Enesco, LLC Retirement Plan

Notes to Financial Statements

1. Description of the Plan

The following description of the Enesco, LLC Retirement Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan established by Enesco, LLC (the “Company”) to provide eligible employees, as defined in the Plan, with a program to save for retirement. There is no age or service requirement to participate in the Plan. Eligible employees may begin participation in the Plan on the first day of each calendar month. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

The Plan is administered by the Enesco, LLC Retirement Plan Committee (the “Committee”) that serves at the discretion of the Company’s Board of Directors. The Committee is responsible for all matters, including, but not limited to, determining eligibility, rights to benefits, interpreting Plan documents, and directing the Plan’s trustee.

The Plan was restated and amended effective January 1, 2016 to comply with required legislative updates. There were no significant changes made to the Plan’s provisions.

Contributions

Each year, participants may contribute a minimum of 1% up to a maximum allowed by the limits in the Internal Revenue Code (“IRC”) of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution or defined benefit plans (rollover).

The Company may make a discretionary matching contribution each year. For the year ended December 31, 2017, the Company contributed a matching contribution equal to 25% of a participant’s contributions for 2017 not to exceed 5% of the participant’s annual compensation.

The Company may also elect to make additional discretionary profit-sharing contributions to the Plan. Each participant will receive an allocation of any discretionary profit-sharing contribution in a ratio equal to each participant’s compensation as it bears to total compensation for the year. Participants must have completed 1,000 hours of service during the Plan year and must be employed on the last day of the Plan year to receive any discretionary profit-sharing contributions. The Company did not make a discretionary profit sharing contribution to the Plan for the year ended December 31, 2017.

Contributions are subject to certain IRC limitations.

Participants may direct all their contributions among one or more funds offered by the Plan. Changes in allocation of future contributions and transfers among funds of presently invested contributions are permitted pursuant to the Plan’s provisions.

Enesco, LLC Retirement Plan

Notes to Financial Statements

Participant Accounts

Each participant's account is credited with the participant's contributions and any Company discretionary matching contributions, as well as allocations of (a) any Company discretionary profit-sharing contributions and (b) Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at prime rate plus 1%. Interest rates on outstanding loans currently range from 4.25% to 5.25%. Principal and interest are paid ratably through payroll deductions over a term not exceeding five years, except for loans used to acquire a principal residence, in which case the repayment period may not exceed 20 years.

Payment of Benefits

On termination of service due to retirement, death, permanent disability, separation of service, or attainment of age 59½, a participant may elect to receive the value of their vested interest in his or her account in the form of a lump-sum amount, installment payments, or as a rollover to another entity. If the participant's vested interest in the Plan is less than \$5,000, a mandatory lump-sum distribution may be made to the participant or rolled over to an IRA on behalf of the participant. Withdrawals from the Plan may also be made upon circumstances of financial hardship, in accordance with provisions specified in the Plan.

Vesting

Participants are immediately vested in their contributions, Company discretionary matching contributions, and any Company discretionary profit-sharing contributions, plus actual earnings thereon.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service ("IRS") are recorded as a liability with a corresponding increase in distributions. The Plan distributed the 2016 excess contributions to the applicable participants on August 1, 2017.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make significant estimates

Enesco, LLC Retirement Plan

Notes to Financial Statements

and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Committee determines the Plan's valuation policy utilizing information provided by Vanguard Fiduciary Trust Company, the trustee of the Plan. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2017 or 2016. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefit payments are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events

The financial statements and related disclosures include an evaluation of events up through and including September 25, 2018, which is the date the financial statements were available to be issued. No material subsequent events have occurred through that date that required recognition in the financial statements.

3. Information Certified by the Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA as of December 31, 2017 and 2016, and for the year ended December 31, 2017. Accordingly, the Plan's trustee, Vanguard Fiduciary Trust Company, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

Enesco, LLC Retirement Plan

Notes to Financial Statements

- a. Investments and notes receivable from participants as shown in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2017 and 2016.
- b. Investment income and interest income on notes receivable from participants as shown in the accompanying Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2017.
- c. Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2017.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information provided by the trustee to the related information included in the financial statements and supplemental schedule.

4. Fair Value Measurements

Accounting Standards Codification ("ASC") Topic 820, "*Fair Value Measurements and Disclosures*," establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets,
- quoted prices for identical or similar assets or liabilities in inactive markets,
- inputs other than quoted prices that are observable for the asset or liability,
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full-term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Shares of Registered Investment Companies - Valued at the daily closing prices as reported by the fund. Registered investment companies held by the Plan are open-ended funds that are registered with the Securities and Exchange Commission. Notes to Financial Statements

The preceding methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

Investments at Fair Value at December 31, 2017 Level 1	
Registered investment companies, measured at fair value	\$ 38,232,567
Total Investments	\$ 38,232,567
Investments at Fair Value at December 31, 2016 Level 1	
Registered investment companies, measured at fair value	\$ 35,151,032
Total Investments	\$ 35,151,032

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants would remain 100% vested in their Company contributions.

During 2017, the Company downsized their labor force. In doing so, the Plan incurred a partial termination. Therefore, participants who terminated during 2017 and were affected by the partial termination remained fully vested in the Company contribution portion of their accounts. The remaining participants' vesting status will continue to be determined according to the Plan provisions.

6. Related-Party and Parties-in-Interest Transactions

Certain Plan investments are managed by Vanguard Fiduciary Trust Company or its affiliates. Vanguard Fiduciary Trust Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions. Certain employees of the Company provide administrative services to the Plan. These employees are not paid by the Plan for their services.

7. Tax Status

The Plan adopted a prototype profit-sharing plan document from Vanguard Group, which received an opinion letter from the IRS on May 28, 2014, stating that the prototype profit-sharing plan document, as then designed, was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since the date of the opinion letter, the Plan administrator believes the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC, and therefore believes that the Plan is qualified, and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
