Note 1. Description of Plan

The following description of Intrafusion GP, LLC 401(k) Profit Sharing Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement or summary plan description for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan that covers all employees of Intrafusion GP, LLC (the Company or Plan Sponsor), with the exception of union and leased employees, nonresident aliens and employees who only perform services for Metechos Management Group, LLC. The Plan covers full-time employees on their date of hire and part-time employees after a one-year service requirement, as defined by the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was most recently amended effective October 1, 2015. The date of entry in the Plan is the first day of the month following the date the eligible employee elects to participate.

Plan merger: On July 5, 2017, the Plan Sponsor was acquired by McKesson Specialty Health, a division of McKesson Corporation. The Plan was subsequently merged into the US Oncology 401(k) Plan and the McKesson Corporation 401(k) Retirement Savings Plan effective as of the close of business on January 31, 2018. As a result, net assets of $3,294,222 were liquidated on January 30, 2018, and $973,290 was transferred to the control of the US Oncology 401(k) Plan and $2,320,932 was transferred to the control of the McKesson Corporation 401(k) Retirement Savings Plan at the close of business on January 31, 2018. The merger does not impact participant benefits, as the benefit provisions were incorporated into the US Oncology 401(k) Plan and the McKesson Corporation 401(k) Retirement Savings Plan. The transfer is reported as "transfer of assets" in the statement of changes in net assets available for benefits for the period ended January 31, 2018.

Contributions: The Company may make discretionary employer profit sharing and matching contributions. There were no discretionary employer profit sharing or matching contributions made during the period ended January 31, 2018.

Participants may elect to contribute up to 90 percent of eligible compensation. Highly compensated employees may contribute up to 6 percent of eligible compensation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit plans.

Participant accounts: Participants direct the investment of their contributions into various investment options offered by the Plan. Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1. Description of Plan (Continued)

Vesting: Participants are vested immediately in their contributions and actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Company matching and profit sharing contributions have a six-year graded vesting period as follows:

Completed Years of Service	Vested Percentage
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest, as determined by the Plan Administrator. Principal and interest are paid through payroll deductions.

If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. Principal and interest are paid ratably through payroll deductions.

Payment of benefits: On termination of service, a participant may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. Any balance under $5,000 is automatically paid out as soon as administratively possible. Hardship withdrawals are also available subject to certain limitations, as defined in the Plan agreement.

Forfeitures: Participant forfeitures of nonvested balances will be used to reduce future employer contributions and pay the expenses of the Plan. At January 31, 2018 and December 31, 2017, there were no unallocated forfeitures.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value, except for the fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be recognized to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's trustee determines the Plan's valuation policy utilizing information provided by the investment advisers, custodian and insurance company. See Note 4 for disclosure of the fair value measurements.

Note 2. Summary of Significant Accounting Policies (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of January 31, 2018 and December 31, 2017.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Plan Sponsor. Expenses that are paid by the Plan Sponsor are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expense. Investment-related expenses are included in net appreciation in fair value of investments.

Subsequent events: The Plan has evaluated subsequent events through November 9, 2018, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by John Hancock Life Insurance Company (U.S.A.) (John Hancock)

The following is a summary of the Plan's asset information as of January 31, 2018 and December 31, 2017, and for the period ended January 31, 2018, included throughout the Plan's financial statements, that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that the information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements related to the assets listed below:

	January 31, 2018	December 31, 2017
Investments at fair value:		
Pooled separate accounts	$ -	$ 2,948,929
Investments at contract value:		
Guaranteed investment contracts	-	185,202
Notes receivable from participants	-	14,066

The custodian also certified to the completeness and accuracy of $137,338 of net appreciation in fair value of investments, $126 of interest income from guaranteed investment contracts and $58 of interest income on notes receivable from participants for the period ended January 31, 2018.

Note 4. Fair Value Measurements

The *FASB Accounting Standards Codification* (ASC) Topic 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820, Fair Value Measurements and Disclosures, are described below.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices for the asset or liability that are observable
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, Level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques that are used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at January 31, 2018 and December 31, 2017.

Pooled separate accounts: Pooled separate accounts are valued at the net asset value (NAV) of the units held by the Plan at year-end as a practical expedient. The NAV of these accounts is based on the market value of the underlying investments divided by the number of units outstanding, as determined by John Hancock. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV.

Note 4. Fair Value Measurements (Continued)

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of January 31, 2018 and December 31, 2017:

	January 31, 2018				
	Level 1	Level 2	Level 3	Investments Measured at NAV*	Total
Investments at fair value:					
Pooled separate accounts	$ -	$ -	$ -	$ -	$ -

	December 31, 2017				
	Level 1	Level 2	Level 3	Investments Measured at NAV*	Total
Investments at fair value:					
Pooled separate accounts	$ -	$ -	$ -	$ 2,948,929	$ 2,948,929

*In accordance with ASC Topic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the items presented in the statements of net assets available to benefits.

The method above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share as a practical expedient as of January 31, 2018 and December 31, 2017:

	Fair Value at			
	January 31,	December 31,	Redemption	Redemption
Investment	2018	2017	Frequency	Notice Period
Pooled separate accounts	$ -	$ 2,948,929	Immediate	None

Investments in this category can be redeemed daily at the current NAV per share based on the fair value of the underlying assets.

Note 5. Guaranteed Investment Contracts

The Plan offers as an investment option certain benefit-responsive guaranteed investment contracts. The custodian maintains the contributions in a general account. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contracts issuer is contractually obligated to repay the principal at a specified interest rate that is guaranteed to the Plan.

Note 5. Guaranteed Investment Contracts (Continued)

As the guaranteed investment contracts are fully benefit responsive, contract value is the relevant measurement attribute for that portion of net assets available for benefits attributable to the guaranteed investment contracts. Contract value, as reported to the Plan by the custodian, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe any events which would limit the Plan's ability to transact at contract value with participants are probable.

The guaranteed investment contracts do not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 6. Party-in-Interest Transactions

Certain Plan investments are shares of pooled separate accounts and guaranteed investment contracts managed by John Hancock. John Hancock is the custodian, as defined by the Plan and, therefore, these investments qualify as party-in-interest transactions. The Plan's management has approved these activities and transactions. There were no fees paid by the Plan to the custodian for the daily operational services of the Plan for the period ended January 31, 2018.

Note 7. Plan Termination

The Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Plan Sponsor contributions. See Note 1 for discussion of the merger of the Plan effective as of the close of business on January 31, 2018.

Note 8. Tax Status

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service (IRS) and DOL. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Effective January 1, 2008, the Plan adopted a standardized form of a prototype plan. The Plan received a determination letter from the IRS dated March 31, 2014, as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by the Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Note 9. Risks and Uncertainties

Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500:

	January 31, 2018	December 31, 2017
Net assets available for benefits per the financial statements	$ -	$ 3,148,197
Noninterest-bearing cash	-	185
Net assets available for benefits per Form 5500	$ -	$ 3,148,382

The following is a reconciliation of the net increase in net assets available for benefits for the period ended January 31, 2018, per the financial statements to Form 5500:

Net increase in net assets available for benefits per the financial statements prior to transfer in assets	$ 146,025
Decrease in noninterest-bearing cash	(185)
Net income per Form 5500	$ 145,840
