Report of Independent Auditors

To the Administrator of the Gilmour Hose Company Hourly Employees' Pension Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Gilmour Hose Company Hourly Employees' Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on the financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by The Northern Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2017 and 2016 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Hourly Employees' Pension Plan

Notes to Financial Statements

December 31, 2017 and 2016

1. Description of the Plan

The following description of the Gilmour Hose Company Hourly Employees' Pension Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 ("ERISA").

The assets of the Plan are invested in the Robert Bosch LLC Master Retirement Trust ("Master Trust").

General

The Plan is a noncontributory, defined-benefit pension plan which covered substantially all of the hourly union employees of Gilmour Hose Company, a former subsidiary of Robert Bosch Tool Corporation (the "Company"). A full-time hourly employee of the Company became a participant in the Plan after completing one hour of service. A part-time employee of the Company became a participant in the Plan on January 1 or July 1 following one year of service in which he completes 1,000 hours of service.

Effective December 19, 2014, Gilmour Hose Company was purchased by Fiskars Corporation. As a result of the transaction, certain associates who were participants in the Plan, terminated employment or otherwise ceased to be employed by an Employer or a Controlled Group Member (as defined in the collective bargaining agreement) in connection with the transaction, and who have not yet attained age 65, were treated as if they were one year older than their actual age (but not older than 65) and were credited with one additional year of benefit service for purposes of their benefit calculation. In addition, the same participants who had less than five years of service became 100% vested in their accrued benefit.

Contributions

The Company has agreed to voluntarily contribute such amounts as are necessary to provide assets sufficient to meet the funding requirements of ERISA. The Plan has met the ERISA minimum funding requirements for 2017 and 2016.

Benefit Payments

A participant became fully vested in the Plan after five years of service. Other than those participants affected by the sale to Fiskars Corporation, participants who terminated prior to completing five years of service forfeited the right to receive their accumulated plan benefits. Upon retirement, participants are entitled to monthly pension benefits without reduction beginning at normal retirement age (first of the month coincident with or next following attainment of age 65) in an amount equal to the applicable benefit rate multiplied by the number of years of credited service. The Plan permits early retirement, with reduced benefits at ages 55 to 64, after attaining ten or more years of service.

Participants may elect to receive normal retirement benefits, early retirement benefits until death, or they may elect to receive their pension benefits in the form of a surviving spouse option.

The Plan provides for certain death and disability pension benefits to eligible participants in accordance with the Plan document.

During 2016, the Company offered a one-time lump sum payment opportunity to certain plan participants who terminated employment prior to January 1, 2016. As an alternative to the lump

sum payment, participants were offered the opportunity to commence their benefit as a life annuity or joint and survivor annuity. The election deadline for this opportunity was September 30, 2016. Total payments related to this initiative were \$897,723.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA and as described in the Plan document. Should the Plan terminate at some future time, its net assets will generally not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on the priority of those benefits, the financial condition of the Company, and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Administrative Expenses

Substantially all administrative expenses allowable under ERISA are paid by the Plan; all other expenses are paid by the Company.

2. Significant Accounting Policies

New Accounting Pronouncement

In February 2017, the Financial Accounting Standards Board issued ASU 2017-06 *Employee Benefit Plan Master Trust Reporting* to improve the usefulness of information reported to users of employee benefit plan financial statements by clarifying presentation requirements for a plan's interest in a master trust and requiring more detailed disclosures of the plan's interest in the master trust. The new guidance requires that a plan's interest in a master trust and changes in that interest be reported in separate line items in the statement of net assets available for benefits and statement of changes in net assets available for benefits, respectively. The new guidance also removes the requirement to disclose the percentage interest for plans with a divided interest in a master trust, requires all plans to disclose the dollar amount of their interest in each general investment type of the master trust, and requires plans to disclose the master trust's other asset and liability balances and the dollar amount of the plan's interest in each of those balances. This guidance is effective for the plan year ending December 31, 2019, with retrospective application required. Early adoption is permitted. The Plan's management is currently reviewing the impact of this guidance on the Plan's financial statements and the accompanying notes to the financial statements.

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting and in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Benefit Payments

Benefits are recorded when paid.

Investment Valuation and Income Recognition

The Master Trust's investments are stated at fair value. The fair value of the participation units in the common collective trusts is based on the net asset value ("NAV") of units held on the last business day of the Plan year. The NAV as provided by the trustee is used as a practical expedient to estimate fair value. Securities such as common stock, preferred stock, and real estate investment trusts traded on a national securities exchange are valued at the last reported sales

price or official closing price on the last business day of the Plan year; investments traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the average of the last reported bid and ask prices. Fixed income securities such as corporate debt instruments and U.S. government securities are valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available, the bond is valued using matrix pricing or models from reputable pricing vendors. Certificates of deposit are valued at amortized cost.

Investment transactions of the Master Trust are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (Note 3) are those estimated future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries; and (b) present employees or their beneficiaries. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Administrative Expenses

Administrative expense includes both identified fees specific to the Plan as well as periodic fees allocated from the Master Trust. Periodic fees allocated from the Master Trust were \$5,515 and \$5,473 for 2017 and 2016, respectively.

3. Accumulated Plan Benefits

An independent actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits at December 31, 2016 was as follows:

Vested benefits

Participants currently receiving payments	\$ 1,622,232
Other participants	500,267
Total vested benefits	<u>2,122,499</u>

Nonvested benefits

Total actuarial present value of accumulated plan benefits	<u>\$ 2,122,499</u>

December 31, 2017 and 2016

The following summarizes the significant components of the change in the present value of accumulated plan benefits from December 31, 2015 to 2016:

Actuarial present value of accumulated plan benefits as of December 31, 2015	\$ 3,109,479
Increase (decrease) during the year attributable to	
Interest Accumulation	129,789
Benefits paid to participants	(1,040,103)
Plan Amendments	(92,075)
Assumption changes	(14,364)
Benefits accumulated and actuarial experience gain/loss	29,773
Actuarial present value of accumulated plan benefits as of December 31, 2016	<u>\$ 2,122,499</u>

Significant assumptions underlying the actuarial computations are as follows:

	December 31, 2016	December 31, 2015
Interest rate	5.00%	5.00%
Retirement Age	Age at which they received	Age at which they received
Term vested	unreduced benefits	unreduced benefits
Mortality	RP-2006 with Scale MP-2017	RP-2006 with Scale MP-2016

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Certification of Investment Information

All investment information disclosed in the accompanying financial statements, including plan interest in Robert Bosch LLC Master Retirement Trust at December 31, 2017 and 2016, plan interest in net investment income of Robert Bosch LLC Master Retirement Trust for the years then ended, and the investments and investment income information of the Master Trust presented in Note 5, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by The Northern Trust Company ("Trustee").

5. Investment in Master Trust

The Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan, and several other retirement plans sponsored by Robert Bosch LLC. Each participating retirement plan has an undivided interest in the Master Trust. At December 31, 2017 and 2016, the Plan's interest in the net assets of the Master Trust was approximately 0.14% and 0.13%, respectively. The value of the Plan's interest is determined on the basis of cumulative funds specifically contributed on behalf of the Plan, net of funds withdrawn for benefit payments and expenses specific to the Plan and adjusted for an allocation of investment income and investment expenses. Investment income and expenses are allocated monthly to the Plan based upon its pro rata share in the net assets of the Master Trust.

6. Fair Value Measurements

The FASB established a framework to increase consistency and comparability in fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Master Trust has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

For a description of the valuation methodologies used for assets measured at fair value see Investment Valuation and Income Recognition under Note 2. There have been no changes in the methodologies used at December 31, 2017 and 2016. In determining the reasonableness of the methodology, the Plan's Investment Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. These methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

For the years ended December 31, 2017 and 2016, there were no significant transfers in or out of Levels 1, 2 or 3.

- (a) In accordance with Subtopic 820-10, certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Master Trust's statements of net assets.

Common collective trusts consist of pools of investments used by institutional investors to obtain equity and fixed income market exposures by investing in funds which are intended to mirror market indices. They are valued on the basis of the relative interest of each participating investor in the fair value of the underlying assets of each of the respective common collective trusts. The funds are valued using NAV as provided by the investment account manager as a practical expedient. As of December 31, 2017 and 2016, the Master Trust is not holding any unfunded commitments.

7. Risks and Uncertainties

The Master Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

8. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company in a letter dated March 15, 2017, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (the "Code"). The plan administrator and the Plan's ERISA counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax asset or liability if the Plan has

Gilmour Hose Company
Hourly Employees' Pension Plan
Notes to Financial Statements
December 31, 2017 and 2016

taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken that would require recognition of an asset or liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years beginning prior to January 1, 2014.

9. Party-in-Interest Transactions

The Master Trust invests in common collective trusts managed by the Trustee or its affiliates. These transactions qualify as exempt party-in-interest transactions. Fees paid to the Trustee by the Master Trust for 2017 and 2016 were \$1,359,327 and \$1,215,361, respectively.

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

	2017
Net assets available for benefits per the financial statements	\$ 2,479,492

Transfer to other plans per the financial statements	\$ -
Transfer to other plans	<u>(2,479,492)</u>
Transfer to other plans per Form 5500	<u>\$ (2,479,492)</u>

The Form 5500 was prepared as if the merger of the Plan with and into the Pension Plan for Discontinued Operations of Robert Bosch ("Discontinued Operations Plan") occurred on December 31, 2017. See Note 11.

11. Subsequent Events

Effective January 1, 2018, the Plan merged with and into the Discontinued Operations Plan. As a result of the merger, net assets of \$2,479,492 and the actuarial present value of accumulated plan benefits approximating \$2,066,552 were transferred to the Discontinued Operations Plan on that date.

The Plan has evaluated the events and transactions that have occurred through November 5, 2018, the date the financial statements were available to be issued, and noted no other events requiring adjustment to the financial statements or additional disclosure.

Early Retirement
Eligibility

- (a) Age 62 and 10 years of credited service; or
- (b) Age 55 and 37 years of credited service; or
- (c) Age 55 and 10 years of credited service.

Benefit

Unreduced normal retirement benefit for (a) or (b) above. For (c) above, a monthly benefit equal to the normal retirement benefit reduced by 4/10 of 1% for each month the early retirement precedes age 62.

Vested Termination
Eligibility

Five years of credited service.

A partial plan termination resulted due to the sale of the company to Fiskars Brands, Inc. on December 19, 2014. Participants who were terminated due to the sale with less than five years of vesting service were 100% vested in their accrued benefit.

Benefit

The accrued benefit at the date of termination. Reduced payments may begin any time after age 55. Reduction is 4/10 of 1% for each month the commencement precedes age 65.

Disability
Eligibility

Ten years of credited service.

Benefit

The accrued benefit based on benefit service and multiplier level at the date of disability, paid immediately. In addition, the participant also receives a supplemental disability benefit that equals the accrued benefit, payable until age 65.

Surviving Spouse
Eligibility

Five years of credited service. Participant and spouse must be married at least one year prior to death.

Benefit

A monthly benefit payable to the surviving spouse beginning at the employee's earliest retirement age equal to 50% of the amount payable if the participant had retired early with a 50% joint and survivor benefit.
