(1) Description of the Plan

The ALSTOM Inc. 401(k) Plan (the "Plan") is a frozen defined contribution plan sponsored by ALSTOM, Inc. (the "Company"), an affiliate of General Electric Company ("GE"). The Plan is subject to applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Plan's investments were held in the ALSTOM Power Inc. Defined Contribution Master Trust (the "Trust"). Fidelity Management Trust Company ("FMTC") was the Plan's Trustee and Fidelity Investments Institutional Operations Company, Inc. ("FIIOC") was the recordkeeper.

On February 7, 2018, the Plan merged into the GE Retirement Savings Plan ("RSP"). Certain Plan provisions will be preserved in the RSP with respect to the transferring of participant account balances.

The following description of the Plan is provided for general information purposes only. The complete terms of the Plan are provided in the ALSTOM Inc. 401(k) Plan document (the "Plan Document"). - (p) Income Fund - This stable value fund seeks to provide a stable rate of return with safety of principal and liquidity. These investments currently include benefit-responsive investment contracts.

Notes to Financial Statements

February 7, 2018 and December 31, 2017

Audited financial statements and prospectuses or other disclosure documents of the registered investment companies ("mutual funds") are made available to participants.

Vesting

Participants in the Plan are fully vested in their existing account balances and subsequent actual earnings thereon.

Participant Accounts

Each participant's account is credited with the participant's rollover and investment results. The benefit to which a participant is entitled is the value of the participant's vested account.

Notes Receivable from Participants

The Plan permits participants, under certain circumstances, to borrow a minimum of \$1,000 from their participant accounts. Subject to certain Internal Revenue Code ("IRC") and Plan limits, a participant may not borrow more than the lesser of \$50,000 minus their highest outstanding balance of loans from the Company and GE and its subsidiaries during the past 12 months or 50% of their vested account balance. Non-elective contributions and earnings thereon are not available for loans. A participant may have two loans outstanding at any time.

The term of any loan is up to 5 years from the effective date of the loan unless the loan is used to acquire a principal residence for which a term of up to 20 years may be permissible. Loans are secured by the remaining balance in the participant's account. The interest rate applicable to participant notes receivable is commensurate with interest rates charged on similar commercial loans. Loans are repaid with interest in equal payments over the term of the loan by payroll deductions, personal check or other such methods as may be required. Participants may repay the principal amount with written notice without penalty.

In the event of a loan default, the amount of the outstanding balance will be reported to the Internal Revenue Service ("IRS") in the year of the default as ordinary income.

Payment of Benefits

Subject to certain limitations, a currently employed participant may withdraw all or a portion of his or her rollover or after-tax contributions, including earnings thereon. In addition, certain employee groups, as outlined in the Plan document, can withdraw certain employer contributions. Generally, elective and qualified non-elective contributions may not be withdrawn while currently employed by the Company prior to age 59½. Participants may also make certain hardship withdrawals from their participant accounts.

Upon normal retirement, termination of service, disability or death, a participant (or designated beneficiary) may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account, annual installments from two to fifteen years, monthly installments of up to 180 months, or to maintain his or her account within the Plan.

Plan Termination and Amendment

Although the Company has not expressed any intent to do so, it has the right under the Plan, to the extent permitted by law, to terminate the Plan in accordance with the provisions of ERISA. If the Plan is terminated, each participant's interest will be payable in full according to Plan provisions. The Company also has the right under the Plan, to the extent permitted by law, to amend or replace the Plan for any reason.

Administrative and Investment Advisory Costs

Expenses related to the administration of the Plan, including recordkeeping expenses and Trustee's fees, are liabilities of the Plan. However, the Company may choose to pay these expenses (see note 2(f)). For the registered investment companies and

stable value fund, investment advisers are reimbursed for costs incurred or receive a management fee for providing investment advisory services. These reimbursed costs and management fees are reflected in the plan interest in Trust investment income on the statements of changes in net assets available for plan benefits.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

(b) Investments

Plan investments are reported at fair value, except the stable value fund, which is reported at the contract value. See notes 3 and 4 for additional information.

Investment transactions are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Earnings from the stable value fund are reinvested in the fund and reflected in dividends and interest.

(c) Fair Value Measurements

For financial assets and liabilities, fair value is the price the Plan would receive to sell an asset or pay to transfer a liability in an orderly transaction with a market participant at the measurement date. In the absence of active markets for the identical assets and liabilities, such measurements involve developing assumptions based on market observable data and, in the absence of such data, internal information that is consistent with what market participants would use in a hypothetical transaction that occurs at the measurement date.

Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect our market assumptions. Preference is given to observable inputs. These two types of inputs create the following fair value hierarchy:

Level 1 - Quoted prices for identical investments in active markets.

Level 2 - Quoted prices for similar investments in active markets; quoted prices for identical or similar investments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3 - Significant inputs to the valuation model are unobservable.

When available, quoted market prices are used to determine the fair value of investment securities, and they are included in Level 1. Level 1 securities include registered investment companies and short-term investments.

See note 4 for additional information.

(d) Notes Receivable from Participants

Loans to participants are recorded at the outstanding principal balance plus accrued interest.

(e) Payment of Benefits

Benefit payments are recorded when paid to participants.

Notes to Financial Statements

February 7, 2018 and December 31, 2017

(f) Expenses

Substantially all expenses related to administration of the Plan are paid by the Company or out of the Plan's forfeiture account at the discretion of the Plan sponsor, with the exception of the Plan's loan expenses, which are paid by the Plan's Trustee out of the respective participant's investment fund's assets.

(g) Management Estimates and Assumptions

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management of the Plan to make estimates and assumptions that affect the reported amount of assets, liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

(3) Certification by Trustee (Unaudited)

The information presented in this note and the "Fair Value Measurements" note (note (4)) below was compiled from information that was certified as complete and accurate by the Trustee (the "Certification") and was not subject to auditing procedures by the Plan's Independent Auditor as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. In addition, the Certification also included notes receivable from participants, accrued dividends and interest, and interest on notes receivable from participants.

On February 7, 2018 and December 31, 2017, the Plan's interest in the investments of the Trust was 0% and 98.88%, respectively.

The net assets of the Trust on December 31, 2017 follows.

	December 31, 2017
Assets:	
Short-term investments	\$ 25,764,875
Registered investment companies	710,293,730
Stable value fund	88,332,677
Total investments	824,391,282
Notes receivable from participants	8,319,367
Total assets	832,710,649
Liabilities:	
Accrued expenses	21,159
Total net assets of the Trust	\$ 832,689,490

Notes to Financial Statements

February 7, 2018 and December 31, 2017

The Trust holds investments, on behalf of the participating plans, in a stable value fund. The stable value fund may invest in a variety of benefit-responsive investment contracts such as guaranteed investment contracts ("GICs") issued by insurance companies and other financial institutions and synthetic GICs with similar characteristics. Investment contracts, including GICs, are agreements with high quality insurance companies and other financial institutions, which are designed to help preserve principal and provide a stable crediting rate (rate of return). The investment contracts cannot credit an interest rate that is less than zero percent. Such interest rates are reviewed on a quarterly basis for resetting. The crediting rate of GICs will track current market yields on a trailing basis.

Investment contracts held by the stable value fund are valued at their contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. All investment contracts held by the stable value fund are fully benefit-responsive, which means that withdrawals from these contracts are required to be made at contract value for qualifying benefit payments, including participant-directed transfers.

(4) Fair Value Measurements (Unaudited)

The Trust's investments measured at fair value on a recurring basis at December 31, 2017 follow.

	Level 1	Level 2	Level 3	Total
Short-term investments	\$ 25,764,875	\$ —	\$ —	\$ 25,764,875
Registered investment companies	710,293,730	—	—	710,293,730
	<u>\$ 736,058,605</u>	<u>\$ —</u>	<u>\$ —</u>	<u>736,058,605</u>
Stable value fund ^(a)				88,332,677
Total investments				<u>\$ 824,391,282</u>

(a) The stable value fund has been measured at contract value and has not been classified in the fair value hierarchy. The amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the statements of net assets available for plan benefits.

Transfers into and out of levels are considered to occur at the beginning of the period. There were no transfers during 2017.

(5) Risks and Uncertainties

The Plan offers a number of investment options including a variety of investments in registered investment companies, short-term investments and a stable value fund. The registered investment companies invest in U.S. equities, international equities and fixed income securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur (including in the near term) and that such changes could materially affect participant account balances and amounts reported in the statements of net assets available for plan benefits.

The Plan's exposure to a concentration of credit risk is limited by the opportunity to diversify investments across multiple participant-directed fund elections. Additionally, the investments within each participant-directed fund election are further diversified into varied financial instruments.

(6) Related Party Transactions (Parties in Interest)

Certain investments of the Plan are shares of registered investment companies that are managed by Fidelity. Fidelity is the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Notes to Financial Statements

February 7, 2018 and December 31, 2017

Certain fees paid to related parties for services to the Plan were paid by the Plan. Registered investment company and stable value fund operating expenses, which include expenses paid to FIIOC and Fidelity Retirement Services, reduce the respective fund's assets and are reflected in the fund's share/unit price and dividends.

In addition to the recordkeepers, trustees and custodians of the Plan, which are mentioned in note 1, KPMG LLP, the auditor of the Plan's financial statements, is also a party in interest as defined by ERISA.

(7) Tax Status

The IRS has notified the Company by a letter dated February 20, 2018, that the Plan is qualified under the appropriate sections of the IRC and that the related trust is tax-exempt. The Plan has not been amended since receiving the determination letter. The Plan administrator and the Plan's counsel believe that the Plan's current design and operations comply in all material respects with the applicable requirements of the IRC, and that the letter remains valid.

U.S. generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) of the Plan if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. For the period ended February 7, 2018 and the year ended December 31, 2017, the Plan has not recognized a tax liability (or asset) related to uncertain tax positions.

The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

(8) Subsequent Events

Subsequent events after the statement of net assets available for plan benefits date through November 16, 2018, the date that the financial statements were issued, have been evaluated in the preparation of these financial statements.

(9) Reconciliation of Financial Statements to Form 5500

Notes receivable from participants are classified as investments per Form 5500 instructions. In addition, any deemed distributions are not considered to be plan assets per Form 5500 and are excluded from notes receivable from participants. However, these distributions remain a plan asset for purposes of these financial statements until a distributable event occurs and they are offset against plan assets.
