1. Description of Plan

The following description of The McGraw Group 401(k) Plan (the "Plan") is provided for general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was adopted by The McGraw Company (the "Company") on January 1, 1991, and was most recently amended effective January 1, 2016. The Plan is defined as a contribution retirement plan of the profit-sharing type containing a cash or deferred arrangement described in Internal Revenue Code Section 401(a). Employees become eligible to participate in the Plan when they are at least 21 years old and after a one-month service requirement. Non-resident aliens, union employees and leased employees are excluded from the Plan. Employees are eligible to receive employer match on January 1 or July 1 following the date on which an employee satisfies the one-year service period requirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and certain provisions of the Internal Revenue Code (the "IRC").

Amendment

The Plan was amended effective January 1, 2016 to conform to current laws and regulations. The provisions of the Plan are consistent with previous provisions.

Plan Administration

The Company is the administrator of the Plan. As administrator, the Company has exclusive authority and responsibility for all matters in connection with the operation and administration of the Plan (including the authority and responsibility to invest, manage, and control the assets of the Plan specifically allocated to the custodian). Newport Trust Company (formerly Verisight Trust Company) is the appointed trustee for the Plan and acts at the direction of the Plan's administrator. The Company paid the majority of all necessary and proper expenses incurred in the administration of the Plan. Such expenses are primarily comprised of legal fees and expenses relating to the maintenance of the Plan's records.

Contributions

The Plan includes automatic enrollment for all eligible employees, with deferral contributions set at 4% and allocated to a Vanguard target retirement fund determined by retirement age. Participants may elect to defer between 1% and 100% of their pre-tax or after-tax compensation, as defined by the Plan document, up to the maximum amount allowed by the IRC. Participants who are age 50 or older are allowed to make additional contributions (catch up) up to the maximum amount allowed by the IRC. Participants may also contribute amounts representing distributions from other qualified plans. The Company makes a non-discretionary matching contribution on a pay period basis equal to 60% of the amount that a participant contributes to the Plan. For the year ended December 31, 2016, the Company's non-discretionary matching contribution was $649,633, net of forfeitures.

In addition, the Company may elect to contribute a discretionary profit sharing contribution. No discretionary profit sharing contributions were made or approved for 2016.

1. Plan Description, continued

Participant Accounts

Each participant's account is credited with the participant's contributions, rollovers, and allocations of the Company's contributions and Plan earnings or losses. Plan earnings or losses are allocated based upon each participant's account balance. Certain fees are charged to the fund investments and are offset against Plan investment income and loss as presented on the Statement of Changes in Net Assets Available for Benefits. Participants should refer to the prospectuses of these funds for details on the various types and amounts of investment fees charged to the Plan and their individual accounts.

Vesting

Participant contributions, rollovers, and net earnings on these contributions are fully vested when made or earned.

Company's non-discretionary matching contributions and discretionary profit-sharing contributions, if any, as well as all earnings on these contributions vest according to the following schedule:

Years of Service	Vesting Percentage
Less Than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Investment Options

Upon enrollment in the Plan, a participant may direct his or her contributions in percentage increments into a series of mutual funds, self-directed accounts, and a money market fund offered by the Plan. Participants may change their investment options at any time.

Notes Receivable from Participants

Participants are allowed one note receivable at any time and may borrow from their fund accounts a minimum of $1,000 up to 50% of the value of their vested account balance, or $50,000, whichever is less. Notes receivable transactions are treated as a transfer to (from) the investment fund from (to) the participants' notes fund. The notes receivable are secured by the balance in the respective participant's account and bear interest at prime (as published by the Wall Street Journal) at the date of inception plus 2% the interest rate on all notes receivable from participants at December 31, 2016 was 5.50% per annum. Principal and interest are paid in equal installments through payroll deductions, personal checks from employees on leave, or cashier's checks for the full payoff of the notes receivable.

1. Plan Description, continued

Payment of Benefits

Upon retirement, death, or total disability, a participant's account balance is distributed at the direction of the participant (or his or her beneficiary) by: (a) a lump-sum cash payment; (b) for the purchase of a life annuity with payments guaranteed for 20 years; or (c) for the purchase of a 100% joint and survivor annuity. Additionally, under certain financial hardship circumstances, a participant may be permitted to withdraw all or part of their pre-tax contribution account.

Upon termination of employment for reasons other than death, disability, or retirement, the participant's employee accounts and vested portion of his or her employee accounts shall be paid to him or her in a lump-sum payment upon the former employee's request.

Forfeitures

Forfeitures that occur during a Plan year will be used to reduce expenses related to the administration of the Plan and to reduce future Company contributions. At December 31, 2016 and 2015, forfeited non-vested accounts totaled approximately $35,600 and $64,500, respectively. Forfeited funds in the amount of approximately $60,000 were used to reduce Company matching contributions in 2016.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets and liabilities and changes in net assets available for benefits. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisor and custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are reflected on a trade date basis. Interest is recorded as earned on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. Summary of Significant Accounting Policies, continued

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on an accrual basis. Related fees are recorded as administrative expenses and are expensed as incurred. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document. No allowance for credit losses has been recorded as of December 31, 2016 and 2015.

Payment of Benefits

Benefit payments are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Recent Accounting Pronouncements

Effective January 1, 2016, the Plan adopted Part II of Financial Accounting Standards Board ("FASB") Accounting Standards Update ("ASU") No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans* (Topic 960), *Defined Contribution Pension Plans* (Topic 962), *Health and Welfare Benefit Plans* (Topic 965): (Part I) *Fully Benefit-Responsive Investment Contracts*, (Part II) *Plan Investment Disclosures*, and (Part III) *Measurement Date Practical Expedient* (consensuses of the FASB Emerging Issues Task Force). Under Part I of the new ASU, fully benefit-responsive investment contracts are to be measured, presented, and disclosed at contract value only. Part II of the ASU eliminates the disclosure requirements for 1) individual investments that represent 5% or more of net assets available for benefits, 2) the net appreciation or depreciation for investment by general type (disclosure in the aggregate is still required), for both participant-directed investments and nonparticipant-directed investments and 3) disaggregation of investments by nature, characteristics and risks (disclosure in aggregate by type is still required). Part III of the ASU permits the election of a practical expedient to measure investments and investment-related accounts as of a month-end date that is closest to the Plan's fiscal year-end, when the fiscal period does not coincide with the month-end. Any significant contribution, distribution, or other event that occurs between these two measurement dates is required to be disclosed. The adoption of Part II had no impact on the Plan's net assets held at end of year or changes therein. Parts I and III are not applicable to the Plan.

Reporting on Self-Directed Accounts

The Plan allows participants to choose their own investments through self-directed accounts ("SDA's"). The Plan has implemented FASB Accounting Standards Codification ("ASC") 962-325-45-3, which allows presentation of participant-directed investments as a one-line item in the statements of net assets available for benefits.

Information Certified by the Trustee

Newport Trust Company has prepared and certified as complete and accurate the Plan's schedule of investment assets, transactions, and net realized and unrealized gains and losses on investments, and interest and dividend income, which was used to prepare the accompanying financial statements and supplemental schedule.

3. Fair Value Measurements

Accounting Standards for fair value measurements establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under these accounting standards are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual term), the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

8. Risks and Uncertainties

The Plan provides for various investment securities. Investment securities are exposed to various risks, such as interest rate, market fluctuations, and credit risks.
