Dermalogica, LLC 401(k) Profit Sharing Plan
Notes to the Financial Statements
As of December 31, 2017 and 2016
For the Year Ended December 31, 2017

1. Description of the Plan

The following description of the Dermalogica, LLC 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established effective January 1, 1993, for the benefit of the employees of Dermalogica, LLC (the Company). The Plan, and related trust, are subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

Effective January 1, 2016, the Plan was restated to comply with the Pension Protection Act of 2006. In connection with this restatement, the Plan adopted all legislation passed and any amendments required, since the prior restatement.

The Plan is a participant directed defined contribution plan covering all employees of the Company who have reached the age of twenty-one, except for employees who are union members, nonresident aliens, leased, and/or individuals who perform services to the Company but is not provided with medical, health, and/or sick and vacation benefits. The Plan contains an immediate automatic enrollment provision for eligible employees who do not "opt out" of the Plan.

Contributions

Participant contributions

Each year, participants may contribute up to 75% of their annual compensation as defined by the Plan. Participants may not make annual contributions in excess of the government-imposed limit, which was \$18,000 during the year ended December 31, 2017. The government-imposed limit is increased to \$24,000 for participants who reach age 50 by year-end. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover).

Participants become eligible to participate in the Plan after completing one hour of service. The Plan provides for automatic enrollment of eligible participants at a deferral rate 6% of eligible pay, unless the participant affirmatively elects otherwise.

Employer matching contributions:

Through December 31, 2016, the Company provided for discretionary matching contributions equal to 25% of each participant's deferral amount up to a maximum match of the greater of \$1,000 or 3% of the respective participant's compensation for the plan year. Effective January 1, 2017, the Company provides for a matching contribution for Plan participants each year equal to 50% of each participant's deferral amount up to a maximum of 3% of compensation. Employer matching contributions made to the Plan were \$753,297 during the year ended December 31, 2017.

Notes to the Financial Statements
As of December 31, 2017 and 2016
For the Year Ended December 31, 2017

1. Description of the Plan (continued)

Employer discretionary profit sharing contributions:

Each plan year, the Company may make an additional discretionary profit sharing contribution on behalf of all participants whom have reached the age of twenty-one, completed one year of service and are employed by the Company on the last day of the plan year. There were no employer profit sharing contributions made to the Plan during the year ended December 31, 2017.

Investment options

Participants must direct their salary deferral contributions and their share of the Company's matching contributions into various investments as made available and determined by the Plan Administrator, which are more fully illustrated in the Plan's literature.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balances. The loans are secured by the respective participant account balances and bear interest which approximate prevailing rates as determined by the Plan administrator. Interest rates for all loans is 4.75% – 5.75%. Principal and interest are paid ratably through bi-weekly payroll deductions.

Participant accounts

Each participant account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company matching and discretionary profit sharing contribution portion of their accounts plus earnings thereon is based on years of continuous service. Through June 30, 2016, a participant vested 20% after two years of credited service, and by 20% for each year thereafter. Participants were 100% vested after six years of credited service. Effective July 1, 2017, a participant vests 25% after one year of credited service, and by 25% for each year thereafter. Participants are 100% vested after four years of credited service. A participant is also fully vested upon death, total and permanent disability, or early and normal retirement.

1. Description of the Plan (continued)

Payment of benefits

Upon termination of service due to death, disability, or retirement, a participant or the participant's beneficiary may elect to either receive a value of the vested account balance in the form of a lump-sum amount, or substantially equal installments, equal to the value of his or her account. There is an automatic cash-out provision for participants with balances not exceeding \$5,000.

Forfeited accounts

Forfeitures of terminated participant's nonvested accounts are used to offset plan administrative expenses and/or employer contributions. At December 31, 2017 and 2016, forfeited nonvested accounts totaled \$10,338 and \$51,430, respectively. Forfeitures of \$35,503 were used to offset employer contributions during the year ended December 31, 2017.

2. Summary of accounting policies

A summary of the significant accounting policies followed by the Plan in the preparation of the accompanying financial statements is as follows:

Basis of accounting

The accompanying financial statements have been prepared using the accrual basis of accounting in conformity with generally accepted accounting principles in the United States of America.

Investment valuation and income recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

2. Summary of accounting policies (continued)

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and uncertainties

The Plan invests in a variety of investment funds. Investments, in general, are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Plan expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

Payment of benefits

Benefits are recorded when paid.

Subsequent events

The Plan has evaluated subsequent events through December 13, 2018, the date which the financial statements were available to be issued. There were no subsequent events noted that would require adjustment to or disclosure in these financial statements.

3. Certified investments

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2017 and 2016, and net appreciation in fair value of investments, interest, dividends and administrative expenses for the year ended December 31, 2017, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Principal Life Insurance Company.

4. Fair value measurements

The framework for measuring fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Dermalogica, LLC 401(k) Profit Sharing Plan
Notes to the Financial Statements
As of December 31, 2017 and 2016
For the Year Ended December 31, 2017

4. Fair value measurements (continued)

Level I – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level II – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in active markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level III – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodologies used December 31, 2017 and 2016.

- *Mutual funds*: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2017 and 2016:

	Level 1	Level 2	Level 3	Total
<i>December 31, 2017</i>

For the Year Ended December 31, 2017

5. Investment contract with an insurance company

The Plan has a fully benefit-responsive guaranteed investment contract with Principal Life Insurance Company (Principal) totaling \$426,042 and \$401,996 at December 31, 2017 and 2016, respectively. Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 0%. The crediting rate is reviewed on a quarterly basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without the consent of the issuer.

6. Related party transactions

Certain plan investments are managed by Principal Life Insurance Company Insurance Company (Principal). Principal is the trustee as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions.

7. Plan termination

Although it has not expressed any intent to do so, the Company has the right under provisions of the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

8. Tax status

The Plan document received a volume advisory letter dated March 31, 2014, in which the Internal Revenue Service stated that the Plan document was in compliance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the advisory letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
