Independent Auditor's Report

To the Plan Administrator
Boyd Corporation 401(k) Profit Sharing Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Boyd Corporation 401(k) Profit Sharing Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, the related statement of changes in net assets available for benefits for the year ended December 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Transamerica Life Insurance Company, the custodian of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the custodian as of December 31, 2017 and 2016, and for the year ended December 31, 2017, that the information provided to the Plan Administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Note 1. Plan Description

The following description of the Boyd Corporation 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan sponsored by Boyd Corporation (the Company) and substantially covers all employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility: Employees who have attained two months of service are eligible to participate in the Plan for purposes of salary deferrals and employer matching contributions on the first day of the month subsequent to meeting the eligibility criteria. Ineligible employees are those compensated under a collective bargaining agreement and nonresident aliens.

Subsequent to year-end, an amendment dated September 12, 2018, effective as of September 27, 2017, included as eligible employees those compensated under a collective bargaining agreement.

Employees are eligible for the profit sharing contribution upon completing two months of service and must be employed on the last day of the Plan year, or in the event of death, retirement or disability during the Plan year.

Contributions: Participants may contribute up to 20 percent of their eligible compensation for the year up to the statutory limit. The Plan allows for both pretax and Roth 401(k) deferrals. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers).

For the year ended December 31, 2017, the Company made discretionary matching contributions equal to 50 percent of each participant's deferrals up to a maximum of 6 percent of gross compensation. The Company may also make additional profit sharing contributions, subject to certain statutory limits. The Company's Board of Directors determines any profit sharing contributions annually at its discretion. No profit sharing contributions were made to the Plan for the year ended December 31, 2017.

Participant accounts: Each participant's account is credited with the participant's contributions, gains and losses on investments in the participant's account balance and allocations of (a) the Company's contribution and (b) administrative expenses, if applicable. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Notes receivable from participants: Participants may borrow from their accounts a minimum of $1,000 up to 50 percent of the value of their account balance, or $50,000, whichever is less. Note receivable terms range from one to five years, except for notes receivable used to purchase a primary residence, which have a maximum term of 30 years. The notes receivable are secured by no more than 50 percent of the balance in the participants account and bear interest at a rate commensurate with local prevailing rates at the time the note originates. The interest rates on the participant notes receivable as of December 31, 2017 ranged from 4.25 percent to 5.25 percent, with various maturities through May 2046. Principal and interest are paid in equal installments through payroll deductions.

Note 1. Plan Description (Continued)

Vesting: Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company matching and profit sharing contributions is based on years of continuous service. Participants vest at a rate of 50 percent upon completion of one year of service and are completely vested after two years of service. Participants become fully vested upon death, disability or attainment of normal retirement age.

Payment of benefits: Upon termination of service, a participant may elect to receive benefits equal to the value of his or her vested account balance through a single lump-sum payment or on an installment basis. In-service withdrawals are also permitted for certain financial hardships or when a participant attains age 59½. Terminated participants with vested account balances of $1,000 or less will be paid in a lump-sum cash amount.

Forfeitures: The Plan provides for forfeitures of terminated participants' nonvested accounts to be used to reduce employer contributions. For the year ended December 31, 2017, there were $654 of forfeitures used to reduce the employer contribution. Forfeitures available for future use at December 31, 2017 and 2016 were $40,967 and $2,564, respectively.

Participant investment options: The Plan is intended to comply with Section 404(c) of ERISA. Accordingly, the participants, rather than the Plan administrator, are responsible for making investment decisions for their accounts. Participants direct the investment of their account balances into various investment options offered by the Plan. Currently, participants may direct the investment of their contributions into registered investment companies, various common collective trust funds and a Group Annuity Contract offered by the Plan.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Valuation of investments and income recognition: Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies using information provided by the trustees, investment advisors and investment custodian. See Note 4 for discussion of fair value measurements.

Contract value is the relevant measurement for the portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. See Note 5 for discussion of the contract value measurement.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. In the event payment is delinquent more than three months, the loan is considered to be in default. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Note 2. Significant Accounting Policies (Continued)

Excess contributions refundable: Amounts refundable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding reduction to contributions. The Plan distributed $106,633 and $101,357 for the years ended December 31, 2017 and 2016, respectively, of excess contributions to the applicable participants in each subsequent year.

Contributions: Contributions from Plan participants and the matching contribution from the Company are recorded in the year in which the participant contributions are withheld from amounts paid. Profit sharing contributions are recognized upon authorization as the underlying compensation is recognized. All participant and employer contributions are participant directed.

Benefits: Benefits are recorded when paid.

Administrative expenses: Certain administrative functions are performed by employees of the Company. Administrative expenses include fees related to the administration of notes receivable that are charged directly to the participant's account and certain record keeping fees paid by the Plan. Investment-related expenses are included in net appreciation in fair value of investments.

Use of estimates: The preparation of the Plan's financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Subsequent events: The Plan has evaluated subsequent events through October 15, 2018, which is the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by the Plan Custodian

The following is a summary of the asset information as of December 31, 2017 and 2016, and for the year ended December 31, 2017, included throughout the Plan's financial statements and supplemental schedule, which was prepared or derived from information provided by the custodian and furnished to the Plan administrator.

The Plan administrator has obtained certifications from Transamerica Financial Life Insurance Company (Transamerica), the custodian, that the information provided to the Plan administrator by the custodian, related to the following assets, is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure Under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the assets held by the custodian of the Plan's assets, except for comparing the certified information to the information included in the Plan's financial statements and supplemental schedule.

	2017	2016
Investments at fair value:		
Registered investment companies	$ 15,576,432	$ 13,816,991
Common collective trust funds	2,544,689	2,450,021
Investments at contract value:		
Group annuity contract	6,184	-
Notes receivable from participants	428,546	551,643
Total assets certified	$ 18,555,851	$ 16,818,655

Note 3. Information Certified and Provided by the Plan Custodian (Continued)

The Plan custodian also certified the completeness and accuracy of $1,722,480 of net appreciation in fair value of investments, $335,793 of interest and dividend income related to the aforementioned Plan assets, and $20,618 of interest income on notes receivable from participants for the year ended December 31, 2017.

Note 4. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 or 2016.

Registered investment companies (mutual funds): Valued at the daily closing market prices as reported by the fund. Mutual funds held by the Plan are open-end mutual funds registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust funds: Valued at the fair value based on the underlying investments comprising the trust, based on observable market inputs. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value.

Note 4. Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions used to determine the fair value could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2017			
Investment Category	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 15,576,432	$ -	$ -	$ 15,576,432
Investments measured at NAV (a)				2,544,689
				$ 18,121,121

	2016			
Investment Category	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 13,816,991	$ -	$ -	$ 13,816,991
Investments measured at NAV (a)				2,450,021
				$ 16,267,012

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented on the statements of net assets available for benefits.

The following sets forth additional disclosures of the Plan's investments, whose fair value is estimated using NAV per share (or its equivalent) as of December 31:

	Fair Value Estimated Using NAV Per Share				
	Fair Value December 31		Unfunded	Redemption	Redemption
Investment	2017	2016	Commitment	Frequency	Notice Period
Common collective trust funds:					
Invesco Stable Value Trust Fund (a)	$ 2,544,689	$ 2,450,021	None	Daily	None
Total	$ 2,544,689	$ 2,450,021			

(a) This fund seeks the preservation of principal and to provide interest income reasonably obtained under prevailing market conditions and rates, consistent with seeking to maintain required liquidity.

Note 5. Group Annuity Contract

Transamerica offers a Group Annuity Contract with stable value investment options that comply with the FASB's fully benefit-responsive requirements, and thus are reported at contract value in these financial statements. The Group Annuity Contract investment choice is an evergreen product and a non-tradable obligation of Transamerica. The investment's contract or proceeds cannot nor will not be assigned or sold to another party without the consent of Transamerica. At December 31, 2017, the contract value reported on the statement of net assets available for benefits relates to evergreen contracts.

The repayment of principal and interest credited to participants holding the investment is a financial obligation of Transamerica. However, if an event should ever occur such that realization of full contract value for a particular investment contract is no longer probable, for example, a significant decline in creditworthiness of Transamerica, the Stable Value Option investment choice may no longer be considered fully benefit-responsive.

The terms of Transamerica's Group Annuity Contract require all permitted participant-initiated transactions involving the investment to occur at contract value with no conditions, limits or restrictions. Permitted participant-initiated transactions are those allowed by the underlying defined contribution plan such as withdrawals for benefits or transfers to other investment choices within the plan.

Since the Group Annuity Contract investment choice is an obligation of Transamerica, the occurrence of an event that limits the ability of the investment to transact at contract value between Transamerica and a participant holding the investment is not probable. The Stable Value Option investment choice allows a participant reasonable access to their assets.

These investment choices seek to protect against any loss of principal while providing returns in excess of money market funds and one-year U.S. Treasury bills. The investment choices have a portfolio investment rate design in which all deposits in the particular investment choice are credited with the same interest rate on a daily basis and with no set maturity. The effective guaranteed credited interest rate is set on a semi-annual basis and announced at least 45 days in advance of the date the new rate becomes effective. The guaranteed rate of interest shall not change during the six-month period for which it is effective. Prior to January 1 and July 1, the effective annual rate of interest is established for the corresponding six-month period. Interest is credited, based upon the daily balance, at a rate that is the daily equivalent of the effective annual rate of interest applicable for the six-month period. There is no stated minimum or maximum interest rate for the Stable Value Option investment choices. The crediting interest rate at December 31, 2017, was 0.70 percent.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 7. Tax Status

The Plan has adopted a volume submitted profit sharing plan that received a favorable opinion letter from the IRS on dated March 31, 2014, that the volume submitter plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has not received an opinion letter specific to the Plan. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Note 7. Tax Status (Continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Related-Party and Party-in-Interest Transactions

Plan investments are registered investment companies (i.e. mutual funds), common collective trust funds, and a Group Annuity Contract managed by Transamerica; therefore, these transactions qualify as party-in-interest transactions.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported on the statements of net assets available for benefits.

Note 10. Prohibited Transactions

During 2017, the Plan sponsor inadvertently failed to deposit approximately $691,000 of participant contributions and loan repayments within the required timeframe as stated by the United States Department of Labor regulations. The Plan sponsor intends to deposit lost earnings to correct this failure in 2018. The Plan sponsor will file Form 5330 and pay applicable excise tax to the IRS. The correction and any excise taxes, if applicable will be made from the Plan sponsor's assets and not from assets of the Plan.
