Note 1 - Description of the Plan and Significant Accounting Policies

The following description of First Meridian Services, Inc. 401(k) Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established March 5, 2008. The Plan is available to employees age 21 years or older who have completed 12 months of service with First Meridian Services, Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The president of the Company and an individual affiliated with the Company are trustees of and administer the Plan. American United Life Insurance Company ("AUL") serves as custodian, manages Plan assets, and maintains the Plan's records. AUL offers Plan participants a variety of investment options through various mutual funds and a guaranteed interest contract. Individual accounts are invested in the various investment options at the direction of the participants.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Contributions

Eligible employees are automatically enrolled in the Plan at a 2% deferral percentage at the time the employee meets the eligibility requirements unless the participant elects another percentage, including 0%. Participants may make before-tax or after-tax Roth contributions up to 90% of their annual eligible compensation, as limited by the IRS, which is adjusted annually by the Secretary of the Treasury for inflation. This maximum percentage may be reduced by the Plan administrator in certain circumstances. Eligible employees who have reached age 50 during the Plan year may elect to make catch-up contributions, as limited by the IRS. The Plan also permits rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions. The Company may contribute discretionary matching or profit sharing contributions to be determined by the Company prior to the end of the Plan year. The Company made no discretionary or profit sharing contributions to the Plan during the year ended December 31, 2017.

Participants' Accounts

Each participant's account is credited or debited with the participant's contributions and withdrawals, as applicable, and an allocation of the Company's contributions, Plan earnings or losses, forfeitures, and Plan expenses. Allocations are based upon Plan earnings or losses and account balances, as defined by the Plan. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are 100% vested in their voluntary contributions, allocated earnings or losses thereon, and any qualified matching contributions.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting (continued)

Any employer contributions (including forfeitures) and the earnings or losses thereon not fully vested when contributed will vest as follows:

Years of Service	Vested Interest
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

A participant's account becomes 100% vested upon death, attaining normal retirement age (the age of 65) while an employee, retirement due to disability, or termination of the Plan.

Participant Loans

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. The term of the loan may not exceed five years, except when used for the purchase of a primary residence, in which case the repayment period may not exceed thirty years from the date of the loan origination. Participants may have a maximum of one loan outstanding at any given time. The loans are secured by the balances in the participants' accounts and bear interest a rate of 4.25%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator at loan origination, and mature at various dates through October 2022. Principal and interest are paid ratably through payroll deductions. Participant loans are recorded in the financial statements at amortized cost (which represents unpaid principal plus accrued interest). Upon termination of a participant from employment, the participant's loan shall continue to be payable in accordance with the provisions of the participant's loan or be due in full. There were no deemed loan distributions during the year.

Payment of Benefits

Upon death, disability, retirement, or termination of service, a participant or his or her beneficiary may receive, at his or her election, within a reasonable period of time, lump-sum payment or partial installments in the amount equal to the participant's vested account balance. Benefits are recorded when paid.

The Plan allows in-service distributions and partial distributions to participants age 59½ or older who have not terminated employment with the Plan sponsor. The Plan also provides for hardship withdrawals for defined hardship events. Participants who are granted a hardship withdrawal are not allowed to make contributions for the six months following such withdrawal. Furthermore, the Plan allows for terminated participant vested account balances of $1,000 or less to be automatically distributed and balances of $1,000 to $5,000 to be automatically rolled out of the Plan. The IRS has required minimum distributions once a participant reaches age 70½ during the previous Plan year and is no longer employed by the Company.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participant Termination and Forfeitures

If at the time of termination of employment a participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account. Forfeitures must first be used to pay administrative expenses, and any remaining amounts can be used to offset employer contributions. There were no forfeitures during the year ended December 31, 2017. There was no balance in this account at December 31, 2017 and 2016.

Valuation of Investments and Income Recognition

Investments are recorded at fair value as reported to the Plan by the custodian. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policy utilizing information provided by the investment advisers, including the appointment of investment managers, and the monitoring of the performance of the Plan's investment funds. See Note 3 for discussion of fair value measurements. Investments in mutual funds are reported at the last reported sales price at the end of the respective period using quoted market values.

Fully benefit-responsive investment contracts held by a defined contribution plan are required to be reported at contract value. The Plan invests in a fully benefit-responsive investment contract under a group annuity contract with AUL and maintains contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. Crediting interest rates are reset by AUL on a quarterly basis. The average yield was approximately 1.01% during the year ended December 31, 2017 and the crediting interest rate was approximately 1.00% at December 31, 2017.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes in net assets available for benefits and disclosures. Accordingly, actual results could differ from those estimates.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Risks, Uncertainties, and Concentrations

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by AUL are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

During the year ended December 31, 2017, one investment accounted for 82% of investment income. At December 31, 2017 and 2016, one investment accounted for 84% and 85% of total investments, respectively.

Subsequent Events

The Plan administrator has evaluated all subsequent events through the auditors' report date, which is the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

Note 2 - Assets Certified by the Custodian

AUL has certified in writing to the Plan administrator that the stated amounts for investments at fair value or contract value and participant loans at amortized cost as of December 31, 2017 and 2016 and the income earned or losses incurred thereon for the year ended December 31, 2017, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by the custodian, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

Note 3 - Fair Value Accounting

Generally accepted accounting principles require disclosure about how fair value is determined and establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis.

As of December 31, 2017:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 1,748,749	$ -	$ -	$ 1,748,749

As of December 31, 2016:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 1,271,628	$ -	$ -	$ 1,271,628

There were no changes to the valuation techniques used during the period.

Note 4 - Income Taxes

The Plan did not obtain a plan-specific determination letter, as it operates with the custodian's opinion letter, which was issued on the basic Plan document March 31, 2014. The Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the Internal Revenue Code.

Generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.

Note 7 - Related Party and Party-in-Interest Transactions

Certain Plan investments are an investment contract, which is managed by AUL. AUL is the asset custodian, as defined by the Plan; therefore, these transactions qualify as party-in-interest and are exempt from the prohibited transaction rules. In addition, the Plan provides for loans to participants, which are also party-in-interest transactions that are exempt from the prohibited transaction rules.

FIRST MERDIAN SERVICES INC. 401K PLAN
001

December 31, 2017

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
