The Doctors Management Company 401(k) Savings Plan

Notes to Financial Statements
(Modified Cash Basis)

December 31, 2017

1. Description of the Plan

The following description of The Doctors Management Company 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established on January 1, 1987. The Plan is a defined contribution plan covering eligible nonunion employees of The Doctors Management Company (the Employer), a wholly owned subsidiary of The Doctors Company, an Interinsurance Exchange. The Plan is available to those employees who have completed six months of service, as defined, and are age 18 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan is administered by the Employer. The trustee of the Plan is State Street Bank and Trust.

Contributions are participant directed, and each participant may direct contributions and account transfers between various fund options. Additionally, participants are allowed to direct their plan assets in a separate brokerage account (Personal Choice) through Charles Schwab. Through this account participants can buy and sell mutual funds, stocks, and bonds that are not available through the Plan.

Contributions

Participants may contribute up to 100% of their annual compensation and bonus subject to Internal Revenue Service (IRS) limitations.

The Employer makes matching contributions for the benefit of each participant equal to 200% of the participants' elective contribution, up to a maximum of 4% of each participant's compensation per pay period. In addition, the Employer contributes an additional 2% contribution to all eligible participants.

1. Description of the Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's and Employer's contributions and an allocation of (a) plan earnings and (b) forfeitures of terminated participants' nonvested accounts. Allocations are based on participants' compensation or account balances, as defined by the Plan. At December 31, 2017 and 2016, $110,697 and $6,302, respectively, of unallocated forfeitures are included in the Cash Reserve Fund of State Street Bank and Trust.

Vesting

Participants are fully vested in their voluntary contributions plus actual earnings thereon. Employer matching contributions vest as follows: an employee with more than one, two, three, four, and five years of service would be 20%, 40%, 60%, 80%, and 100% vested, respectively. In addition, benefits fully vest upon normal retirement, death, or permanent disability (while in the employment of the Employer), or upon termination of the Plan.

Participant Withdrawals

Withdrawals from the Plan are available upon termination of employment by the participant or upon the participant attaining age 59 1/2. Hardship withdrawals are also available to participants. Participants may elect to receive either a lump-sum amount equal to the vested account balance or a series of periodic payments over a selected term, as prescribed by the Plan.

Plan Termination

Although it has not expressed any intention to do so, the Employer has the right under the Plan to suspend, terminate, or completely discontinue contributions. In the event of plan termination, the full value of all participants' accounts would become fully vested and nonforfeitable.

Notes Receivable From Participants

Participants are allowed to obtain loans in an amount not to exceed the lesser of $50,000 or one-half of the participant's vested accrued benefit under the Plan. Interest rates on loans to participants ranged from 4.25% to 6.00%. These loans are to be repaid over 6 months to 15 years at the prime interest rate in effect on the date the loan was obtained and are fully collateralized by the participant's remaining vested account balance.

1. Description of the Plan (continued)

Expenses

Administrative expenses are payable by the Plan. The Employer can, at its discretion, elect to pay administrative expenses. The Plan paid the majority of such expenses in 2017 and 2016.

2. Significant Accounting Policies

Basis of Accounting

The financial statements and supplemental schedule of the Plan are presented on the modified cash basis, which is a comprehensive basis of accounting other than U.S. generally accepted accounting principles (U.S. GAAP). Under this basis, investment assets are reported at fair value; investment income, including net realized and unrealized appreciation (depreciation) in fair value of investments, is recognized in the period incurred; contributions are recognized when received rather than earned; and benefits and expenses are recognized when paid rather than as incurred.

Use of Estimates

The preparation of financial statements on the modified cash basis requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

2. Significant Accounting Policies (continued)

Recently Issued Accounting Pronouncements

In July 2018, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2018-09, *Codification Improvements*, which, among other things, amends an illustrative example of a fair value hierarchy disclosure to indicate that a certain type of investment should not always be eligible to use the net asset value per share practical expedient. Also, it further clarifies that an entity should evaluate whether a readily determinable fair value exists or whether its investments qualify for net asset value (NAV) per share practical expedient in accordance with ASC 820, *Fair Value Measurement*. Adoption of the amended guidance, which is to be applied prospectively, affects the fair value disclosures, but does not change the fair value measurement of the investments.

The Plan early adopted ASU 2018-09 for the year ended December 31, 2017. In connection with the adoption, the Plan has prospectively categorized certain investments in the fair value hierarchy disclosure as Level 1 that were previously categorized as Level 2 based on using the NAV practical expedient.

Valuation of Investments

ASC 820 defines fair value, expands disclosure requirements, and specifies a hierarchy of valuation techniques. The following are the levels of the hierarchy and a brief description of the type of valuation information (inputs) that qualifies a financial asset for each level:

- Level 1 – Unadjusted quoted prices for identical assets or liabilities in active markets where the specific security is traded.

- Level 2 – Inputs other than Level 1 that are based on observable market data. These include: quoted prices for similar assets in active markets, quoted prices for identical assets in inactive markets, inputs that are observable that are not prices (such as interest rates, credit risks, etc.), and inputs that are derived from, or corroborated by, observable markets. Financial models are often used to develop these prices.

- Level 3 – Developed from unobservable data, reflecting management's own assumptions

2. Significant Accounting Policies (continued)

When quoted prices in active markets for identical assets are available, these quoted market prices are used to determine the fair value of financial assets and these assets are classified as Level 1, primarily common stocks. In other cases where a quoted market price for identical assets in an

active market is either not available or not observable, fair value is estimated using valuation methodologies based on available and observable market information or by using a matrix pricing model. These financial assets would be classified as Level 2. If quoted market prices are not available, fair value is determined by using broker quotes or an internal analysis of each investment's financial statements and cash flow projections. In these instances, financial assets will be classified based upon the lowest level of input that is significant to the valuation.

Thus, financial assets may be classified in Level 3 even though there may be some significant inputs that may be readily available.

The following is a description of the valuation methodologies used for financial assets measured at fair value, including the general classification of such assets pursuant to the valuation hierarchy.

Mutual funds – These are classified as Level 1 because quoted prices are available for these securities in an active market.

Common/collective trust funds and registered investment trusts – These are classified as Level 1 in 2017 in accordance with the adoption of ASU 2018-09 as the trusts are valued based on a net asset value (NAV) that meets the definition of having a readily determinable fair value. In 2016, the trusts were valued using the NAV practical expedient and were categorized as Level 2.

Other funds – These assets include the Personal Choice Retirement Account, which comprises cash, money market funds, common stocks, exchange-traded funds and mutual funds, which are classified as Level 1 because quoted prices are available for these financial instruments.

Distributions to Participants

Distributions to participants are recorded when paid.

3. Investments

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2017 and 2016, and net appreciation in the fair value of investments, interest, and dividends for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by State Street Bank and Trust, the trustee.

4. Fair Value Measurements

The following tables set forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as follows:

As of December 31, 2017:

4. Fair Value Measurements (continued)

As of December 31, 2016:

	Assets at Fair Value			
	Total	**Quoted Prices in Active Markets for Identical Assets (Level 1)**	**Significant Other Observable Inputs (Level 2)**	**Significant Unobservable Inputs (Level 3)**

Personal Choice Retirement Account	5,979	5,979		–
Total	$ 166,930	$ 155,090	$ 11,840	$ –

[(a)] Participant-directed withdrawals have no restrictions; however, the Plan is required to provide a one-year withdrawal notice to liquidate its entire share in the fund. The investment strategy is to protect principal and provide a stable return.

5. Tax Status

The underlying volume submitter plan has received an advisory letter from the Internal Revenue Service (IRS) dated March 31, 2014, stating that the form of the plan is qualified under Section 401 of the Internal Revenue Code (the Code) and, therefore, the related trust is tax-exempt. The plan administrator has determined that it is eligible to, and has chosen to, rely on the current IRS volume submitter advisory letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Party-In-Interest Transactions

Certain plan investments are shares of funds managed by State Street Bank and Trust or its affiliates. State Street Bank and Trust is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions for which a statutory or administrative exemption exists.

7. Subsequent Events

Effective August 1, 2018, the Plan administration was moved from Transamerica to Fidelity.

Management evaluated subsequent events for the Plan through October 15, 2018, the date the financial statements were available to be issued.
