MAKINO MOTE 401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2017 and 2016

NOTE A – DESCRIPTION OF THE PLAN

The following description of the Makino MOTE 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan covering substantially all full-time employees (as defined) of Makino Inc. (the "Company") not covered under a bargaining unit agreement. The Plan is administered by the Company through its Retirement Committee. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Effective February 1, 2017, the Plan adopted an amendment to allow employees of Global EDM, a newly-acquired entity, to participate in the Plan.

Effective January 1, 2017, the Plan adopted an amendment to allow plan forfeitures to be used to reduce employer contributions that are made pursuant to Code §401(k)(12) – ADP Safe Harbor Contributions, qualified non-elective contributions and qualified matching contributions.

2. Contributions

Participants may contribute up to 100% of annual compensation to the Plan either in pre-tax or Roth deferrals, subject to Internal Revenue Code ("IRC") limitations. Participants attaining at least age 50 during the Plan year are eligible to contribute additional "catch-up" contributions to the Plan. The Company contributes 100 percent of each participant's elective deferrals not exceeding three percent of the participant's compensation, plus 50 percent of each participant's elective deferrals in excess of three percent but not in excess of five percent of the participant's compensation.

Effective January 1, 2017, the Plan adopted an amendment to update the calculation of the basic matching contribution. Under the adoption, the basic matching contribution will be calculated using compensation and elective deferrals for the plan year. Prior to January 1, 2017, the basic matching contribution was calculated using compensation and elective deferrals for each pay period.

3. Participant Accounts

Each participant's account is credited with the participant's voluntary contribution, the Company's matching contribution and Plan earnings. Allocations of Plan earnings are based on the investment options selected by the participant and their related account balance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. Vesting

Participants are immediately vested in their contributions, employer contributions, and the earnings thereon.

5. Notes Receivable from Participants

Participants may borrow from their accounts up to a maximum of $50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 2%, which is commensurate with local prevailing rates as determined by the Plan administrator. Interest rates on outstanding loans ranged between 5.25% and 7.00% at December 31, 2017 and 2016. A participant may only have one outstanding loan at any one time and loan terms may not exceed five years.

NOTE A – DESCRIPTION OF THE PLAN (continued)

6. Payment of Benefits

Participants become eligible for benefit payments upon separation of service due to death, disability, retirement, or termination. Benefit payments are made as a lump-sum amount equal to the value of the participant's account. The Plan allows withdrawals prior to termination of employment after a participant has attained the age of 59 ½. This distribution is limited to the balance of the participant's salary deferral accounts.

Participants may not withdraw any amounts in the matching contribution accounts. The Plan also allows for a "financial hardship" withdrawal of before-tax contributions for participants under age 59½ years in case of demonstrated "financial hardship", as defined by the Plan document.

7. Expenses of the Plan

All administrative expenses are paid by the Plan unless the Company elects to pay such expenses. Certain Plan expenses are paid by the Company. Investment-related expenses are included in net appreciation in fair value of investments on the accompanying Statement of Changes in Net Assets Available for Benefits.

8. Forfeitures

At December 31, 2017 and 2016, forfeited, non-vested accounts totaled $2 and $0, respectively. These accounts will be used to reduce future employer contributions, qualified non-elective contributions, and qualified matching contributions. Also, in 2017, employer contributions were reduced by $27 from forfeited, non-vested accounts.

NOTE B – SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The accompanying financial statements are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As such, the guaranteed fund contract is stated at contract value on the accompanying Statements of Net Assets Available for Benefits.

2. Investment Valuation and Income Recognition

The Plan's investments are stated at fair value except for the fully benefit-responsive investment contract, which is valued at contract value (Note C). Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE B – SIGNIFICANT ACCOUNTING POLICIES (continued)

3. Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amount of net assets available for benefits as of the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

4. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2017 or 2016. If any scheduled loan repayment is not made by the end of the calendar quarter following the calendar quarter in which the missed payment was due, the Plan administrator deems the participant loan to be in default. Defaulted participant loans are reclassified as distributions based upon the terms of the Plan document.

5. Payments of Benefits

Benefit payments to participants are recorded upon distribution.

6. Subsequent Events

The Plan administrator evaluated its December 31, 2017 financial statements for subsequent events through October 12, 2018, the date the financial statements were available to be issued. The Plan administrator is not aware of any subsequent events which would require recognition or disclosure in the financial statements.

NOTE C – GUARANTEED FUND CONTRACT

The Plan maintains a guaranteed fund contract with Principal Life Insurance Company ("Principal Life"). The account is credited with a stated rate of return and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value.

As described in Note B, because the guaranteed fund contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed fund contract. Contract value, as reported to the Plan by Principal Trust Company ("Principal Trust"), the trustee and custodian of the Plan, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents or change in administrative practices which could adversely affect issuer's financial experience, (2) operation of competing investment options, or (3) the creation of another savings program, pension or profit sharing plan which Plan participants are eligible to contribute by payroll deduction. The Plan administrator does not believe any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

NOTE D – TAX STATUS

The Internal Revenue Service ("IRS") has issued an opinion letter dated March 31, 2014, stating that the form of the volume submitter plan used by the Plan is acceptable under Section 401 of the IRC. Although the Plan has been amended since the opinion letter was issued, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the Plan's tax positions, and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken that do not meet the more likely than not threshold. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE E – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants who are not already fully vested will become fully vested in the employer contributions portion of their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and restricted in such a manner as the Company may determine.

NOTE F – CERTIFIED INFORMATION

The Plan administrator has elected the method of annual reporting compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Delaware Charter Gurantee and Trust Company d/b/a Principal Trust Company (Principal Trust Company) has certified that the following information included in the accompanying financial statements and supplemental schedules is complete and accurate:

- Investments and notes receivable from participants as shown in the Statements of Net Assets Available for Benefits as of December 31, 2017 and 2016
- Net Investment income and interest income on notes receivable from participants as shown in the Statement of Changes in Nets Assets Available for Benefits for the year ended December 31, 2017
- Schedule H, Part IV, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2017

The Plan's independent certified public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule of assets (held at end of year).

NOTE G – FAIR VALUE MEASUREMENTS

Fair value is defined as the price that will be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is based on a three- level hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds – Valued at quoted market prices of shares held by the Plan at year-end. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Pooled Separate Accounts ("PSAs") – Valued based on the NAV of the accounts' underlying investments using information reported by the investment advisor.

Self-directed brokerage accounts – Valued based on the accounts' underlying investments, which consist of publicly traded mutual funds, money market funds, and exchange-traded funds.

Investments valued at NAV, as a practical expedient to fair value, as of December 31, 2017 and 2016 consisted of pooled separate accounts. The NAV of these investments is determined using the market value or fair value of the underlying securities if market data are unavailable.

The PSAs are invested in a broad mix of underlying mutual funds. In order to prevent excessive or abusive trading, the Company may prescribe rules that limit the number of transfers that participants can make between funds. There are no other restrictions on redemptions, and no unfunded commitments.

NOTE G – FAIR VALUE MEASUREMENTS (continued)

The following tables set forth by level within the fair value hierarchy the Plan's investments at fair value at December 31, 2017 and 2016:

	December 31, 2017

NOTE H – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE I – RELATED-PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds and pooled separate accounts managed by Principal Trust Company. The Plan also holds a guaranteed fund contract through Principal Life. Principal Trust Company and Principal Life are the trustee and custodian, and recordkeeper, respectively, for the Plan and therefore, these transactions qualify as party-in-interest transactions.
