The following description of the Lemo USA Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan agreement, as amended, for a more complete description of plan provisions.

General – The Plan is a 401(k) salary deferral and profit sharing plan covering substantially all employees of Lemo USA, Inc. (the Company), and is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Lemo USA, Inc. is the plan sponsor and serves as the plan administrator. Administrative expenses are paid by the Company. Certain transaction expenses are paid by the Plan.

Eligibility – Employees are eligible to participate in the Plan on the first day of the month subsequent to their hire date. Employees are not eligible to participate if they are union employees, an independent contractor or nonresident aliens. A participant must be employed as of the last day of the plan year to be eligible for any discretionary matching or profit sharing contributions.

Contributions –

Participant contributions – Each year, participants may contribute up to 90% of pretax annual compensation, as defined in the Plan. Participants may also elect to make Roth contributions utilizing after-tax contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Employer discretionary matching and profit sharing contributions – The Company may elect to make discretionary matching and profit sharing contributions to the Plan, at the discretion of the Board of Directors. For the year ended December 31, 2017, the Company made discretionary matching contributions of 50% of employee deferral contributions not to exceed 3% of compensation. For the year ended December 31, 2017, the Company did not make any profit sharing contributions.

Contributions are subject to regulatory limitations.

Participant accounts – Each participant's account is credited with the participant's contributions and Company matching contributions as well as allocations of the Company's profit sharing contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their account into various investment options offered by the Plan.

Vesting – Participants are fully vested in their salary deferrals, rollover amounts, and fund earnings thereon. The Company's discretionary matching or profit sharing contributions and earnings thereon are vested in accordance with the following schedule:

Years of Service	Vested Percentage
Less than 1	0%
1	33%
2	67%
3	100%

Notes receivable from participants – A participant may borrow a minimum of $1,000 and up to 50% of their vested account, but not in excess of $50,000. Notes are secured by the balance of the participant's account. Starting in February 2012, new loans bear interest at a rate of prime plus 1%. Prior to February 2012, the interest rates for loans were fixed at reasonable rates of interest, as determined by the plan administrator. The maximum note term is five years, unless the note term qualifies as a home loan, in which case the term of the note is not to exceed ten years. The maximum note term for notes issued prior to 2009 was 30 years. Principal and interest are paid ratably through payroll deductions. As of December 31, 2017, the rates of interest on outstanding notes ranged from 4.25% to 9.25%, and had various maturities through February 2037.

Payment of benefits – Upon retirement, termination of employment, death, or disability, the Plan provides for payments to be made in a lump-sum distribution or via installment payments.

Forfeitures – Forfeitures are the nonvested portion of a participant's account that is lost upon termination of employment. Forfeitures are retained in the Plan and are first used to pay plan administrative expenses, with any remaining amount used to reduce future company contributions. There were $2,479 and $1,777 of forfeitures available at December 31, 2017 and 2016. Forfeitures used in the plan years ended December 31, 2017 and 2016, totaled $500.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation – The investments are reported at fair value. The Plan's trustee, Fidelity Management Trust Company (Fidelity), certifies the fair market value of all investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions upon the occurrence of a distributable event, based on the terms of the Plan Agreement.

Payments of benefits – Distributions to participants are recorded when paid.

Expenses – Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued. The Plan has evaluated events occurring between the end of the most recent fiscal year-end and July 17, 2018, which is the date the financial statements were available to be issued.

NOTE 3 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

- **Level 1 –** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- **Level 2 –** Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- **Level 3 –** Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following sets forth, by level within the fair value hierarchy, the Plan's assets at fair value at December 31:

	Fair Value Measurement at December 31, 2017			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 7,998,716	$ -	$ -	$ 7,998,716
Money market fund	245,338	-	-	245,338
Total assets in the fair value hierarchy	$ 8,244,054	$ -	$ -	8,244,054
Investments at fair value				$ 8,244,054

	Fair Value Measurement at December 31, 2016			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 6,530,732	$ -	$ -	$ 6,530,732
Money market fund	235,835	-	-	235,835
Total assets in the fair value hierarchy	$ 6,766,567	$ -	$ -	6,766,567
Investments at fair value				$ 6,766,567

Registered investment companies (mutual funds) – Shares of registered investment company funds, or mutual funds, are valued at the net asset value (NAV) of shares held by the Plan and are valued at the closing price reported on the active market on which the individual securities are traded.

Money market funds – Valued at the daily closing price as reported by the fund. These funds are required to publish their daily NAV and to transact at that price. The funds held by the Plan are deemed to be actively traded.

NOTE 4 – INFORMATION CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, the trustee of the Plan, has certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected in the accompanying statements of net assets available for benefits as of December 31, 2017 and 2016;
- net appreciation in fair value of investments, interest income on notes receivable from participants and interest and dividend income reflected in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2017; and
- investments reflected on the supplemental schedule of assets (held at end of year).

NOTE 5 – TAX STATUS

The Plan is a prototype standardized defined-contribution plan that has received a favorable opinion letter from the Internal Revenue Service on March 31, 2014, which stated that the Plan as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). Although the prototype plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, the plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

NOTE 7 – PARTY-IN-INTEREST TRANSACTIONS

Plan investments include shares of mutual funds and money market funds managed by Fidelity. Fidelity is the trustee as defined by the Plan and, therefore, these investments qualify as exempt party-in-interest transactions.

NOTE 8 – PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account become fully vested.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The financial statements of the Plan have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation – The investments are reported at fair value. The Plan's trustee, Fidelity Management Trust Company (Fidelity), certifies the fair market value of all investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions upon the occurrence of a distributable event, based on the terms of the Plan Agreement.

Payments of benefits – Distributions to participants are recorded when paid.

Expenses – Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued. The Plan has evaluated events occurring between the end of the most recent fiscal year-end and July 17, 2018, which is the date the financial statements were available to be issued.

NOTE 3 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

- **Level 1 –** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- **Level 2 –** Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- **Level 3 –** Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following sets forth, by level within the fair value hierarchy, the Plan's assets at fair value at December 31:

	Fair Value Measurement at December 31, 2017			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 7,998,716	$ -	$ -	$ 7,998,716
Money market fund	245,338	-	-	245,338
Total assets in the fair value hierarchy	$ 8,244,054	$ -	$ -	8,244,054
Investments at fair value				$ 8,244,054

	Fair Value Measurement at December 31, 2016

Total assets in the fair value hierarchy	$ 6,766,567	$ -	$ -	6,766,567
Investments at fair value				$ 6,766,567

Registered investment companies (mutual funds) – Shares of registered investment company funds, or mutual funds, are valued at the net asset value (NAV) of shares held by the Plan and are valued at the closing price reported on the active market on which the individual securities are traded.

Money market funds – Valued at the daily closing price as reported by the fund. These funds are required to publish their daily NAV and to transact at that price. The funds held by the Plan are deemed to be actively traded.

NOTE 4 – INFORMATION CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, the trustee of the Plan, has certified to the completeness and accuracy of:
