1. Description of Plan

The following description of the Solution One Industries, Inc. (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Solution One Industries, Inc. (the Company). Employees are eligible to enroll in the Plan on the first day of the month following their date of hire. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was amended effective January 1, 2018, to exclude union employees.

Contributions

Eligible participants may elect to contribute up to 86% of their compensation to the Plan, not to exceed the maximum annual dollar contribution restrictions of ERISA and the Internal Revenue Service. Additionally, the Company has the option of making a discretionary match up to a percentage of pay determined by the Company. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit of defined contribution plans (rollover). For 2017, the Company contributed on behalf of each participant a qualified matching contribution at year end of 100% of the participant's contribution up to a maximum amount of 3% of the participant's compensation. For year end 2016, a $ 20,000 matching contribution was made. At the end of 2017, the Company chose to contribute an additional $ 14,703 which was allocated to participants based on 2016 activity and increased the match to 100% of participant's contribution up to a maximum amount of 3% of the participants compensation.

Participant Accounts

Each participant account is credited with the participant's contributions and allocations of (a) Company contributions, (b) Plan earnings, and (c) charged with an allocation of administrative expenses. Allocations of earnings are based on participant gross wages or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participants' vested account.

Participants direct the investment of the contributions into various investment options offered by the Plan. The Plan currently offers 18 mutual funds, as well as 10 common/collective trust accounts.

Vesting

Participants are immediately vested in their voluntary contributions and company contributions plus actual earnings thereon.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $ 500 up to a maximum equal to the lesser of 50% of their vested account balance or $ 50,000 reduced by the highest outstanding loan balance in the participant's account during the prior twelve-month period. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loans fund. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through semi-monthly payroll deductions. A participant may have one loan currently outstanding from the Plan.

Payment of Benefit

On termination of service due to death, disability, retirement or other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution, installment, or partial withdrawal. The Plan also allows for in-service withdrawals once the participant has attained age 59 ½ and for hardship and disability requests, limited to the participant's deferral and rollover account balances. Participants consent is required for distributions over $ 5,000.

Forfeited Accounts

Participants are 100% vested in all accounts so the Plan has no forfeited accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Loans to participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 or 2016.

Payment of Benefits

Benefits are recorded when paid.

Plan Expenses

Administrative expenses other than trustee fees of the Plan were absorbed by the company sponsor of the Plan. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants and other member requested services are charged directly to the participants account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

3. Information Prepared and Certified by the Trustee

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedules, including investment and notes receivable from participants held at December 31, 2017 and 2016, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2017, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Reliance Trust Company (the trustee of the Plan).

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other that quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/Collective Trusts: Valued at the net asset value ("NAV") of its underlying investments, which include mutual funds, stocks, bonds and securities in varying proportions. The majority of the underlying investments have observable level 1 or 2 pricing inputs, including quoted prices for similar assets in active or non-active markets.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016, all of which are participant directed:

	2017				
	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs	NAV Inputs	Total Fair Value
Mutual Funds	$ 621,360	$ -	$ -	$ -	$ 621,360
Common / Collective Trust Funds of Reliance Trust Company	-	-	-	107,253	107,253
Total Investments by Fair Value Hierarchy	$ 621,360	$ -	$ -	$ 107,253	$ 728,613

	2016				
	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs	NAV Inputs	Total Fair Value
Mutual Funds	$ 250,686	$ -	$ -	$ -	$ 250,686
Common / Collective Trust Funds of Reliance Trust Company	-	-	-	75,329	75,329
Total Investments by Fair Value Hierarchy	$ 250,686	$ -	$ -	$ 75,329	$ 326,015

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2017, are reported in net appreciation in fair value of investments.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants will become 100% vested in their accounts.

6. Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated July 8, 2014, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the latest determination letter. However, the Plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term that such changes could materially affect participants' account balances, and the amounts reported in the statement of net assets available for benefits.

8. Party-In-Interest Transactions

The Plan has not considered Company contributions to the Plan or benefits paid by the Plan to participants as party-in-interest transactions. Certain plan investments are mutual funds managed by the current trustee which qualify as party-in-interest transactions. The Plan holds investments in pooled separate accounts of the trustee. Some fees incurred by the plan for investment management by the trustee of the plan were paid for by the Company.

9. Subsequent Events

Subsequent events were evaluated through October 15, 2018, which is the date the financial statements were available to be issued.

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 for the years ended December 31, 2017 and 2016:
