Notes to Financial Statements

1. Description of Plan

The following description of the Hospice Care of South Carolina, LLC (the "Company") Employees Savings Trust (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 401(k) plan covering substantially all full time employees of the Company who have three months of service and are age twenty-one or older. The Governing Body of the Plan control and manage the operation and administration of the Plan. Matrix Trust Company, LLC serves as the custodian of the Plan ("Custodian"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute up to 100% of their compensation, as defined in the plan document, subject to certain Internal Revenue Code ("IRC") limitations. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans and certain individual retirement accounts. The Company, at its discretion, may make matching contributions to the Plan equal to the percentage of gross compensation or the elective contributions, made by participants with at least one year of service. In 2017, the Company contributed 50% of the first 6% of base compensation that a participant contributed to the Plan. Additional discretionary amounts may be contributed at the option of the Company. No additional contributions were made for the year ended December 31, 2017. Contributions are subject to certain limitations.

Investment options

Participants direct the investment of their accounts into various investment options offered by the Plan. The Plan currently offers a money market fund, mutual funds and a common collective trust fund as investment options.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions, plan earnings (losses), and charged with benefit payments, transaction fees related to notes receivable from participants and distributions, and allocations of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. At December 31, 2017 outstanding loans bore interest at rates ranging from 5.25% to 6.50%. Principal and interest are paid ratably through payroll deductions.

Payment of benefits

On termination of service or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or various installment and annuity options as provided by the Plan. Amounts contributed on a before tax basis may only be withdrawn upon demonstration of financial hardship, disability, or after the age of 65.

Forfeitures

At December 31, 2017 and 2016, forfeited non-vested accounts totaled \$11,801 and \$16,627, respectively. Forfeitures are used to reduce employer contributions. During 2017, forfeitures of \$29,407 were used to offset employer contributions.

2. Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities, and, changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates and assumptions.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income on notes receivable from participants is recorded when received. Other interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of benefits

Benefits are recorded upon distribution.

Administrative expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the plan document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. Expenses relating to specific participant transactions (notes receivable from participants and distributions) are charged directly to the participant's account.

Subsequent events

The plan administrator has evaluated subsequent events through November 26, 2018, which is the date the financial statements were available to be issued.

3. Fair Value Measurements

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1:** Observable inputs such as quoted prices in active markets.
- Level 2:** Inputs other than quoted prices in active markets that are either directly or indirectly observable.
- Level 3:** Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

There have been no changes in the methodologies used at December 31, 2017 and 2016. The following is a description of the valuation methodologies used for assets measured at fair value:

Money market funds

Money market funds are publicly traded investments and are valued daily at the closing price reported on the active market on which the funds are traded.

Mutual funds

Mutual funds are publicly traded investments and are valued daily at the closing price reported on the active market on which the funds are traded.

Common collective trust funds

These funds are valued at the net asset value ("NAV") of units of the collective fund. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the funds will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer does not reserve the right to require notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following tables set forth by level within the fair value hierarchy the Plan's assets accounted for at fair value on a recurring basis as of December 31, 2017 and 2016.

Assets at Fair Value as of December 31, 2017				
	Level 1	Level 2	Level 3	Fair Value

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Fair Value
Money markets	\$ 16,627	\$ -	\$ -	\$ 16,627
Mutual funds	<u>2,363,975</u>	<u>-</u>	<u>-</u>	<u>2,363,975</u>
Total assets in the fair value hierarchy	<u>\$ 2,380,602</u>	<u>\$ -</u>	<u>\$ -</u>	2,380,602
Investments measured at net asset value (a)				<u>551,244</u>
Investments at fair value				<u>\$ 2,931,846</u>

(a) In accordance with Topic 820, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2017 and 2016. There are no redemption restrictions for these investments.

	Fair Value at December 31, 2017	Fair Value at December 31, 2016	Unfunded Commitments	Other Redemption Restrictions	Redemption Notice Period
Reliance Trust Company Stable Value Return Fund Collective Investment Trust	\$ 582,181	\$ 551,244	None	Daily	None

The Plan recognizes transfers between the levels as of the actual date of the event or change in circumstances that caused the transfer. There were no gross transfers between the levels for the year ended December 31, 2017.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Unaudited Information Certified by Custodian

The accompanying financial statements include the following unaudited information as of December 31, 2017 and 2016 and for the year ended December 31, 2017 that was obtained from data prepared and certified to be complete and accurate by the Plan's custodian:

	2017	2016
Investments at fair value	<u>\$ 3,348,004</u>	<u>\$ 2,931,846</u>
Net appreciation in fair value of investments	<u>\$ 348,793</u>	
Interest and dividends	<u>\$ 82,624</u>	

5. Exempt Party-In-Interest Transactions

Certain plan investments are shares of mutual funds managed by Matrix Trust Company LLC ("Matrix Trust"). Matrix Trust is the custodian as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions as defined by ERISA. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Fees paid to the custodian by the Plan for administrative services were \$2,875 for the year ended December 31, 2017.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their accounts.

7. Tax Status

The Plan has not obtained a determination letter from the Internal Revenue Service (the "IRS") stating that the Plan was in compliance with the applicable sections of the IRC. The plan is relying on the IRS approval of the volume submitter plan that it is utilizing. The IRS has determined and informed the document sponsor by a letter dated March 31, 2014 that the volume submitter plan document was designed in accordance with applicable sections of the IRC. The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the accompanying 2017 and 2016 financial statements to Schedule H of Form 5500 as of December 31:

	<u>2017</u>	<u>2016</u>
