Rose Companies Employer 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the Rose Companies Employer 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan was formed on January 1, 2017, and is sponsored and administered by Rose Companies Employer, LLC (the Company or Plan Sponsor). Effective April 7, 2017, plan assets for certain former participants of the Forest City Employer, LLC 401(k) Employee Savings Plan & Trust were transferred into the Plan as a result of a sale of certain assets (division) to the Plan Sponsor.

The Plan is as a defined contribution plan covering substantially all employees of the Plan Sponsor who are 21 years of age and have 30 days of service. All employees of the Plan Sponsor on January 29, 2017 were immediately eligible for the Plan given they met the age requirement. Management is responsible for oversight of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions: Participants may contribute up to 50% of pretax annual compensation, as defined in the Plan. The Company automatically withholds 1% from the employee's compensation and contributes this amount to the Plan as deferral contributions, unless the employee elects otherwise. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers). Once a participant completes one year of service, the Company may make matching contributions. The Company's matching contribution calculation is based on the higher of (1) 50% of each participant's pre-tax contributions up to 6% of the participants' compensation up to an annual maximum cap of \$3,500 or (2) 200% of each participant's pre-tax contributions of the first \$500 of employee contributions, plus 100% of each participant's pre-tax contributions on the next \$500 of employee contribution for an annual maximum cap of \$1,500.

The Company may also make a discretionary profit sharing contribution. Participants must be employed at the end of the Plan year and have completed six months of service to be eligible for the employer discretionary profit sharing contribution allocation. Employer contributions are subject to certain limitations. No discretionary profit sharing contributions were declared by the Company in for the year ended December 31, 2017.

Participant accounts: Each participant account is credited for the participant's contributions, the Company's matching and discretionary contributions and Plan earnings thereon, and charged with an allocation of the Plan's expenses. Allocations are based on the participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in all contributions plus actual earnings thereon.

Notes receivable from participants: Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. A maximum of one loan can be outstanding at any one time. The loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Investment options: Participants must direct contributions into various options as made available and determined by the Plan management. Participants may elect to change their contribution percentage daily and may elect to change their investment options and preciously invested contributions from one fund to another daily.

Rose Companies Employer 401(k) Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Benefit payments: Upon termination of service, attainment of normal retirement age 65, disability, or death, a participant may elect to receive distributions as a lump-sum or installment distribution equal to his or her vested account balance. Mandatory or involuntary distributions shall be made for a terminated participant with an account balance below \$1,000. Participants who have attained age of 59½ may withdraw all or part of their account as defined by the Plan. Hardship withdrawals, as defined by the Plan, are also available to participants.

Administrative expenses: All expenses of maintaining the Plan are paid by the Plan or the Company, at the discretion of the Company.

Plan termination: Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan at any time, subject to Plan provisions. The assets then remaining in the Plan will be allocated and distributed to participants in accordance with the terms and provisions of the Plan.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the Plan document.

Benefit payments: Benefits are recorded when paid.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Approximately 39% of the Plan's investments are held in two funds at December 31, 2017. As such, this is considered a concentration of credit risk.

Subsequent events: The Plan administrator has evaluated subsequent events for potential recognition and/or disclosure through December 22, 2018, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Reliance Trust Company

The following is a summary of the Plan's asset information as of December 31, 2017 and for the year then ended, included throughout the Plan's financial statements and supplemental schedules that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained a certification from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets.

Mutual funds	<u>\$ 10,321,062</u>
Common/collective trust	<u>\$ 166,073</u>
Notes receivable from participants	<u>\$ 283,026</u>

The trustee also certified to the completeness and accuracy of the following for the year ended December 31, 2017:

Net appreciation in fair value of investments	<u>\$ 708,778</u>
Interest and dividends	<u>\$ 292,428</u>
Interest income on notes receivable from participants	<u>\$ 9,920</u>

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Rose Companies Employer 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2017.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust: The common/collective trust is comprised of fully-benefit responsive investment contracts that is valued at the NAV of units of the common/collective trust. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

To assess the appropriate classification of assets within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of assets from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the year ended December 31, 2017, there were no transfers in or out of Levels 1, 2, or 3.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017:

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 10,321,062	\$ -	\$ -	\$ 10,321,062
Total assets in the fair value hierarchy	\$ 10,321,062	\$ -	\$ -	10,321,062
Investments measured at net asset value ^(a)				166,073
Investments, at fair value				\$ 10,487,135

- ^(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as of December 31, 2017:

	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common/collective trust	\$ 166,073	\$ -	Daily	None

Note 5. Tax Status

Effective January 1, 2017, the Plan adopted a standardized form of a prototype plan sponsored by Reliance Trust Company. The prototype plan has received a favorable opinion letter from the Internal Revenue Service as to the plan's qualified status dated April 10, 2015. The prototype plan's opinion letter has been relied upon by the Plan. No provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6. Party-In-Interest Transactions

Certain Plan investments are shares of mutual funds managed by T. Rowe Price., the recordkeeper of the Plan assets. Accordingly, these transactions qualify as allowable party-in-interest transactions under ERISA. Administrative expenses paid to T. Rowe Price totaled approximately \$19,800 for the year ended December 31, 2017.

Note 7. Prohibited Transactions

During the year ended December 31, 2017, the plan sponsor failed to deposit \$6,311 of participant deferrals within the required timeframe as prescribed by the United States Department of Labor (DOL) regulations. The Plan sponsor intends to reimburse the plan for lost interest, file Form 5330 and pay the applicable excise tax in 2018. The excise tax payments will be made from the Plan sponsor's assets and not from assets of the Plan.

Note 8. Subsequent Events

Effective January 1, 2018, the Plan was amended to allow employees of Rose Community Management, LLC and Rose Community Capital to participate in the Plan. Also, effective January 1, 2018, the Plan Sponsor approved the merger of the Rose Companies Employer LLC 401(k) Profit Sharing Plan and Trust into the Plan. Assets totaling approximately \$8,900,000 were transferred into the Plan on January 27, 2018.
