NOTE A - DESCRIPTION OF THE PLAN (Continued)

3. Plan Termination

Although the Company has no intention to terminate the Plan, in the event of termination net assets attributable to benefits accumulated would be allocated among the participants and beneficiaries in the order prescribed by Section 4044 of ERISA.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC). Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees.

Should the Plan terminate at some future time, whether all participants receive their benefits will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

2. Funding

The Plan's actuary performs a valuation as of the last day of the Plan year, which is January 1st, to determine the minimum Company contributions required to satisfy IRS minimum funding requirements based upon the benefits to be provided by the Plan. Funding is based on a required Pension Protection Act funding method which consists of a target normal cost based upon the value of benefits expected to be accrued during the year plus an amortization over 7 years of any excess of the funding target based upon the value of benefits accrued in prior years over the value of the Plan assets. The Company follows a policy of funding an amount equal to the cash balance allocations for the year which is sufficient to satisfy the "Minimum Funding Standards" of ERISA.

Eligible participants also receive an interest credit each year. The interest credit is equal to the benefit account balance as determined on the first day of the Plan year, multiplied by 4.00%.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3. Administrative Fees

The majority of the costs and expenses of administering the Plan are paid by the Company.

4. Estimates & Assumptions

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make certain assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets, liabilities and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could vary from those estimates.

5. Payment of Benefits

Benefit payments to participants are recorded upon distribution.

6. Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The Plan had no investments at December 31, 2017 but had plans to invest in a variety of mutual funds which have quoted market prices which are used to value the investments.

Purchases and sales are recorded on a trade-date basis. Interest and dividend income are recorded on an accrual basis. The change in the unrealized difference between cost and fair value of investments held is reflected in the statement of changes in net assets available for benefits as net appreciation (depreciation) in fair value of investments. Gains and losses on disposition of investments are recognized at the time of disposition with the amount of gain or loss determined on a historical cost basis.

NOTE C - ACTUARIAL COST METHOD & ASSUMPTIONS

The actuarial present value of accumulated Plan benefits is determined by an enrolled actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment.

The actuarial assumptions used to determine employer contributions to the Plan are as follows:

	For PPA Funding	For 417(e)	For Actuarial Equiv.
Interest Rates	Segment 1 4.16%	Pre-Retirement 4.00%	Pre-Retirement 4.00%

Calculated Effective Interest Rate 6.00%

Actuarial Cost Method: The Unit Credit funding method was used as prescribed by the Pension Protection Act. This method sets the funding target equal to the present value of accrued benefits, and sets the normal cost equal to the present value of the benefit accrued in the current year.

Asset Value: An actuarial value of assets is used for funding purposes. This year the actuarial value of assets is 100.0% of the market value of assets.

NOTE D - TAX STATUS OF THE PLAN

The Plan, which is individually designed, will file for its determination letter when the Internal Revenue Service determination letter cycle becomes available based on the Plan's sponsor Employer Identification Number.

The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is subject to income tax examinations for the first year of inception, 2017.

NOTE E - SUBSEQUENT EVENTS

Management has evaluated subsequent events through October 15, 2018, the date on which the financial statements were available for issue. There were no material events subsequent to December 31, 2017 thru October 15, 2018.
