Apple Zebra, Inc. 401(k) Plan

Notes to Financial Statements

January 26, 2018 and December 31, 2017

1. Description of Plan

The following is a brief description of the Apple Zebra, Inc. 401(k) Plan (the “Plan”) which provides general information only. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

General

The Plan was established on September 1, 2001 and was amended and restated effective January 1, 2016. The Plan is a defined contribution plan that covers substantially all employees of Apple Zebra, Inc. and its affiliated companies (collectively the “Company” or “Employer”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Plan Termination

In December 2017, plan management approved the merger of the Plan into the St. George Retirement Plan. All investments and notes receivable from participants were transferred from the Plan to the St. George Retirement Plan effective January 26, 2018.

Eligibility

After reaching the age of twenty-one and completing six months of service, employees of the Company became eligible to participate in the Plan and were eligible to receive a discretionary employer match contribution.

Contributions

The Plan provided each participant the opportunity to make pre-tax or Roth deferral contributions up to 100% of compensation subject to the limitations of the Internal Revenue Code.

The Employer, in its sole discretion, had the option to contribute a discretionary match contribution to each eligible employee determined as of the end of the plan year. For the period from January 1, 2018 through January 26, 2018, there was no discretionary match contribution made to the Plan.

Vesting

Participants were immediately and fully vested in their own contributions, plus actual earnings thereon and became fully vested in the Company’s contributions, plus actual earnings thereon, after three years of service with the Company.

Participant Accounts

Each participant’s account were credited with their contributions, employer contributions, and the earnings thereon. Contributions to the Plan were invested by the custodian as directed by the participants. Each participant could elect from one or more of the investment vehicles offered pursuant to the provisions of the Plan.

Forfeitures

The Plan provided for terminated employees who resumed employment within five years to have any forfeited amounts reinstated (“reinstatement period”), if the employee repaid the full amount of the distribution attributable to vested employer contributions prior to the end of the reinstatement period. Subsequent to the reinstatement period, plan participants’ forfeitures could be used to pay plan expenses or reduce the employers’ contribution for the plan year and, if applicable, any remaining amount was to be applied toward succeeding plan years until fully utilized. There were no forfeitures from participants for the period from January 1, 2018 through January 26, 2018. At December 31, 2017, the available balance of forfeitures was \$3,272. Forfeitures in the amount of \$3,273 were transferred to the St. George Retirement Plan on January 26, 2018.

Apple Zebra, Inc. 401(k) Plan

Benefits Paid to Participants

A participant's vested interest in his or her account balance was distributable upon normal retirement (65), termination, disability, or death, as described by the plan document. Participants could also make in-service withdrawals upon reaching age 59 ½.

Notes Receivable from Participants

Participants were permitted to have three loans outstanding at any point in time and to borrow a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The maximum term of the loan was five years; or fifteen years, if the loan was for the purchase of a principal residence. The loans were secured by the balance in the participant's account and bore interest at the prime rate plus two percent (2%). Notes receivable from participants were repaid through payroll deductions and monitored by the plan administrator. Notes receivables from participants were measured at their unpaid principal balance, plus any accrued interest. Approximately \$5,000 of notes receivable from participants were transferred to the St. George Retirement Plan on January 26, 2018.

Administrative Expenses

Substantially all administrative expenses of the Plan were paid directly by the Company.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and liabilities and the changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussions of fair value measurements.

Purchases and sales of investments were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation (depreciation) included the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits were recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through October 24, 2018, the date these financial statements were available for issuance. All subsequent events requiring recognition or disclosure have been incorporated in these financial statements.

3. Information Certified by the Custodian

The following is a summary of Plan information as of January 26, 2018 and December 31, 2017, and for the period from January 1, 2018 through January 26, 2018, included in the Plan's financial statements, that was prepared or derived from information provided by Lincoln, the custodian of the Plan, and furnished to the Plan administrator. The plan administrator has obtained certification from the custodian that such information is complete and accurate.

Apple Zebra, Inc. 401(k) Plan

Information relating to investments certified by the custodian at January 26, 2018 and December 31, 2017, is as follows:

	2018	2017
Pooled separate accounts, at fair value	\$ -	\$ 828,672
Guaranteed interest account, at contract value	-	15,623
	<u>\$ -</u>	<u>\$ 844,295</u>

The following was also certified by the custodian for the period from January 1, 2018 through January 26, 2018:

Net appreciation in fair value of investments	\$ 37,974
Dividend income	19
	<u>\$ 37,993</u>

Insurance Contract with Insurance Company

The Plan was party to an investment contract with Lincoln whereby allocated contributions were maintained in a Guaranteed Interest Account (“GIA”). The contract is included in the financial statements at contract value (which represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses), because it was fully-benefit responsive. Participants could ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There were no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events limited the ability of the Plan to transact at contract value with Lincoln Financial Group. Such events included the following (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan’s prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from Federal income taxes or any required prohibited transaction exemption under ERISA.

4. Fair Value Measurements

The Plan’s investments were stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The asset’s or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value of measurement. Valuation techniques need to maximize the use of observable inputs and minimize the use of unobservable inputs. Valuation techniques used to measure fair value are defined as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2 - Inputs to the valuation methodology include: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Apple Zebra, Inc. 401(k) Plan

Following is a description of the valuation methodology used for assets measured at fair value:

- Pooled separate accounts: the fair value of the pooled separate accounts is based on the year end market value of each unit held, which is based upon the market value of the underlying assets of the funds less management fees. The pooled separate accounts do not have any unfunded commitments relating to their investments, or any significant restrictions or redemptions. Participant-directed redemptions can be made on any business day and do not have a redemption notice period.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments at fair value as of December 31, 2017 are as follows:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts	\$ -	\$ 828,672	\$ -	\$ 828,672

5. Related-Party Transactions

Lincoln was the record keeper for the Plan. The Plan paid \$580 to Lincoln for record keeping and administrative services for the period from January 1, 2018 through January 26, 2018. Fees paid to the third party administrator amounted to \$950 for the period from January 1, 2018 through January 26, 2018.

6. Tax Status

On March 31, 2014, the Internal Revenue Service (“IRS”) stated that the prototype plan adopted by the Plan, as then designed, qualifies under Section 401(a) of the Internal Revenue Code (“IRC”). The Plan has not received a determination letter specific to the Plan itself; however, the Plan administrator believes that the Plan was designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan’s management has analyzed the tax positions taken by the Plan, and has concluded that as of January 26, 2018 and December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan’s management believes it is no longer subject to income tax examinations for years prior to 2015.

7. Risks and Uncertainties

The Plan’s investments were concentrated in pooled separate accounts and a guaranteed investment account that invested in marketable securities. Such securities are subject to various risks, such as interest rates, market and credit risks, that determine the value of the investments. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of these securities, it is at least reasonably possible that the changes in market conditions in the near term could have materially affected participants’ account balances and the value of investments reported in the financial statements.

8. Reconciliation of Financial Statements to Form 5500

The Form 5500 was prepared on a cash basis as of January 26, 2018 and December 31, 2017 and for the period from January 1, 2018 through January 26, 2018, and the financial statements were prepared on the accrual basis.

Apple Zebra, Inc. 401(k) Plan

The following is a reconciliation between the statement of net assets available for benefits per the accompanying financial statements and the Form 5500 as of January 26, 2018 and December 31, 2017:

9. Excess Participant Contribution Payable

A liability was accrued in the amount of \$9,632 in order to satisfy ERISA testing requirements in the accompanying statement of net assets available for benefits as of December 31, 2017. There was no accrued liability related to excess participant contributions payable as January 26, 2018, and there was no reduction of participant contributions in the accompanying statement of changes in net assets available for benefits.

10. Concentrations

Balances in three investments accounted for approximately 44% of investments as of December 31, 2017.
