INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee
of *Wilberforce University TIAA CREF Retirement*
For All Regular Full Faculty Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of *Wilberforce University TIAA-CREF Retirement For All Regular Full Faculty Plan* (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes C and D, which was certified by TIAA CREF, the custodian of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2017 and 2016, and for the years then ended, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule of Assets Held for Investment Purposes at End of Year and Schedule of Delinquent Participant Contributions as of or for the year ended December 31, 2017, on pages 16 - 17, are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

**WILBERFORCE UNIVERSITY TIAA CREF RETIREMENT
FOR ALL REGULAR FULL FACULTY PLAN**

**Notes to Financial Statements
December 31, 2017 and 2016**

NOTE A - Description of Plan

The following description of the ***Wilberforce University TIAA CREF Retirement For All Regular Full Faculty (the Plan)*** provides only general information. The Plan is administered by an appointed plan administrator as defined by the Plan document. This plan administrator is appointed by Wilberforce University (the University), an Ohio not-for-profit corporation with its principal office in Wilberforce, Ohio, and its successors, which adopt the Plan. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

1. **General** - The University established the Plan to provide employees with a systematic means of saving and investing for the future. All permissible employees of the University, as defined in accordance with the universal availability standards are eligible to enroll on their date of hire. Deferrals begin on the first day of the month subsequent to enrollment. Employees are eligible to receive matching contributions after one credited year of service or completion of 1,000 hours of service. The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").
2. **Contributions** - Each year, participants may contribute 1% to 100% of eligible pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. However, contributions shall not exceed the maximum amount allowed under the United States Internal Revenue Code. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, a pooled separate account and an insurance investment contract as investment options for participants. During the 2008 plan year, employer discretionary matching contributions were suspended. However, beginning August 1, 2015, the University is required to match the contributions of participants in the Plan that are also members of a collective bargaining agreement. See also Note J.
3. **Participant Accounts** - Each participant's account is credited with the participant's contribution and allocations of the Plan earnings/losses and charged with an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
4. **Vesting** - Participants are immediately vested in their contributions plus actual earnings thereon and employer contributions once eligible for matching contributions.
5. **Payment of Benefits** - Participants entitled to termination payments receive payment in accordance with the plan document. On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a determined period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

NOTE B - Summary of Significant Accounting Policies

1. **Basis of Accounting** - The financial statements of the Plan are prepared using the accrual method of accounting.

**WILBERFORCE UNIVERSITY TIAA CREF RETIREMENT
FOR ALL REGULAR FULL FACULTY PLAN**

**Notes to Financial Statements
December 31, 2017 and 2016**

NOTE B - Summary of Significant Accounting Policies - Continued

2. **Basis of Presentation** - U.S. Department of Labor (DOL) regulations and IRS Form 5500 require a comparative Statement of Net Assets Available for Benefits, but only require that the current year's statement of changes in net assets available for benefits presented in the Form and also attached to it. The financial statements have been prepared to meet DOL and IRS requirements. The activity recorded in the 2016 column in the Statement of Changes in Net Assets Available for Benefits has been included for presentation purposes only, and is not required by GAAP, the DOL, or the IRS.
3. **Estimates** - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.
4. **Investment Valuation and Income Recognition** - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Asset values have been adjusted for surrender charges which could impair investment value. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.
5. **Payment of Benefits** - Benefits are recorded when paid.
6. **Date of Management's Review** - The plan has evaluated subsequent events through October 13, 2018, the date the financial statements were available to be issued.
7. **Forfeitures** - At December 31, 2017 and 2016, the forfeited non-vested account had no balance, respectively. When employer matching provisions are re-instituted, this account will be used to reduce future employer contributions. See also Note A.2.
8. **Plan Expenses** - The University absorbs certain plan expenses such as audit, legal, and other administrative fees that are not directly paid from plan assets. In the event of a Plan termination, participants would become 100 percent vested in their employer contributions.
9. **Recent Accounting Pronouncements** - In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. ASU 2015-07 removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value per share practical expedient under Accounting Standards Codification ("ASC") 820. ASU 2015-07 is effective for the Plan retrospectively for the year ending December 31, 2016. The Plan adopted ASU 2015-07 in the current year. Since the provisions of ASU 2015-07 require only additional disclosures concerning plan assets, its adoption did not affect the Plan's financial statements.

NOTE B - Summary of Significant Accounting Policies - Continued

9. **Recent Accounting Pronouncements – Continued** - In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. ASU 2015-12 Part I designates contract value as the only required measure for fully benefit-responsive investment contracts. ASU 2015-12 Part II simplifies the investment disclosure requirements, including eliminating the disclosure of (1) individual investments that represent five percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type. ASU 2015-12 Part III does not apply to the Plan. The amendments in ASU 2015-12 applicable to the Plan are effective retrospectively for the year ending December 31, 2016. The Plan adopted ASU 2015-12 in the prior year and, as such, conform with the current year presentation.

NOTE C - Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level one measurements) and the lowest priority to unobservable inputs (level three measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level One

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level Two

Inputs to the valuation methodologies include (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability; (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level Three

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual Funds: Valued using market quotations or prices obtained from independent pricing sources that may employ various pricing methods to value the investments including matrix pricing. CREF Money Market Account holdings are generally valued at amortized cost. Each account determines its unit value each day.

NOTE C - Fair Value Measurements - Continued

Guaranteed Investment Contract: Reported at contract value which approximates fair value. The contract value of the TIAA Traditional Annuity equals the accumulated cash contributions, interest credited to the Plan's contracts, and transfers, if any, less any withdrawals and transfers, if any. The contract is not available for sale or transfer on any securities exchange. Accordingly, transactions in similar investment instruments are not observable. While transactions involving the purchases/sales of individual contracts are not observable in a public market place, contract value may provide a good approximation of fair value as supported by the following:

New contributions represent current transactions between willing buyers and sellers as prescribed in the relevant GAAP guidance. Participants have the option to allocate their conditions between the TIAA Traditional Annuity and a number of investment choices for which fair values are readily observable.

Participants typically allocate contributions between several investment choices and all transactions are executed at current market value with the assumption being that objective, unbiased transactions regularly occur and participants deem the value of the TIAA Traditional Annuity contract to be no less than the participant's accumulation balance and that each investment purchase is made at fair value since these purchases are not distressed and are conducted between willing buyers and sellers in open market conditions where a participant has a variety of investment choices.

When participants change employers, they oftentimes enroll in a new plan with very similar investment options, including the TIAA Traditional Annuity. Because these transactions continue to occur with continued participant contributions at current stated contract values, the market-observable presumption is that the contract value of current funding represents a good approximation of fair value based on the willingness of the participants to continue to contribute. For each contribution, TIAA continues to record a contractual liability for the current contribution and does not consider such liability to have any embedded gain or loss.

Upon a distributable event, the participant surrenders the future accumulation benefits in exchange for a cash payout based on the contract value, demonstrating the contract value can be monetized when a distributable event occurs.

The crediting rate is supported by the investment performance of a large diversified portfolio (TIAA's General Account), is correlated with the highest quality debt security yields, and is adjusted for contract liquidity. A twenty-year analysis of crediting rates for TIAA Traditional Annuity contracts suggests a rate of return that is representative of a market rate for this type of product; thus application of observed rates would yield a discounted cash flow which approximates contract value.

The guaranteed investment contracts contained within this plan are considered non-benefit responsive due to restrictions placed upon the contracts when withdrawn or a distributable event occurs.

Pooled Separate Account: Value is principally derived from the market value of the underlying real estate-related investments. Real estate holdings are valued principally using external appraisals, which are estimates of property values based on a professional's opinion. This account sometimes holds securities as well. These are generally priced using values obtained from independent pricing sources. Unit values are calculated each day.

NOTE C - Fair Value Measurements - Continued

Although the underlying assets of the account cannot be quickly sold and converted to liquid assets, TIAA General Account provides the account with a liquidity guarantee (i.e., TIAA ensures that the account has funds available to meet participant redemptions, transfer or cash withdrawal requests executed at quoted unit values).

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2017 and 2016:

Assets at Fair Value as of December 31, 2017				
	Level 1	Level 2	Level 3	Total
Registered Investment Company	\$10,441,123	-	-	\$10,441,123
Pooled Separate Account	666,160	-	-	666,160

NOTE C - Fair Value Measurements - Continued

The following table sets forth a summary of changes in the fair value of the plan's level three assets for the year ended December 31, 2017 and 2016.

Level 3 Assets		
Guaranteed Investment Contract	2017	2016
Balance, beginning of year	\$8,183,240	\$8,638,587
Realized gains/(losses)	220,977	168,535
Unrealized gains/(losses) relating to instruments still held at the reporting date	32,971	102,739
Purchases	106,311	159,913
Sales	(997,893)	(820,328)
Transfers in and/or out of level 3	(36,288)	(66,206)
Balance, end of year	7,509,318	8,183,240
The amount of total gains or losses for the period attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	\$32,971	\$102,739

Unrealized gains/(losses) from the guaranteed investment contract are not included in the statement of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

Instrument	Fair Value	Principle Valuation Technique	Unobservable Inputs	Range of Significant Input Values	
Guaranteed Investment Contract	\$7,509,318	Discounted Cash Flow	Risk-Adjusted Discount Rate	Retirement Annuity	3.25-4.75%
		Theoretical Transfer (Exit Value)		Group Retirement Annuity	3-4.75%

NOTE D - Investments

Unaudited information certified by the Plan Custodian

The Plan's investments were held by the Teachers Insurance and Annuity Association of America-College Retirement Equities Fund (TIAA-CREF) as custodian for the years ended December 31, 2017 and 2016. The following investment balances and investment income included in the accompanying financial statements, notes and supplemental schedule were obtained from data that has been certified by the custodian in accordance with 29 CFR 2520.103-8 of the Department of Labor's rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Investments	2017	2016
Mutual Funds	\$10,441,123	\$9,101,280
Pooled Separate Account	666,160	675,531
Guaranteed Investment Contract	7,509,318	8,183,240
Total	\$18,616,601	\$17,960,051

NOTE E - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE F - Tax Status

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (the Code). The terms of the Plan have been prepared to conform to the sample language provided by the Internal Revenue Service (IRS) in Revenue Procedure 2007-71 [or the draft Listing of Required Modifications issued April 4, 2009]. The Plan administrator intends to apply for a determination letter on the Plan once the IRS opens such a program for individual plans. The Plan is required to operate in conformity with the Code to maintain the tax-exempt status for plan participants under Section 403(b).

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Management believes that the Plan is no longer subject to tax examinations by taxing authorities prior to 2014.

**WILBERFORCE UNIVERSITY TIAA CREF RETIREMENT
FOR ALL REGULAR FULL FACULTY PLAN**

Notes to Financial Statements
December 31, 2017 and 2016

NOTE G - Related Party Transactions and Party in Interest Transactions

Certain Plan investments are shares of mutual funds and an investment contract managed by TIAA-CREF. TIAA-CREF is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment.

NOTE H - Plan Termination

Although it has not expressed any intent to do so, the University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

NOTE I - Plan Loans

Plan loans are issued as separate contracts by TIAA as contemplated under IRC section 72(p)(5) and do not represent plan assets. Loans are collateralized using a participant's TIAA Traditional account balance in an amount equal to 110% of the outstanding loan balance. Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 45% of his or her TIAA Traditional account balance subject to annuity contract and plan provisions. Loan terms range from one (1) to five (5) years in one-year increments. Principal and interest is paid ratably by the participant to TIAA and each payment will reduce amounts collateralized by the borrowing participant's TIAA Traditional account balance. Plan loan balances outstanding from participants to TIAA were \$104,759 and \$105,475 as of December 31, 2017 and 2016, respectively. At December 31, 2017, interest rates of Plan loans ranged from 4.0% to 5.76%.

The Plan's defaulted loan collateral balance represents the TIAA Traditional Annuity balance collateralizing certain default Plan loans, of which the collateral represents assets of the Plan. The defaulted loan collateral balance as of December 31, 2017 and 2016 were \$24,475 and \$23,444, respectively.

NOTE J - Collective Bargaining Agreement

For fiscal year 2017 and 2016, the employer contribution was 10% for the participating employee's earnable compensation for Wilberforce University Faculty Association Union Members ("WUFA Union"). WUFA Union Employees must contribute 5% of their earnable compensation. Amounts attributable to all plan contributions are fully vested and non-forfeitable at all times, after two (2) years of continuous employment. For fiscal year 2015, the employer contribution was 10% for the participating employee's earnable compensation for American Federation State County and Municipal Employees Union Members ("AFSCME Union"). AFSCME Union Employees must contribute 3% of their earnable compensation. Amounts attributable to all plan contributions are fully vested and non-forfeitable at all times, after two (2) years of continuous employment.

TIAA-CREF has separately issued financial reports which may be obtained through the office of administration and finance. During the 2008 plan year, employer discretionary matching contributions were suspended. As a result, in September of 2015, the University fully negotiated and executed a memorandum of understanding (MOU) with the faculty union to contribute \$520,138 in matching funds and opportunity cost in relation to the unfunded contributions in prior fiscal years. As of the Plan year end December 31, 2017 and 2016, \$312,803 and \$312,803 was outstanding, respectively.
