INDEPENDENT AUDITOR'S REPORT

To the Administrator and Participants of the
Pension Plan for Hourly Employees of Transdigm, Inc., Wiggins Connectors Division
Cleveland, Ohio

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Pension Plan for Hourly Employees of Transdigm, Inc., Wiggins Connectors Division (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, and the related statement of changes in net assets available for benefits for the years ended December 31, 2017 and 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the 2017 Financial Statements

Our responsibility is to express an opinion on the 2017 financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the 2017 financial statements.

Auditor's Responsibility for the 2016 Financial Statements

Our responsibility is to express an opinion on the 2016 financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion on the 2016 Financial Statements paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion on the 2016 Financial Statements

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Transamerica Life Insurance & Annuity Co., the trustee of the Plan, except for comparing such information with the related information included in the 2016 financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2016, and for the year ended December 31, 2016, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion on the 2016 Financial Statements

Because of the significance of the matter described in the Basis for Disclaimer of Opinion on the 2016 Financial Statements paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Opinion on the 2017 Financial Statements

In our opinion, the financial statements, referred to above, of the Pension Plan for Hourly Employees of Transdigm, Inc., Wiggins Connectors Division, as of December 31, 2017, and for the year then ended, present fairly, in all material respects, the net assets available for benefits of the Pension Plan for Hourly Employees of Transdigm, Inc., Wiggins Connectors Division as of December 31, 2017, and the changes in net assets available for benefits for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets Held is presented for the purpose of additional analysis and is not a required part of the financial statements, but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of the plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Report on Form and Content of the 2016 Financial Statements in Compliance with DOL Rules and Regulations

The form and content of the information included in the 2016 financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

PENSION PLAN FOR HOURLY EMPLOYEES OF TRANSDIGM, INC., WIGGINS CONNECTORS DIVISION

1 Description of Plan

The following description of the Plan provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General:

The Plan, which began October 1, 1963 is a defined benefit plan covering all qualifying employees of Transdigm, Inc. Wiggins Connectors Division (the "Company") who meet the service requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility:

Qualifying employees become participants in the Plan on their first date of employment with the Company.

Participants are 100% vested in their accumulated benefits after five years of service.

Participants in the Plan who have reached the age of 65 are eligible to retire and receive a monthly, normal retirement benefit (depending upon the participant's retirement date) ranging from \$5 to \$40 multiplied by their years of service. If a participant with at least five years of service terminates employment prior to age 65, the Plan provides for deferred retirement benefits. Participants who have at least 15 years of service and attained the age of 55 are eligible to elect an early retirement pension benefit at a reduced benefit amount.

Funding Policy:

The Plan is funded by employer contributions from the Company based on reports from a consulting actuary, which meet the minimum funding requirements of ERISA. The Plan does not provide for employee contributions.

Payment of Benefits:

The normal form of benefits under the Plan consists of payments during the life of the participant. If a participant is married, the normal form of benefit payment is a qualified joint and survivor annuity, unless the participant elects and the spouse consents otherwise. Participants may elect any optional form of benefit which is the actuarial equivalent of the normal form of benefit. If a participant dies with five years of vesting service under the Plan but before any retirement benefit payments have begun, the surviving spouse (if any) will be eligible for a lifetime survivor benefit.

2 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Valuation of Investments:

Investments held in the Plan are stated at fair value. Marketable securities are reported at fair market value as of the balance sheet date. Fair market values represent quoted market prices or, if quoted market prices are not available, estimated fair values as determined by the Plan's investment broker.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Actuarial Present Value of Accumulated Plan Benefits:

Accumulated Plan benefits represent future periodic payments for services employees have rendered. Accumulated Plan benefits include benefits expected to be paid to:

- a) Retired or terminated employees or their beneficiaries;
- b) Beneficiaries of employees who have died;
- c) Present employees or their beneficiaries

The accumulated Plan benefits for active employees are based on Plan provisions ending on the date as of which the benefit information is presented. Benefits payable upon retirement, death, disability, and termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date. The actuarial present value of accumulated Plan benefits was determined by the consulting actuary and is the amount which results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability for payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Administrative Fees:

All administrative fees are paid by the Plan or the Company.

Payment of Benefits:

Benefit payments are recorded when paid.

NOTES TO FINANCIAL STATEMENTS

PENSION PLAN FOR HOURLY EMPLOYEES OF TRANSDIGM, INC., WIGGINS CONNECTORS DIVISION

2 Summary of Significant Accounting Policies, Continued

Plan Termination:

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, to vested participants based upon the plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees.

Risks and Uncertainties:

The Plan includes investments in mutual funds and a stable value fund with varying degrees of risk, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statement of net assets available for plan benefits.

Plan contributions are made and the actuarial present value of accumulated benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is reasonably possible that changes in these estimates and assumptions could materially affect the amounts reported in the Statement of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Reclassifications:

Certain prior year amounts have been reclassified to conform with the current year's presentation.

Subsequent Events:

Management evaluates subsequent events occurring subsequent to the date of the financial statements in determining and the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through November 30, 2018, which is the date the financial statements were available to be issued.

NOTES TO FINANCIAL STATEMENTS

PENSION PLAN FOR HOURLY EMPLOYEES OF TRANSDIGM, INC., WIGGINS CONNECTORS DIVISION

3 Tax Status

On July 3, 2012 the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2017, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress.

4 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

- * Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.
- * Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:
 - * Quoted prices for similar assets or liabilities in active markets
 - * Quoted prices for identical or similar assets or liabilities in inactive markets
 - * Inputs other than quoted prices that are observable for the asset or liability
 - * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- * Level 3: Inputs that are unobservable inputs for the asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

NOTES TO FINANCIAL STATEMENTS

PENSION PLAN FOR HOURLY EMPLOYEES OF TRANSDIGM, INC., WIGGINS CONNECTORS DIVISION

4 Fair Value Measurements, Continued

Mutual Funds:

The fair value of the mutual funds are based on quoted market prices. Mutual funds held by the Plan are open-ended funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the plan are deemed to be actively traded and are classified in the Level 1 category of the valuation hierarchy.

Stable Value Fund:

The fair value of the stable value fund is based on the underlying assets of the general account of the Transamerica Life Insurance Company. The assets of the general account are supported by the financial stability of Transamerica Life Insurance Company. Transactions (purchases and sales) may occur daily and the investment advisor may impose up to a 12-month delay period on all withdrawal requests. The stable value fund is classified in the Level 2 category of the valuation hierarchy.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Assets at Fair Value as of December 31, 2017

Investments at fair value	<u>\$ 5,445,325</u>	<u>\$ 605,875</u>	<u>-</u>	<u>\$ 6,051,200</u>

Transfers between Levels:

The stable value fund was changed from a Level 1 to a Level 2 during 2017, based on additional information received. For the years ended December 31, 2017 and 2016 there were no transfers in or out of Level 3.

Appendix A – Summary of Actuarial Methods

Actuarial Cost Method: Unit Credit.

The actuarial cost method used in the valuation is the accrued benefit (unit credit) cost method as prescribed by PPA. In this method, the regular plan cost arises from two sources: a Normal Cost and an amortization payment for the Funding Target Shortfall.

The Funding Target is determined as the actuarial present value of benefits as of the valuation date. The Shortfall is equal to the Funding Target less the Plan Assets (with adjustments for credit balances). The amortization payment for a plan year is the aggregate total of the Shortfall Amortization payments, which are based on amounts necessary to amortize the additional Shortfall of each year in level annual installments over a 7-year period beginning with such year.

The Normal Cost is the actuarial present value of benefits expected to accrue during the valuation year plus anticipated administrative expense, if any.

Asset Valuation Method: The asset valuation technique determines valuation assets as the adjusted market value of assets.

Interest Rate Election for Determining Plan Liabilities: Segment rates with 4 month look back.

EIN/PN: 34-1750032 / 003

Appendix B – Summary of Actuarial Assumptions

Economic Assumptions

Interest Rates

Interest Rates for Funding: 2017 Segment Rates with 4 month look back, subject to Segment Rate Stabilization.

	Minimum Funding	Maximum Deductible	PBGC Premium
Segment 1 (0-5 years)	4.16%	1.52%	2.04%
Segment 2 (5-20 years)	5.72%	3.80%	4.03%
Segment 3 (20+ years)	6.48%	4.79%	4.82%
Effective Interest Rate	5.84%	4.04%	4.19%

ERISA minimum funding:

Assumption: 24-month average segment rates, using a four-month lookback period, adjusted to reflect the applicable segment rate stabilization corridor.

Rationale for assumption: This is a prescribed assumption set by the Internal Revenue Code (IRC) Section 430. The plan sponsor has elected to utilize a four-month lookback with rates averaged over a 24-month period, limited to applicable minimum and maximum values in accordance with MAP-21, HATFA, and BBA.

Maximum Deductible Contribution:

Assumption: 24-month average segment rates, using a four-month lookback period, but not adjusted to reflect the applicable segment rate stabilization corridor.

Rationale for assumption: This is a prescribed assumption set by the Internal Revenue Code (IRC) Section 430. The plan sponsor has elected to utilize a four-month lookback with rates averaged over a 24-month period.

FASB ASC Subtopic 960:

Assumption: 6.50% per year. This is the assumed rate of return for the Plan's entire portfolio of assets, net of investment expenses and including assumed inflation rate of 2.30%. It is based on the Plan's investment policy and Milliman's capital market expectations.

Rationale for assumption: In developing this assumption, we reviewed historical investment performance along with forward-looking data such as projections of inflation and total return growth. Mean returns, standard deviations and correlations between investment categories were determined and used in conjunction with the historical and projected information.

2017 Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

EIN/PN: 34-1750032 / 003

FASB ASC Subtopic 715:

Assumption: Discount rate of 3.14%, compounded annually. This assumption is based on observations of estimates inherent in market data, specifically current yields on AA corporate bonds.

Rationale for assumption: Expected cash flows were discounted to the measurement date utilizing the August 31, 2016 Citigroup Pension Discount Curve. A singular discount rate was then determined such that the resulting liability from discounting using the Citigroup curve matched the liability resulting from discounting the same cash flows using the aforementioned singular discount rate.

Asset Returns

FASB ASC Subtopic 715:

Assumption: 6.50% per year. This is the assumed rate of return for the Plan's entire portfolio of assets, net of investment expenses and including assumed inflation rate of 2.30%. It is based on the Plan's investment policy and Milliman's capital market expectations.

Rationale for assumption: In developing this assumption, we reviewed historical investment performance along with forward-looking data such as projections of inflation and total return growth. Mean returns, standard deviations and correlations between investment categories were determined and used in conjunction with the historical and projected information.

Inflation (CPI)

Assumption: 2.30%, compounded annually. This assumption represents an estimate of future experience and is based in part on observations of estimates inherent in market data.

Rationale for assumption: We utilized the 30-year breakeven inflation rate on December 31, 2016 in combination with the CBO's 75-year forecast to arrive at this assumption.

Administrative Expenses

Assumption: Prior plan year's actual expenses rounded to next \$1,000.

Rationale for assumption: This assumption represents an estimate of future experience. We believe the assumption selected is reasonable for the contingency being measured and is not anticipated to produce significant cumulative actuarial gains or losses over the measurement period.

2017 Schedule SB, Part V – Statement of Actuarial Assumptions/Methods
EIN/PN: 34-1750032 / 003

Demographic Assumptions

Mortality

ERISA minimum funding, Maximum Deductible Contribution:

Assumption: RP-2000 mortality tables for males and females, projected to valuation year with additional projections of seven years for annuitants and fifteen years for non-annuitants.

Rationale for assumption: This is a prescribed assumption set by the Internal Revenue Code (IRC) Section 430.

FASB ASC Subtopic 960:

Assumption: RP-2014 Blue Collar Mortality Tables adjusted backward to 2006 with Scale MP-2014 and projected with Scale MP-2016. This assumption represents an estimate of future experience and is based in part of observations of estimates inherent in market data.

Rationale for assumption: The plan is not large enough to develop a credible mortality table based exclusively on plan experience. We have relied on the above mentioned published mortality table in which credible mortality experience was analyzed. We believe the mortality assumption selected is reasonable for the contingency it is measuring and is not anticipated to produce significant cumulative actuarial gains or losses over the measurement period.

Change in assumption: As of January 1, 2017 the Mortality Table and Projection Scale was changed from the RP-2014 Blue Collar Mortality Tables adjusted backward to 2006 with Scale MP-2014 and projected with Scale MP-2015 to the RP-2014 Blue Collar Mortality Tables adjusted backward to 2006 with Scale MP-2014 and projected with Scale MP-2016.

FASB ASC Topic 715:

Assumption: RP-2014 Blue Collar Mortality Tables adjusted backward to 2006 with Scale MP-2014 and projected with Scale MP-2016. This assumption represents an estimate of future experience and is based in part of observations of estimates inherent in market data.

Rationale for assumption: The plan is not large enough to develop a credible mortality table based exclusively on plan experience. We have relied on the above mentioned published mortality table in which credible mortality experience was analyzed. We believe the mortality assumption selected is reasonable for the contingency it is measuring and is not anticipated to produce significant cumulative actuarial gains or losses over the measurement period.

Change in assumption: As of January 1, 2017 the Mortality Table and Projection Scale was changed from the RP-2014 Blue Collar Mortality Tables adjusted backward to 2006 with Scale MP-2014 and projected with Scale MP-2015 to the RP-2014 Blue Collar Mortality Tables adjusted backward to 2006 with Scale MP-2014 and projected with Scale MP-2016.

2017 Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

EIN/PN: 34-1750032 / 003

Retirement

Assumption: Participants are assumed to retire at age 65 or present age, whichever is higher on the valuation date.

Rationale: This assumption was developed based on the plan's historical experience. In addition, sponsor input and economic conditions that might have influenced prior experience or may impact future experience were considered. We believe the retirement assumption selected is reasonable for the contingency it is measuring and is not anticipated to produce significant cumulative actuarial gains or losses over the measurement period.

Withdrawal

Assumption: Termination rates use the Crocker Sarason T-7 Table. The termination rates assumed represent an estimate of future experience in the plan.

Rationale: This assumption was developed based on industry standard termination rates (Sarason T tables) as well as the plan's historical experience. We believe the assumption selected is reasonable for the contingency it is measuring and is not anticipated to produce significant cumulative actuarial gains or losses over the measurement period.

Form of Payment

Assumption: Upon retirement, Participants are assumed to elect a single life annuity. This assumption represents an estimate of future experience.

Rationale: Because optional forms of benefit are actuarially equivalent, we believe a single form of payment assumption is reasonable for the contingency it is measuring and is not anticipated to produce significant cumulative actuarial gains or losses over the measurement period.

Marriage Assumption

Assumption: We have assumed 100% of participants are married with spouses of opposite gender and males three years older than females. This assumption represents an estimate of future experience.

Rationale: This assumption was developed based on a review of the plan's historical experience. In addition, sponsor input and economic conditions that might have influenced prior experience or may impact future experience were considered. We believe the spousal assumptions selected are reasonable for the contingencies being measured and are not anticipated to produce significant cumulative actuarial gains or losses over the measurement period.

2017 Schedule SB, Part V – Summary of Plan Provisions
EIN/PN: 34-1750032 / 003

This summary of plan provisions is intended to only describe the essential features of the Plan. All eligibility requirements and benefit amounts shall be determined in strict accordance with the plan document itself.

The actuarial valuation was prepared in accordance with the provisions of the plan, a summary of which is presented below. The summary describes the principal provisions only and is not intended to be authoritative. For questions about specific benefits, please refer to the plan document. This summary of plan provisions is intended to only describe the essential features of the plan.

Early Retirement

Early Retirement Date: A participant may retire on the first day of any month following the attainment of age 55 and completion of 15 Years of Service.

Early Retirement Benefit: Benefits which commence before age 65 will be reduced to the actuarial equivalent of the Normal Retirement Benefit using an interest rate of 5.5% and mortality rates in accordance with the 1951 Group Annuity Table.

Termination

Eligibility: Any age and 5 years of service, or attainment of age 65.

Termination Benefit: The accrued benefit is payable at normal retirement date for life. Early payment may be drawn as early as age 55 (with 15 years of service) reduced in the same manner as for Early Retirement above.

Disability Retirement

Disability Benefit Eligibility: Attainment of 15 years of Service.

Disability Retirement Benefit: Twice a participant's Normal Retirement Benefit determined as of his Disability Retirement Date.

2017 Schedule SB, Part V – Summary of Plan Provisions
EIN/PN: 34-1750032 / 003

Preretirement Death

If the participant was eligible for Early Retirement on the date of his death, the benefit payable to the spouse shall be equal to 60% of the amount of benefit the participant would have received had he retired on the date of his death and elected a joint and 60% survivor form of annuity with payments to begin on his Early Retirement Date.

Upon death of a participant prior to meeting the requirements for early retirement, the surviving spouse shall receive for life, a pension equal to 60% of the participant's vested accrued benefit determined under the assumption that he had elected early retirement under a joint and 60% survivor form of annuity commencing on the first of the month in which he would have first become eligible for retirement had he been alive at that time.

Forms of Payment

Normal Form: Life Annuity

Optional Forms of Benefits: Life Annuity; 10 Year Certain and Continuous; Joint and 50% Survivor; Joint and 66-2/3% Survivor, Joint and 75% Survivor; Joint and 100% Survivor; Social Security Levelization.

Optional Form Conversion Factors:	Interest:	5.5%

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
