INDEPENDENT AUDITORS' REPORT

To the Board of Directors and Participants of
The McKesson Corporation 401(k) Retirement Savings Plan:

We have audited the accompanying financial statements of McKesson Corporation 401(k) Retirement Savings Plan (the "Plan"), formerly McKesson Corporation Profit-Sharing Investment Plan, which comprise the statements of net assets available for benefits as of March 31, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements, in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of McKesson Corporation 401(K) Retirement Savings Plan as of March 31, 2018 and 2017, and the changes in net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Schedule

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of March 31, 2018 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This schedule is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. This schedule has been subjected to the auditing procedures applied in our audits of the financial statements and certain additional procedures, including comparing and reconciling such schedule directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, such schedule is fairly stated in all material respects in relation to the financial statements as a whole.

1. Plan Description

Effective January 1, 2018, McKesson Corporation Profit-Sharing Investment Plan has been renamed the McKesson Corporation 401(k) Retirement Savings Plan (the "Plan"). The following description of the Plan is provided for general informational purposes only. Participants should refer to the plan document for more complete information. The Plan is a defined contribution plan covering all persons who have completed two months of service and are regular or part-time employees or are casual or temporary employees who have worked at least 1,000 hours in a 12-month period at McKesson Corporation (the "Company" or "McKesson" or "Plan Sponsor") or a participating subsidiary, except seasonal and collectively bargained employees (unless the collective bargaining agreement provides for participation). The plan year is April 1 through March 31. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Company controls and manages the operation and administration of the Plan.

Fidelity Management Trust Company ("Fidelity") is the trustee and record-keeper of the Plan.

The Plan is comprised of participant-directed and non-participant directed investments, as described below:

A. Participant-Directed Investments

Contributions: The Plan qualifies as a safe harbor plan as described in Internal Revenue Code (the "Code") Sections 401(k)(12) and 401(m)(11). Participants may make pre-tax and/or Roth 401(k) contributions from 1% to 75% of eligible pay, limited to $18,500 and $18,000 for calendar years 2018 and 2017, respectively. Participants also may make after-tax contributions ranging from 1% to 25% of eligible pay. Participants 50 years of age or older may also elect to make additional pre-tax and/or Roth 401(k) catch-up contributions of up to 75% of eligible pay, limited to $6,000 for calendar years 2018 and 2017. Total employer and employee contributions are limited to the lesser of $55,000 and $54,000 for plan years ended March 31, 2018 and 2017, respectively, or 100% of taxable compensation. Participants may also contribute amounts representing distributions from other eligible retirement plans.

Participant Accounts: Individual accounts are maintained for each plan participant. Each participant's account is credited with contributions and an allocation of earnings and charged with withdrawals and an allocation of losses and administrative expenses. Allocations are based on participant earnings on account balances. The participant is entitled to a benefit upon severance from employment based upon the vested portion of the participant's account.

Vesting: In general, for the plan years ended March 31, 2018 and 2017, employer contributions were 100% vested immediately. Dividends automatically reinvested in McKesson common stock are also 100% vested at all times. Employer contributions from certain qualified plans that were merged into the Plan are subject to vesting requirements.

Investment Options: Upon enrollment in the Plan, a participant may direct contributions in 1% increments to any of the investment options offered under the Plan and change his/her investment options at any time. At March 31, 2018, the Plan allowed participants to direct their accounts into any one or combination of the following investment options:

- *Fidelity BrokerageLink* is an investment option that provides access to a self-directed brokerage account.
- *Vanguard Target Retirement Trusts* are 12 commingled pool options designed for investors expecting to retire around the year indicated in each option's name. The trusts, which are the Plan's default investment options, are managed to gradually become more conservative over time. These options are common/collective trusts.
- *International Equity Portfolio* is comprised of two common/collective trusts: 20% of the portfolio is invested in the Eaton Vance Parametric Emerging Markets Equity Commingled Fund and 80% of the portfolio is invested in the Fidelity Diversified International Commingled Pool.

- *Fixed Income Portfolio* is comprised of investments in 3 common/collective trusts. 40% of the portfolio is invested in the Voya Core Plus Trust Fund, 40% of the portfolio is invested in the Loomis Sayles Core Plus Fixed Income Fund, and 20% of the portfolio is invested in the Manulife Asset Management Company Strategic Fixed Income Fund.
- *SSgA S&P 500 Index Fund* is a commingled pool that seeks to provide investment results that correspond to the return of the S&P 500 Index. This is a common/collective trust.
- *Fisher Investments Small Cap Value Portfolio* invests primarily in stocks of value companies that are part of the Russell 2000 Value Index. This is a separately managed account.
- *Small Cap Growth Portfolio* invests primarily in smaller growth-oriented U.S. companies that demonstrate the potential to meet certain strategic growth expectations as established by Weatherbie Capital, LLC, the investment manager. This is a separately managed account.
- *Dodge & Cox Large Cap Value Portfolio* primarily invests in the stock of large companies where the fund manager believes the long-term earnings prospects are not reflected in the current prices. This is a separately managed account.
- *Large Cap Growth Portfolio* is comprised of two separately managed accounts which invest primarily in the stock of large U.S. companies: 65% of the portfolio is managed by J.P. Morgan Asset Management and 35% is managed by Brown Advisory.
- *BNY Mellon Stable Value Portfolio* (the “Stable Value Portfolio”) invests in fixed income investments, insurance wrap contracts, and guaranteed investment contracts (“GICs”). This is a separately managed account.
- *McKesson Employee Stock Fund* (the “Employee Stock Fund”) primarily represents investments in McKesson's common stock.

Loans: A participant may have only one loan outstanding from the Plan at any time. The total amount loaned to an individual participant cannot exceed the lowest of: (i) 50% of such participant’s vested account balance, (ii) $50,000 less the participant's highest outstanding loan balance under the Plan in the 12 months preceding the loan date, or (iii) the value of the participant’s account attributable to pre-tax, Roth, after-tax, catch-up, and rollover contributions. Most loans bear interest at the then current prime rate of interest on the loan date plus 1%. Loan interest rates ranged from 4.25% to 10.50% at March 31, 2018 and 2017, respectively. Generally, loans may be repaid over a period not to exceed five years, except for residential home loans, which may be repaid over a term not to exceed ten years. Certain loans under qualified plans of acquired companies that were merged into the Plan may have longer repayment terms. Principal repayments and interest are paid through payroll deductions. For participants who have terminated employment or are on a leave of absence and are no longer receiving a paycheck, loan repayments may be made by electronic fund transfer or check. Notes receivable from participants totaled $37,809,000 and $43,919,000 at March 31, 2018 and 2017, respectively.

Payment of Benefits: Participants have the right to receive a full or partial distribution of their vested Plan account balance at the time of retirement, death, disability, or termination of employment. In general, when requested by a participant, benefit payments are made in a lump sum cash amount, but participants also may elect a distribution in-kind in the form of McKesson common stock and/or in the form of installments. The Plan also provides for in-service withdrawals on account of financial hardship or attainment of age 59½. In-service distributions cannot exceed a participant's vested account balance less applicable tax withholdings and penalties. Former employees may remain participants in the Plan and continue directing their investments without taking a distribution until attaining age 70½.

Transfers from Other Qualified Plans: During the year ended March 31, 2018, due to acquisitions by the Plan Sponsor, $14,143,000 of combined assets were transferred into the Plan from the Laboratory Supply Company 401(k) Profit Sharing Plan, Intrafusion GP, LLC 401(k) Profit Sharing Plan and Trust, and BDI Pharma, Inc. 401(k) Plan effective April 3, 2017, January 1, 2018, and March 16, 2018, respectively. During the year ended March 31, 2017, $15,990,000 of combined assets from the Vantage Oncology LLC 401(k) Plan and Biologics, Inc. 401(k) Profit Sharing Plan were merged into the Plan effective February 13, 2017 and March 31, 2017, respectively.

B. Non-Participant Directed Investments

General: The McKesson Employer Stock Fund consists of an Employee Stock Ownership Plan (the "ESOP") with shares of McKesson common stock that were allocated to participants through employer matching contributions made prior to April 2009 and not yet directed to other investment options by the participants. This fund is classified as "non-participant directed" because only the Company has the ability to direct contributions into this fund. Participants have the ability to transfer contributions from this fund to participant-directed investments, including the Employee Stock Fund. Total transfers to participant-directed investments for the years ended March 31, 2018 and 2017 were $27,024,000 and $34,176,000, respectively.

C. Other

Employer Matching Contributions to Participant Accounts: Each pay period, the Plan provides for Company matching contributions to all participants who make elective deferrals in an amount equal to 100% of the first 3% of pay contributed to the Plan and 50% of the next 2% of pay contributed to the Plan. An additional annual matching contribution may be allocated to plan participants at the discretion of the Company. The Plan also provides for a true-up matching employer contribution in an amount equal to the difference between (1) a participant's matching contributions determined based on the participant's compensation and eligible contributions for the entire plan year and (2) the amount of the participant's matching contributions actually contributed to the Plan for the plan year. Employer matching contributions were $58,556,000 and $79,036,000 for the years ended March 31, 2018 and 2017, respectively.

Diversification out of McKesson Employer Stock Fund and McKesson Employee Stock Fund: Participants may divest their accounts of McKesson common stock and invest in other investment options.

Payment of Benefits: Distributions are made only upon a participant's retirement, death (in which case, payment shall be made to the participant's beneficiary), or other termination of employment with the Company and its affiliates. Distributions are made in cash, periodic installments or if a participant elects a distribution in-kind, in the form of Company common stock plus cash for any fractional share.

McKesson Employer Stock Fund: The following table includes information regarding the allocated shares of McKesson common stock, at fair value, held as of March 31 (in thousands):

2018			2017		
Number of Shares	Cost Basis	Fair Value of Shares	Number of Shares	Cost Basis	Fair Value of Shares
2,225	$ 80,781	$ 313,411	2,693	$ 97,772	$ 399,322

The per share fair value of McKesson common stock at March 31, 2018 and 2017 was $140.87 and $148.26, respectively. The Fair Value of Shares reported above excludes interest bearing cash of $2,386,000 and $2,588,000 as of March 31, 2018 and 2017, respectively.

2. Significant Accounting Policies

Basis of Accounting: The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Investments held by a defined contribution plan are required to be reported at fair value with the exception of fully benefit-responsive investment contracts, which are required to be reported at contract value. Contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present fully benefit-responsive investment contracts at contract value and all other investments at fair value.

Use of Estimates: The preparation of financial statements in conformity with GAAP requires plan management to make estimates and assumptions that affect the reported amount of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties: The Plan maintains various investment options including mutual funds, Fidelity BrokerageLink, common/collective trusts, separately managed accounts, the Employer Stock Fund, and the Employee Stock Fund. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition: The Plan's investments are stated at fair value or net asset value ("NAV") as a practical expedient for fair value except for the BNY Mellon Stable Value Portfolio, which is stated at contract value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investments in mutual funds are stated at quoted market prices. Investments entered into through Fidelity BrokerageLink are primarily stated at quoted market prices. Investments in common/collective trusts are stated at NAV. Investments in separately managed accounts are valued based on the underlying net assets, which are actively traded and primarily valued using quoted market prices.

The BNY Mellon Stable Value Portfolio is stated at contact value, which represents contributions, plus credited earnings, less participant withdrawals.

Shares of McKesson common stock are valued at quoted market prices on March 31, 2018 and 2017. Certain administrative expenses are allocated to the individual investment options based upon daily balances invested in each option and are reflected as an addition to net depreciation in fair market value of investments or a reduction of net appreciation in fair market value of investments. Consequently, these administrative expenses are reflected as a reduction of investment return for such investments. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses: Administrative expenses of the Plan are paid by the Plan and the plan participants. The Company, in its discretion, may pay all, a portion, or none of such expenses from time to time.

Benefits: Benefits are recorded when paid.

Notes Receivable: Notes receivable from participants are valued at the unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the plan document.

3. Investments Reported at Contract Value

The Stable Value Portfolio contains investment contracts with insurance companies and financial institutions with the objective of providing participants a stable return on investment and protection of principal from changes in market interest rates.

Fixed maturity synthetic GICs consist of an asset or pool of assets that are owned by the fund (or plan) and a benefit-responsive, book value wrap contract purchased for the portfolio. The wrap contract provides contract value accounting for the asset and assures that contract value, benefit-responsive payments will be made for participant-directed withdrawals.

Constant duration synthetic GICs consist of a portfolio of securities owned by the fund (or plan) and a benefit-responsive, book value wrap contract purchased for the portfolio. The wrap contract amortizes gains and losses of the underlying securities over the portfolio duration and assures that contract value payments will be made for participant-directed withdrawals.

Separate account GICs are group annuity contracts that pay a rate of return that is reset periodically (typically quarterly), offer book value accounting, and provide benefit responsiveness for participant-directed withdrawals. The crediting rate reflects the experience of assets that are separated from the insurance company's general account assets. The liabilities associated with an insurance company separate account are paid from the assets held in that separate account. The insurance company's general account assets back the separate accounts to fulfill separate account obligations. Separate account assets cannot be used to satisfy general account liabilities.

The fixed maturity synthetic and constant duration synthetic GICs use wrap contracts in order to manage market risks and to alter the return characteristics of the underlying portfolio of securities owned by the Stable Value Portfolio to match certain fund objectives. There are no reserves against these contract values for credit risk of the contract issuer or otherwise.

The initial crediting rates for both the fixed maturity synthetic and constant duration synthetic GICs are established based on the market interest rates at the time the initial asset is purchased and are guaranteed to have an interest crediting rate of not less than zero percent. The fixed maturity synthetic GIC crediting rate is set at the start of the contract and typically resets on a quarterly basis. The constant duration synthetic GIC crediting rate resets every quarter based on the contract value, the market yield to maturity, the market value, and the average duration of the underlying assets. The crediting rate for constant duration synthetic GICs aims at converging the contract value with the market value; therefore, it will be affected by interest rate and market changes.

Withdrawals and transfers resulting from the following events will limit the ability of the portfolio to transact at book or contract value, though such events are not probable of occurring. Instead, fair value would likely be used in determining the payouts to the participants, should any of the following events occur:

- Employer-initiated events — events within the control of the Plan or the Plan Sponsor which would have a material and adverse impact on the fund
- Employer communications designed to induce participants to transfer from the fund
- Competing fund transfer or violation of equity wash or equivalent rules in place
- Changes of qualification status of employer or plan

Issuers may terminate the GICs and settle at other than contract value if there is a change in the qualification status of employer or plan, a breach of material obligations under the contract, misrepresentation by the contract holder, or failure of the underlying portfolio to conform to the pre-established investment guidelines.

4. Fair Value Measurement

Fair value is defined as the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date. When determining fair value, the Plan considers the principal or most advantageous market in which the Plan would transact, and the Plan considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, redemption restrictions, and risk of non-performance.

In addition to determining fair value, the Plan is required to establish a fair value hierarchy for valuation inputs. The hierarchy prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market. Each fair value measurement is reported in one of the three levels, which is determined by the lowest level input that is significant to the fair value measurement in its entirety. These levels are:

Level 1 — unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 — quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means;

Level 3 — unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of assets or liabilities.

The Plan's investments measured at fair value on a recurring basis consisted of the following types of instruments as of March 31 (in thousands):

(1) Common/collective trusts for which fair value is measured using the NAV per share as a practical expedient are not leveled within the fair value hierarchy and are included as a reconciling item to total investments measured at fair value presented in the statements of net assets available for benefits.

For the years ended March 31, 2018 and 2017, there were no investments classified as level 3 nor were there any significant transfers in or out of levels 1, 2, or 3. Below is a description of the valuation methodologies used for the fair value measurements.

Mutual funds are publicly traded investments which are valued using a quoted price in an active market.

Common/collective trusts are valued using NAV. The NAV of a common/collective trust is based on the market values of the underlying securities. The beneficial interest of each investor is represented in units. Units are issued and redeemed daily at the fund's closing NAV.

Separately managed accounts are valued based on the fair values of the underlying securities, which are primarily valued using quoted market prices.

Investments in Fidelity BrokerageLink and McKesson common stock are stated at quoted market prices.

The Plan makes certain investments where the fair value is measured by NAV per share. There were no unfunded commitments, normal course of business restrictions, or other redemption restrictions for these investments. These investments are summarized below as of March 31 (in thousands):

	2018			2017		
	Fair Value	Redemption Frequency	Redemption Notice Period	Fair Value	Redemption Frequency	Redemption Notice Period
Common/collective trusts	$ 2,141,207	As needed	1-5 days	$ 2,045,527	As needed	1-5 days

5. Federal Income Tax Status

On December 19, 2017, the Internal Revenue Service issued a favorable determination letter to the Plan indicating that, in its opinion, the terms of the Plan conform to the requirements of Section 401(a) of the Code. In addition, the Company and the plan administrator believe that the Plan, in form and operation, complies with the applicable requirements of the Code and that the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Plan management evaluates tax positions taken by the Plan and recognizes a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of March 31, 2018, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2015.

6. Plan Termination

The Company's Board of Directors reserves the right to terminate the Plan. If termination should occur, all participant accounts would be 100% vested immediately and each participant would receive a distribution equal to his or her vested account balance.

As a result of the formation of Change Healthcare, LLC and the related significant number of participants who terminated employment with the Plan Sponsor, we determined that a partial termination of the Plan may have occurred during the year ended March 31, 2018. All affected participants were fully vested; therefore, no additional action was required.

7. Exempt Related Party Transactions

At March 31, 2018 and 2017, respectively, the Plan held approximately 3,102,000 and 3,784,000 common shares of McKesson Corporation, the Plan Sponsor, with a cost basis of $178,874,000 and $218,097,000. The shares were held within the Plan's Employer and Employee Stock Funds. At March 31, 2018 and 2017, the Employer Stock Fund held 2,225,000 and 2,693,000 common shares, respectively. At March 31, 2018 and 2017, the Employee Stock Fund held 877,000 and 1,091,000 common shares, respectively. These transactions qualify as exempt party-in-interest transactions.

McKesson declared dividends of $1.30 and $1.12 per share during the years ended March 31, 2018 and 2017, respectively. During the years ended March 31, 2018 and 2017, the Employer Stock Fund recognized dividend income from McKesson common shares of $3,151,000 and $3,256,000, respectively. During the years ended March 31, 2018 and 2017, the Employee Stock Fund recognized dividend income from McKesson common shares of $1,249,000 and $1,296,000, respectively. McKesson dividends received by the Plan were reinvested respectively in the Employer and Employee Stock Funds.

Certain investment options are managed by Fidelity, which also serves as the Plan's record-keeper and trustee. Therefore, these transactions qualify as exempt party-in-interest transactions. Generally, investment options (other than mutual funds and publicly offered securities) may qualify as party-in-interest transactions if the issuer, investment manager, or trustee of the investment option is a plan fiduciary or service provider. Fees for investment management services are allocated to the participants with balances in those funds. The Plan also issues loans to participants, which are secured by the vested balances in the participants' accounts.

8. Subsequent Event

Effective August 31, 2018, the McKesson Employee Stock Fund investment option has been frozen to new investments. Participants will not be able to make any new contributions, loan repayments or investment exchanges into the McKesson Employee Stock Fund. Participants balances, subject to market fluctuations and applicable fees, may continue to be held in the McKesson Employee Stock Fund. On September 21, 2018, we filed a post-effective amendment to Form S-8, registration number 333-181118, to deregister our shares with the Securities and Exchange Commission. This filing relieved the Plan of our requirement to file the Form 11-K.

For the year ended March 31, 2018, subsequent events were evaluated through October 19, 2018, the date the financial statements were available to be issued. There were no additional events that require adjustment to or disclosure in the financial statements.

9. Reconciliation of Financial Statements to Form 5500

Net assets available for benefits reported in the financial statements at March 31, 2018 and 2017 agree to net assets available for benefits reported at March 31, 2018 and 2017 in the Form 5500. There were no reconciling adjustments in either year.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors and Participants of
The McKesson Corporation 401(k) Retirement Savings Plan:

We have audited the accompanying financial statements of McKesson Corporation 401(k) Retirement Savings Plan (the "Plan"), formerly McKesson Corporation Profit-Sharing Investment Plan, which comprise the statements of net assets available for benefits as of March 31, 2018 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements, in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of McKesson Corporation 401(K) Retirement Savings Plan as of March 31, 2018 and 2017, and the changes in net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Schedule

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of March 31, 2018 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This schedule is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. This schedule has been subjected to the auditing procedures applied in our audits of the financial statements and certain additional procedures, including comparing and reconciling such schedule directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, such schedule is fairly stated in all material respects in relation to the financial statements as a whole.

1. Plan Description

Effective January 1, 2018, McKesson Corporation Profit-Sharing Investment Plan has been renamed the McKesson Corporation 401(k) Retirement Savings Plan (the "Plan"). The following description of the Plan is provided for general informational purposes only. Participants should refer to the plan document for more complete information. The Plan is a defined contribution plan covering all persons who have completed two months of service and are regular or part-time employees or are casual or temporary employees who have worked at least 1,000 hours in a 12-month period at McKesson Corporation (the "Company" or "McKesson" or "Plan Sponsor") or a participating subsidiary, except seasonal and collectively bargained employees (unless the collective bargaining agreement provides for participation). The plan year is April 1 through March 31. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Company controls and manages the operation and administration of the Plan.

Fidelity Management Trust Company ("Fidelity") is the trustee and record-keeper of the Plan.

The Plan is comprised of participant-directed and non-participant directed investments, as described below:

A. Participant-Directed Investments

Contributions: The Plan qualifies as a safe harbor plan as described in Internal Revenue Code (the "Code") Sections 401(k)(12) and 401(m)(11). Participants may make pre-tax and/or Roth 401(k) contributions from 1% to 75% of eligible pay, limited to $18,500 and $18,000 for calendar years 2018 and 2017, respectively. Participants also may make after-tax contributions ranging from 1% to 25% of eligible pay. Participants 50 years of age or older may also elect to make additional pre-tax and/or Roth 401(k) catch-up contributions of up to 75% of eligible pay, limited to $6,000 for calendar years 2018 and 2017. Total employer and employee contributions are limited to the lesser of $55,000 and $54,000 for plan years ended March 31, 2018 and 2017, respectively, or 100% of taxable compensation. Participants may also contribute amounts representing distributions from other eligible retirement plans.

Participant Accounts: Individual accounts are maintained for each plan participant. Each participant's account is credited with contributions and an allocation of earnings and charged with withdrawals and an allocation of losses and administrative expenses. Allocations are based on participant earnings on account balances. The participant is entitled to a benefit upon severance from employment based upon the vested portion of the participant's account.

Vesting: In general, for the plan years ended March 31, 2018 and 2017, employer contributions were 100% vested immediately. Dividends automatically reinvested in McKesson common stock are also 100% vested at all times. Employer contributions from certain qualified plans that were merged into the Plan are subject to vesting requirements.

Investment Options: Upon enrollment in the Plan, a participant may direct contributions in 1% increments to any of the investment options offered under the Plan and change his/her investment options at any time. At March 31, 2018, the Plan allowed participants to direct their accounts into any one or combination of the following investment options:

- *Fidelity BrokerageLink* is an investment option that provides access to a self-directed brokerage account.
- *Vanguard Target Retirement Trusts* are 12 commingled pool options designed for investors expecting to retire around the year indicated in each option's name. The trusts, which are the Plan's default investment options, are managed to gradually become more conservative over time. These options are common/collective trusts.
- *International Equity Portfolio* is comprised of two common/collective trusts: 20% of the portfolio is invested in the Eaton Vance Parametric Emerging Markets Equity Commingled Fund and 80% of the portfolio is invested in the Fidelity Diversified International Commingled Pool.

- *Fixed Income Portfolio* is comprised of investments in 3 common/collective trusts. 40% of the portfolio is invested in the Voya Core Plus Trust Fund, 40% of the portfolio is invested in the Loomis Sayles Core Plus Fixed Income Fund, and 20% of the portfolio is invested in the Manulife Asset Management Company Strategic Fixed Income Fund.
- *SSgA S&P 500 Index Fund* is a commingled pool that seeks to provide investment results that correspond to the return of the S&P 500 Index. This is a common/collective trust.
- *Fisher Investments Small Cap Value Portfolio* invests primarily in stocks of value companies that are part of the Russell 2000 Value Index. This is a separately managed account.
- *Small Cap Growth Portfolio* invests primarily in smaller growth-oriented U.S. companies that demonstrate the potential to meet certain strategic growth expectations as established by Weatherbie Capital, LLC, the investment manager. This is a separately managed account.
- *Dodge & Cox Large Cap Value Portfolio* primarily invests in the stock of large companies where the fund manager believes the long-term earnings prospects are not reflected in the current prices. This is a separately managed account.
- *Large Cap Growth Portfolio* is comprised of two separately managed accounts which invest primarily in the stock of large U.S. companies: 65% of the portfolio is managed by J.P. Morgan Asset Management and 35% is managed by Brown Advisory.
- *BNY Mellon Stable Value Portfolio* (the “Stable Value Portfolio”) invests in fixed income investments, insurance wrap contracts, and guaranteed investment contracts (“GICs”). This is a separately managed account.
- *McKesson Employee Stock Fund* (the “Employee Stock Fund”) primarily represents investments in McKesson's common stock.

Loans: A participant may have only one loan outstanding from the Plan at any time. The total amount loaned to an individual participant cannot exceed the lowest of: (i) 50% of such participant’s vested account balance, (ii) $50,000 less the participant's highest outstanding loan balance under the Plan in the 12 months preceding the loan date, or (iii) the value of the participant’s account attributable to pre-tax, Roth, after-tax, catch-up, and rollover contributions. Most loans bear interest at the then current prime rate of interest on the loan date plus 1%. Loan interest rates ranged from 4.25% to 10.50% at March 31, 2018 and 2017, respectively. Generally, loans may be repaid over a period not to exceed five years, except for residential home loans, which may be repaid over a term not to exceed ten years. Certain loans under qualified plans of acquired companies that were merged into the Plan may have longer repayment terms. Principal repayments and interest are paid through payroll deductions. For participants who have terminated employment or are on a leave of absence and are no longer receiving a paycheck, loan repayments may be made by electronic fund transfer or check. Notes receivable from participants totaled $37,809,000 and $43,919,000 at March 31, 2018 and 2017, respectively.

Payment of Benefits: Participants have the right to receive a full or partial distribution of their vested Plan account balance at the time of retirement, death, disability, or termination of employment. In general, when requested by a participant, benefit payments are made in a lump sum cash amount, but participants also may elect a distribution in-kind in the form of McKesson common stock and/or in the form of installments. The Plan also provides for in-service withdrawals on account of financial hardship or attainment of age 59½. In-service distributions cannot exceed a participant's vested account balance less applicable tax withholdings and penalties. Former employees may remain participants in the Plan and continue directing their investments without taking a distribution until attaining age 70½.

Transfers from Other Qualified Plans: During the year ended March 31, 2018, due to acquisitions by the Plan Sponsor, $14,143,000 of combined assets were transferred into the Plan from the Laboratory Supply Company 401(k) Profit Sharing Plan, Intrafusion GP, LLC 401(k) Profit Sharing Plan and Trust, and BDI Pharma, Inc. 401(k) Plan effective April 3, 2017, January 1, 2018, and March 16, 2018, respectively. During the year ended March 31, 2017, $15,990,000 of combined assets from the Vantage Oncology LLC 401(k) Plan and Biologics, Inc. 401(k) Profit Sharing Plan were merged into the Plan effective February 13, 2017 and March 31, 2017, respectively.

B. Non-Participant Directed Investments

General: The McKesson Employer Stock Fund consists of an Employee Stock Ownership Plan (the "ESOP") with shares of McKesson common stock that were allocated to participants through employer matching contributions made prior to April 2009 and not yet directed to other investment options by the participants. This fund is classified as "non-participant directed" because only the Company has the ability to direct contributions into this fund. Participants have the ability to transfer contributions from this fund to participant-directed investments, including the Employee Stock Fund. Total transfers to participant-directed investments for the years ended March 31, 2018 and 2017 were $27,024,000 and $34,176,000, respectively.

C. Other

Employer Matching Contributions to Participant Accounts: Each pay period, the Plan provides for Company matching contributions to all participants who make elective deferrals in an amount equal to 100% of the first 3% of pay contributed to the Plan and 50% of the next 2% of pay contributed to the Plan. An additional annual matching contribution may be allocated to plan participants at the discretion of the Company. The Plan also provides for a true-up matching employer contribution in an amount equal to the difference between (1) a participant's matching contributions determined based on the participant's compensation and eligible contributions for the entire plan year and (2) the amount of the participant's matching contributions actually contributed to the Plan for the plan year. Employer matching contributions were $58,556,000 and $79,036,000 for the years ended March 31, 2018 and 2017, respectively.

Diversification out of McKesson Employer Stock Fund and McKesson Employee Stock Fund: Participants may divest their accounts of McKesson common stock and invest in other investment options.

Payment of Benefits: Distributions are made only upon a participant's retirement, death (in which case, payment shall be made to the participant's beneficiary), or other termination of employment with the Company and its affiliates. Distributions are made in cash, periodic installments or if a participant elects a distribution in-kind, in the form of Company common stock plus cash for any fractional share.

McKesson Employer Stock Fund: The following table includes information regarding the allocated shares of McKesson common stock, at fair value, held as of March 31 (in thousands):

2018			2017		
Number of Shares	Cost Basis	Fair Value of Shares	Number of Shares	Cost Basis	Fair Value of Shares
2,225	$ 80,781	$ 313,411	2,693	$ 97,772	$ 399,322

The per share fair value of McKesson common stock at March 31, 2018 and 2017 was $140.87 and $148.26, respectively. The Fair Value of Shares reported above excludes interest bearing cash of $2,386,000 and $2,588,000 as of March 31, 2018 and 2017, respectively.

2. Significant Accounting Policies

Basis of Accounting: The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Investments held by a defined contribution plan are required to be reported at fair value with the exception of fully benefit-responsive investment contracts, which are required to be reported at contract value. Contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present fully benefit-responsive investment contracts at contract value and all other investments at fair value.

Use of Estimates: The preparation of financial statements in conformity with GAAP requires plan management to make estimates and assumptions that affect the reported amount of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Risks and Uncertainties: The Plan maintains various investment options including mutual funds, Fidelity BrokerageLink, common/collective trusts, separately managed accounts, the Employer Stock Fund, and the Employee Stock Fund. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition: The Plan's investments are stated at fair value or net asset value ("NAV") as a practical expedient for fair value except for the BNY Mellon Stable Value Portfolio, which is stated at contract value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investments in mutual funds are stated at quoted market prices. Investments entered into through Fidelity BrokerageLink are primarily stated at quoted market prices. Investments in common/collective trusts are stated at NAV. Investments in separately managed accounts are valued based on the underlying net assets, which are actively traded and primarily valued using quoted market prices.

The BNY Mellon Stable Value Portfolio is stated at contact value, which represents contributions, plus credited earnings, less participant withdrawals.

Shares of McKesson common stock are valued at quoted market prices on March 31, 2018 and 2017. Certain administrative expenses are allocated to the individual investment options based upon daily balances invested in each option and are reflected as an addition to net depreciation in fair market value of investments or a reduction of net appreciation in fair market value of investments. Consequently, these administrative expenses are reflected as a reduction of investment return for such investments. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses: Administrative expenses of the Plan are paid by the Plan and the plan participants. The Company, in its discretion, may pay all, a portion, or none of such expenses from time to time.

Benefits: Benefits are recorded when paid.

Notes Receivable: Notes receivable from participants are valued at the unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the plan document.

3. Investments Reported at Contract Value

The Stable Value Portfolio contains investment contracts with insurance companies and financial institutions with the objective of providing participants a stable return on investment and protection of principal from changes in market interest rates.

Fixed maturity synthetic GICs consist of an asset or pool of assets that are owned by the fund (or plan) and a benefit-responsive, book value wrap contract purchased for the portfolio. The wrap contract provides contract value accounting for the asset and assures that contract value, benefit-responsive payments will be made for participant-directed withdrawals.

Constant duration synthetic GICs consist of a portfolio of securities owned by the fund (or plan) and a benefit-responsive, book value wrap contract purchased for the portfolio. The wrap contract amortizes gains and losses of the underlying securities over the portfolio duration and assures that contract value payments will be made for participant-directed withdrawals.

Separate account GICs are group annuity contracts that pay a rate of return that is reset periodically (typically quarterly), offer book value accounting, and provide benefit responsiveness for participant-directed withdrawals. The crediting rate reflects the experience of assets that are separated from the insurance company's general account assets. The liabilities associated with an insurance company separate account are paid from the assets held in that separate account. The insurance company's general account assets back the separate accounts to fulfill separate account obligations. Separate account assets cannot be used to satisfy general account liabilities.

The fixed maturity synthetic and constant duration synthetic GICs use wrap contracts in order to manage market risks and to alter the return characteristics of the underlying portfolio of securities owned by the Stable Value Portfolio to match certain fund objectives. There are no reserves against these contract values for credit risk of the contract issuer or otherwise.

The initial crediting rates for both the fixed maturity synthetic and constant duration synthetic GICs are established based on the market interest rates at the time the initial asset is purchased and are guaranteed to have an interest crediting rate of not less than zero percent. The fixed maturity synthetic GIC crediting rate is set at the start of the contract and typically resets on a quarterly basis. The constant duration synthetic GIC crediting rate resets every quarter based on the contract value, the market yield to maturity, the market value, and the average duration of the underlying assets. The crediting rate for constant duration synthetic GICs aims at converging the contract value with the market value; therefore, it will be affected by interest rate and market changes.

Withdrawals and transfers resulting from the following events will limit the ability of the portfolio to transact at book or contract value, though such events are not probable of occurring. Instead, fair value would likely be used in determining the payouts to the participants, should any of the following events occur:

- Employer-initiated events — events within the control of the Plan or the Plan Sponsor which would have a material and adverse impact on the fund
- Employer communications designed to induce participants to transfer from the fund
- Competing fund transfer or violation of equity wash or equivalent rules in place
- Changes of qualification status of employer or plan

Issuers may terminate the GICs and settle at other than contract value if there is a change in the qualification status of employer or plan, a breach of material obligations under the contract, misrepresentation by the contract holder, or failure of the underlying portfolio to conform to the pre-established investment guidelines.

4. Fair Value Measurement

Fair value is defined as the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date. When determining fair value, the Plan considers the principal or most advantageous market in which the Plan would transact, and the Plan considers assumptions that market participants would use when pricing the asset or liability, such as inherent risk, transfer restrictions, redemption restrictions, and risk of non-performance.

In addition to determining fair value, the Plan is required to establish a fair value hierarchy for valuation inputs. The hierarchy prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market. Each fair value measurement is reported in one of the three levels, which is determined by the lowest level input that is significant to the fair value measurement in its entirety. These levels are:

Level 1 — unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 — quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means;

Level 3 — unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of assets or liabilities.

The Plan's investments measured at fair value on a recurring basis consisted of the following types of instruments as of March 31 (in thousands):

(1) Common/collective trusts for which fair value is measured using the NAV per share as a practical expedient are not leveled within the fair value hierarchy and are included as a reconciling item to total investments measured at fair value presented in the statements of net assets available for benefits.

For the years ended March 31, 2018 and 2017, there were no investments classified as level 3 nor were there any significant transfers in or out of levels 1, 2, or 3. Below is a description of the valuation methodologies used for the fair value measurements.

Mutual funds are publicly traded investments which are valued using a quoted price in an active market.

Common/collective trusts are valued using NAV. The NAV of a common/collective trust is based on the market values of the underlying securities. The beneficial interest of each investor is represented in units. Units are issued and redeemed daily at the fund's closing NAV.

Separately managed accounts are valued based on the fair values of the underlying securities, which are primarily valued using quoted market prices.

Investments in Fidelity BrokerageLink and McKesson common stock are stated at quoted market prices.

The Plan makes certain investments where the fair value is measured by NAV per share. There were no unfunded commitments, normal course of business restrictions, or other redemption restrictions for these investments. These investments are summarized below as of March 31 (in thousands):

	2018			2017		
	Fair Value	Redemption Frequency	Redemption Notice Period	Fair Value	Redemption Frequency	Redemption Notice Period
Common/collective trusts	$ 2,141,207	As needed	1-5 days	$ 2,045,527	As needed	1-5 days

5. Federal Income Tax Status

On December 19, 2017, the Internal Revenue Service issued a favorable determination letter to the Plan indicating that, in its opinion, the terms of the Plan conform to the requirements of Section 401(a) of the Code. In addition, the Company and the plan administrator believe that the Plan, in form and operation, complies with the applicable requirements of the Code and that the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Plan management evaluates tax positions taken by the Plan and recognizes a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of March 31, 2018, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2015.

6. Plan Termination

The Company's Board of Directors reserves the right to terminate the Plan. If termination should occur, all participant accounts would be 100% vested immediately and each participant would receive a distribution equal to his or her vested account balance.

As a result of the formation of Change Healthcare, LLC and the related significant number of participants who terminated employment with the Plan Sponsor, we determined that a partial termination of the Plan may have occurred during the year ended March 31, 2018. All affected participants were fully vested; therefore, no additional action was required.

7. Exempt Related Party Transactions

At March 31, 2018 and 2017, respectively, the Plan held approximately 3,102,000 and 3,784,000 common shares of McKesson Corporation, the Plan Sponsor, with a cost basis of $178,874,000 and $218,097,000. The shares were held within the Plan's Employer and Employee Stock Funds. At March 31, 2018 and 2017, the Employer Stock Fund held 2,225,000 and 2,693,000 common shares, respectively. At March 31, 2018 and 2017, the Employee Stock Fund held 877,000 and 1,091,000 common shares, respectively. These transactions qualify as exempt party-in-interest transactions.

McKesson declared dividends of $1.30 and $1.12 per share during the years ended March 31, 2018 and 2017, respectively. During the years ended March 31, 2018 and 2017, the Employer Stock Fund recognized dividend income from McKesson common shares of $3,151,000 and $3,256,000, respectively. During the years ended March 31, 2018 and 2017, the Employee Stock Fund recognized dividend income from McKesson common shares of $1,249,000 and $1,296,000, respectively. McKesson dividends received by the Plan were reinvested respectively in the Employer and Employee Stock Funds.

Certain investment options are managed by Fidelity, which also serves as the Plan's record-keeper and trustee. Therefore, these transactions qualify as exempt party-in-interest transactions. Generally, investment options (other than mutual funds and publicly offered securities) may qualify as party-in-interest transactions if the issuer, investment manager, or trustee of the investment option is a plan fiduciary or service provider. Fees for investment management services are allocated to the participants with balances in those funds. The Plan also issues loans to participants, which are secured by the vested balances in the participants' accounts.

8. Subsequent Event

Effective August 31, 2018, the McKesson Employee Stock Fund investment option has been frozen to new investments. Participants will not be able to make any new contributions, loan repayments or investment exchanges into the McKesson Employee Stock Fund. Participants balances, subject to market fluctuations and applicable fees, may continue to be held in the McKesson Employee Stock Fund. On September 21, 2018, we filed a post-effective amendment to Form S-8, registration number 333-181118, to deregister our shares with the Securities and Exchange Commission. This filing relieved the Plan of our requirement to file the Form 11-K.

For the year ended March 31, 2018, subsequent events were evaluated through October 19, 2018, the date the financial statements were available to be issued. There were no additional events that require adjustment to or disclosure in the financial statements.

9. Reconciliation of Financial Statements to Form 5500

Net assets available for benefits reported in the financial statements at March 31, 2018 and 2017 agree to net assets available for benefits reported at March 31, 2018 and 2017 in the Form 5500. There were no reconciling adjustments in either year.
