HBC 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of HBC 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the summary plan description for more complete information.

General: The Plan was a defined contribution plan covering all employees of Hiawatha Broadband Communications, Inc. (the Company) who had completed one hour of service within the 30-day time period following their date of hire and had reached the age of 21 or older.

The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC) and similar state tax laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). During 2017, the Plan changed its third-party administrator (TPA) from Alerus Financial, N.A. to Winona National Bank.

Effective April 30, 2018, the Plan was merged into the Schurz Communications, Inc. 401(k) Plan, and the Plan's participants' account balances, forfeited nonvested account balances and participant loans totaling approximately \$2,100,000 were transferred into the Schurz Communications, Inc. 401(k) Plan, a plan sponsored by the Plan Sponsor's parent company. Participants became eligible to participate in the Schurz Communications, Inc. 401(k) Plan during the period ended April 30, 2018.

Contributions: Prior to the merger, participants could contribute pretax elective deferrals and Roth elective deferrals to the Plan. The combined pretax and Roth elective deferrals were limited to the annual Internal Revenue Service (IRS) limit. In addition, those participants who had attained age 50 prior to the end of the Plan year were eligible to make additional catch-up contributions subject to certain IRS and Plan limitations. The Company could contribute a discretionary matching contribution as defined by the Plan. For the year ended December 31, 2017, the Company elected to make a discretionary matching contribution in the amount of \$116,661. For the period ended April 30, 2018, and the year ended December 31, 2016, the Company did not elect to make a discretionary matching contribution.

Effective January 1, 2017, the Plan had an automatic enrollment feature in which an employee was automatically enrolled at a contribution rate of 3 percent of the participant's pretax compensation per pay period, unless the employee elected out or elected a different percentage. The 3 percent contribution rate increased by 1 percent each year, unless elected out by the participant.

Investment options: The Plan had selected investment options, as described in the Plan's literature, from which participants could select. The funds varied in type of investments, rate of return and investment risk. Amounts were deposited with the Plan's custodian and credited to the individual participant accounts. Participants self-directed the investments in their account and could allocate their account balance and future contributions to the various investment options in any combination. Such allocations could be changed at any time during the year.

Participant accounts: Each participant's account was credited with the participant's contributions, the Company's contributions, if any, and allocations of Plan earnings and charged with an allocation of administrative expenses. Allocations were based on participant compensation or account balances. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

HBC 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Notes receivable from participants: Participants could borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. Note transactions were treated as a transfer to or from the investment fund from or to the participant notes account. Note terms generally ranged from one to five years; note terms related to home loans were not to exceed 15 years. The notes were secured by the balance in the participant's account and bore a reasonable rate of interest as determined by the Plan Administrator. Principal and interest was paid ratably through payroll deductions. Participants were also subject to a note administrative fee.

Vesting: Participants were vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's discretionary matching contribution portion of their accounts was based on a graduated vesting schedule with 100 percent vesting after the completion of six years of service. However, upon the participant's death, disability or attainment of normal retirement age, all amounts were immediately vested. Forfeited nonvested accounts were used to reduce future Company contributions or pay Plan expenses.

Payment of benefits: Upon a participant's retirement, death, total disability or termination, the account balance was distributed to the participant or beneficiary using one of several available benefit distribution methods. During employment, participants could withdraw account balances upon attainment of age 59½. Withdrawals were allowed before attaining age 59½ for reasons of financial hardship or other conditions as specified by the Plan.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan Administrator and management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value (except for the fully benefit-responsive collective trust fund, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator and management determine the Plan's valuation policies utilizing information provided by the custodian. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued interest. Defaulted notes from participants are recorded as a distribution based upon the terms of the Plan document. Notes receivable from participants have been classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in the supplemental schedule, Schedule H, Line 4i—Schedule of assets (held at end of year).

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Note 2. Summary of Significant Accounting Policies (Continued)

Expenses: Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Transaction-based fees, which are associated with optional services offered under the Plan, are incurred by each participant who takes advantage of the services. In addition, certain investment-related expenses are included as an offset to net appreciation (depreciation) in fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Subsequent events: The Plan evaluated subsequent events through November 14, 2018, the date the financial statements were available to be issued.

Note 3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under *FASB Accounting Standards Codification* Topic 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The Plan's policy is to recognize transfers in and transfers out as of the actual date of the event or change in circumstances that caused the transfer. For the period ended April 30, 2018, and the years ended December 31, 2017 and 2016, there were no transfers between levels.

The following is a description of the valuation methodology used for assets measured at fair value.

Mutual funds: Mutual funds are valued at quoted market prices for identical assets in active markets for the shares held by the Plan at year-end.

HBC 401(k) Plan

Notes to Financial Statements

Note 3. Fair Value Measurements (Continued)

The method described above may produce fair values that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table reflects the Plan's investments within the fair value hierarchy:

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 1,863,940	\$ -	\$ -	\$ 1,863,940

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 1,411,132	\$ -	\$ -	\$ 1,411,132

Note 4. Fully Benefit-Responsive Collective Trust Fund

At December 31, 2017 and 2016, the Plan held traditional investment contracts through a collective trust fund. These contracts held underlying investments in general insurance accounts and met the fully benefit-responsive contract criteria and therefore were reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan.

Contract value of the general insurance accounts, as reported to the Plan by the custodian, represented contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants could ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The traditional investment contracts held by the Plan were guaranteed investment contracts. The contract issuer was contractually obligated to repay the principal and interest at a specified interest rate that was guaranteed to the Plan. The contract could not be terminated before the scheduled maturity date. The Plan's ability to receive amounts due in accordance with the fully benefit-responsive investment contracts was dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations could be affected by future economic and regulatory developments.

The crediting interest rate for all investment contracts was based on a formula agreed upon with the issuers, and such interest rates were reset monthly, quarterly, semiannually or annually.

Certain events limited the ability of the Plan to transact at contract value with the issuer. Such events included the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spinoffs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any prohibited transaction exemption under ERISA or (5) premature termination of the contracts. The Plan Administrator does not believe that any events occurred that limited the Plan's ability to transact at contract value with the participant.

HBC 401(k) Plan

Notes to Financial Statements

Note 5. Tax Status

The Plan adopted a nonstandardized form of a volume submitter profit sharing plan sponsored by Alerus Financial, N.A. The volume submitter profit sharing plan sponsor has received a notification letter from the IRS dated March 31, 2014, that indicates that the form of the volume submitter profit sharing plan is acceptable under the IRC. The Plan has not obtained its own determination letter from the IRS on the current plan document; however, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6. Risks and Uncertainties

The Plan invested in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the participants' account balances.

Note 7. Information Certified or Provided by the Custodians

The following is a summary of the Plan's asset information as of and for the period ended April 30, 2018, as of and for the year ended December 31, 2017, and as of December 31, 2016, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Winona National Bank, the current custodian, and Alerus Financial, N.A., the former custodian, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodians that information provided to the Plan Administrator by the custodians related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to information, which appears throughout the financial statements and supplemental schedule, related to the following assets:

		2017	2016
Investments:

Fully benefit-responsive collective trust fund, at contract value	-	2,879	2,305

The custodians also collectively certified to the completeness and accuracy of \$(6,280) and \$170,622 of net (depreciation) and appreciation, respectively, in fair value of investments and \$2,183 and \$57,143 of dividends related to the aforementioned investments for the period ended April 30, 2018, and the year ended December 31, 2017, respectively.
