## NOTES TO FINANCIAL STATEMENTS

For the year ended December 31, 2016

## NOTE 1. Description of the Plan

The following description of the Sprague Retirement Plan (the Plan), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan is subject to the provisions of the Employee Retirement Security Act of 1974 (ERISA).

## Participating Employers:

The Plan allows other employers to adopt its provisions, collectively referred to as "the Sponsor." For the year ended December 31, 2016, the participating employers were:

W.B. Sprague Co., Inc.

TMC

## General:

The Plan is a contributory Safe Harbor defined contribution plan covering all eligible employees of W.B. Sprague Co., Inc. who are twenty-one years of age and have completed one year of service. All employees covered by a collective bargaining agreement, leased employees, or non-resident aliens are not eligible to participate.

## Contributions:

Upon meeting eligibility requirements, participants are automatically enrolled in the Plan with salary deferrals at 3 percent of eligible compensation unless the participant makes a contrary election. The deferrals will increase by 1 percent a year, up to a maximum of 6 percent.

Each year participants may contribute up to a maximum amount allowed by the Internal Revenue Code of pretax annual compensation as defined in the Plan. Participants contributions may be made as pre-tax or Roth elective deferrals. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers).

The Sponsor will contribute to a Safe Harbor matching contribution equal to 100 percent of each participant's deferral contributions of the first 3 percent of eligible compensation, and 50 percent of the next 3 percent of eligible compensation. Deferrals in excess of 6 percent of pay are disregarded in computing a participant's match.

## NOTES TO FINANCIAL STATEMENTS For the year ended December 31, 2016

## NOTE 1. (Continued)

## Participant Accounts and Investment Options:

Contributions to participant accounts are deposited into participant-directed funds at Principal Life Insurance Company. Participants direct the investment of their contributions into various investment options offered by the Plan. The Sponsor periodically reviews the investment fund options available to participants and drops or adds investment funds as warranted.

Each participant's account is credited with the participant's contribution, allocation of the Sponsor's contribution and Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

## Vesting:

Participants are 100 percent vested in 401(k) salary deferral contributions, rollovers, the Sponsor's safe harbor contributions and the related earnings at all times. Vesting in the portion of the account attributable to the Sponsor's discretionary nonelective and matching contributions plus actual earnings thereon is based on years of credited service. Generally, a participant is 100 percent vested after six years of service or upon retirement, death, total disability, or termination of the Plan.

## Forfeitures:

Forfeitures of terminated participants' nonvested accounts are first used to pay Plan expenses. Any remaining forfeitures are available to reduce the Sponsor's contributions. Nonvested participant account balances forfeited into the Plan for the year ended December 31, 2016 were \$-0-.

## Notes Receivable from Participants:

Loans are available only for hardship reasons and from the portion of the participant's vested account resulting from elective deferral contributions and rollover contributions. The minimum amount of any loan is \$1,000. Loan transactions are treated as a transfer between investment funds and the Participant Loan Fund. Loan terms range from one to five years or more if for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest between 5.25-5.50 percent at December 31, 2016. Principal and interest is paid ratably through payroll deductions.

## NOTES TO FINANCIAL STATEMENTS For the year ended December 31, 2016

## NOTE 1. (Continued)

## Payment of Benefits:

On termination of service due to retirement, death or disability, a participant whose vested account balance is over \$5,000 may elect to leave the vested account balance in the Plan, receive either a lump-sum amount equal to the value of his or her account, or installment payments. Terminated participants with a vested account balance less than \$5,000 will automatically be paid as defined in the Plan Document.

Upon death or disability, a beneficiary or participant will receive 100 percent of their account balance paid. Pre-retirement and hardship distributions are allowed in accordance with the terms of the Plan.

## NOTE 2. Summary of Significant Accounting Policies

## **Basis of Presentation:**

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America and present the net assets available for Plan benefits and the changes in those net assets.

## Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United's States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions of net assets available for benefits during the reporting period. Actual results may differ from those estimates.

## Notes Receivable from Participants:

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

## NOTES TO FINANCIAL STATEMENTS

For the year ended December 31, 2016

## NOTE 2. (Continued)

## Investment Valuation and Income Recognition:

Investment are reported at fair value, except for fully benefit-responsive contracts, which were reported at contract value in 2015. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

## **Investment Contracts:**

The 2015 investment in a fully benefit-responsive investment contract was valued at contract value as reported to the Plan by Principal Life Insurance Company.

## Payment of Benefits:

Benefits are recorded when paid.

## Administrative and Investment Management Expenses:

The Plan's expenses are paid either by the Plan or Sponsor, as determined by the trustees, plan document, or service provider agreements. Expenses that are paid directly by the Sponsor are excluded from these financial statements and are not intended to be reimbursed by the Plan. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of net assets available for benefits. In addition, certain investment related expenses included in net appreciation or depreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

## <u>Date through Which Subsequent Events Evaluated:</u>

The date to which events occurring after December 31, 2016, the date of the most recent statement of net assets available for benefits, have been evaluated for possible adjustment to the financial statements or disclosure is October 16, 2017, which is the date on which the financial statements were available to be issued.

## NOTES TO FINANCIAL STATEMENTS For the year ended December 31, 2016

## NOTE 3. Risk and Uncertainties

The Plan is exposed to market and credit risk due to the various foreign and domestic investment securities that my be selected by the participant in any combination. Investment securities are exposed to various risks such as foreign currency exchange rate, interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balance and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

## NOTE 4. Unaudited Information Certified by the Plan's Custodian

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following is a summary of the unaudited information regarding the Plan, included in the Plan's financial statements that was prepared by or derived from information prepared by Principal Life Insurance Company, the custodian of the Plan, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that the information is complete and accurate as of December 31, 2016 and 2015, and for the year ended December 31, 2016.

- Investments and notes receivable from participants reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2016 and 2015.
- Net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants reflected on the accompanying Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2016.
- Investments and participant loans reflected on the supplementary Schedule of Assets (Held at End of Year) December 31, 2016.

## NOTES TO FINANCIAL STATEMENTS For the year ended December 31, 2016

## NOTE 5. Investment Contract

The Plan maintained a Custodial Guaranteed Interest Contract (Principal Fixed Income 401(a)(k)) with Principal Life Insurance Company (Principal) which was a fully benefit responsive contract as described in Note 2. Principal maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract was included in the financial statements at contract value as reported to the plan by Principal. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The general account issuer was contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed on a semiannual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under the Employee Retirement Income Security Act of 1974.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Average Yields:	2016	2015
Based on actual earnings	N/A	0.00%
Based on interest rate credited to participants	N/A	1.90%

The Fixed Income Option matured at the end of 2015 and was removed from the list of available Plan investments for 2016. The value of the Fixed Income Option is \$-0- at December 31, 2016.

For the year ended December 31, 2016

## NOTE 6. Fair Value Measurements

FASB ASC 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that are accessible at the measurement date for identical assets or liabilities that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology other than level 1 inputs that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices of identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of assets or liabilities.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the techniques and inputs used at December 31, 2016 and 2015:

Mutual Funds: The number of shares held by the Plan at year end are valued at closing net asset value reported on the active market on which the individual funds are held.

## **NOTES TO FINANCIAL STATEMENTS**

For the year ended December 31, 2016

## NOTE 6. (Continued)

Stable Value Collective Investment Trust: This fund is a Collective Investment Trust valued at net asset value per unit as calculated by the Fund. This net asset value per unit is determined mostly by the Fund's various underlying investments' value at the close of the New York Stock Exchange each day. While the resulting net asset per unit value is not the same underlying investments' value, the financial trend should be the same. In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation techniques and inputs are appropriate and consistent with other market participants, the use of different techniques and inputs or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31:

Investments Measured Using the Net Asset Value (NAV) per share Practical Expedient:

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2016 and 2015, respectively. There are certain participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2015: Stable Value Collective Investment Trust Fund	\$ 9,636	N/A	Daily	1 year

<sup>\*</sup>Applies only to certain funds held by the Plan.

## NOTE 7. Party-in-Interest Transactions and Administration of Plan Assets

The Plan's investment options are held in participant directed accounts at Principal Life Insurance Company, the custodian of the Plan. Principal Life Insurance Company also serves as the record keeper and third party administrator of the Plan. Any transaction executed with Principal Life Insurance Company qualifies as a party-in-interest transaction.

As described in Note 2, the Plan paid certain expenses related to plan operations and investment activities to various service providers. These transactions are party-in-interest transactions.

The Plan Sponsor, W.B. Sprague Co., Inc. is a party-in-interest. Certain administrative functions are performed by employees of the Sponsor. No such employee receives compensation from the Plan. The Sponsor has the discretion to appoint or remove any trustee or agent from the Plan. The Trustees have the full power to administer the Plan and apply all of its provisions on behalf of the Sponsor.

## NOTES TO FINANCIAL STATEMENTS For the year ended December 31, 2016

## NOTE 8. Tax Status

The Plan has adopted a prototype Non-Standardized Profit Sharing Plan with CODA sponsored by Principal Life Insurance Company, which received a favorable opinion letter form the Internal Revenue Service (IRS) date March 31, 2014, which stated the Plan and related trust are designed in accordance with applicable sections of IRC. Once qualified, the Plan is required to operate in conformity with the code to maintain its qualification. The Plan has not received an opinion letter specific to the Plan itself; however, the Plan administrator and the Plan's tax counsel believe that the Plan was designed and was being operated in compliance with applicable requirements of the IRC.

Management evaluated the Plan's tax positions and concluded that the Plan has maintained its taxexempt status and has taken no material uncertain tax positions that require adjustments to the financial statements; therefore, no provision or liability for income taxes has been included in the financial statements.

## NOTE 9. Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.
