DOOSAN INDUSTRIAL VEHICLES AMERICA CORP 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

(MODIFIED CASH BASIS)

Years Ended December 31, 2017 and 2016

(1) Description of the Plan

Doosan Infracore America Corporation 401(k) Plan changed its name effective January 1, 2016 to Doosan Industrial Vehicles America Corp (the “Company” or “Plan Sponsor”) 401(k) Plan (the “Plan”). The following description of the Company’s Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General - The Plan is a defined contribution plan covering all eligible employees of Doosan Industrial Vehicles America Corp and Doosan Fuel Cell America Inc. Effective March 14, 2016, all participant accounts and assets held by the Plan associated with Doosan Infracore America Corporation totaling \$10,594,603 were transferred out of the Plan into Doosan Machine Tools America, Inc. 401(k) Plan. Effective April 20, 2017, a participant’s account and assets held in the Doosan Machine Tools America, Inc. 401(k) Plan totaling \$419,239 were transferred into the Plan.

Eligible employees are defined as employees who have completed three months of service, as defined in the Plan, and attained the age of 21 or older. The Plan was established effective November 1, 1993, was amended and restated effective January 1, 2016, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Employee contributions - Participants may elect to defer at least 1% and up to 60% of their annual compensation on a pre-tax basis as defined in the Plan document. Pre-tax contributions cannot exceed \$18,000 for 2017 and 2016. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions not to exceed \$6,000 for 2017 and 2016. Effective June 1, 2013, the Plan was amended where participants were subjected to an auto enrollment at 5.00% of annual compensation.

Employer contributions - Each year the Company may contribute a discretionary matching contribution. Matching contributions will be computed based on the participants’ eligible compensation contributed to the Plan each month. The employer matching contribution was \$652,639 for 2017 and \$752,429 for 2016.

Rollover provisions - The Plan allows participants to “roll over” assets from other qualified savings plans into the Plan. Participants are fully vested in their rollover contributions.

Participant accounts - Each participant's account is credited with the participant's contribution and an allocation of (a) the Company’s contribution, (b) the Plan’s investment earnings (losses) and (c) forfeited balances of terminated participants’ non-vested amounts, and is charged with an allocation of administrative expenses based on the participant’s account balances and investment selections. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Forfeited accounts - Forfeitures of terminated participants’ non-vested accounts may be used to reduce future Company contributions payable under the Plan or to pay Plan expenses. Forfeitures totaled \$159,987 and \$68,834 at December 31, 2017 and 2016, respectively. There were no forfeited non-vested accounts remaining at December 31, 2017 and 2016.

Years Ended December 31, 2017 and 2016

(1) Description of the Plan (continued)

Vesting - Participants are immediately vested in their elective deferral contributions and rollover contributions plus actual earnings thereon. Participants are also immediately vested in employer contributions plus earnings thereon in accordance with the Plan provisions. For all employer discretionary match contributions and earnings received, an employee is immediately vested.

Investment options - Participants may direct their contributions and any related earnings into a number of available investment options that vary in degree of risk and investment objective. Participants may change their investment options daily. The Plan administrator may change the investment options available to participants at any time.

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer between the investment fund(s) and the Participant Loans fund. Loan terms range from one to five years and are granted for general purpose needs or principal residence purchase needs. A participant may have no more than one loan outstanding during the Plan year. Principal and interest are repaid through payroll deductions. The loans are secured by the balance in the participant's account and bear interest at the Prime Rate as published on the first business day of the month the loan is originated plus 1.00%, which ranged from 4.25% to 8.75% as of December 31, 2017 and 2016.

Payment of benefits - Upon termination of service due to death, disability, retirement, or other reasons, a participant or beneficiary will receive an amount equal to the value of the vested interest in the participant's account. Participants with vested benefits may choose to receive their benefit in the form of a lump-sum payment or a direct rollover to an individual retirement account or another employer plan, subject to Plan provisions.

(2) Summary of significant accounting policies

Basis of accounting - The accompanying financial statements have been prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America ("U.S. GAAP"). Contributions, interest, and dividend income are recognized at the same time such amount are received. Distributions and other expenses are recognized at the time such amounts are disbursed. However, for these financial statements, the cash method is modified to report investments at fair market value, as required by the Department of Labor.

(2) Summary of significant accounting policies (continued)

Investment valuation and income recognition - The Plan investments are stated at fair value in accordance with Financial Accounting Standards Board ("FASB"), Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurement and Disclosures*, as more fully described in Note (3). The Plan also follows FASB Accounting Standards Update ("ASU") ASU 2015-07, *Fair Value Measurements (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)*. The guidance in this update simplifies presentation and disclosures for investments valued at fair value for which net asset value is utilized as the practical expedient for measurement. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The market value of mutual funds is determined by the net asset value of the shares plus the value of any dividends and capital gain distributions. The market value of stable value funds is determined by the underlying value of the investments the stable value funds are contractually invested in. Net investment earnings are recorded on the accrual basis, net of contributions, withdrawals, and administrative expenses charged by the stable value fund.

Purchases and sales of securities are recorded on the trade date. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Investment income - Investment income consists of interest, dividends, gains (losses) on sale of securities and the unrealized appreciation (depreciation) in fair market value of investments.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Risk and uncertainties - Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the valuation of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits (modified cash basis).

Payment of benefits - Benefits are recorded when paid.

Plan expenses - Substantially all Plan administrative expenses are paid by the Plan Sponsor.

Estimates - The preparation of the financial statements in conformity with the modified cash basis of accounting requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Reclassifications - Certain amounts in 2016 have been reclassified in the accompanying financial statements to conform to the 2017 presentation.

(3) Fair value measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels used to measure fair value under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual funds: These investments consist of various publicly traded mutual funds. The fair values are based on quoted market prices. Mutual funds are valued at the net asset value ("NAV") of shares held by the Plan at year end, which approximates fair value.

DOOSAN INDUSTRIAL VEHICLES AMERICA CORP 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

(MODIFIED CASH BASIS)

Years Ended December 31, 2017 and 2016

(3) Fair value measurements (continued)

Stable value funds: The investment in stable value funds consists of the Putnam Stable Value Fund (“PSVF”), a common collective trust, which invests directly or indirectly in fully benefit-responsive investment contracts. The PSVF is valued at the NAV as provided by the trustee, which is used as a practical expedient to estimate fair value. Participant transactions may occur daily. Were the Plan to initiate a full redemption of the PSVF, the issuer reserves the right to temporarily delay withdrawal from the PSVF for up to 12 months in order to ensure that securities liquidations will be carried out in an orderly business manner. The PSVF, included in the fair value hierarchy table below but not classified, files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity. Accordingly, certain disclosure requirements under part I of FASB ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient* with respect to investment strategies for investments measured using the net asset value practical expedient are not required in this report.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan’s assets at fair value as of December 31, 2017 and 2016:

2017

(3) Fair value measurements (continued)

- (a) In accordance with Subtopic 820-10, certain investments that are measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The Plan's investments that are measured at fair value on a recurring basis, such as mutual funds, are generally classified within Level 1 of the fair value hierarchy. The fair values of these investments are based on quoted market prices in active markets. The Plan invests in stable value funds held within a common collective trust for which the valuation is based on the values of the underlying investments.

(4) Information prepared and certified by the Plan's trustee

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the trustee.

(5) Plan termination

The Company intends to continue the Plan indefinitely for the benefit of its employees, but reserves the right to amend, modify, or terminate the Plan at any time or for any reason subject to the terms of ERISA. In the event the Plan terminates, the participants will be entitled to the full amounts in their account as of the date of termination, regardless of their percent vested at the time of the Plan's termination.

(6) Tax status

The trust established under the Plan to hold the Plan's assets is qualified pursuant to the appropriate section of the Internal Revenue Code ("IRC") and accordingly, the trust's net investment income is exempt from income taxes. The Company adopted a Prototype Non-standardized Plan which received a favorable tax determination letter from the Internal Revenue Service on May 18, 2011. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

(7) Fidelity bond coverage

ERISA Code section 412 requires the Plan to maintain fidelity bond coverage in an amount equal to the lesser of 10% of the total Plan assets as of the preceding Plan year or \$500,000. The Plan had sufficient bond coverage as of December 31, 2017 and 2016.

(8) Party-in-interest transactions

Certain Plan investments are shares of mutual funds and stable value funds managed by Great-West Life & Annuity Insurance Company. Great-West Life & Annuity Insurance Company is the trustee of the Plan, as defined by the Plan, and therefore these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management and other services totaled \$-0- and \$225 for the years ended December 31, 2017 and 2016, respectively.

All of these party-in-interest transactions are exempt from prohibited transaction rules of ERISA.

(9) Subsequent events

The Company has evaluated subsequent events through November 8, 2018, the date which the financial statements were available to be issued, and has determined that there were no subsequent event matters that require recognition or disclosure in the financial statements.
