (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Employer or other Employer events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The investment contract does not permit Lincoln to terminate the agreements prior to the scheduled maturity date.

(6) Excess contributions

At December 31, 2016, a payable of $51,751 was recorded for amounts refundable by the Plan to participants for contributions made in excess of amounts allowed by the Internal Revenue Service ("IRS").

(7) Income tax status

The Employer adopted a prototype plan which received a favorable opinion letter on March 31, 2014, in which the IRS stated that the prototype plan was in compliance with the applicable requirements of the IRC. The Plan is required to operate in conformity with the IRC to maintain its qualification. The plan administrator believes that the amended Plan is designed and is currently being operated, in compliance with the applicable provisions of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax exempt.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(8) Untimely remittance of participant contributions

The Plan Sponsor is required by Department of Labor regulation to remit participant contributions as soon as practicable, but by no later than the fifteenth business day following the end of the month in which the amounts were withheld from wages. For certain contributions withheld from payrolls during 2017, the funds were not remitted timely. The Plan Sponsor is currently assessing the impact of lost earnings that may be applicable on late remittances related to amounts withheld from wages in 2017.

(9) Related-party and party-in-interest transactions

Certain plan investments consist of a guaranteed investment contract which is managed by Lincoln National Life Insurance Company, an affiliate of Lincoln, and, therefore, these transactions qualify as party-in-interest transactions. As described in Note (1), the Plan paid expenses to various service providers which also qualify as party-in-interest transactions. The Plan also holds notes receivable from participants which qualify as party-in-interest transactions.

(10) Reconciliation of financial statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2017 and 2016:

	2017	2016
Net assets available for benefits per the financial statements	$ 11,113,477	$ 10,296,455
Excess contributions payable	-	51,751
Miscellaneous difference	(892)	(892)
Net assets available for benefits per the Form 5500	$ 11,112,585	$ 10,347,314

The following is a reconciliation of the change in net assets available for benefits per the financial statements to the Form 5500 for the years ended December 31, 2017 and 2016:

	2017	2016
Change in net assets available for benefits per the financial statements	$ 817,022	$ 536,588
Change in excess contribution payable	(51,751)	27,934
Change in net assets available for benefits per the Form 5500	$ 765,271	$ 564,522

(11) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.
