AXEL JOHNSON, INC. RETIREMENT PLAN

Notes to Financial Statements

December 31, 2017 and 2016

1. DESCRIPTION OF THE PLAN

The following brief description of the Axel Johnson Inc. Retirement Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a noncontributory defined benefit pension plan. Effective December 31, 2003, accrued benefits were frozen. Prior to December 31, 2003, eligible employees of Axel Johnson Inc. (the “Company”) became eligible to participate in the Plan as of the first month following one year of service. Individuals who were members of any collective bargaining unit that did not provide for participation of such employees in the Plan were excluded. The Plan is subject to the Employee Retirement Income Security Act of 1974, as amended (“ERISA”) and is administered by the administrative committee of the Plan. All of the assets of the Plan are held by Wells Fargo Bank, NA (the “Trustee”).

Vesting

Prior to December 31, 2003, employees had to be credited with five years of service to be vested under the Plan. A year of service is any calendar year in which an employee is credited with 1,000 or more hours. Effective December 31, 2003, all participants were 100% vested in their accrued benefit. Non-vested benefits include subsidized early retirement, death and disability benefits that have not yet been accrued since the participant has not yet met the eligibility for such benefit.

Retirement Benefits

Plan benefits, regardless of when participants begin to receive them, are based on a formula using the participant’s final average compensation (also known as final average pensionable earnings), credited service and Social Security-covered compensation prior to December 31, 2003. A participant’s years of credited service (both before and after the Plan became frozen) and age determine when the participant qualifies for retirement benefits under the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting except for benefit payments, which are recorded when paid.

New Accounting Pronouncement Footnote Disclosure for ASU 2015-07

In May 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent), which exempts investments measured using the net asset value (“NAV”) practical expedient in Accounting Standards Codification 820, Fair Value Measurement, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Management adopted this guidance on January 1, 2017, which only amended disclosure requirements and did not have

AXEL JOHNSON, INC. RETIREMENT PLAN

Notes to Financial Statements

December 31, 2017 and 2016

any impact on the Plan's financial statements for the years presented. Certain investments that were previously reported as level 3 in 2016 have been reclassified out of the fair value hierarchy as they are measured at fair value using the NAV per share practical expedient.

Reclassifications

Certain disclosures related to fair value measurements have been reclassified to conform with the current year's presentation.

Investment Valuation and Income Recognition

Investments in highly liquid instruments (cash and short-term securities) with original maturities of three months or less are classified as cash equivalents.

Mutual funds are valued at the last reported quoted price on the last business day of the year. Mutual funds purchased or sold are recorded as of the trade date. Investments in the private investment funds and limited partnerships are carried at estimated fair value, which is determined by the aggregate estimated values of assets held by the fund as reported by the Fund's manager (see Note 3).

Interest income is recorded by the Plan as earned. Dividends are recorded by the Plan on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis.

Administrative Expenses

Administrative expenses consist primarily of the Trustee, custodian and investment advisor fees and are generally paid from the Plan assets.

Funding Policy

The Company's policy is to annually fund at least the minimum contribution required by ERISA as determined by actuarial computation utilizing the unit credit method. For the years ended December 31, 2017 and 2016, the Plan has satisfied the minimum funding requirements of ERISA.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to employees or their beneficiaries in the event of retirement, death, disability or termination of employment.

The actuarial present value of accumulated plan benefits is determined by an actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

AXEL JOHNSON, INC. RETIREMENT PLAN

Notes to Financial Statements

December 31, 2017 and 2016

The more significant actuarial assumptions used in the valuations as of December 31, 2017 and 2016, are as follows:

Discount rate	6.00% in 2017; 6.75% in 2016
Mortality basis	2017: RP-2014 Total Employee and Healthy Annuitant Mortality tables projected with Mortality Improvement Scale MP-2016; 2016: RP-2014 Total Employee and Healthy Annuitant Mortality tables projected with Mortality Improvement Scale MP-2015
Retirement age	55 - 70

The foregoing assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the accumulated plan benefits.

The table below sets forth the accumulated plan benefits as of December 31, 2016:

Actuarial present value of accumulated plan benefits	
Vested benefits	
Participants currently receiving benefit payments	\$ 57,064,551

The table below sets forth the changes in accumulated plan benefits for the year ended December 31, 2016:

Increase (decrease) during the year attributable to	
Increase for interest due to decrease in discount period	6,004,367

Retirement Benefits

In general, a participant must terminate employment with the Company before commencing his or her benefits. In general, if the cash value of the participant's vested annuity is \$5,000 or less, it can be paid in a single lump sum. However, if the cash value of the benefit is more than \$5,000, only an annuity benefit is payable.

Plan Termination

If the Plan is terminated, the funds held by the Trustee on behalf of the affected employees shall be allocated, subject to provisions for expenses of administration or liquidation, to provide the accrued benefits of members and retired and vested terminated employees based on their credited service to the date of termination of the Plan, in the manner and order specified in Section 4044 of ERISA.

After full satisfaction of all benefits to which members are entitled under the foregoing, any remaining balance shall revert to the Company, subject to the Internal Revenue Code ("IRC").

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

Investments held by the Plan are exposed to various risks, such as interest rate, market volatility and credit risk. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investments may occur in the near term and that changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which

AXEL JOHNSON, INC. RETIREMENT PLAN

Notes to Financial Statements

December 31, 2017 and 2016

are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

3. FAIR VALUE MEASUREMENTS

Financial assets and liabilities are required to be measured and reported on a fair value basis using the following three categories for classification and disclosure purposes:

Level 1 - Measurements that are most observable and are based on quoted prices of identical instruments obtained from the principal markets in which they are traded. Closing prices are both readily available and representative of fair value. Market transactions occur with sufficient frequency and volume to assure liquidity.

Level 2 - Measurements derived indirectly from observable inputs or from quoted prices from markets that are less liquid are considered Level 2.

Level 3 - Measurements that are least observable are estimated from significant unobservable inputs determined from sources with little or no market activity for comparable contracts or for positions with longer durations.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds - mutual funds are valued at the daily closing price as reported by the fund. The mutual funds held by the Plan are deemed to be actively traded.

Collective Trust, Limited partnerships and private investment funds - The Collective Trust ("CCT") are investments in international equity securities, debt securities and hedge funds that invest in a variety of investments that are valued using quoted prices in markets that are not active or financial instruments for which all significant inputs are observable, either directly or indirectly.

The CCT is carried at the estimated fair value, based on the NAV practical expedient, which is based on the fair value of the underlying assets held by the CCT. Unit values of the CCT is determined by dividing the funds' net assets at fair value by their units outstanding at the valuation dates.

The limited partnerships and private investment funds are carried at their estimated fair value based on the NAV practical expedient as reported by the fund's manager and certified by the Trustee. This is the value that the Plan would receive upon any redemption request or distribution and, as such, constitutes the exit price for the Plan. The Plan believes that the NAV or partnership interest, as provided by the fund manager, is the best indicator of fair value available. Some of these funds invest in illiquid investments whose value is derived from valuation models which the Plan is not privy to. Therefore, the Plan cannot independently value these assets. These investments are in hedge funds or limited partnerships, which report NAVs based on the aggregate estimated fair value of investments held by the funds in accordance with U.S. GAAP and have annual financial statements audited by independent accounting firms

AXEL JOHNSON, INC. RETIREMENT PLAN
Notes to Financial Statements
December 31, 2017 and 2016

The methods described above may produce a fair value calculation that may not be reflective to future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value hierarchy has three levels based on the reliability of the inputs used to determine fair value. The following present the Plan's assets using the fair value hierarchy as of December 31:

2017				
	Level 1	Level 2	Level 3	Total

4. INFORMATION PROVIDED BY THE TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Wells Fargo Bank, NA, the trustee of the Plan, has certified that the following information included in the accompanying financial statements and supplemental schedules, except as noted below, is complete and accurate:

- Investments, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2017 and 2016.
- Interest and dividend income and net appreciation in fair value of investments, as shown in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2017 and 2016.
- Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2017.
- Schedule H, Line 4j - Schedule of Reportable Transactions for the year ended December 31, 2017.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

5. TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service ("IRS") dated November 14, 2013, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

U.S. GAAP requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related

to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. RELATED-PARTY TRANSACTIONS

Certain of the Plan's assets are invested in a cash mutual fund managed by the Trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

7. SUBSEQUENT EVENTS

Plan management has evaluated the Plan's December 31, 2017, financial statements for subsequent events through October 15, 2018, the date the financial statements were available to be issued. Plan management is not aware of any subsequent events that would require recognition or disclosure in the Plan's financial statements.

	Unconstrained Rates*	Rates Reflecting Corridor**
First Segment Rate	1.52%	4.16%
Second Segment Rate	3.80%	5.72%
Third Segment Rate	4.79%	6.48%

For 2016 Plan Year: Segment Rates with four-month lookback, constrained in accordance with relevant legislation as follows:

	Unconstrained Rates*	Rates Reflecting Corridor**
First Segment Rate	1.34%	4.43%
Second Segment Rate	4.03%	5.91%
Third Segment Rate	5.06%	6.65%
Effective Rate	4.33%	6.09%

*Used for maximum tax-deduction purposes

**Used for minimum funding and benefit restriction purposes.

Mortality

Mortality tables mandated by PPA as specified in IRS Regulation 1.430(h)(3)-1, applied on a static basis, projected 7 years from the valuation date for annuitants and 15 years for non-annuitants.

Actuarial cost method

The Funding Target is the present value of accrued benefits based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected plan administrative and expenses to be paid from plan assets during the year.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods (continued)

Non-Prescribed Funding Assumptions and Methods

The following assumptions were selected by the plan's enrolled actuary and demographic rates are monitored annually by decrement for gain/loss. The asset valuation method was selected by the plan sponsor and is an acceptable method under PPA.

Expenses

Expected plan expenses of \$1,400,000 were added to the Target Normal Cost.

Frequency of optional payment forms

Form	Rate
Life annuity	40%
Joint and 50% survivor	30%
Joint and 75% survivor	5%

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods (continued)

Non-Prescribed Funding Assumptions and Methods (continued)

Withdrawal rates for active participants not eligible for retirement

Based on a review of plan experience from 2009 to 2013. Sample rates as follows:

Age	0-4 Years
25	12.10%
35	9.50%
45	7.30%
55	7.10%
65	10.00%

Asset valuation method

The Valuation Assets are determined using a method that spreads asset gains/(losses) over two years. The gain/(loss) for each period is determined as the actual return during the period less the expected return based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third segment rate. The actuary's expected rate of return was selected after a review of an analysis performed by the plan's investment consultant, which was based on the plan's asset allocation and forward-looking expected rates of return by asset category. The resulting value is constrained to be within a corridor of 90% to 110% of market value. The discounted value of accrued contributions, if any, is included in the Valuation Assets.

	Actuary's Assumption ¹	Third Segment Rate	Reflecting PPA Limit
2017 Expected Return	7.50%	6.48%	6.48%
2016 Expected Return	8.00%	6.65%	6.65%
2015 Expected Return	6.85%	6.81%	6.81%

Future actuarial measurements

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report.

Summary of Changes from the January 1, 2016 Valuation

- The mortality assumption reflects an additional year of mortality improvement as required by PPA.
- The interest basis was updated to the current rates as specified in IRS Regulation 1.430(h)(2)-1. These rates are constrained in accordance with HATFA.

These changes increased the Funding Target by approximately \$2.1 million.

¹ For funding purposes, certain administrative expenses are treated as cash flow, rather than as an element of investment return.
