NOTE 1 – DESCRIPTION OF PLAN

The following description of the Central Valley Meat Co. (the Company) 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees who have one year of service with at least 1,000 hours worked and are age 21 or older. The Plan was established effective January 1, 2017 as a participant-directed plan and participants began enrollment during February of 2017. The Plan is subject to the provisions of ERISA. The Plan's trustees are responsible for the oversight of the Plan and the appropriateness of the Plan's investment offerings. The Plan participants are responsible for monitoring the performance of the investments in which they choose to allocate Plan contributions.

Contributions

Each year, participants may contribute pre-tax annual compensation as defined by law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan matches 50 percent of the aggregate salary reduction contribution up to six percent of compensation. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover), as defined by the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes provisions whereby all newly eligible employees are provided an opportunity by Plan administrators to defer a portion of their salary into the Plan. Contributions are subject to certain IRS limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and investment earnings. Additionally, each participant's account is charged with an allocation of administrative expenses based on its respective investments. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

An individual account is maintained for each participant, which includes the following components:

1. Employee contributions
2. Employer contributions
3. The participant's pro rata share of net investment income
4. Deductions for benefits paid to participants

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credited service. Vesting service includes all years of service completed after January 1, 2017.

Employer's contributions are vested as follows:

20 percent:	after two years
40 percent:	after three years
60 percent:	after four years
80 percent:	after five years
100 percent:	after six years

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Participant Loans

Loans are not permitted under the Plan.

Payment of Benefits

On termination of service due to death, disability, retirement at the normal retirement age of 65, or the participant's fifth anniversary of the first day of the Plan year participation, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or installments over a period of not more than his or her assumed life-expectancy (or the assumed life expectancy of his or her beneficiary), with respect to lifetime minimum required distributions. However, if the participant's vested balance does not exceed $5,000 at the time of termination of service due to death, disability, or retirement, the participant's vested balance can only be distributed to him or her in a single lump-sum payment.

A participant whose service is terminated for reasons other than death, disability or retirement and has a vested account balance in excess of $5,000 may elect to have his or her vested account balance distributed to him as soon as administratively feasible in only a lump-sum payment. However, if the value of his or her vested account balance does not exceed $5,000, then a distribution will be made to the participant regardless of whether he or she consents to receive it.

If a mandatory payment is being made to a participant because his or her vested interest in the Plan exceeds $200 but is less than $5,000, then the Plan will roll over the distribution to an IRA if the participant does not make an affirmative election to either receive a rollover or distribution. The Plan administrator will notify the employee if the automatic rollover provisions apply to the distribution. After receiving this notice, the employee will have an opportunity to decide whether they wish to receive an automatic payment directly in cash or have it rolled into an eligible retirement plan or IRA. The automatic rollover will be invested in an investment product designed to preserve principal and provide a reasonable rate of return and liquidity, whether or not such return is guaranteed, consistent with liquidity.

In-service distributions and hardship withdrawals are not allowed according to Plan provisions.

Forfeited Accounts

At December 31, 2017, forfeited nonvested accounts totaled $6,216. Forfeited nonvested accounts can be used to reduce future Plan expenses and employer matching contributions.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of the Plan termination, the participants' accounts shall be 100 percent vested and non-forfeitable. Accounts will be distributed as soon as administratively practicable after the Plan is terminated.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) using the accrual method of accounting.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's trustees determines the Plan's valuation policies utilizing information provided by the investment advisers and trustee. See note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments held during the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Payments of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Plan sponsor. Expenses that are paid by the Plan sponsor are excluded from these financial statements. Certain fees related to the administration of the Plan are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in the fair value of investments. There were no such expenses paid for by the Plan Sponsor during the year ended December 31, 2017.

Subsequent Events

The Plan administrator has evaluated events through October 12, 2018, the date the financial statements were available to be issued.

NOTE 3 – TAX STATUS

The Internal Revenue Service provided a favorable determination in a letter dated March 31, 2014 that the form of the plan provided by the volume submitter is designed in accordance with applicable sections of the Internal Revenue Code (IRC). This plan format was subsequently adopted by the Plan and related trust upon its establishment on January 1, 2017. The Plan administrator and the Plan Sponsor believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC; therefore, the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability, if the Plan has taken an uncertain position, that more than likely than not would be sustained by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 there are no significant uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are no audits for any tax periods in progress.

NOTE 4 – FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs are not directly observable for the asset but are derived principally from or corroborated by observable market data through correlation or by other means, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. There were no transfers of plan assets between levels. In accordance with ASU 2015-07, the Plan currently has no investments required to be presented within the fair value hierarchy levels.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017.

Pooled separate accounts are valued at fair value. The Plan's fair value of shares of the underlying fund equals the number of shares of the respective underlying fund multiplied by the closing net asset value per share quoted by that fund. The net asset value is used as a practical expedient to estimate fair value.

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

The following tables summarize investments for which fair value is measured using the net asset value per share practical expedient at December 31, 2017. There are no participant redemption restrictions for these investments; the redemption period is applicable only to the Plan.

	December 31, 2017
Fair Value: Pooled Separate Accounts	$ 256,345

The investment valuations included in the accompanying financial statements and supplemental schedule were obtained from the data that has been prepared and certified to as complete and accurate by John Hancock Life Insurance Company, the trustee of the Plan. At December 31, 2017, total investments of $256,345 and total appreciation of $19,401 were certified in accordance with regulation 2520.103-5 of the Department of Labor.

NOTE 5 – RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The trustee of the Plan, who is also an owner of the Plan sponsor and a relative employed by the Plan sponsor, are participants in the Plan and, therefore, qualify as parties-in-interest.

The Third Party Administrator of the Plan and the Trust holding plan assets provide various services to the Plan and receive compensation and other fees for these services and, therefore, qualify as parties-in-interest. Total fees and commissions paid to these parties-in-interest totaled $4,468.

There were no transactions with any parties-in-interest that would be considered prohibited transactions by DOL regulations.

NOTE 6 – RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Because of the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
