NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description

The following description of the French American School of Puget Sound 403(b) DC Plan ("the Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution retirement plan established for the benefit of substantially all employees of the French American School of Puget Sound ("the School"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Eligibility

In general, unless specifically excluded by provisions of the Plan, employees of the School are immediately eligible to participate in the Plan. To be eligible to receive employer contributions, participants must be at least 21 years of age and are expected to work at least 1,000 hours in a Plan year.

Contributions

Participant Contributions – In general, eligible employees of the School may elect to contribute, on a pre-tax basis, up to a maximum of 100% of eligible compensation (as defined in the Plan document) to the 403(b) plans sponsored by the School ("salary deferral contributions"). The School sponsors an additional 403(b) plan, the TDA plan, into which salary deferral contributions of employees with less than five years of service (as defined in the Plan document) are contributed. Employees with greater than five years of service (as defined in the Plan document) have their salary deferral contributions, which are eligible for the matching contribution described below, contributed to the Plan, with any remaining salary deferral contributions contributed to the TDA plan. Participants may also contribute amounts representing distributions from other qualified plans ("rollovers from other qualified plans"). The Plan allow catch-up contributions for participants 50 years of age or older at the end of the plan year. The Plan also allows participants who have been employed for at least 15 years for the School to make a special catch-up contribution as defined in the Plan document.

Employer Contributions – The Plan provides that the School make a non-discretionary, non-elective contribution for eligible employees of 5% of their eligible compensation (as defined by the Plan document) to the Plan each year. The Plan also provides that the School make matching contributions to the Plan for those eligible employees who have greater than five years of service (as defined by the Plan document). Eligible employees with greater than five but less than or equal to ten years of service will receive a matching contribution of up to 2% of eligible compensation (as defined by the Plan document). Eligible employees with greater than ten years of service will receive a matching contribution of up to 4% of the eligible compensation (as defined by the Plan document).

Contributions are subject to limitations of the Internal Revenue Code ("IRC").

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the School's contributions and (b) Plan earnings and losses, and is charged with an allocation of administrative expenses. Allocations are based on participant compensation, participant contributions, or account balances, as defined.

Participants direct the investment of their contributions and allocated employer contributions into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are 100% vested in their contributions to the Plan and related earnings at all times. Contributions from the School and related net earnings become vested to participants based on the following schedule of completed years of service:

<u>Completed Years of Service</u>	<u>Percentage Vested</u>
Less than 1	0%
1	50
2	100

Additionally, a participant becomes 100% vested when the participant reaches normal retirement age, dies, or becomes disabled while in the service of the School. Normal retirement age is 65.

Payment of Benefits

Upon termination of service, a participant or the participant's beneficiary, upon their consent, will receive a lump-sum amount or be allowed to purchase annuity contract, equal to the value of the participant's vested interest in his or her account provided their vested account balance is in excess of \$5,000. For participants whose vested account balance is less than \$5,000, a participant, with or without their consent, will receive the value of the vested interest in his or her account as a lump-sum distribution.

Distributions are generally only allowed after termination of employment with the School; however, distributions can be made during a participant's employment upon attainment of age 59½ or under certain hardship provisions as defined within the Plan document.

Administrative Expenses

Administrative expenses primarily relate to Plan administration and custodianship of investments and are typically paid for by the School as allowed under provisions of the Plan. Expenses paid by the School are excluded from these financial statements.

Forfeitures

The portion of a terminated participant account that is not vested ("forfeitures") can be used to reduce employer contributions. Forfeitures for 2017 amounted to \$4,162. Forfeitures used to reduce employer contributions were \$1,907 in 2017. At December 31, 2017 and 2016, there are \$2,300 and \$2, respectively, of forfeitures included with net assets available for benefits available to reduce future employer contributions.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires the use of management estimates and assumptions that affect certain amounts and disclosures. Actual results could differ from those estimates.

Investments and Income Recognition

Investments are stated at their fair value (see below). Interest income is recorded on the accrual basis. Purchases and sales are recorded on a trade-date basis. The net appreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Fair Value Measurements

Fair value is defined as an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement determined based on assumptions that market participants would use in pricing an asset or liability. There are three levels that prioritize the inputs used in measuring fair value as follows:

- Level 1: Observable market inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: Observable market inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3: Unobservable inputs where there is little or no market data, which require the reporting entity to develop its own assumptions.

An asset's or liability's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for investments measured at fair value:

Registered investment companies: Valued at the daily closing price as reported by the fund. These investments held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. These investments held by the Plan are deemed to be actively traded and are valued using Level 1 inputs in the fair value hierarchy. In efforts to reduce market timing and excessive trading, participants will not be permitted to make electronic transfers back into the same account through purchase or exchange for 90 days, if a purchase, sale, and repurchase within that account is made within a 60-day period, other than the CREF Money Market Account.

Variable annuity accounts: These are funded through a separate account of TIAA and are registered investments that invest principally in equity securities, fixed income instruments, and short-term investments in accordance with each portfolio's investment objective. The fair value of these variable annuity accounts is typically based on quoted prices, but in a market not considered active. The fair value is determined based on the value of the underlying investments, adjusted for such things as fund dividends and administrative charges. This value is referred to as the unit value. The unit values are calculated each day and are posted at the TIAA website. These investments are valued using Level 2 inputs in the fair value hierarchy.

Pooled separate accounts: Accumulation units in these accounts are available for transactions at the closing accumulation unit value on any day the New York Stock Exchange is open for business. The unit values are calculated each day and are posted at the TIAA website. The value of the investments is generally derived from the market value of the underlying real estate holdings or other real estate-related investments. Real estate holdings are valued principally using external appraisals, which are estimates of property values based on a professional's opinion. These investments are valued using Level 2 inputs in the fair value hierarchy.

Non-fully benefit-responsive investment contracts – Non-fully benefit-responsive investment contracts represent investments in guaranteed investment contracts with insurance companies. These are traditional investment contracts. The fair value approximates its contract value, which represents contributions made under the contract plus earnings, less participant withdrawals and administrative expenses. The contract value also approximates a discounted cash flow value calculated using an appropriate risk-adjusted market discount rate, which correlates closely with the contracting historical crediting rates. The inputs used to determine the fair value of these investments are classified as Level 3 of the fair value hierarchy described above. These investments may only be withdrawn over several annual payments. Therefore, these are not considered to be fully benefit-responsive because this provision is considered to restrict participants' "reasonable access" to their contract balances.

The following tables present information about the Plan's assets that have been measured at fair value on a recurring basis as of December 31, 2017 and 2016, and indicates classification by level of input within the fair value hierarchy described above:

	Fair Value Measurements at December 31, 2017, Using:			
	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs	Total
Registered investment companies	\$ 1,534,880	\$ -	\$ -	\$ 1,534,880

Pooled separate account		137,042		137,042
Non-fully benefit-responsive investment contracts			463,514	463,514
Total assets in the fair value hierarchy	\$ 1,534,880	\$ 265,181	\$ 463,514	\$ 2,263,575

	Fair Value Measurements at December 31, 2016, Using:			
	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs	Total
Registered investment companies	\$ 1,220,505	\$ -	\$ -	\$ 1,220,505
Pooled separate accounts		111,284		111,284
Variable annuity accounts		10,812		10,812
Non-fully benefit-responsive investment contracts			381,412	381,412
Total assets in the fair value hierarchy	\$ 1,220,505	\$ 122,096	\$ 381,412	\$ 1,724,013

The table below is a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2017:

Balance, December 31, 2016	\$ 381,412
Purchases	62,578
Interest income	3,136
Net appreciation in fair value	12,462
Distributions	(1,838)
Transfers, net	5,764
Balance, December 31, 2017	<u>\$ 463,514</u>

Contributions

Contributions from participants are recorded in the period in which they are withheld from the participant's compensation. Contributions from the School are recorded in the period in which the related participant contributions are recorded or the related compensation is paid to the participants.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through the date these financial statements were available to be issued, which was October 15, 2018.

Note 3. Tax Status

The Plan terms have been drafted in reliance on the sample language provided by the Internal Revenue Service ("IRS") in Revenue Procedures 2007-71. The Plan has adopted a prototype sponsored by its third-party administrator. During 2013, the IRS issued Revenue Procedure 2013-22, which contains details of the 403(b) Pre-Approved Plan Program. 403(b) prototype plans can apply for an opinion letter and 403(b) volume submitter plans can apply for an advisory letter. The third-party administrator has applied to the 403(b) Pre-Approved Plan Program to obtain a determination letter from the IRS in which the IRS will state that the prototype, as designed, is in compliance with the IRS Section 403(b). A response to the application has not been received. The IRS currently does not intend to establish a determination program for individually designed 403(b) plans. The Plan is required to operate in conformity with the IRC to maintain its tax exemption. Management of the Plan and the third-party administrator believe the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

Note 4. Information Prepared and Certified by Custodian

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian of the Plan, TIAA and CREF, has certified as to the completeness and accuracy of the following information reflected in the accompanying financial statements and supplementary schedule:

- Investments reflected on the accompanying statement of net assets available for benefits as of December 31, 2017.
- Net appreciation in fair value of investments and interest income reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2017.
- Investments reflected on the supplemental schedule of assets (held at end of year).

Note 5. Party-in-Interest Transactions

Investments of the Plan at December 31, 2017 and 2016, are all managed and/or sponsored by TIAA and CREF. TIAA and CREF is the custodian of the Plan assets; therefore, transactions with TIAA and CREF qualify as exempt party-in-interest transactions.

Note 6. Plan Termination

The School expects to continue the Plan indefinitely but reserves the right to terminate or amend the Plan at any time. However, no such amendment or termination shall deprive any participant of any vested interest in the Plan. Upon termination, the obligation of the School to make contributions to the Plan shall cease and all amounts credited to the participants' accounts shall be fully vested. The School may then direct management of the Plan to either distribute the funds to the participants or continue the trust, with distributions to be made pursuant to the Plan.
