NOTE A - DESCRIPTION OF PLAN

The following description of the Northside Imports, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

GENERAL

The Plan is a defined contribution plan covering all eligible employees of Northside Imports, Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

CONTRIBUTIONS

Participants may elect to contribute pre-tax earnings up to current Internal Revenue Service ("IRS") regulations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. All employees, except collectively bargained employees and non-resident aliens, are eligible to enter the Plan after completing 90 days of service with the Company. Eligible employees can enter the Plan on the first day of the Plan's month coinciding with or next following the date the eligibility requirements are met. Participants may also contribute amounts representing distributions from other qualified retirement plans. The Company may contribute a discretionary profit sharing contribution to all eligible employees who complete over 1,000 hours of service during the plan year and are employed on the last day of the plan year. The Company did not elect to make a discretionary profit-sharing contribution for the year ended March 31, 2018. The Company may contribute a discretionary matching contribution to the Plan. This amount is allocated to the participants' accounts who are employed during the year. The Company did elect to make a discretionary matching contribution for the year ended March 31, 2018. The discretionary matching contribution for 2018 is a matching of 50% on eligible participant deferrals. Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions are subject to certain limitations.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's elective contribution, the Company's discretionary matching profit sharing contribution (if applicable), investment earnings, and administrative expenses. Allocations for the Company's discretionary match contributions are based on the participant's deferrals for the Plan year. The benefit to which a participant is entitled is what can be provided from the participant's vested account.

VESTING

Participants are vested immediately in their deferral contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based on years of service.

Years of Vested Service	Percentage
Less Than 2	0 %
2 But Less Than 3	20
3 But Less Than 4	40
4 But Less Than 5	60
5 But Less Than 6	80
6 or More	100

NOTE A - DESCRIPTION OF PLAN (Continued)

VESTING (Continued)

Upon termination of employment for reasons other than by death, disability, or retirement, participants will receive the amount of their participant account valued at its fair market value.

NOTES RECEIVABLE FROM PARTICIPANTS

Participants may borrow from their account a minimum loan of $1,000 and up to a maximum amount equal to the lessor of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions. The participants may have one loan outstanding at any time.

PAYMENT OF BENEFITS

On termination of service due to death, disability, or retirement a participant or his beneficiary may elect to receive a single lump-sum payment equal to the value of the participant's vested interest. For termination of services for other reasons, a participant may receive the value of the vested interest in their account as a lump-sum payment.

The Plan was amended in 2010 to allow for in-service distributions. An in-service distribution is one that a participant receives while they are actively employed. A participant may request an in-service distribution from all or a portion of their accounts.

FORFEITED ACCOUNTS

At March 31, 2018 and 2017, forfeited non-vested totaled $5,668 and $947, respectively. Forfeitures may be used to reduce future employer contributions. Also, in 2018, employer contributions were reduced by $5,668 from forfeited non-vested accounts.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The summary of significant accounting policies is presented to assist in understanding the Plan's financial statements. The financial statements and notes are representations of the Plan's management, which is responsible for their integrity and objectivity. These accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the preparation of the financial statements.

BASIS OF ACCOUNTING

The financial statements of the Plan are prepared using the accrual method of accounting in conformity with generally accepted accounting principles.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

INVESTMENT VALUATION AND INCOME RECOGNITION

Investments are reported at fair value (except for fully benefit responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note F for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of March 31, 2018 and 2017, no allowance for credit losses has been recorded.

PAYMENT OF BENEFITS

Benefit obligations are recorded when paid.

EXPENSES

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

RECENT ACCOUNTING PRONOUNCEMENT

In May 2015, the FASB issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent)*. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this update are effective for public business entities for fiscal years beginning after December 15, 2015; for all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. The impact of adopting these amendments is reflected in the financial statements.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 24, 2018, the date which the financial statements were available to be issued.

NOTE C - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts, and all assets will be liquidated and paid to participants.

NOTE D - TAX STATUS

The Plan is a volume submitter plan sponsored by Pension Administrators Inc. that has been adopted by the Company. The volume submitter plan obtained its latest opinion letter on March 31,2014, by which the Internal Revenue Service has determined and informed the Company that the Plan and related trust, as then designed, were designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the U.S. Federal or Illinois taxing jurisdictions. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of March 31, 2018, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE E – CERTIFIED INVESTMENTS

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at March 31, 2018 and 2017, and net appreciation in fair value of investments, interest and dividends for the year ended March 31, 2018, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Voya Retirement Insurance and Annuity Company (the custodian of the Plan).

NOTE F - FAIR VALUE MEASUREMENTS

FASB ASC Topic 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at March 31, 2018 and 2017.

Registered investment companies: Valued at the net asset value (NAV) of shares, which are based on quoted market prices, held by the Plan as of the end of the year.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of March 31, 2018:

Investments measured at NAV -	
Registered investment companies	$ 6,833,782
Investments at fair value	$ 6,833,782

NOTE F - FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of March 31, 2017:

Investments measured at NAV - Registered investment companies	$ 5,727,991
Investments at fair value	$ 5,727,991

NOTE G – INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has entered into a benefit-responsive investment contract with Voya Retirement Insurance and Annuity Company. Voya Retirement Insurance and Annuity Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay principal and a specified interest rate that is guaranteed to the Plan. As described in Note B, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by the investment custodian, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate was 1.0% for the years ended March 31, 2018 and 2017. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: 1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), 2) changes to the Plan's prohibition on competing investment options or delegation of equity wash provisions, 3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or 4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE I – PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Voya Retirement Insurance and Annuity Company, the custodian for the Plan and therefore, these transactions qualify as party-in-interest transactions. These transactions are exempt from the prohibited transaction rules of ERISA.
