Note 1 Description of Plan

Effective March 1, 1990 Daybrook Fisheries Inc. (the “Company”) established The Daybrook Fisheries Inc. 401(k) Plan (the “Plan”). The following description of the Plan provides only general information. Participants should refer to the summary plan description document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Every employee who was employed on the effective date of the Plan is automatically eligible to participate. Employees hired after the effective date are eligible upon satisfying certain specific service and age requirements. Any employee who has attained the age of 21 and has completed sixty consecutive days of service is eligible to participate in the Plan on the first day of the quarter coinciding with or next, following the date he or she has satisfied such requirements.

Plan Contributions

Participants are eligible to make a salary reduction contribution up to the maximum amount allowed by law (\$18,000 for 2017). Employees who reach age 50 during the Plan year may elect to contribute certain additional amounts beyond defined limits (\$6,000 for 2017). As a Safe Harbor Plan, the employer makes matching contributions to the account of each eligible participant in an amount equal to the sum of 100% of the amount of the participant's elective deferrals that do not exceed 3% of the participant's compensation, plus 50% of the amount of the participant's elective deferrals that exceed 3% of the participant's compensation, but do not exceed 5% of the participant's compensation.

Participant Accounts

Each participant's account is credited with the participant's contributions, allocations of the Company's matching contributions, and Plan gains or losses. Allocations of earnings or losses for each fund are based on the ratio of weighted average participant account balances per fund to the total weighted average of all participant account balances. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's account.

Vesting

Participants are immediately 100% vested in the contributions made by them and the matching contributions made by the Company.

Investment Options

Upon enrollment in the Plan, participants direct the investment of their contributions and Company contributions into various investment options offered by the Plan. Participants may direct their contributions into one or more mutual funds and a money market fund.

Payment of Benefits

Upon retirement, disability or death, a participant or beneficiary receives the entire amount credited to the participant's account in either a lump sum or, at the participant's election, in annual installments. Upon termination, other than by retirement, disability or death, a participant becomes eligible to receive the current value of the participants' vested account in a lump-sum.

Note 1 Description of the Plan (continued)

Notes Receivable from Participants

Each participant may borrow against his or her vested account balance a minimum of \$1,000 up to an amount not to exceed the lesser of \$50,000 or 50% of the participant's vested account balance. Loans bear interest, which is contributed to the participant's account, at a rate equal to the "prime rate," adjusted monthly, and are repaid in a period not to exceed five years, except if the loan is used to acquire the participant's principal residence, the repayment period is fifteen years. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Forfeitures

Forfeitures are used to reduce employer contributions and administrative charges to the Plan.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants, plan distributions, and domestic relations orders are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Note 2 Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of certain assets, liabilities and disclosures. Accordingly, the actual amounts could differ from those estimates. Any adjustments applied to estimated amounts are recognized in the year in which such adjustments are determined.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. (See Note 4 for a discussion of fair value measurements.)

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 2 Summary of Significant Accounting Policies (continued)

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of net appreciation in fair value of investments.

Net appreciation/depreciation of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions

Contributions from employees and the Company are recorded in the period in which the Company makes the payroll deductions from participant earnings.

Payment of Benefits

Distributions are recorded when paid. At December 31, 2017 and 2016 there were no benefits processed and approved for payment, but not paid.

Administrative Expenses

Certain of the Plan's administrative expenses are paid by the Company.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Assets Value per Share (or Its Equivalent)* which removes the requirement to present certain investments for which the practical expedient is used to measure fair value at net asset value within the fair value hierarchy table. Instead, a Plan would be required to include those investments as a reconciling item so that the total fair value amount of investments in the disclosure is consistent with the fair value investment balances on the statements of net assets available for benefits. ASU No. 2015-07 is effective for fiscal years beginning after December 15, 2016, with early adoption permitted. The Plan has adopted ASU No. 2015-07 as of December 31, 2017, and has applied ASU No. 2015-07 retrospectively, as required. The Plan presents the investment disclosure required by this new guidance in Note 4, Fair Value Measurements. There are no effects on the statements of net assets available for plan benefits or the changes therein.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans

Note 2 Summary of Significant Accounting Policies (continued)

will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has adopted Parts I and II as of December 31, 2017. Parts I and II are reflected in the statements of net assets available for benefits and in the notes to the financial statements. Certain historical disclosures that were required were removed.

Note 3 Transfers Out

In connection with the change in control of Daybrook Fisheries Inc. on July 22, 2015, certain employees of the Company and their related Plan account balances were transferred to Westbank Fishing, LLC's retirement plan in 2016 and 2017.

Note 4 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuations methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuations methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuations methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 4 Fair Value Measurements (continued)

The following is a description of the valuation methodologies used for assets measured at fair value:

- Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.
- Collective trust fund – Valued at the NAV of units of a bank collective trust. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

There have been no changes in methodologies used at December 31, 2017.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

Description	Assets at Fair Value as of December 31, 2017

Note 6 Investment Contract with Insurance Company

On December 31, 2016, the Plan entered into a contract with Massachusetts Mutual Insurance Company ("Mass Mutual"). Under the terms of the contract with Mass Mutual, investments available to Plan participants are: Pooled Separate Accounts and Fixed Rate Option (i.e., Fully Benefit-Responsive Investment Contract).

Pooled Separate Account option offers Plan participants the ability to invest in various mutual funds. The Fixed Rate Option is invested in the general asset account of Mass Mutual and is guaranteed by Mass Mutual claims paying ability. The Mass Mutual general account is primarily invested in investment grade fixed income securities. Mass Mutual is contractually obligated to pay the specified interest rate that is guaranteed by the Plan. As of December 31, 2017 the credited rate was 2.23%.

Note 7 Fully Benefit-Responsive Contract

The fully benefit-responsive contract held by the Plan is a traditional investment contract with a Fixed Rate Option. Accordingly, the Plan owns only the contract itself and not the underlying assets. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. As of December 31, 2017 and 2016 the contract value was \$296,856 and \$0, respectively.

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed by the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1.5%. The crediting rate is reviewed on an annual basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code.
2. Premature termination of the contracts.
3. Plan termination or merger.
4. Changes to the Plan's prohibition on competing investment options.
5. Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

Note 7 Fully Benefit-Responsive Contract (continued)

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines.
2. A breach of material obligation under the contract.
3. A material misrepresentation.
4. A material amendment to the agreements without the consent of the Issuer.

Note 8 Risks and Uncertainties

The Plan's investments, in general, are subject to various risks, such as interest rate, credit and overall market volatility risk. Additionally, the value, liquidity, and related income of the investment securities are sensitive to changes in economic conditions and may be affected by shifts in the market's perception of issuers and changes in interest rates. Certain investments are less liquid and may have restrictions on their sale. Forced liquidation, although not expected at this time, may affect the estimated value of such investments. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and the funded status of the Plan.

Note 9 Tax Status

The Plan has received a determination letter from the Internal Revenue Service stating that the written form of the underlying prototype plan document is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and, that any employer adopting this form of the Plan will be considered to have a plan qualified under Section 401(a) of the Code. Therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would be sustained upon examination by the Internal Revenue Service. In the event the Plan is subject to interest and/or penalties, it would be recognized as a component of administrative expenses. The Plan Administrator believes the Plan is no longer open and subject to tax examinations for years prior to 2014.

Note 10 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. However, no such action may deprive any participant or beneficiary under the Plan of any vested right.

Loans receivable from participants also qualify as party-in-interest transactions.
