Note 1 – Description of the Plan

The following brief description of the Kidz Medical Services, Inc. 401(k) Profit Sharing Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan covering substantially all full-time employees of Kidz Medical Services, Inc. (the "Company"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Administrator, Custodian, and Trustee
The Plan's administrator, custodian, and trustee are as follows:
Plan Administrator – Kidz Medical Services, Inc.
Third Party Administrator – Suntrust Bank
Custodian and Trustee – Suntrust Bank

Eligibility Requirements
Employees who are twenty-one years of age or older, have one year period and have reached the entry date are eligible to participate in the Plan. Employees that are unionized and certain non-resident aliens who have no earned income from sources with the United States are not eligible to participate in the plan. The entry date will be the first day of the Plan Year or the first day of the seventh month of the Plan year coinciding with or next following the date eligibility requirements.

Requirements for Contributions
Eligible participants may elect to contribute before-tax or Roth after-tax contributions of 1% to 100% of eligible earnings not to exceed Code limits of $18,000 for 2017. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers mutual funds, an interest bearing account and one collective trust as investment options for participants. Participants who have attained at least age 50 by the end of the year may elect to defer additional amounts to the Plan for that year subject to Code limits. The Company may elect to match the participants' contributions or elect to make discretionary non-elective contributions. The percentage of the match, if any, is at the Company's discretion. The Company made a discretionary matching contribution of $1,573,415, net of forfeitures, for the 2017 plan year.

Note 1 – Description of the Plan (continued)

Participant Accounts
Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, allocations of the Company contributions and Plan Earnings, and charged with an allocation of Plan losses and administrative expenses not otherwise paid by the Company.

Participant accounts are reduced by the amount of withdrawals made by the participant during the plan year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits
Upon retirement, disability, termination of service or reaching 65 years of age, distributions are made to participants in the form of a lump sum distribution or in installments if participant is subject to required minimum distributions.

Also, an automatic mandatory lump sum distribution will be made to those participants who have a vested benefit that does not exceed $5,000 upon termination of their employment. The non-vested balance, if any, reverts to the Plan. As further described in the Plan document, early withdrawals are generally limited to cases involving financial hardship. In the event of a hardship, participants may only withdraw their pre-tax and Roth 401(k) deferral accounts.

Vesting Percentage
Participants are immediately vested in their elective deferrals and transfer contributions plus actual earnings thereon. Participants are generally vested in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon based on years of credit service as follows:

Years of Vesting Service	Vested %
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Participants are 100% vested if they are employed on or after their normal retirement age of 65, or if a participant incurs a severance of employment as a result of death or disability.

Note 1 – Description of the Plan (continued)

Forfeitures
The non-vested portion of fund assets allocated to a participant's account is forfeited upon termination of service. The forfeitures may first be used to reduce payments of plan expenses and then to reduce future employer contributions. As of December 31, 2017 and 2016, the forfeiture balance was $29,248 and $21,023, respectively. During 2017, employer contributions were reduced by $36,390.

Participant Loans
Participant loans are not permitted under the Plan.

Plan Amendments
There were no amendments to the Plan for the year ending December 31, 2017.

Note 2 – Significant Accounting Policies

Basis of Presentation
The accompanying financial statements are presented using the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates and assumptions.

Valuation of Investments and Income Recognition
Except for the fixed income fund, plan investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Note 2 – Significant Accounting Policies (continued)

Fully Benefit-Responsive Investment Contracts

The fixed income fund is measured at contract value, which represents contributions made under the contract, plus earned interest, less participant withdrawals and administrative expenses. Contract value is the relevant measurement for the portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective investment fund. Contract value for this collective trust fund is based on the contract value of the fund as reported by the custodian.

Interest Bearing Cash and Concentrations

The Plan maintains interest bearing cash balances with SunTrust Bank. Amounts held in interest bearing accounts are insured by the Federal Deposit Insurance Corporation (FDIC) up to $250,000. The account balances are commingled with other Plans. The Plan may, during the ordinary course of operations, maintain account balances with banks in excess of limits insured by the Federal Deposit Insurance Corporation (FDIC).

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Note 2 – Significant Accounting Policies (continued)

Recent Accounting Pronouncements

In February 2017, the Financial Accounting Standards Board (FASB) issued ASU 2017-06, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting, which relates primarily to the reporting by an employee benefit plan (a plan) for its interest in a master trust.

A master trust is a trust for which a regulated financial institution (bank, trust company, or similar financial institution that is regulated, supervised, and subject to periodic examination by a state or federal agency) serves as a trustee or custodian and in which assets of more than one plan sponsored by a single employer or by a group of employers under common control are held. ASU 2017-06 requires a plan to present its interest in a master trust and the change in that interest in separate line items in the statement of net assets available for benefits and in the statement of changes in net assets available for benefits, respectively. The update also requires a plan to disclose the master trust's investments and other asset and liability balances, as well as the dollar amount of its interest in these balances. ASU 2017-06 is effective for entities for fiscal years beginning after December 15, 2018, with retrospective application to all periods presented. Early application is permitted. Management has elected to not early adopt ASU 2017-06, however adoption and application will not have an effect on the Plan's financial statements or disclosures.

Subsequent Events

The Company has evaluated subsequent events and transactions for potential recognition or disclosure through October 10, 2018, which is the date the financial statements were available to be issued.

Note 3 – Trustee Certification

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, plan management instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by SunTrust Bank, the Trustee of the Plan, as complete and accurate except for comparing such information certified by the trustee with information included in the plan's financial statements and supplemental H, line 4i-Schedule of Assets (Held at End of Year):

	As of December 31,	
	2017	**2016**
Mutual funds	$ 33,643,798	$ 24,728,054
Interest bearing cash	$ 1,871,527	$ 2,263,763
Collective trust funds	$ 1,350,783	$ 1,147,560

Note 3 – Trustee Certification (continued)

The trustee also certified to the completeness and accuracy of $3,004,152 net appreciation in fair value of investments and $1,661,607 of interest and dividend income related to the aforementioned investments for the year ended December 31, 2017.

Note 4 – Fair Value Measurements

FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.
Level 2	Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as : • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs that are unobservable inputs for the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 4 – Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value.

Interest Bearing Cash: valued at cost, which approximates fair value.

Mutual Funds: Valued at quoted market prices, which represent the net asset value of shares held by the plan at year end.

There have been no changes in the methodologies used at December 31, 2017 and 2016.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table provides information as of December 31, 2017 and 2016 about the Plan's financial assets carried at fair value on a recurring basis.

Assets at Fair Value as of December 31, 2017

	Level 1	Level 2	Level 3	Total
Interest bearing cash	$ 1,871,527	$ -	$ -	$ 1,871,527
Mutual funds	33,643,798	-	-	33,643,798
Total investments at fair value	$35,515,325	$ -	$ -	$35,515,325

Assets at Fair Value as of December 31, 2016

	Level 1	Level 2	Level 3	Total
Interest bearing cash	$ 2,263,763	$ -	$ -	$ 2,263,763
Mutual funds	24,728,054	-	-	24,728,054
Total investments at fair value	$26,991,817	$ -	$ -	$26,991,817

The Plan Administrator evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2017, there were no significant transfers in or out of levels 1, 2 or 3.

Note 5 – Financial Assets Carried at Contract Value

The following table provides information as of December 31, 2017 and 2016 about the financial assets carried at contract value:

	As of December 31,	
	2017	2016
Financial Assets at contract value:		
Fixed income	$ 1,350,783	$ 1,147,560
Total investments at contract value	$ 1,350,783	$ 1,147,560

Following is a description of the valuation methodologies used for assets measured at contract value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

The Fund holds guaranteed investment contracts (traditional GICs), separate account guaranteed investment contracts (separate account GICs) and synthetic guaranteed investment contracts (synthetic GICs). Traditional GICs represent deposits which guarantee a stated interest rate for the term of the contracts. The fair value of traditional GICs is determined based on the present value of the contract's expected cash flows, discounted by current market interest rates for like-duration and like-quality investments. Separate account GICs are portfolios of securities (fixed-income securities or shares of open-end mutual funds) held in a separate account owned and managed by or on behalf of the insurance company issuing the GIC for the exclusive benefit of investors in the separate account. Synthetic GICs are portfolios of securities owned by the Fund. Each of the separate account GICs and synthetic GICs has a wrap contract that provides a minimum guaranteed rate of return for the term of the contracts. The fair value of a separate account GIC and a synthetic GIC is determined based on the fair value of the securities underlying each GIC. The underlying securities can be comprised of, primarily, over-the-counter market securities and open-end mutual funds. Over-the-counter securities, such as fixed-income instruments, with remaining maturities greater than 90 days are fair valued using price evaluations provided by a pricing service. In addition, the fair value of the wrap contract is calculated using the contract value of the GIC as of the balance sheet date, giving consideration to any contractually agreed-upon replacement fees charged by the wrap contract provider.

Short-term securities are stated at amortized cost (which approximates market value) if maturity is 90 days or less at the time of purchase, or at market value if maturity is greater than 90 days at the time of purchase.

Investments in open-end, registered investment companies are valued at the respective net asset values as reported.

Note 5 – Financial Assets Carried at Contract Value (continued)

The Plan may make withdrawals from the fund for the purpose of funding a benefit payment, honoring a participant directed transfer in the plan to another investment election that is a noncompeting investment, or paying the funds fees. The Plan may make withdrawals from the fund for other purposes generally only upon 12 months' written advance notice to the fund. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. The interest crediting rates are typically reset on a monthly or quarterly basis.

As described in Note 2, because the investment contracts are fully-benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract.

Certain events could limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: mergers, mass layoffs, plan terminations, implementation of early retirement incentive programs, or other events within the control of the Plan resulting in a material or adverse financial impact on the fund's obligations under the GIC. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable. The average yield based on actual earnings was 1.581% and the crediting rate was 1.68% at December 31, 2017.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its matching contribution at any time and to modify, suspend or terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, participants would become 100% vested in their employer contributions.

Note 7 – Related Party Transactions

The plan's investment options includes an interest bearing account managed by SunTrust Bank. SunTrust Bank is the Trustee, as defined by the plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the plan for investment management services were included as a reduction of the return earned.

In addition, a portion of the income or loss of the Plan is derived from various mutual funds. Fees paid by the plan are deducted from the net asset values of the mutual funds held. A portion of these fees paid by the plan to the fund company or other investment provider are returned to SunTrust Bank for certain administrative and 12b-1 fees. The Trustee received indirect compensation ranging from 0.10 percent to 0.60 percent, as of December 31, 2017.

Note 8 – Tax Status

In a letter dated March 31, 2008, the Internal Revenue Service determined that the prototype non-standardized profit sharing plan which this Plan has been based on has been designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan Administrator believes that the Plan is designed and is currently operating in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more than likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2017, no uncertain tax positions are taken or are expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

Note 9 – Excess Contributions

At December 31, 2017 and 2016, net assets available for plan benefits included $5,179 and $96,202, respectively, for amounts owed to participants who made excess contributions based on the compliance testing performed by the Plan's record keeper. These amounts are reflected net of total participant contributions on the statement of changes in net assets available for benefits and as a liability on the statement of net assets available for benefits. The excess contribution balance as of December 31, 2017 and 2016 was returned by the Plan to the participants in February 2018 and February 2017, respectively.

Note 10 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.

Note 11 – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements as of December 31, 2017 and 2016 to Form 5500:
