1. DESCRIPTION OF THE PLAN:

The following description of the Verso Retirement Savings Plan for Bargained Employees (formerly known as "Newpage Retirement Savings Plan") (the "Plan") is provided for general information purposes only. The Plan is sponsored by Verso Corporation (the "Sponsor") which purchased the prior sponsor of the Plan, NewPage Corporation (the "Prior Sponsor"), during 2015. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

Prior to November 22, 2017, the Plan covered all eligible union and non-union employees of the Prior Sponsor. Employees were eligible to enter the Plan immediately. Effective November 22, 2017, the Plan was amended and restated to reflect the merger of the Verso Corporation Retirement Savings Plan for Union Employees (the "Merging Plan") with and into the Plan, the renaming of the Plan and the spin-off of all non-union participants from this Plan and into the Verso Corporation Retirement Savings Plan for Non Union Employees. Transfers of assets resulting from these changes are reflected below:

Transfer into Plan:

Verso Corporation Retirement Savings Plan for Union Employees	\$ 11,766,300
---	---------------

Transfer out of Plan:

Verso Corporation Retirement Savings Plan for Non Union Employees	\$ 264,883,995
---	----------------

After the merger described above, the Plan covers full-time employees of the Sponsor that are covered by a collective bargaining agreement that provides for participation in the Plan. Eligible participants may begin participating in the Plan immediately. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Participants are permitted to defer up to the maximum amount permitted by law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions are subject to certain limitations established by the Internal Revenue Code.

Prior to November 22, 2017, the Sponsor made two types of contributions to non-union participants of the Plan, matching contributions and a fixed contribution. The Sponsor's matching contributions were an amount equal to 50% of each participant's contributions up to 8% of eligible compensation for a maximum match of 4%. The fixed contribution was equal to 3% of eligible compensation for each participant who was not represented by a collective bargaining group and was employed on the last day of the Plan year. Effective November 22, 2017, the non-union employees became participants in the Verso Corporation Retirement Savings Plan for Non Union Employees.

Participants represented by a participating union group may also be eligible for matching contributions and fixed contributions. The formula for determining the matching and fixed contributions depends on the participant's respective collective bargaining agreement and their status as either grandfathered or non-grandfathered in the NewPage Retirement Plan for Bargained Hourly Employees. Effective November 22, 2017, participants represented by a participating union group are eligible for matching contributions equal to 3% for certain groups and up to 4% for other groups. Grandfathered employees are eligible for non-elective contributions equal to 3% of eligible compensation, and non-Grandfathered employees are eligible for a non-elective contribution ranging between 2.5% to 6.5% of eligible compensation depending on their age and vesting service.

Participant accounts

Each participant's account is credited with the participant's contributions and Sponsor matching contributions, as well as allocations of the Sponsor's matching contribution, fixed contribution, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes receivable from participants

Participants may borrow from their accounts up to a maximum of 50% of their vested account balance, but not to exceed \$50,000. Participants are permitted to have no more than two loans outstanding at a time. Loan terms range from one to five years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participants' account and bear interest at prime plus 1%, which is commensurate with local prevailing rates and is determined by the plan administrator at the time the loan is made. Principal and interest are paid ratably through payroll deductions.

Payment of benefits

Upon termination of employment, participants have the option to leave their balance in their account (if the balance is greater than \$1,000) or receive lump-sum or installment distributions. Participants may also make certain in-service withdrawals from the Plan such as hardship and post age 59 ½ withdrawals.

Vesting

Participants are immediately vested in all employee contributions and Sponsor matching contributions plus earnings thereon. Sponsor fixed contributions plus earnings thereon will be vested after the completion of five years of vesting service.

Forfeitures

Forfeitures of non-vested sponsor contributions may be used to restore the amount of previous forfeitures for rehired participants with separations of service of less than five years, to reduce the amount of Plan Sponsor contributions, or to pay the cost of administering the Plan. For the year ended December 31, 2017, forfeited non-vested accounts in the amount of \$428,808 were used to reduce the amount of Plan Sponsor contributions. At December 31, 2017 and 2016, forfeited non-vested accounts totaled \$37,969 and \$251,137, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:**Basis of accounting**

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined contributions plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments, as described in Note 4, are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 or 2016. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Sponsor and are excluded from these financial statements. Fees related to distributions and the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses and other plan administration expenses are included in investment income and are charged to participant accounts based on their accounts balances.

Reclassifications

Certain amounts in the 2016 financial statements have been reclassified to conform to the 2017 presentation.

Subsequent events

The Plan has evaluated subsequent events through the report date, the date the financial statements were available to be issued.

3. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE:

Plan management has elected the method of compliance permitted by 29 CFR2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, State Street Bank and Trust Company (State Street) has certified the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2017 and 2016, and the supplemental schedule of assets (held at end of year) as of December 31, 2017; the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2017.

4. FAIR VALUE MEASUREMENT:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Interest-bearing cash: Valued at cost which approximates fair value.

Registered investment companies: Valued at the daily closing price as reported by the fund. The funds held by the Plan are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV per share and to transact at that price. The registered investment companies held by the Plan are deemed to be actively traded.

Common/collective trusts: These investments do not have a readily determinable fair value. As permitted by accounting principles generally accepted in the United States of America, the Plan has valued such investments at Net Asset Value ("NAV") per share. The NAV per share, as provided by the investment manager, is based on the underlying net assets owned by the fund, divided by the number of shares outstanding. The NAV is based on the fair value of the underlying securities within the fund.

Self-directed brokerage accounts: Accounts primarily consist of mutual funds and common stocks that are valued on the basis of readily determinable market prices.

The following table sets forth, by level within the fair value hierarchy, a summary of the Plan's investments that were measured at fair value on a recurring basis as of December 31, 2017:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Assets at NAV</u>	<u>Total</u>

The table below sets forth the fair value and redemption frequency for those assets whose fair value is estimated using the net asset value per share as of December 31, 2016:

The common/collective trusts held by the Plan are direct filing entities.

5. GUARANTEED INVESTMENT CONTRACT:

Plan holds a traditional fully benefit-responsive guaranteed investment contract with New York Life Insurance Company Guaranteed Interest Account, which totaled \$23,293,350 and \$40,883,260 at December 31, 2017 and 2016, respectively. New York Life Insurance Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and specified interest rate that is guaranteed to the Plan. The crediting rate is reviewed on a quarterly basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully-benefit responsive investment contracts because this is the amount received by the participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by New York Life Insurance Company Guaranteed Interest Account, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure to trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without consent of the user.

6. RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS:

Certain Plan investments are managed by State Street Bank and Trust Company, the trustee; therefore, these transactions qualify as party-in-interest transactions.

7. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Sponsor has the right to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, all benefits will be distributed to participants and beneficiaries in proportion to their respective account balances.

8. TAX STATUS:

The Sponsor has adopted a volume submitter Plan document which received a favorable opinion letter from the Internal Revenue Service (IRS) dated March 31, 2014. The IRS stated in the letter that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has since been amended. While the Sponsor has not obtained its own determination letter on the Plan, management believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

9. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

10. CONTINGENCY:

The Department of Labor is in the process of completing a comprehensive audit of the Plan. The outcome of this audit is undetermined as of the date the report was available to be issued. However, management does not believe that the outcome of the audit will have a material misstatement on the financial statements.
